GENERAL N. C. R. R.—COL. FREMONT FOR GENERAL SUPERINTENDENT AND ENGINEER.
The signature of "A Western Observer" closes with these remarks: "I have seen the name of Col. Fremont suggested as the General Superintendent of the Road and he is the right man for the place and his appointment is a guarantee of success."
The above in order to add our approval to the proposition to Mr. Fremont in charge of the West-Carolina R. R., and we believe that such a statement would meet with the approval of the masses of the people of these sections of the State where almost no one has lived so long and labored so hard for the advancement of the interests of the State. Col. Fremont, by reputation at least, is one of the most energetic and successful men in the South, but he is known and appreciated by the people along the line of the Carolina & Weldon Railroad and the Central Railway, where he has spent twenty years of his life in these works. Who that recalls the crippled condition of the R. R. when Col. Fremont undertook its management, or how he carried it to its full capacity but beyond all doubt his eminent ability to do so successfully and cheaply, the N. C. R. R.? Few remember the circumstances now but it is a fact that the latter years of the war the Federal Government was about to open the three roads between Richmond and Raleigh for military management, which was prevented by an appeal to Mr. Davis, who had recently passed away, and W. W. R. R. in favor of the execution of the plan of the Secretary of War. Col. Fremont's management of the R. R. has been made public and it has been made public that the W. & W. R. R. within the close of the war.

It has fallen heir thus far to but a very small slice at the favors that have been given to our people would like to see service heard in this matter. The N. C. R. R. as the section are themselves, and that Col. Fremont be sent to Raleigh and our people would like to see service heard in this matter. The N. C. R. R. as the section are themselves, and that Col. Fremont be sent to Raleigh and our people would like to see service heard in this matter.

Machinery Act—The Changes in the Former Act.
The machinery bill, which was principally the work of Major J. W. Graham of Raleigh and Montford McGehee, Esq., of Salisbury, yesterday passed its third reading in the Senate, after some amendments will no doubt be agreed to. We give below some of the changes in the bill which were not in the old act, these alterations are furnished by Maj. Graham of the Finance committee of the House of Representatives.

Cut this Out—It May Save Your Life.
There is no person living but who suffers more or less with Lung Disease, Coughs, Colds or Consumption, yet some would die rather than pay 75 cents for a bottle of medicine that would cure them. Dr. A. Boscchee's German Syrup has lately been introduced in this country from Germany, and its wondrous cures astonish every one that tries it. If you doubt what we say in print, cut this out and take it to your Druggist, and get a sample bottle for 10 cents and try it, or a regular size for 75 cents.

In this age of education and general intelligence the household is hardly complete without a Cornish & Co. Piano or Organ. Read the advertisement in another column, and then send for illustrated catalogue and price list.

THE ASHEVILLE CITIZEN SAYS: The revival exercises in the Methodist Church in this place have continued for the past two weeks with unabated fervor, and quite a number of our prominent citizens have connected themselves with the church.

THE HICKORY PRESS SAYS: Mr. Cottrill informs us that Mr. Hamilton Gions, of Wilkes county, some time ago cut a large white oak tree from one cut of which he has made enough rails, 10 1/2 feet long, to build over one hundred panels of fence eight rails high. We call on "Jesse Holmes" to go that way at once.

THE RALEIGH OBSERVER SAYS: On last Thursday night, in the quiet little town of Thomasville, Davidson county, a marriage between Mr. William Thomas and Mrs. Forney, a young widow, the service being performed by Rev. J. W. Lewis, and progressed over half the ceremony, and the friends and acquaintances who had gathered at the bride's residence were filled with joy anxiously awaiting for the minister to pronounce the words "man and wife." But such was not the fate, for ere the ceremony was completed the fair bride fell dead at the feet of him who held her hand, but who was not yet her husband. She fell a victim to heart disease.

