There is a great deal in a kiss. Adam's fist kiss of Eve must have been a queer sessition—like the feeling of a man who instate an oyster. In ancient Rome, a iss was a religious ceremony. The near- that was chronic. est friend of a dying person "received his soul" by a kiss, for the soul was supposed to leave the body through the lips. Pliny thinks the Roman woman began to degenerate when they kissed everybody miscellaneously. Among the early Christians a kiss was the "seal of prayer." It was a sign of treachery in Judas, the betrayer. In our times a kiss means a good deal-from the kisses between two young ladies to the kisses recorded in the following stories. Here is number one:

"A tender swain reproached his fair me with letting a rival kiss her hand—a het which she indignantly denied. 'But saw it.' 'Nay, then,' cried the offended ir one. 'I am now convinced that you not flove me, since you believe your in preference to my word."

Number two is also sharp and pithy "A gentleman kissed a lady's hand in a t of gallantry. She deliberately drew Why do you do that?' he asked. 'Oh,' be replied, 'I never wear soiled gloves' And I, said he, picking it up and putting in the fire, 'don't like to see dirty things ying about.' "

Obstructing Nature,

instead of aiding her in her efforts to recuerate, is obviously not the way to get wel! then one is sick. Yet this is precisely the burse pursued -of course unwittingly-by lesons who are continually dosing themselves with powerful mineral drugs for some halsdy with which they are afflicted. Such baseful medicaments rather tend to retard becovery than to hasten it. How much more *asible are they who employ the gently acting but thoroughly efficient restorative, Hostetter's Stomach Bitters, which, unlike the drugs referred to, is eminently wholesome and safe; and, instead of injuring, improves the tone of the stomach and recreates health and vigor in the broken down syslem. Indigestion, liver complaint, constilation, kidney and bladder ailments, and theumatism, yield to its corrective influence, and it is the remedy and preventive ar excellence for intermittent and remittent fevers and other disorders bred by miasma tainted air and water. It is, moreover, a superb appetizer.

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo

The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valu-able roots and herbs, and concentrate them into a minute Granule, scarcely larger than a mustard seed, that can be readily swallowed by those of the most sensitive stomachs and fas-tidious tastes. Each little Purgative Pellet represents, in a most concentrated form, as much cathartic power as is embedied in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in elect: but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce a most searching and thorough, yet gently and kindly operating, cathartic.

\$500 Reward is hereby offered by the pro-prietor of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or in-

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Billious attacks, Pain in remouth, Billous attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High-colored Urine, Unsociability and Gloomy Forebodings, take Dr. Pierce's Pleasant Purgative Pellets. In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that their action upon the animal that their action upon the animal economy is universal, not a gland or tissue escaping their sanative im-press. Age does not impair the properties of hese Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a Laxative, Alterative, or Purgative, is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

WOMAN

many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness. To designate this natural specific compound,

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as the climax or crowning gem of my modified correct. On its more as a posimedical career. On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under A POSITIVE GUARANTEE. If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures in thousands of cases, I feel warranted and perfectly safe in risking both my reputation and my money on its
