## 1925 THE DAY.

Preacher Names 1925 as Resurrection Date.

"God's clock of the ages has struck the hour for the setting up of his long promised kingdom on earth in 1925. Many now living in this city will live to welcome their loved ones as they will be called forth from the tombs ere long," declared W. E. van Amburgh, of Brooklyn, N. Y., speaking in the interest of the International Bible Students' association yesterday at Odd Fellows hall.

He cited many scriptures and facts from current conditions in support of his belief in the reality of the resurrection. His address in part was as follows:

"Bible chronology gives the date of 1914 as the beginning of the overthrow of the Old World, and we are witnesses to that, so it gives 1925 the date for the inauguration of earth's jubilee, for the freedom of all peoples of earth, living and dead, Zachariah viii:8-9, and Matthew xxiv:21-22 show conclusively that many will live through this stress. Reasonable deduction from the mass of evidence should convince us that many now living in this city will live to see these things completely fulfilled and will be here to welcome their loved ones as they will be called forth from the tombs ere long.

"The signs of the approach of 'Thy Kingdom Come' were to be a World war followed by the great pestilences, famines and earthquakes. We are witness that these things have already come, and that we are still in the throes of distress. Daniel tells us that when Christ shall assume control, knowledge would be vastly increased and there would be much running to and fro. Today knowledge is increasing along every line of science so rapidly that old dogmas, creeds and theories lie around like dead men upon a battle field, unburied and offensive, and people are traveling everywhere in all manner of machines as foretold by Nahum ii:3, 4."—Springfield Republican.

### How Not to Take Cold.

Some persons are subject to frequent colds, while others seldom, if ever, have a cold. You will find that the latter take good care of themselves. They take a shower or cold bath every day in a warm room, avoid overheated rooms, sleep with a window open or partly open, avoid excesses, over eating, becoming overheated and then chilled and getting the feet wet. Then, when they feel the first indication of a cold, they take Chamberlain's Cough Remedy without delay and it is soon over.

### QUASHED.

Blackstone: What made the jury disagree in that prohibition case?

Webster: There wasn't enough evidence to go round, so all except the first four jurors voted for a reasonable doubt.

## WEAK, NERVOUS, ALL RUN-DOWN

Missouri Lady Suffered Until She Tried Cardui.—Says "Result Was Surprising."—Got Along Fine, Became Normal and Healthy.

Springfield Mo.—"My back was so weak I could hardly stand up, and I would have bearing-down pains and was not well at any time," says Mrs. D. V. Williams, wife of a well-known farmer on Route 6, this place. "I kept getting headaches and having to go to bed," continues Mrs. Williams describing the troubles from which she obtained relief through the use of Cardui. "My husband, having heard of Cardui, proposed getting it for me. I saw after taking some Cardui... that I was improving. The result was surprising. I felt like a different person.

"Later I suffered from weakness and weak back, and felt all run-down. I did not rest well at night, I was so nervous and cross. My husband said he would get me some Cardui, which he did. It strengthened me... My doctor said I got along fine. I was in good healthy condition. I cannot say too much for it.

## Science Cuts Frame House Fire Risk In Half

Plan by N. L. M. A. Sketch Illustrates New Features of Fire Resistant Construction.

**D**ANGER from fire in frame houses has been reduced fifty per cent through improvements in construction worked out by the most competent engineers in the lumber industry. This announcement has just been made after these engineers have been working upon improved designs in frame construction during the past year with a view to reducing the fire hazard for wood houses to a minimum. Practically no change in appearance in houses constructed by the improved methods and very little, if any, additional cost is involved, but the methods recommended by the engineers give protective features making the frame house essentially fireproof.

### WHY HE HAD TO LEAVE.

A Wedding and a Sale a Little Mixed.

