The Question of Advertising

Is the question of advertising in your mind? Why not let us answer it for you? We can give you the benefit of an experienced and unbiased service. A campaign of advertising cannot be fully effective unless it is based on sound advertising principles and if your proposition is not practical in our judgment we will tell you so. An inquiry will not commit you to any future action. We will be glad to answer a letter from you relative to any question of advertising that may interest you.

We prepare newspaper campaigns and handle all the details of writing copy, drawings, making of cuts, selection of newspapers and accounting—with reasonable assistance in selling. We also prepare booklets, catalogs, direct mail advertising, etc. Our service relieves the advertiser of all work except that of supervision. Every proposition is given the necessary research work so that proper judgments can be formed and details intelligently executed. We can refer to clients who have used our service for years.
