WILMINGTON, N. C.

WEDNESDAY, OCTOBER 31, 1877.

VIEWS AND REVIEWS.

Blondin made a great fortune by his rope walking. A few years ago he went into the wine trade and lost all his money. Now he returns to his old business, and says he has a presentiment that he will lose his life by a fall.

Mr. Archibald Forbes, British war correspondent, has come to high honor. When in Bulgaria the Czar called upon him to narrate what he had seen, and Queen Victoria has also expressed her wish that he should give her a personal account of his experience.

Ireland has lately lost a splendid specimen of a prelate in the person of Dr. Moriarty, Roman Catholic Bishop Kerry, a man of creeds and politics. He was attacked with paralysis while consecrating the chapel attached to Lord Kenmare's house at Killarney, and never ra!lied.

During the past year the consumption of cotton reached the highest point ever attained in this country, while the value of cotton fabrics exported has, despite low prices, increased \$7,000,000 within two years, or from \$3,090,000 for the fiscal year ended June 30, 1875, to \$10,180,000 for the fiscal year ended June 30, 1877.

A queer question is that which agitates New York society as to whether the Turks or the Russians' wounded shall receive help from them, or whether each shall be helped through a special organization. Except in rare cases the "barbarous Turks and the "unfeeling Russians" draw on national lines in their hospitals. One of the New York societies carries the Crescent and Cross, the other the Red Cross, so that each bears a symbol that should lead its collowers to a broader kind of charity than that which stops to inquire the nativity and faith of the wounded and suffering soldier.

A French convict ship, the Navarino, was announced to sail on October 3 for New Caledonia with 400 prisoners on board. So fatal are the conditions of such a voyage that a careful inspection is made of the brisoners before their departure, lest any among them should be of a weakly constitution, as in that case the result of the transit would be certain death. The convicts are kept between decks in cages each of which contains about twenty prisoners. Their limbs are free, at any rate, at starting; but, as they are liable to be ironed for any act of insubordination, it is probabe that this infliction is sometimes added to their sufferings. Each convict is allowed one hour's exercise on deck.

Prominent Cubans in New York are reported by the Tribune to have unbosomed themselves to a representative of that paper on the subject of the capture by the Spanish forces of Don Tomas Estrada. President of the Cuban Republic. One of these considers that the capture of Estrada is a severe loss to the Cuban army and people, but that "it will not affect greatly the prospects of the revolution." Another donbts the truth of the report, as he had information that a lieutenant-colonel of the Cuban army, of the same hame as the President, had been captured in the neighborhood where the capture of the President is reported to have been effected. pain is evidently about to try a conciliatory policy for the reduction of the longontinued rebellion of her Cubau subjects, and proposes to return property conscated on account of the owners' treason if the recusants submit within four months.

aby show now in progress in Horticultural Hall, in that city, that on Tuesday it crowd of ladies and gentlemen, while the adies and gentlemen of the smaller growth were wandering about the hall, running into everybody, tumbling down, getting epiagain, laughing, crying, and having good time generally. The triplets sang. their little songs to delighted listeners; the fat boy, turning the scales at eighty-four pounds, smiled complacently at the gazers the little ebony twins peeped over the edge of their cradle and wondered what all the nosse and confusion were about. A curiosity was added yesterday in the shape of a child with one black a nd one we eye. Altogether-it was a happysmiling crowd, and things moved merrily all the day long. The entries now amount to two hundred and ninety-four, and one may judge of the popularity of the show from the fact that five thousand four hundred and ten tickets were taken Thursday at the door. New accessions to the full ranks are expected, and new voices will be joined in the prolonged chorus arising constantly from the tunefu

and untuneful throats of the younger gen

The Boston Advertiser says of the great

THE NEWS AND COURIER.

The Charleston News and Courier has entered upon its tenth year under the control of the present proprietors, Messrs Riordan & Dawson. The paper dates from 1803, in which year it was established. We congratulate the present proprietors upon the position their enegetic labors has attained for their paper, for the good they have done in the past, for their present position and assured usefulness, and for the bright future which opens ahead.

OUR STATE GEOLOGIST. We trust that this officer will not for-that North Carolina has a Cape Fear section and that one of its component parts is New Hanover county, in which is situated the commercial emporium of the State and its largest city. He has CARPETING-New Styles, Best Goods, rendered little or no official service in this important section for years, and yet no portion of the State offers a more inviting field for the labors of such an officer. He promised some of our leading citizens last spring that he would then pay us a visit, and would especially examine the then and yet recent and interesting discovery of human bones on ex-Sheriff Black's plantation on Middle Sound. But whether of his own volition or by contrary direction of the Agricultural Department at Raleigh, he went West where he has been much of his time for the past two or three years, to the neglect, it seems to us, of the East.

