The Recent Planetary Displacement. In view of the interest which attended the recent conjunction of Mars and Saturn, it may be well enough for the public to know something of the distances of the stars from each other and from the sun.

Dried Fruit. The dried fruit trade of North Carolina is one which yields a large revenue to the State. For the past three months there has been an average of one car load of fruit a day, brought over the Carolina Central Railway.

Appleton for December. The article in Appleton's Journal for December which will be considered the freshest, and most distinctly a departure from customary magazine examples, is one entitled "An Artist on Art."

A Pearl. We were a town to-day a beautiful pearl formed exactly in the shape of a hen's egg, which was taken from the mouth of a clam on Wrightsville Sound some two or three years ago by a lady of this city.

River and Bar Improvements. The following communication from Hon. A. M. Waddell, Representative from this District, to Mr. A. H. VanBokkelen, President of the Chamber of Commerce, which we have been permitted to publish, will be found of peculiar interest to the people of the Cape Fear Section:

HOUSE OF REPRESENTATIVES, Nov. 12th, 1877. A. H. VANBOKKELEN, Esq., President Chamber of Commerce.

Sir:—After consultation with the Light House Board I have to-day introduced a "Bill to provide for the re-establishment of Light Houses on Cape Fear River," asking an appropriation of fifty thousand dollars to restore and improve Bald Head Light and construct such other lighthouses, or place such other lights as necessary on the river from Bald Head to Wilmington.

You will doubtless see these gentlemen when they visit Wilmington, whence they will proceed, after making their examination, down to Galveston, Texas. In regard to our river and bar improvements I have to inform you that the Committee on Commerce have resolved not to report the River and Harbor Bill until the regular session; but we hope to get it through early in the session, and to authorize the Secretary of War to use the money as soon as the bill passes.

I am trying to make ours a special case on account of the critical condition of the work, but candor compels me to say that I see little hope of having it considered separately from other works. I fear a bill to that effect would be "ridden" to death with amendments including all sorts of river and harbor improvements, to say nothing of the "Goose to snare a gopher" order of works.

Nothing Better FOR SUNDAY'S DINNER. Best Choice cuts 12 1/2 cents. Pork and good Sausages. Leave orders with I. W. KING, Currier's Row.

HOPE FOR ALL. Consumption is generally supposed to be an incurable disease. Why? Because medical men, who of all others should have been the last to encourage such an unphilosophical and dangerous a supposition, have insisted upon and propagated it with a persistency which seems almost incredible in the light of science and of truth.
