Sunday Morning after a Battle Lasting all Night.

LONODON, Nov. 18-An official Russian despatch, dated Vernan-Kaleh to-day says: "The Russian carried Kars to-day mine last week from a fire damp exploby storm. The battle preceding the capture began at 8 o'clock last night and terminated at 8 o'clock this morning. Our trophies and losses are at present unkown."

A Russian official despatch, dated Bogot, Saturday, Nov. 17, says: "News has just been received that a detachment of Cossacks and infantry succeeded in driving the Turks out of Rosalie Pass by turning their fortified positions on Moragaidiah. The Turkish camp there was captured. Gen. Skobeleff, during a skirmish on the night of the 16th instant, received several contusions from fragments of shell. He had already received similar contusions on the night of the 15th. His wounds, however, are not dangerous, and he continues to direct the fire maintained against the positions."

A report is current in Constantinople that the Russians have made an assault on Plevna and been repulsed.

LONDON, Nov. 19 .- A despatch to the Standard from Sophia reports that the Russians, on Friday, attacked Etropol and the Turkish positions at the entrance of the Orchanie defile and were repulsed with heavy loss.

says it seems to be believed at Constanti- have been 93 years of age on Christmas nople that Osman Pasha can hold out till day. the beginning of December. Russia is urging Servia to co-operate in the war, in view of the operations for the relief of Plevna which Menemet Ali is expected to commence during the last week in Novemb r.

The Times' correspondent at Belgrade telegraghs: "Gen. Horvatovics has informed the Servian Government that if ti wishes to join in it should do so immediately, as the Turks are throwing up strong intrenchments mounted with heavy Krupp guns all along the eastern frontier, and also are concentrating troops near Clissoura and Tainova, and may any day determine on invasion.'

GENERAL EUROPEAN NEWS.

London, Nov. 19-A dispatch from Berlin this evening says that a Pole bas been arrested on suspicion of intending to attempt the assassination of Emperor William and Prince Bismarck, and that a judicial investigation has been instituted to ascertain whether the whole affair is a hoax or whether the prisoner really entertained the murderous design. A special dispatch from Berlin says:

"The Pole, suspected of designs on the lives of the Emperor and Prince Bismarck, ear of corn which is surrounded at the was arrested at a railway station, but not as was at first reported, at the one at which the Emperor arrived on his return from hunting. The affair caused great excitement, as the first erroneous reports | shuck which was formed as usual, were to the effect that the man had been taken in the act of firing at the Empéror. The police have received information of the plot, which is attributed to Polish ultramontanes, from an outside source. and are looking out for the prisoner's supposed confederates.

An important debate is expected in the French Senate to-day. An interpellation will be addressed by E. Andreau de Kerdnel to the Ministers as to how they have instructed officials to act with regard to the electoral inquiry voted by the Chamber of Deputies. It is thought that after the interpellator is answered all seetions of the Right will support an order of the day approving the statement which the government makes, and expressing a desire to uphold the prerogatives of each of the public powers.

The conservative papers say this proceeding is designed to express the Senate's confidence in President MacMahon and enmake way for a sincerely conservative, but more moderate Ministry. The organs of the Left consider that the proposed interpellation conceals a snare and is dangerous and unconstitutional.

The Français (the Duc de Broglie's organ) reports that President MacMahon, at his reception on Saturday expressed a firm determination to reman faithful at his post, defending social order so long as he receives the support and co-operation of the

The Moniteur (organ of the Duc Decazes), is absolutely certain that the official journal of Tuesday next will announce the acceptance of the resignation of the Ministers. Nothing definite, however, has been decided relative to the composition of the new Cabinet. The constitutionalists hesitate to accept the list of Ministers which has been proposed, and would pre-fer to have some Ministers taken from the Left C ntr . President MacMahon does not : ppea disposed to follow this advice. The Mon teur adds :—"In this state of affairs the people must not be surprised to find the rumor of the Marshal's resignation again current."

A despatch from Paris reports that Gene al Grant will dine with M. Emile de Gi ardin, the celebrated journalist, on

November 27. A despatch from Alexandria announces that the King of Abyssiuia has written to General Gordon, accepting the terms of

peace proposed by the latter. The News' correspondent at Alexandria says, however the report of the conclusion of peace with Abyssinia is authentic; it

comes from General Gordon himself. The British Post office authorities have concluded a contract whereby the Cunard Inman and White Star steamship lines will have the sole carriage of mails to the United States from December 1.

Ex-Judge John B. Hoffman Dead. WHEELING, W. Va., Nov. 18-The Hon. John B. Hoffman, late one of the Judges of the Supreme Court of Appeals of West Virginia, died at Clarksburg this morning. He resigned his seat upon the Office, Washington, D. C. bench in June, 1876, owing to ill health.

Mining Disasters.

SCRANTON, Nov. 18-On Saturday, at the Diamond mine in this city, George Bask, miner, and Jas. Johnson, laborer, were instantly killed by a fall of rock. The Place Carried By Storm on They had just fired a blast, and were just about to begin, work when a section of the breast, Consumption, or any disease rock over two feet thick fell upon them of the Throat and Lungs. A proof of that without a moment's warning. Johnson's head was severed from his body.

The fire which originated in Germyn's sion is still raging. A large number of workmen are fighting the flames, but the work is of a difficult nature owing to the unsafe condition of the roof, and to the elieve any case. Try it.

Little Prospectof an Early Adjourn-

Washington, Nov. 18 — The prospect of and adjournment next Tuesday grows less an less promising. The House will be ready; the Senate will not. In the upper chamber the supporters of the Silver bill, the friends of the Democratic contestants, and those in favor of the confirmation of the President's appointments, will all vote against an early adjournment. The members of the House are extremely anxious to get away, as most of them came expecting a short session.
