THE BARGAIN

—AND ITS WELL WORTH YOUR WHILE!

Through special arrangements with the manufacturers, and during this Bargain Week only, a beautiful, useful and substantial set of Cooking Ware will be given with every Majestic Range sold. This ware is good ware (not cheap ware)—it's worth a lot to you. Come and see for yourself. And Remember—the price of a Majestic Range this week will not be increased, and there will hardly be a great reduction for years to come, if ever, but there may be an increase soon.

TWO NEW AND IMPORTANT FEATURES

The Wonderful Unseen Riveting. Oh, Joy! Top Needs No Blacking.

Yes, it's rivet-tight, just like the old Majestic, but the rivets clinch inside of nicked parts, leaving nickel smooth as glass, and there are no big, bulky bolt heads on the inside. And, remember, rivets hold tight, bolts with only one or two threads holding are bound to work loose and cause no end of trouble. The Majestic is smooth inside and outside—it's a striking beauty—more than skin deep.

Economy is not merely spending the least money—buying a range at too low a price is indeed false economy. The first cost is not the only cost—the little additional first cost of a Majestic is nothing compared with its economy of fuel, durability and satisfactory service.

Nearly a million Majestic Ranges, now economically, scientifically and satisfactorily serving millions and millions of people, civilians and soldiers, is proof positive of their superiority over all others.

There is only one best. The public has judged. The Majestic is recognized as the standard of all ranges. The construction, material, workmanship and beauty of this wonderful range is unequalled, and it embodies important features possessed by no other range.

A smooth, highly polished cooking top, burnished blue, not only adds to the beauty of the Majestic, but absolutely eliminates the work, dirt and worry trying to keep the range looking nice—just an occasional thin coat of paraffine retains its beautiful velvet blue color.

If you haven't a Majestic, avail yourself of this opportunity to get acquainted with this wonderful range—know the inside of ranges.

A STITCH IN TIME.

Organization to Combat Flu in
Weldon Township.

The State organizations to combat influenza are divided into county organizations, which are subdivided into township organizations. Each county has a supervisor who appoints the township supervisor, who in turn appoints the committees to serve under them. The supervisor for this township is Mrs. Willie Green Cohen. On her rests the responsibility for the relief work in this township. The State Board of Health has a corps of doctors and nurses who will be sent on the request of the township and county supervisors to aid, should the necessity arise, but all calls for outside help must come from the local supervisor. The supervisors will keep in touch with the community, through the committees, to learn their needs. The following committees have been appointed to aid in the work here should influenza become epidemic again this year.

1. Intelligence Committee. As the name suggests, this is the chief source of information. They are to gather information daily concerning the needy, new cases of "flu", condition of old ones, etc., also whether or not any supplies are needed. The doctors can help this committee. This committee is Mrs. T. C. Harrison, Chairman, Mrs. W. A. Pierce, Mrs. W. L. Knight, Mrs. J. E. Green, Mrs. W. L. Scott, Miss Kate Garren, Mrs. R. T. Daniel, Mrs. M. M. Drake.

2. A finance committee should secure voluntary contributions for afflicted families which may be destitute. This committee is Mrs. George Green, Chairman, Mayor W. W. Wiggins, Mrs. Lee Johnson, Elliott B. Clark, Mrs. L. C. Draper, Mrs. R. S. Travis, Mr. G. C. Green, Mr. W. J. Whitehead, Mr. J. L. Shepherd, Mr. W. E. Daniel.

3. Nursing Committee. Mrs. W. G. Suter, Chairman; Mrs. Rosa Rodwell, Mrs. C. P. Bounds. This committee should secure the names of those who will agree to do voluntary nursing.

4. Transportation Committee. Mrs. Ida Wilkins, Chairman; Mr. Howard Bounds, Mr. Barnes, Mr. Jesse Harvell, Mr. Eugene Daniel, Mr. J. A. Johnston, Mr. C. P. Vincent.

This committee should be prepared to furnish a local guide and means of transportation should a doctor or nurse be sent here by the State Board of Health, and should also be prepared to meet the needs of the other committees.

5. Food Committee. This committee should be able to furnish simple wholesome food to the needy. Mrs. Ovid Pierce, Chairman; Mrs. J. S. Turner, Mr. J. I. Wyche, Mr. Harry Smith, Mr. E. G. Garlick, Mr. L. W. Murphrey, Mrs. R. P. Morehead.

The chairman of these committees will be held responsible for the work of the committee, and are permitted to appoint as many more to serve with them as they may think necessary.

The State Board of Health urges every community to be prepared and not to be found sitting around idle should the epidemic come on us again. If it should not come, so much the better.

A model husband may be a day laborer who returns to his home at night with a hard earned dollar clasped in his honest hand, and adds it to family fund to be used to provide for the necessary comforts for the family. He shares faithfully with his wife whatever he may earn by trade or profession. When business matters perplex he does not go home with a woeful tale of his hardships and turn the bright side of his character to his associates, but he comes into his home with a cheerful face that inspires his wife with new courage after a day of perplexing duties which women alone have to meet, and in their monotony become distasteful to the most patient of them.

