**NEWS SUMMARY.**  
The consuls at Rostchuck are drawing a protest against the Russians bombing their residences, as being against the principles of international law. The Grand Army of the Republic, in session at Providence, R. I., has adopted the following: "Inasmuch as there have been differences of opinion as to the intent of the memorial day, this Grand Army hereby resolve that the Grand Army of the Republic seeks thus to preserve the memories of those who fought for the national unity." The consuls at Rostchuck are flying to the neighboring villages. Twelve shells were fired upon the military hospital, three upon the civil hospital, and two upon the military asylum. The Turks in return destroyed Guesvevo. Two complete army corps, the 11th and 12th, are already in Dobruzscha. The consuls at Rostchuck the consulates of France, Italy, Greece, Germany and Belgium have been injured by the Russian fire. The trial of Deputy Marshal Franks of North Carolina, was resumed yesterday. Several witnesses for the government were examined, which showed that the frauds committed outside of Marshal Douglass by his deputies. The evidence of the government concluded. The trial will be resumed to-day for Franks' testimony and argument. — Wm. G. Rogers of Minnesota, but formerly of Ohio, has been appointed Commissioner of Agriculture, vice Watts, resigned. Ledue sailed July 13. — Cadet Henry A. Phipps, colored, has been assigned to the tenth regiment of cavalry, vice Fuller, transferred. In the British House of Commons, yesterday, Mr. Cowen, radical reformer, gave notice that he will to-morrow ask about the destruction of the Rostchuck Consulate, and whether it is a breach of international law. — The Russian bombardment of Kava is slackening. — The Montenegrin army is concentrated in a very strong position opposite Spuz and Padgoritza. The Prince is determined to fight for every inch of ground should the Turks advance on Montenegrin territory. — Accounts from Dalmatia represent that the position of the Montenegrins is quite desperate. Their forces are entirely broken and dispersed. — At St. Louis a grand jury report in favor of re-enacting the social civil law. — The fast train on the Pennsylvania Railroad will be withdrawn on Monday, and the schedule of May 15th restored.

**The Market Laws.**  
We would respectfully suggest to the Board of Aldermen the necessity of restoring the old regulations in regard to forestalling in the market. They worked well—when they were enforced—and then repealed by the late Board done in the face of honest protests, was without rhyme or reason. As it is now petty speculators elbow produces out of the market and citizens are often compelled to pay two or three prices for all kinds of produce.

**The Thermometer.**  
From the United States Signal Office at this place we obtain the following report of the thermometer, as taken this morning at 7:31 o'clock:  
Augusta, 77; Charleston, 78; Corsicana 74; Galveston, 83; Indianola, 86; Jacksonville, 89; Key West, 86; Mobile, 81; Montgomery, 79; New Orleans, 83; Norfolk, 73; Punta Rasa, 83; Savannah 81; St. Marks, 81; Wilmington, 78.

**Another Thief Caught.**  
Sometime yesterday Haywood Howard stole from the residence of Edward Smith a pair of boots and pants and not being satisfied with his haul from Smith he relieved Nathan Suber of a vest, hat, knife and \$3.00 in currency. Smith and Suber started out on a search for these goods and found them on a schooner about to leave port, and on which Howard had engaged passage. He was arrested and before Justice Van Amringe who sent him to jail in default of a \$100 bond in each case.

**Died Last Night.**  
Houston Monroe, the colored railroad hand who lost both of his legs some weeks ago by jumping from an outgoing train, and who has since been at the City Hospital, died last night from the effects of injuries received. The crushed limbs were successfully amputated and in this respect, we understand, the patient was doing well, but his death is said to have resulted from some internal injuries, occasioned by some wounds in his back, of which he did not speak until it was too late.

**The Fall Circuits.**  
The ridings for the fall circuits of the Superior Court are as follows:  
1st District—James L. Henry.  
2d " Riley H. Cannon.  
3d " Mills L. Eure.  
4th " William A. Moore.  
5th " Augustus S. Seymour.  
6th " Almond A. McKay.  
7th " Ralph P. Buxton.  
8th " William R. Cox.  
9th " John Kerr.  
10th " John M. Cloud.  
11th " David Schenck.  
12th " David M. Fulcher.

**Effects of the Heat.**  
We are reliably informed that on the line of the W. C. & A. R. R., between Florence and Columbia, the effects of the rays of the sun was so great and the heat therefrom so intense during the early part of this week that the bars of iron on the track in one section had become warped almost into the shape of a bow. Luckily the fact was discovered in time to prevent any accident.  
Nearly a similar occurrence, we are informed, happened on the Pee Dee (treble day before yesterday. But for the vigilance of the section master and the carefulness of the engineer of the train due at the time no harm was done to anything or anybody.