The Counterfeiters.
That gang of counterfeiters captured at Sand Hill last Monday, as reported by us in Wednesday's paper, has dwindled down to small proportions, as witness the following from the *Rockingham P. D. B.*:
On Monday a man, woman and two boys were brought here from Sand Hill depot, charged with passing counterfeit money, who after a preliminary examination in the Justice's Court, were discharged. All the parties were white.

Changing the Railroad.
The *Weldon News* says: Captain James, of Wilmington, is now engaged in a survey of a new route for the Wilmington & Weldon Railroad from the depot at Halifax to some point across Quaquey creek. The curve and grade at that point are very heavy and this change will overcome that objection. The new line will be run between the present location and the "Grove" house and instead of a bridge, an arch culvert will be built there being no trestle work as at present. Mr. E. Linehan has been secured to attend the work and will commence operations next week.

Caught at It.
Jim Clarke, alias "Lemonade Jim," colored, a well-known nuisance in this city, interviewed the Mayor to some effect this morning. He had been playing the confidence game on an old colored individual from the country and got caught at it. The Mayor gave him \$50 and costs or 30 days on the streets, and as greenbacks don't grow on trees hereabouts Jim will probably reinforce the street gang for a few weeks.

Eliza Finch, charged with the same offence, was bound over to Superior Court in the sum of \$100, justified bond.

Important to Know.
The *New York Journal of Commerce* publishes the following question and answer, which may be of value to some of our readers:
Editor of the *Journal of Commerce*: Is a receipt for money written and signed in pencil legal and valid, and can it be put in evidence in a court of law? Or must the receipt be written and signed in ink?
Reply—A receipt written and signed with a pencil, if its authorship and integrity can be established, is just as authoritative in evidence as if done in ink. The only difference is that if the writing is disputed, or there is a claim that it has been altered, there is more difficulty in the nature of the case in establishing its genuineness and originality.

How to Stew Oysters.
At Delmonico's in New York, which is the headquarters of epicures, they stew oysters this way:
Take one quart of liquid oysters, put the liquor (a teaspoonful for three) in a stew pan, and add half as much more water, salt, a good bit of pepper; a teaspoonful of rolled cracker for each. Put on the stove and let it boil; have your oysters ready in a bowl. The moment the liquor begins to boil pour in all your oysters, say ten for each person, or six will do. Now watch carefully and as soon as it begins to boil take out your watch, count just 30 seconds, and take your oysters from the stove. You will have your dish ready with one and a half teaspoonfuls of cold milk for each person. Pour your stew on this milk and serve immediately. Never boil an oyster in milk if you wish it to be good.

Spring styles and Fashions.
The wholesale openings of spring milliners at the North give a foretaste of the styles which will burst on the fashionable world after Lent. From fifty to one hundred French pattern bonnets and hats of new designs are shown. The prevailing shapes are Normandy and Gypsy. The Normandy is full crowned, small brim fitting close to the face, and admitting of ruffling and silk trimmings. The Gypsy flares more, with bandeaux of flowers for trimming. Other very Frenchy looking styles are high crowned, turned up back and sides. The hat and bonnets are chiefly of French chip and Tuscan straw, some elaborately trimmed on the outside, with bandeaux of flowers, loops and bows of silk and streamer of satin and gros grain ribbons. Others are trimmed outside with ostrich tips in delicate shades instead of flowers. New colors for materials are sulphur, geranium, old gold, sea foam, rose white, flame and delicate shades of blue, in some instances blended with seal brown and other cloth colors as a contrast. A trimming is shown of moss-faced silk gauze, and a silk with alternate stripes of chinelle. Flowers are used in great profusion. The ornaments are pearl and steel buckles. Ribbons will be used in greater profusion than for many seasons previous. Bonnet shapes are more prevalent than late.

The Criminal Court Bill.
In the Senate, on Saturday last, the bill to establish a Criminal Court for the city of Wilmington was taken up and passed its second reading. This bill has been spoken of by us before. It establishes a court which has the same jurisdiction as the Superior Court and Justices of the Peace, to be presided over by a judge who shall receive the same salary as a judge of the Superior Court. The salary of the Judge, in the original draft, was placed at \$2,500 per year but this was amended to read \$2,000, instead.

