

Suffered For Fourteen Years
 Richmond, W. Va.—Before the use of Dr. Pierce's medicine I could hardly walk across the house. I suffered for fourteen years. But after taking Dr. Pierce's Favorite Prescription and Dr. Pierce's Golden Medical Discovery, together with the Pleasant Pellets, I can work all day and never get tired.—MRS. MAGGIE PERKINS, 112 Riverside Drive.

All druggists sell Dr. Pierce's Favorite Prescription and Dr. Pierce's Golden Medical Discovery. Sold by mail, 25c per bottle.

A weekly Democratic journal devoted to the material, educational, political and agricultural interests of Halifax and surrounding counties.
 Advertising rates reasonable and furnished on application.

THE EDUCATIONAL DRIVE.
 The Christian Education Movement of the Methodist Episcopal Church, South, will, between May 29 and June 5, offer an opportunity to every Methodist in this section to give freely to the cause of education. The grand financial objective of the Southern Methodist Church, is \$33,000,000.
 Another important objective is securing recruits for Christian service. It is said that of the 17,000 charges in the Southern Methodist Church, at least 2,000 of the local churches are without regular preachers.
 According to Dr. R. H. Bennett, secretary of life service, "one of the tasks of the Christian Education movement is to secure at least 5,000 young people to enter the ministry and other lines of Christian service. It proposes to raise a large fund for their education and training. It will equip Church schools to receive them, a thing which cannot be done now on account of crowded conditions. Then these little churches which are now closed will become dynamos of spiritual life and centers of community service."
 Director General J. H. Reynolds, of the Christian Education movement is responsible for the statement that there are 27,000,000 Protestant children and young people in America who receive no religious training of any kind. "Three out of five Protestant children receive no instruction whatever," says Dr. Reynolds. "In our attitude of indifference to the religious instruction of the young, we are sowing the seeds of national decay." "The Christian Education movement," continues Dr. Reynolds, "will remedy this by putting a strong department of Bible and religious education in all of our colleges, so that these institutions may send back to the local churches a constantly growing stream of young men and women trained in the principles and methods of religious education and of applied Christianity."
 The Methodist Episcopal Church maintains 91 schools and colleges which will benefit by the big educational fund to be raised by that denomination.

A desperate effort has been made during the last three weeks to advance the price of cotton. It is a trick of those who want cheap cotton, to advance the price about planting time. The trick has been used so often that it can now deceive no one. Efforts to advance the price of cotton while determined have failed, and this fact of itself should be a sufficient warning to farmers not to be misled. When those who want cheap cotton and who ordinarily control the price of cotton cannot advance the price for a purpose, it is not likely that the farmer will be able to advance it.

UNLESS cotton can be produced profitably it would be worse than folly to attempt to produce it at all.

"Cold In The Head"
 is an acute attack of Nasal Catarrh. Those subject to frequent "colds in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the system, cleanse the blood and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh.
 Hall's Catarrh Medicine is taken internally acting directly upon the blood and mucous surfaces of the system, thus reducing the inflammation and restoring normal conditions.
 All druggists. Circulars free.

JEWS NOW CHRISTIANS.
 10,000 Converts in Hungary Alone in First Half of 1920
 The following is from the Jewish Telegraph Agency at Vienna. Reports received here from Budapest establish the fact that during the first six months of 1920 no less than 10,000 Jews in the domain of Hungary adopted the Christian faith.
 During the same period there were also 528 mixed marriages between Jews and Gentiles.

HOT METAL.
 The following dispatch was sent out from Macon, Ga., on April 25th.
 "A meteor, or a series of meteors, passed over middle and Southern Georgia about 9 o'clock this morning, exploding and showering hot metal as heavy as iron, according to reports received here tonight. It was seen at Macon. It exploded at Cordale, Pitts, some distance east of Cordale, and Albany, south west of here.
 At Pitts, in Wilcox county, more than a dozen heavy explosions were heard, followed by a report crackling in the air for several minutes. Red hot metal, some pieces weighing six pounds each, fell to the earth trailing black smoke. The sky was cloudless.
 The majority of the pieces fell in open fields and so far as known tonight no one was injured."

DREAM CAME TRUE.
 Virginia Mountain Farmer Finds Nearly \$15,000 in Gold and Silver.
 The following is from Salem, Va.
 Albert Dameron, 25, descendant of pioneer Virginia settlers, who works on his uncle's mountainside farm near here from sun-up to sun-down at \$10 a month, often dreamed, he said, of finding a treasure and buying a farm of his own.
 While plowing near the foot of Brush's Mountain the afternoon of April 9, his plow unearthed a small metal pot wrapped in buckskin containing gold and silver coins valued at \$14,903. About \$13,000 was in gold, \$600 in silver and the balance in paper money so badly disintegrated that the denominations could not be distinguished. The latest date on any of the coins was 1823.
 Young Dameron, fearful that his treasure might be taken from him, kept his good fortune a secret until today, when he told his mother.
 "Albert dreamed for a week that he going to find a treasure," said Mrs. Dameron, a hardy mountain woman, "and now he's gone and done it."