**The Biggest Thing.**  
A grand excursion is to leave this city on the 3d of July for Cleveland Springs, returning here on the 6th. Every arrangement has been made for a good time. The Anson Guards will go up and there will be a grand ball at the Springs. Special arrangements have been made for board at very low rates and as the fare is only \$6 it will prove one of the "cheapest" on record. A special feature of the occasion lies in the fact that Governors Vance and Hampton and Judge Fowle are expected to speak at the Springs on the 4th. The excursion is given for the benefit of the Anson Guards, to assist them in the purchase of uniforms.

**Rattle Snake Killed.**  
The hands employed on Messrs. Alex Sprunt & Son's naval store yard, North water street, killed a rattlesnake yesterday which measured between three and four feet in length and had four rattles and a button. His snakeship was snugly coiled away between two barrels of rosin and signified his displeasure at being disturbed when the barrels were moved, by striking at one of the yard hands. Fortunately the man escaped but the snake did not for he was immediately demolished so to speak and the music of his rattle silenced forever.

**The Colored Female Preacher.**  
Rev. E. A. Williams is the name and title of a colored female preacher who delivered a sermon last night at Christian Chapel to a very large congregation and who will preach again next Sunday afternoon in St. Stephen's Church. She has been regularly appointed to the pastoral charge of (Orangeburg (S. C.) circuit, the said circuit being under the jurisdiction of the A. M. E. Church.

**Excursion to the Coast.**  
The steamer Underhill has been engaged for the excursion of the Hanover Light Infantry to Smithville and the Blackfish Grounds on the Fourth. Full particulars relative to the arrangements of the committee, of which Balaam Fuller is Chairman, will appear in our advertising columns hereafter.

**Notice—Schedule B Tax.**

This is the cheapest chance ever offered to the people of this section to witness the beautiful scenery of Western North Carolina. All wishing to avail themselves of Horace Greely's advice will "Go West" on this occasion.  
A Grand Ball will be given under the management of Prof. Agostini, in which the Anson Guards and Charlotte military will participate.

**Misses Burr and James' School.**  
Yesterday we were fortunate enough to be among the spectators who had assembled at the school rooms of Misses Burr and James to witness the calisthenic exercises of a class of forty of their pupils and listen to the reading of compositions by the young ladies. It was a rare treat and one that we will long remember. The exercises of the evening were opened by the reading of compositions, and where all showed such marked ability it would be invidious to particularize.  
The compositions were read in the order in which they are named and were listened to with much interest by every one in attendance.  
Woman's Influence, by Miss Mary Hardwicke.  
Self Sacrifice, by Miss Mary Ambler.  
Closing of School, by Miss Katie Barlow.  
The Old North State, by Miss Sarah Lippitt.  
Morning and Evening, by Miss Sallie Huggins.  
Life, by Miss Lydia Schenck.  
Music, by Miss Lina Hall.  
Indians, by Miss Meggie Meares.  
Little at First, Great at Last, by Miss Mal Cowan.  
After the reading of the compositions, the calisthenic exercises were begun, the class going through over two hundred movements and keeping perfect time with the music which accompanied the drill. The exercises have long been a portion of school instruction in the northern cities, and are recommended by the leading physicians of the country, as they are healthful without being violent. At the conclusion of the calisthenic drill a series of object lessons were given to a number of primary classes, which were highly interesting. These children are taught by prepared forms, and it is surprising with what accuracy and facility they answer. Objects they meet with in daily life are perfectly known and described, the materials of which such things are composed, from what kingdom obtained, &c. In short, it seems to be a capital method of teaching young children to think by means of oral and object teaching without the aid of text books.

**Edible Mushrooms.**  
In the paper on "Mushrooms," etc., in the last number of your Monthly, I think Mr. Julius A. Palmer, Jr., uses the name of "Dr. Curtis, of South Carolina," for that of the great mycologist, Dr. Moses A. Curtis, of North Carolina, in connection with letters written to Mr. Sprague on "Mushrooms." Whether that is so or not, I am safe in saying that during our late war Dr. Moses A. Curtis wrote a work on "The Edible Fungi of North Carolina," illustrated with colored drawings by his son (I believe the Rev. Charles Curtis), and this manuscript work is still in existence. It is the result of Dr. Curtis' botanical investigations, as well as of his personal experience, as to which of the mushrooms are fit to eat. Many times, I am told, the good doctor had uncomfortable symptoms after trying a new mushroom, but you may be sure he did not stop until he learned more about it. His researches were begun in the war with a view to furnish such information to his people as would enable them to recognize edible mushrooms, and so supplement the poor diet so universal among even the better classes, but I believe he never cared to publish the work. I deem it but justice to the memory of Dr. Curtis to make this statement. THOMAS F. WOOD. Wilmington N. C. April 30, 1877. Cool but not always collected—an ice bill.