The City Railway.
We hear that many citizens regret the sale and probably the removal of this railway track. We learn that it has just begun to pay expenses and a little more in winter, and if so it will do very well in summer and in a short time become a paying institution, and it is certainly a great convenience. It could now be bought for five or six thousand dollars, about what the iron, cars and horses are worth, to say nothing of the franchise for 30 years. The old company is like our judiciary once was—exhausted. This suggestion is made to the citizens that they may understand that the line will go down if it depends upon the old company.

The Military Movement.
The call for the meeting of the commanding officers of the various white military companies of the State, to be held in Raleigh on Friday, was responded to quite extensively, there having been thirteen companies represented at the meeting. Maj. M. P. Taylor, of the Wilmington Light Infantry, and Capt. H. G. Flauner, of the Cape Fear Artillery, were among those who were present.
Plans for a grand organization and encampment were discussed and the Adjutant-General was requested to urge the General Assembly to pass a military bill prepared by him.
The Adjutant-General was urged to equip forthwith the Cape Fear Artillery, Capt. Flauner stating that Governor Brogden had refused to either equip this company or to commission its officers.

Brunswick Court.
Judge Seymour did not arrive here until this noon's train and consequently Brunswick Superior Court did not open at Smithville this morning. He will go down to-morrow morning and will open Court on his arrival.

Auditing Commissioner.
In the House, on Saturday, the bill to appoint a special commissioner for New Hanover county, to examine the books of county officials, was taken up and passed second and third readings. This bill names Messrs. E. Kidder, Henry Nutt and W. L. DeRosset as the Commissioners.

To Be Repeated.
We understand that the delightful entertainment given last week by the pupils of the Baptist Mission School, at Brooklyn Hall, is to be repeated some time early in the new month, on which occasion there will be changes and improvements in the performance, the parts to be sustained by the larger pupils of the school.

Arrived Safe.
By a dispatch received in this city on Saturday we are glad to learn of the safe arrival at Fajardo, P. R., of Messrs. Geo. W. Kidder and John London, who sailed hence on the 5th inst. on the schooner *Wyoming*, Capt. Foss. The dispatch was very brief, indicating nothing but their arrival, and in good health.

Arctic Exploration.
A petition is in circulation here to-day praying Congress to grant an appropriation of \$50,000 for equipping a party of Arctic explorers, to be colonized under the plan submitted by Capt. Howgate. It is being quite numerously signed by prominent citizens, and we understand that it is but one of a number which are being circulated in commercial cities all over the country.

The Feast of Purim.
This Feast will be celebrated by the Israelites in this city to-night and to-morrow. It begins at sunset this evening continuing until the same hour to-morrow evening. There will be a Purim Hop this evening at Megginney's Hall but there will be no service in the Temple to-morrow because of the absence of Mr. Mendelssohn, the Pastor.

To Be Fixed.
That side walk at the corner of 3rd and Chestnut streets is to be fixed. The person who has the matter in charge informs us he ordered Baltimore pressed brick some time ago but as yet they have not arrived. The repairs will be made in a few days.

Hogs Stolen.
Thieves have again visited Mr. Joo. F. Garrell at Sans Souci. A few nights ago six large fine Essex hogs were stolen from him. In hunting around his premises for the hogs, he found where one had been killed and tracked the thieves and hogs some distance in the woods. We would advise him to adopt Mr. Barnes' plan of protecting himself against the depredations of thieves.

Lost.
A LADY'S GOLD AND JET BREAST-PIN with pendants attached, and a WHITE SILK BOW, with handsome black thread lace Barb, were lost on SUNDAY night, (yesterday) between First Presbyterian Church on Third street and residence of T. C. Servoss, on Market street near Sixth. The finder will be suitably rewarded by leaving the above articles at the office of the City Treasurer in City Hall. Feb 26