"The editor of the one local newspaper in a small town gives the following explanation of 'Why I Left town.' He states: 'Some one sent the editor of the Picketown Gazette a few bottles of home brew. The same day he received for publication a wedding announcement and a notice of an auction sale. Here are the results: Mr. Smith and Miss Ola Anderson were disposed of at public auction at my farm one mile east of a beautiful cluster of roses on her breast and two white calves, before a background of farm implements too numerous to mention in the presence of about seventy guests, including milk cows, six mules and one bob sled. Jackson tied the nuptial knot with 500 feet of hay rope and the bridal couple left on one good John Dere gang plow for an extended trip with terms to suit purchaser."

### WHEN WEARY WILLIE SCORED.

Uncle Isaac Was Just a Little Bit Too Emphatic in His Verdict Concerning Coat.

Weary Willie slouched into the pawn-shop. "How much will you give me for this overcoat?" he asked, producing a faded but neatly mended garment. Isaac looked at it critically. "Four dollars," he said. "Why," cried Weary Willie, "that coat's worth \$10 if it's worth a penny!" "I wouldn't give you \$10 for two like that," smiled Isaac. "Four dollars or nothing?" "Are you sure that's all it's worth?" asked Willie. "Four dollars," repeated Isaac. "Well, here's your \$4," said Weary Willie. "This overcoat was hangin' outside yer shop, and I was wonderin' how much it was really worth."

### A Timely Suggestion.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is almost certain to be needed before the winter is over and results are much more prompt and satisfactory when it is kept at hand and given as soon as the first indication of a cold appears and before it has become settled in the system. There is no danger in giving it to children as it contains no opium or other harmful drug.

### WIFE WALTZ.

Marry me? he pleaded. Her answer—if you dance! With one-step, he was by her side And so she took a chance.

### EARLY IN LIFE.

Employer: Will your last employer recommend you? Applicant: I don't know—I haven't worked for him yet.

### Children Cry FOR FLETCHER'S CASTORIA

CARRIED HER TROUPE.

"They kept company for a long time before they were married, didn't they?" "Yes; and they've kept company most of the time since. All her relations seem to live with them."

### SHREWD TRADESMAN.

Father: Who gave you that cut on the side of your head, Johnnie? Son: Nobody give it to be, pop. Father (sharply): Nobody? Be careful now! Son: Nope, nobody give it to me. I got it in exchange for two black eyes and a bloody nose.

## Americans Find Armenians Victims of Circumstances, not Beggars

The Armenian government would soon be able to work out the situation if it could enjoy a brief period of peace, in the opinion of an American Commission which has just returned to the United States after an exhaustive survey of the situation in the Levant.

This Commission, which was sent out by the Near East Relief, made a personal inspection of conditions from Syria to the Caucasus Mountains. In addition, the reports of relief workers who have been long on the field and of government officials carefully examined.

"In those few districts where the Armenians have been able to live in peace he has thoroughly demonstrated his ability to care for himself and his own," declared Charles V. Vickery, general secretary of the relief organization, who headed the Commission.

"Naturally, industries, with an inherent desire for accepting charity, it has been the wholehearted assistance of the past year that have prevented the people from realizing their cherished dream of a stable, independent government.

Homeless Wives at Erivan Railroad Station.

"Time after time since the outbreak of the world war, the Armenians have made a brave attempt to cultivate their land. And time after time some new disaster has prevented them from gathering their crops and the peasant population were driven from their homes.

"After two years of American relief activity it seemed last fall as if we would be able to reduce our program in Russia. Armenia in the care of the children we had gathered into our orphanages. But then came the new invasion, crops were trampled down in the fields, live stock was carried off, and the peasant population were driven from their homes.

"We may not be able to save all of the helpless refugees who are now crowded in this territory, but we certainly cannot desert the hundred thousand orphan children who are now in our orphanages or under our protection in the Caucasus, Armenia, Cilicia and other devastated areas of the Near East. Last spring, when our supplies ran low, 3,000 of these children died out of a total of 20,000 in one of our orphanages. These children are absolutely dependent upon aid from America and will perish if our aid is withheld.

"Next year, if further chaos can be averted, possibly we will be able to reduce our program, but prompt action is necessary now or for those days there will be no next year."
