A special dispatch to the Standard from Madrid, says the journals of that city, express marked displeasure at the appointment of Messrs. Col. Walter L. Steele, Congressman from the 6th District, has been chosen to deliver the annual address before the two

literary societies of Chapel Hill, at the commencement in June.

The Morganton Blade says: Mrs. John Heaton, of Catawba county, has a girl baby which, at four months old, weighed 20 pounds, and at five months 35 pounds. It is now near six months old, measures 2 feet around the body, and 4 1/2 inches across the shoulders.

The Morganton Blade says: The new just reaches us that the "High Bridge" tunnel, in the mountains, is open through. The "Lick Log" tunnel will be completed, if no delay occurs in April, leaving then only the "Swannanoa," which is being driven with a large force.

Anson Court will open on the 9th of April, Judge McKoy presiding. The *Monroe Express* says: There are about two hundred State cases on docket for trial, besides an unusual large number of important civil cases. The dockets are the largest ever before known in this county. Three persons will be tried for their lives.

The Charlotte Observer says: "Ex-Senator David M. Key, who is to have charge of the post-offices etc., during the next four years, was a refugee to North Carolina from Tennessee during the last year of the war. He spent several months at the residence of a gentleman in Ireland, whose wife is a connection of his by marriage. He also spent some time in the Statesville. His wife has an extensive relationship in the Western part of the State."

The Charlotte Observer says: Information was received here late last night of an important change of officers which is about to take place on the Air Line Railroad. The Receivership of Col. Fisher expired with the configuration of the sale of the road which took place several weeks ago, but he has been acting in capacity of President of the road until the present owners should take possession. This has been done. The report received here states that Mr. Sibley, of New York, one of the largest stockholders, is President, and that Col. Fisher will hold the position of General Manager. Col. G. J. Forrester, late Superintendent of the Virginia Midland Railroad, succeeds Col. J. B. Peck, as Superintendent. He passed through the city last night on his way to Atlanta to take possession. He has a fine reputation as a railroad man and is one of the shrewdest men in the business.

DEMOCRATIC TICKET.

For the Municipal Election to be held in this city on Monday, March 22d.

FOR ALDERMEN.

SECOND WARD:

CHARLES D. MYERS,
HENRY G. FLANNER.

THIRD WARD:

L. H. BOWDEN,
H. VOSGLAHN.

FOURTH WARD:

WILLIAM L. DELOSSET,
OSCAR G. PARSLEY, JR.

The married live longer than the single.

Half of all who live die before seven-teen.

This gives force to the strong—that the multitude have no habit of self-reliance or original action.

Brig Hiram Abiff, Brown, sailed from New York, for Wisconsin on Saturday, to look for this post.

Two or three very trifling cases, not worth reporting, were all that claimed the attention of the Mayor this morning.

Household members.—The foot of the bed, the leg of the chair, the arm of the sofa, the elbow of the stovepipe, the hands of the clock, and the head of the table.

Mr. T. Donolan has appointed as his assistant marshals in the celebration of St. Patrick's day by the Hibernian Association Messrs. John McEneaney and W. M. Collins.

The Goldsboro Messenger is to be still further improved. Bonitz merits the remarkable success he has met with as he is one of the "lively" newspaper men in the South.

The newest breakfast caps have muslin crowns with two broad frills of Smyrna lace, and trimmings of rows of loops with upturned ends, made alternately of cardinal and of navy blue silk.

One sandal strap fastened with a large buckle on the instep is the latest fancy in house slippers. The clocked stocking is seen in the open space below the sandal strap; a tiny bow is placed near the toe of the slipper.

The battle in the First Ward yesterday afternoon was short, sharp and decisive. Hatchets were used; the bow and sinew of the Republican party was knocked down and the physiognomy of many was temporarily altered.

Old Col. Zachary, the well known Duplin county hawk hunter, is in the city to-day, having arrived here, we believe, on a raft. It is said that the old man can scare up more hawks in a day's hunt than any other ten men in the county.

DOOLEY'S YEAST POWDER is prepared on scientific principles, and from ingredients that are the most effective and wholesome. It has received the highest encomiums for these merits from eminent chemists, scores of our best physicians and thousands of intelligent cooks and housewives. The genuine can be had only in tin cans.

Because we happen to take our shotgun and start out for an afternoon's gunning, it is no reason why a half dozen impudent persons should inquire if we were on a tour of collecting subscription money. The times are hard, and the ammunition costs too much money to be wasted on delinquent subscribers just now.

We'll Fight It Out.

There was talk, at one time, of the Republicans refusing to take part in the approaching election and of their contesting the matter before that last refuge of Radical politicians, the Supreme Court. But better counsels seem to have prevailed of late and they now assert their intention of going in to the canvass head foremost, with the belief that they can elect six of the ten Aldermen. In this case the Fourth Ward will be the objective point of the campaign and our friends there should look to their printing and see that no ground is left for a flank movement.

The Fire This Morning.

