A Cheerful, Handsome Home

The Naranja—Design A 509

Before having your architect or a house built, or even before you square by agreement over a period of several years, it is wise to examine the house very thor-

oughly from an investment point of view. Before you invest, in real estate, always sound advice. It is to be expected that a home built of masonry with the lowest priced roof, and having the slowest depreciation, will hold best on the balance sheet. The safest and wisest investment, in fact, is a permanent home of brick. One striking feature of brick home ownership is that the savings in upkeep alone more than wipe out the slight difference in first cost over less

permanent construction before the house is paid for. In other words, the less permanent the house actually costs more than the brick house, although the sale or contract price may be less. It is cheaper to own than to rent, when your house is built of brick.

And the Naranja is a good example of a well designed brick home, which will fit in any ordinary suburban lot and leave ample room at each side. It measures only twenty-four feet wide by thirty-six feet, eight inches in depth. The front porch is large and sunny, the line of travel between front door and steps being kept in one side. It is a six room house with a sun porch in addition. The shower in the bathroom is a welcome and unusual feature.

The Common Brick Manufacturers Association, Cleveland, Ohio, can furnish complete drawings for this design.

Cause of Appendicitis. When the bowels are constipated, the lower bowels or intestines become packed with refuse matter, that is made up largely of germs. These germs enter the vermiform appendix and set up inflammation, which is commonly known as appendicitis. Take Chamberlain's Tablets when needed and keep your bowels regular and you have little to fear from appendicitis.

THE Flathead Indians have adopted President Harding as a member of their tribe. And the democrats say they are welcome to him.

Same Old Story But a Good One Mrs. Mahala Burns, Navanua, Mo., relates an experience, the like of which has happened in almost every neighborhood in this country and has been told and related by thousands of others as follows: "I used a bottle of Chamberlain's Colic and Diarrhoea Remedy about nine years ago and it cured me of flux (dysentery). I had another attack of the same complaint three or four years ago and a few doses of this remedy cured me. I have recommended it to dozens of people since I first used it and shall continue to do so for I know it is a quick and positive cure for bowel troubles."

PROFESSIONAL soldiers think years of peace are necessary during which to prepare for future wars.

Hunger, the Best Sauce Sauce is used to create an appetite or relish for the food. The right way is to look to your digestion. When you have a good digestion you are certain to relish your food. Chamberlain's Tablets improve the digestion, create a healthy appetite and cause a gentle movement of the bowels.

KING GEORGE has gone to wearing a derby hat, and if he will not talk through it he will be all right.

Hot Weather Diseases Diseases of the bowels are extremely dangerous, especially during the hot weather of the summer months, and in order to protect yourself and family against a sudden attack, get a bottle of Chamberlain's Colic and Diarrhoea Remedy. It can be depended upon. Many have testified to its cure.

HERE is a really new joke. The king of Egypt is coming to Washington in order to learn to govern his people wisely.

Catarrh Can be Cured Catarrh is a local disease, greatly influenced by constitutional conditions. It therefore requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system. Hall's Catarrh Medicine destroys the foundation of the disease, gives the patient strength by improving the general health and assists nature in doing its work. All druggists. Circulars free. F. J. CHENEY & CO., Toledo, Ohio.

Women may bob their hair, but few men are going to let theirs grow long.

BUILT TO RIDE ROUGH SEAS Latest Type of Airplane is Claimed to Be Seaworthy as Well as Airworthy.

To revolutionize flying is the promise of a new airplane which will soon be submitted to practical test. It is said to be unlike anything ever constructed before and is nearly a ship with wings according to reports from London. The plane is so constructed that it will not only float in calm waters, but it is claimed will be able to ride the roughest seas with the same security as an Atlantic liner. It is claimed that it will be equally airworthy. The hull is long, light and slender, without bulkheads. The elasticity of the hull which will make this possible is the outcome of many years' scientific research. The new machine will be a vast improvement on the present type of amphibians. The experimental machine carries but seven persons, but designs for larger ones have already been made. The airplane will carry four or six engines and will be capable of traveling 100 miles an hour. It will be equipped with fog horns, anchors and riding lights. When not in the air it can travel on the water and thus accompany a battle fleet under all conditions. Machines designed chiefly for commercial service will be able to cross the Atlantic ocean in less than 48 hours, it is claimed, carrying a heavy load.