1921 CROP PROSPECTS.
 The farmer's problem of 1921 crop plantings was inquired into by the Cooperative Crop Reporting Service and whereas cotton showed 65 per cent. and tobacco 66 per cent. as compared with last year. The change in fertilizer prices and general trends will perhaps result in less decrease in the cotton and tobacco acreages. The hay acreage showed four per cent. increase. Sweet potatoes showed 5 per cent. increase; cow peas three per cent.; soy beans eight per cent.; peanuts two per cent.; peaches five per cent. due, largely to the Sandhills' influence, and truck indicates a two per cent. increase.
 Those showing decreases besides cotton and tobacco and Irish potatoes 96, and apples 98 as compared with last year.
 The available farm labor supply was indicated to be twelve per cent. more plentiful at thirty per cent. less wages than a year ago; while the land values have fallen to 73 per cent. of the high estimates early in 1920.
 It is a comforting thought to every man that he can always find some fellow who is worse off than he is.
 Because short dresses no longer indicate youth, the teachers in the Lion county school in Kansas have been requested to wear dresses that will distinguish them from their pupils.
 THE prospective carry-over of cotton at July 31st, 1921, is now not for 11,000,000 bales. That amount is fully 2,000,000 bales larger than was threatened before the Christmas holidays, when the acreage committee predicted that the carry-over would be less than 9,000,000 bales. Thus it is that our fears have not been confirmed but the situation is even worse than we seemed warranted in predicting a few months ago.

FOR A Severe Cold.
 Chamberlain's Cough Remedy cured my daughter Anna of a severe cold and cough a few years ago and ever since then I have never missed an opportunity to recommend this medicine to any one suffering from throat or lung troubles. I cannot speak too highly in praise of it," writes Mrs. D. J. Shelley, Earlville, N. Y. Chamberlain's Cough Remedy contains no narcotic and may be given to children with perfect confidence. It is a pleasant syrup so they do not object to taking it.

COTTON can now be bought cheaper than it can be produced. It is better, therefore, to buy cotton or to hold what you now own than to grow more. Every bale purchased tends to advance prices; every acre planted tends to make prices go down.

A DELIGHTFUL OUTING
 One of Our Citizens Visits Warrenton, Clarksville and Other Places of Interest
 Leaving Weldon at 12:15 P. M. March 30, 1921, in a very commodious auto resembling a well packed tourist car, we rounded curves, and split straightaways of as fine roads as one could wish to pull a throttle over.
 We first landed in the quaint and ancient town of Warrenton, N. C., at 2 P. M. (a place the writer had not visited in sixty years.) Here our party of seven made a halt of one and a half hours in the fine old home of Mr. Penway Burwell, and much enjoyed looking around the old place, that might be supposed from its antiquity to present something of a dilapidated appearance, but to our surprise we found the town occupied by live people—abreast with the times—modern conveniences—a veritable little inland city, where paint and paved streets held sway over the principal thoroughfare of quite a mile in length, through which it was our pleasure to travel. Setting out at 3:30 P. M. for Walnut Hill, Va., the hospitable home of Mr. W. M. Taylor, in Mecklenburg county, reached our destination at 5 P. M. Distant from Weldon 65 miles—this distance (with the interval of rest above mentioned) was covered with scarcely perceptible fatigue. This proves the auto the greatest known motive power in annihilating distance (save the locomotive) making remote localities accessible, and enhancing values in isolated districts.
 If romance be sought, or a desire to experience the thrill of love's "young dream" exists, a youthful couple visiting this beautiful old home with its romantic and elaborate environment, will find it almost impossible to resist a tingle of tenderest emotion, unknown to the coldest heart.
 In our rambles over the broad acres of this farm and woodland, objects of more than ordinary interest presented themselves, and we frequently found ourselves entranced at nature's loveliness, and feeling that we so often fail in appreciating as we should the handiwork and goodness of our Heavenly Father.
 At one place we came to a rock (on the banks of a little pebbled-bottom, crystal stream,) 60x30 feet, descending into the earth at an angle of forty-five degrees, and of unknown dimensions. In another place we saw six or eight massive boulders piled one on the top of the other, and three that formed a natural bridge—one of them being as large as an ordinary house.
 We also visited Clarksville, Va., a very old town, but now putting on "city airs" since quite a fire sometime back caused a rejuvenation of the place which has taken on new life, and particularly since the Southern Railroad has made it an important point of traffic on its line from Keyville to Durham. Before the advent of railroads, produce of this section and below, down the Roanoke river found an outlet to Petersburg via North Gaston.
 In reaching Clarksville by auto sixteen miles distant from our place of sojourn, we traveled over a portion of road opened up by Cornwallis during the Revolutionary war, in his retreat before the American forces when endeavoring to reach the seaboard, thereby hoping to make his escape.
 Reverting to the farm visited, we wandered through a lovely wooded glen to a noble beech tree, and inscribed thereon, were numerous initials and emblems, placed there perhaps a hundred years ago. Could this old tree have responded to our questioning thoughts, many a sweet story of affection might have been whispered into the listening ear by the unknown of a long and almost forgotten past. We noted on the tree in one place, first the initials, then the "cupid's heart" pierced by an arrow, then the date, 1849—just 72 years ago.
 We also visited the town of Oxford, (After an absence of 37 years) and noted its advance along all lines, and is perhaps amongst the prettiest towns of the Old North State.
 Henderson is also "toeing the mark" in up to date growth and appearance.
 We found, however, the most beautiful portion of the entire trip, was the cordiality and esteem so lavishly bestowed by loving relatives and friends. J. B. T. Weldon, N. C., April 20, 1921.

