The best farmers give this as their experience, and laborers are loth to work for part of the crop. Probably not more than \$8 to \$10 per month will be paid for the best fellows.

The Hillsboro Recorder says: The weather so far has been more uniformly cold than in any December we remember. But it has not been the coldest weather, that we have ever had as many assert. The coldest day of the winter was the 3rd of December, when the mercury stood at 6 above zero. On the 25th of January, 1857, the thermometer of Rev. Send stamp for answer.

A Freshet Coming.

There is still good boating water in the river, there being between five and six feet left on the shoals at Fayetteville. According to the change in the atmosphere yesterday and last night, there is probably a big thaw on hand now in the head waters and a big freshet is expected to result during the earlier part of the week.

Wright, who has held the office for some months past, under appointment of Gov. Brogden. Dr. Curtis is an old hand at the bellows and understands, most thoroughly, the requirements and duties of the position. His appointment will be hailed with much satisfaction throughout the Cape Fear country.

Accidentally Drowned.

Two colored men, belonging at Whitehall, Bladen county, were drowned about three miles above that place on last Thursday morning. There were three of them in company, all young men, and were crossing the Cape Fear at the time, in a crazy old batteau which they had been warned against using. When near the opposite bank the boat filled and sank and two of the men were drowned, the other succeeding, with much difficulty, in making his way to the shore. At last accounts the bodies had not been recovered.

By actual count there were 9,500 letters, and 15 bushels of printed matter, all of which were opened and distributed in 1 hour and 12 minutes by Col. Brink, Post Master, and two of his assistants, Messrs. Penny and Foster, which is the quickest time on record hereabouts.

The Best of the Season.

That is a good story they tell on a portly and popular acquaintance of ours. He is a mail agent on one of the roads leading into the city, and thinks, like many another of us, that there is nothing for thawing a fellow on these cold nights like a blister in the shape of a hot punch, applied internally, of course. During the miserably cold weather we had here last week the old gentleman arrived in the city after one of the coldest rides he has ever had. Having some business down town he carefully locked the door of his car, or rather of his compartment, and came down into the city. The car in which he carries his mail, be it remarked, is somewhat peculiar in construction, there being but one end door and that leading into the mail bag region. Soon after our agent had left the car was turned around on the turntable, in readiness for next day's train, which was then being made up. While down town the agent met with some friends who had not gladdened his sight for many years, and in lingering together and talking of old times it is no wonder that the hours slipped by unheeded. At midnight a burly figure might have been seen on his way up Front street, en route for that couch in the mail car where the agent had been wont to take his virtuous slumbers and a few minutes after midnight he was seen, key in hand, trying in vain to enter the car, there being not only no lock on that end but no door. Completely crushed and confused the burly form next wended its way to Brooklyn where dwelt a friend. This friend had retired but was made to get up and dress himself when the two wended their way to the residence of Col. Brink, the Post Master. Arriving there about 1 o'clock they lost no time in rousing the Colonel who soon appeared and enquired why he was thus disturbed at 1 o'clock in the morning. In full and sonorous tones the reply came: "Col. Brink, I appeal to you as a regularly organized official of the U. S. Government. Sir, my mail car has been robbed and not only that but government locks have been broken, the door taken away and the end of the car boarded up. Sir, I appeal to you for justice in the name of George Washington and Andrew Jackson." It was sometime before Col. Brink could make out the difficulty but when he did there was a laugh on hand that startled the midnight stillness of that neighborhood. It won't do now for anybody to say anything to that agent about Mount Vernon or the Hermitage, or even intimate that he ever heard a joke told on anybody in his life.