The alarm bells sounded this morning at about half past 2 o'clock. The fire came from the house on Fifth street, between Mulberry and Walnut, occupied by W. H. Moore, col., and his family. It caught in the kitchen near the chimney and when first discovered was mounting up to the roof. The dwelling house was destroyed but the fire department managed to save the lower portion of the shell, while an office adjoining it was burned to the ground. The inmates saved all of the furniture.

Mr. E. Peschau, just South of the burning building, was at one time in great danger. The flames had actually communicated to the weather-boarding of the back part of the house, which was but a few yards distant from the flames, when a well directed stream of water from the Little Giant's pipe allayed all fears in that quarter.

Moore was insured with Messrs. Jno. W. Gordon & Bro. His office building and furniture, including a bagatelle table and a billiard table which were stored there, was covered by a policy for \$125, with \$625 on his dwelling and \$275 on his household furniture, all in the Hamburg-Bremen. His loss will foot up probably \$1,000.

Mr. Peschau thinks that he has been damaged to the extent of between \$100 and \$150. His dwelling is insured with Messrs. Gordon & Bro. in the Liverpool London & Globe, for \$1,200.

Personal.

Col. Walter L. Steele, the new Representative in Congress from the Sixth District; Capt. J. B. Hussey, of the Statesville Landmark, and Reading Clerk of the House at Raleigh, and Messrs. Sandeifer, of Gaston, Robinson, of Buncombe, and Moore of Mecklenburg, members of the Legislature, are in the city.

Eggs by the Bushel.

Eggs are cheaper than ever known before on the line of the Wilt. Col. & Aug. R. R. just over the line in South Carolina. In some instances they have sold as low as 8 cents a dozen. A railroad says that he was offered a bushel of eggs for \$3 but not knowing whether it took 300 or 3,000 to make a bushel he declined to invest.

Brooklyn Speaks.

The balloting for Republican candidates for Aldermen in the First Ward resulted in the choice of P. W. Foster and James A. Lowrey. James Heaton and Duncan Holmes were aspirants for Aldermanic honors and had an eye to the mayoralty in case of the triumph of the "fire-tried" set we have been informed. At the "tale end of the wake" things were lively, and all was not quiet along the line in First Ward.

Worth Trying.

The gardener of the University of Berlin has made the discovery that hyacinths may be propagated by their leaves. He cuts them close to the bulb, places them in a saucer, and covers with a thin layer of sandy leaf mold. The saucer having been placed in a greenhouse, the extremities of the leaves will begin to turn dry in about eight weeks, a sure sign that bulbs are growing out of them. It might be worth trying by our ladies friends.

They Fought.

Two female viragos, both colored, had a slight unpleasantness this morning, there being, of course, a man in the case. They both hit out straight from the shoulder and the consequence was that both had bloody noses. Their names are Mary Eliza Hart and Jane Davis, and Justice Gardner, to whom they had recourse, thinking that they had both been pretty well punished already, ordered them discharged on the payment of costs by each.

The Thermometer.

From the United States Signal Office at this place we obtain the following report of the thermometer, as taken this morning at 7:31 o'clock:

Augusta, 60; Charleston, 60; Cincinnati, 34; Jacksonville, 60; Knoxville, 46; Lynchburg, 51; Memphis, 43; Mobile, 61; Montgomery, 58; Nashville, 41; New Orleans, 61; New York 39; Norfolk, 58; Pittsburg, 33; Savannah, 61; St. Louis, 38; Washington, 48; Wilmington, 62.

Not Happy.

Our devil is a precocious youth, clock full of hilarity, and is hand some as he is long. He has great powers as a ventriloquist, and has determined to vie with Wyman as a magician. He is now training two mice to perform on the horizontal bar and says he will not be satisfied until he makes a returning board out of them. He supplies the country once a year with his pictures, which are generally used as comic valentines; says he's in love with a girl who is in love with somebody else, and yet is not happy.

A Sound Railway.

The green things growing up around us are suggestive of the fact that Spring is nearly here, and that Summer is not far off, and when we think upon these things our imagination goes to the "Sands of the Sea-shore" distant only eight or nine miles, and when we get that far in our musings we wonder why it is that no one has yet taken steps looking to the completion of the railway to the Sound. The Street railway will be sold early next month, and if the right men would take the matter in hand they might purchase this road as a first movement towards building the line to the coast. There is enough iron on the track to lay the road nearly one half of the distance to the Sound, and this once secured and an earnest given of real work, we imagine that the necessary amount of stock might be raised. Who will take the matter in hand? Don't all speak at once.

In this age of education and general intelligence, the household is hardly complete without a Cornish & Co. Piano or Organ. Read the advertisement in another column, and then send for illustrated catalogue and price list.

Next month the oyster season closes, and the fish season opens in earnest.

Wonderful Success.

It is reported that Boschee's German Syrup has, since its introduction in the United States, reached the immense sale of 40,000 dozen per year. Over 6,000 Druggists have ordered this medicine direct from the Factory, at Woodbury, N. J., and not one has reported a single failure, but every letter speaks of its astonishing success in curing severe Coughs, Colds settled on the Breast, Consumption, or any disease of the Throat and Lungs.