AFTER all, so much in this world depends upon the way you look at things. It may seem a little thing, this looking at life from a cheerful or dismal point of view, but it is in reality a very big thing. Put on a pair of blue spectacles and everything looks blue, green, and everything looks green. And so it is with the eyes of our mind. If we take a cheerful view of things, life will be far brighter. We shall not see the faults in people, but their virtues. If we look for pleasant things we shall find them, or at least, we shall think we shall find them, which is much the same. We are apt to find what we look for; therefore, let us look for light and happiness. It is all habit. And it is just as easy to cultivate a cheerful habit as a gloomy one. And when once a habit takes a strong hold of us we all know how hard it is to shake it off. Let us then cultivate a habit of cheerfulness in all circumstances of life, and a habit of not finding fault. It is not the fault-finders who are going to do the great deeds and make the world richer because they have lived. No; these fault-finders who have no time for anything but fault-finding. It is the cheerful people who help the world along, who make its great inventions and laws, who build its monuments, write its poems and novels, and who go down to the grave lamented with honor.

With the response of Mr. James Hargrove thanking the ladies of the Red Cross for their work at home during the great war and declaring that it would have been impossible to have won without them, the large crowd headed by the Weldon brass band marched to Odd Fellows Hall where the ladies had prepared a splendid dinner of barbecue, Brunswick stew, chicken, ice cream, &c., for the soldiers and visitors.

You said it!

"Polarine for me, every time! You see, I've tried them all and I know."

The indestructible coating of lubrication that Polarine Motor Oils place on all moving parts keeps the motor free running and powerful. They hold their body at high cylinder heat and flow free winter or summer.

ONE UNIFORM QUALITY

THE COLORED SOLDIERS.

The Red Cross Association of which Mrs. J. A. Alston is chairman, gave an extended welcome to the soldier boys on Thursday, October 16th. The exercises began promptly at 1 o'clock, with speaking on the campus of the colored Graded school. The speaker was master of ceremonies, and a few well chosen remarks he introduced Dr. D. B. Zollcoffer, who had been delegated by Mayor Wiggins to deliver the welcome address. The Doctor was at his best. He paid an eloquent tribute to the courage and bravery of the colored soldier in the world war, and complimented them for their conduct since their return. He also spoke of the good feeling that always existed between the races in Weldon. He closed his admirable address by admonishing them to become good citizens and quiet themselves like men. Mr. W. Gomez responded to the address in a logical and forceful manner, and dwelt particularly upon the fact, that as the negro soldier had fought to "make the world safe for democracy, and fit to live in, he ought to have a square deal." After Mr. Gomez had concluded his address, Prof. Smith Jones was called upon to introduce Dr. J. A. Cotton president of Henderson Normal and Industrial Institute, who had been invited to address the soldier boys. Dr. Cotton is a very graceful and effective speaker, and his eloquence at times, brought forth round after round of applause. He said that history would always accord to the negro his bravery on the field of battle. It was at Boston that "the first drop of negro blood was shed in the Revolutionary war, by Crispus Attucks, while in the Haitian Revolution Toussaint L'Ouverture a negro had astonished the world by his generalship; and coming down later to our civil war and the war with Spain, he had shown the highest form of bravery, while in Mexico, the honors of the stars and stripes had been upheld on more than one occasion. With this glorious record behind him on the battlefield, the soldier was reminded that "Peace had her victories no less than war, and he begged them to bend all their efforts in acquiring a citizenship of which the world will be proud. To live high and reach the summit "Beyond the Alps lies Italy."

With the response of Mr. James Hargrove thanking the ladies of the Red Cross for their work at home during the great war and declaring that it would have been impossible to have won without them, the large crowd headed by the Weldon brass band marched to Odd Fellows Hall where the ladies had prepared a splendid dinner of barbecue, Brunswick stew, chicken, ice cream, &c., for the soldiers and visitors.

OUR TOILET SETS MAKE DELIGHTFUL GIFTS

The recipient of one of these dainty toilet sets will long remember the giver with fondness. Our offerings in this line are superior to what you will elsewhere and represent a marked saving in price. The indication of the decided advantage we present for trade in all lines carried at this store. See them!

J. W. PERRY COMPANY,

COTTON AT NORFOLK, VA. PEANUTS AT SUFFOLK

Farmers, Bankers, Merchants, Professional Men

JOIN

THE AMERICAN COTTON ASSOCIATION

NORTH COUNTY DIVISION :- HALIFAX COUNTY BRANCH

Hold Your Cotton For 36 1/2 c.

The world is short on cotton and you can get this price if you will not rush your cotton to market. It means thousands of dollars in your pockets. Cotton mills will soon be forced to go into the market to supply their needs.

The American Cotton Association asks you to help the cause by not selling for less than 36 1/2 c. in October, and increase the price half a cent a month from now on.

The cotton crop is short and there is a bigger demand for cotton goods than in many years. The farmers deserve more than the cost of production for his crop, and they get a fair price for cotton if he will only stick together and hold cotton off the market now.

Organize Cotton Warehouses

The American Cotton Association furnishes the organization through which cotton warehouses may be established in every cotton growing community, either under the State or Federal plan. Join the Association and help get enough warehouses to store all the cotton produced in the county.

When you store cotton in a State warehouse you can take the cotton receipt and get money with which to tide you over until the price is right and you want to sell. Warehouses will keep the cotton in the farmer's hands, and keep it out of Wall street speculators.

Talk it over with your neighbors and your business friends, your merchant and your banker.

Help Prosperity To Stay with Us

It is now or never with the cotton farmer and the business men of the South. We are prosperous this year, and have the money to organize to maintain a fair price for cotton.

You, who remember the days of six cent cotton! Do you want to see a return of those days? They will surely come unless we take steps to prevent their return. The only way to do this is to organize and work together for a fair price for cotton.

Everybody who has handled cotton has made money out of it—that is everybody except the farmer. If the farmer and his real friends stick together now, if they join the American Cotton Association and help in its work, we can invite prosperity to make her home in the South and the invitation will be accepted.

See your County chairman and get Literature which tells you all about it.