We are not of those who have sought to get rid of Prof. Kerr, because, as some hold, he is in efficient. He has been strongly attacked in each successive Legislature on this ground and by leading men. It is held that it is his duty to go forward upon the rough highways and in the lonely by-ways of the State and arouse, by lectures and by close-mixing with the masses, a renewed interest in agriculture, instead of spending so much time in the shady and easy places of his laboratory at Raleigh. We are of the same opinion and in this we are sustained by thoughtful farmers generally. The very officer he holds implies this. It is easy to speak occasionally in our cities. It is more laborious and useful to keep in the field of active service.

The old saying, that "a mare is a horse but a horse is not a mare," has been put in legal shape by a decision in the Criminal Court in Baltimore, last week. Two young men were tried on an indietment for the larceny of a mare, valued at \$100. The evidence showed, however, that the animal was a horse, and not a mare, and the defendants were acquitted. They were, however, convicted of stealing a

It has become very common for ladies of the Russian nobility in the large cities of the Empire to offer their diamonds to the public treasury, and wear as ornaments buttons torn from the uniforms of slain officers and soldiers.

Prince Jerome Napoleon, who stands for a Corsican constituency, is by no means inclined to part with his title. He objects to his political bed-fellows calling feature of the school, the Principals, after him Citizen Bonaparte.

Secretary Sherman, ex-Secretary Mc-Culloch, and others, will give their views in regard to the resumption of specie payments in the November-December number of the North American Review.

There is Danger Ahead

When those usually active little organs, the kidneys, are neglectful of their duties and grow sluggish. Fatty degeneration, Bright's disease, diabetes and other dangerous maladies, are the result of neglect to remedy this inactivity by medicinal means. When the all important Ametions of the kidneys are imperfectly discharged, those organs need stimulating, and the best possible agent for that purpos: -since it performs its office without exciting them-is Hostetter's Stomach Bitters, which, in combination with its tonic and cathartic properties, possesses valuable qualities as a diuretic. Both kidneys and bladder are strengthened by it and the vigor which it imparts to them, and No trouble to show goods. Call and examthe gentle but effectual impulse which it ine stock, style and prices before purchasing gives to their operations, is the best possible elsewhere. guaranty against their becoming diseased? The Bitters are invaluable in other respects was filled to repletion with a wondering as well as the above, since they remedy general debility, uterine troubles, chills and fever, dyspepsia, constipation, gout, rheufert, Transparent, Picture and Chromo

Miscelaneous.

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, scarcely larger than a a minute Granule, scarcely larger than a mustard seed, that can be readlly swallowed by those of the most sensitive stomachs and fastidious tastes. Each little Purgative Pellet represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to the large people who have not tried them are their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect: but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce a most searching and thorough, yet gently and kindly operating, cathartic.

\$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, ate without disturbance to the constitution, diet, or occupation. For Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High-colored Urine, Unsociability and Gloomy Forebodings, take Dr. Pierce's Pleasant Purgative Pellets. In explanation of the remedial power of my Purgative Pellets the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress. Age does not impair the properties of hese Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a Laxative, Alterative, or Purgative, is indicated, these little Pellets will give the most perfect satisfaction to all who that their action upon the animal give the most perfect satisfaction to all

They are sold by all Druggists at R. V. PIERCE, M. D., Prop'r,

By an immense practice, extending through a period of years, having within that time treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness. To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as the climax or crowning gem of my medical career. On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harman medical circumstances, act kindly and in harman medical circumstances. mony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under A POSITIVE GUARANTEE. If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures in thousands of cases, "I feel warranted and perfectly safe in risking both my reputation and my money on its morits.

The following are among those diseases in which my Favorite Prescription has which my Favorite Prescription has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhea, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or falling of the Uterus, Anteversion and Betroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Femals Weakness, and very many other chronic diseases incident to woman not mentioned here. In all affections of this nature, my Favorite Prescription works cures—the marvel of the world. This medicine I do not extol as a cure-all, but it admirably fulfills a single-mess of purpose, being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it de harm, in any state or condition. Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book

of over 900 pages, sent, post-paid, on receipt of \$1.50. It treats minutely of those diseases paculiar to Females, and gives much valuable advice in regard to the management of those I FAVORITE PRESCRIPTION SOLD BY ALL DRUGGISTS.