PREST-O-LITE BATTERY SERVICE
 Prest-O-Lite Storage Battery
 Uses less than one four-hundredth of its power-reserve for a single start—and the generator quickly replaces that.

Select Your Victrola Now :::
 If you are one of those who are thinking of buying just a "Talking Machine," don't decide on an inferior make—a Victrola costs no more. Let us demonstrate the many points of superiority. The Victrola brings you all instruments—it brings all the leading artists—in tone and reproduction it stands today in a class by itself.
 A small initial payment will place your Victrola in your home. We carry in stock all the latest records. Call at our store and let us demonstrate.

Weldon Furniture Company,
 WELDON, N. C.
ICE PRICES
 Effective April 1, 1921.
 TO OUR CUSTOMERS:
 It is our desire to give to the public as much reduction in the price of Ice this year as is possible, and in so doing we have effected a plan whereby it will prove to your good as well as ours.
 Beginning April 1st, we will place on sale Ice Tickets at 60c. per hundred, these tickets will be sold for cash only. By purchasing tickets you will find an advantage in several ways. It will have a tendency to make the drivers give you as near as possible the amount of Ice asked for. You will also have the correct change at all times which expedite the transaction and thereby allow the driver to get to the next customer sooner, which will be a great help to us as well help us keep a correct check against our Ice at all times.
 To our commercial trade we will sell to those who will purchase as ten (10) block tickets and pay for same on delivery at \$1.00 per block, or half block tickets at 90c. per half block.
 We wish all to understand that the purpose of this reduction is to make an inducement for our patrons to purchase tickets which will be sold for CASH ONLY, and those who do not supply themselves with tickets the following prices will prevail:

10 Pounds Ice	10c	60 Pounds Ice	45c
15 " "	15c	75 " "	50c
20 " "	20c	90 " "	55c
25 " "	25c	100 " "	60c
30 " "	30c	120 " "	65c
35 " "	35c	150 " "	75c
40 " "	40c	180 " "	85c
45 " "	45c	200 " "	1.00
50 " "	50c	300 " "	1.75

From the above prices you will see that it is to your advantage to purchase tickets, which we feel sure you will find to be very convenient in making change and much more satisfactory in every respect.
 It is our desire that our customers get every pound of Ice paid for, and that they have as good service as the prevailing circumstances will permit and if there is any complaint we would appreciate same if you would call our office and report same, in order that we may correct it.
 Respectfully,
Weldon Ice Company,
 By C. E. CARTER, Sec.-Treas.

15 minutes may save 15 dollars!
 Get that examination NOW

WHERE'S the economy—where's the nervous breakdown when a brief but thorough examination will save you the consequences? The Prest-O-Lite Service Station is ready and anxious to give your battery the once-over, no matter what the make, and tell you what it needs, IF it needs anything.
 Drive around today and find out. You won't hear "new battery" even mentioned if your present battery is not actually past recovery. When you do need a new battery, you'll be glad to know that Prest-O-Lite is back to pre-war prices and that an allowance will be made on your old battery.
 Now's the time for battery-inspection, Prest-O-Lite's the place.

Ford
 THE UNIVERSAL CAR

The Ford Model T One Ton Truck is in reality a necessity to the wide-awake retail grocer, not only for the economic solution of the delivery problem, but for the bringing of goods from docks or stations to his place of business, and for traversing the country and bringing in produce. For years the Ford "one Ton Truck" with its splendid manganese bronze worm-drive, powerful Ford Model T Motor, strong Vanadium steel frame, has been serving in every line of business activity, and we have yet to hear the first complaint as to rear axle trouble or motor trouble. It has the lowest purchase price on the market, and the cost for operating and maintaining is exceedingly small. In fact, the Ford One Ton Truck has become a business necessity. Leave your order with us without delay. We will give you prompt attention and assure you reasonably prompt delivery, and give you an after-service that will insure your continuous operation of the Truck.
