We mean business and will mark every article at least such a price that cannot fail to satisfy any and all who anticipate making any purchases in our line and would not, for the benefit of our patrons in the county, that they may rely on any other store, they favor us with being promptly and as faithfully filled as if they stood at the counter.

LIVER

This important organ weighs but about three pounds, and all the blood in the body (about three gallons) passes through it at least once every hour, to have the bile and other impurities strained or filtered from it. Bile is the natural purgative of the bowels, and if the liver becomes torpid it is not separated from the blood, but carried through the veins to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased, and Dyspepsia, Indigestion, Constipation, Headache, Biliousness, Jaundice, Chills, Malarial Fevers, Piles, Sick and Sour Stomach, and general debility follow. MRS. J. H. PAINKE'S GREAT LIVER PURGATIVE, a remedy for torpidity, causes the liver to throw off from one to two ounces of bile each time the blood passes through it, as long as there is an excess of bile, and the effect of even a few doses upon yellow complexion or a brown dirty looking skin, will astonish all who try it—they being the first symptoms to disappear. The cure of all bilious diseases and Liver complaints is made certain by taking HEPATINE in accordance with directions. Headache is generally cured in twenty minutes, and no disease that arises from the liver can exist if a fair trial is given.

SOLD AS A SUBSTITUTE FOR PILLS BY ALL DRUGGISTS.

Price 25 Cts. and \$1.00.

LUNGS

The fatality of Consumption or Throat and Lung Disease, which sweep to the grave at least one-third of all death's victims, arises from the Opium or Morphine treatment, which simply stupefies as the work of death goes on. \$50,000 will be paid if Opium or Morphine, or any preparation of Opium, Morphine or Prussic Acid, can be found in the GLOBE FLOWER COUGH SYRUP, which has cured people who are living to-day with but one remaining lung. No greater wrong can be done than to say that Consumption is incurable. GLOBE FLOWER COUGH SYRUP will cure it when all other means have failed. Also, Colds, Cough, Asthma, Bronchitis, and all diseases of the throat and lungs, strained or inflamed, are cured by the Hon. Alexander H. Stephens, and Ex-Gov. Brown of Ga., Hon. Geo. Fea-body, as well as those of other remarkable cures in our book, from to all at the drug stores, and be convinced that if you wish to be cured you can be by taking the GLOBE FLOWER COUGH SYRUP. Take no Troches or Lozenges for Sore Throat, when you can get GLOBE FLOWER SYRUP at same price. For sale by all Druggists.

Price 25 Cts. and \$1.00.

BLOOD

Great mistakes are made in the treatment of all diseases that arise from poison in the blood. Not one case of Scrofula, Syphilis, and Swelling, Ulcerous Sores and Skin Disease, in a thousand, is treated without the use of Mercury in some form. Mercury rots the bones, and the diseases it produces are worse than any other kind of blood or skin disease can be. Dr. FEMBERTON'S STILLINGIA or QUEEN'S DELICIOUS is the only medicine upon which a hope of recovery from Scrofula, Syphilis and Mercurial diseases in all stages, can be reasonably founded, and that will cure Cancer. \$50,000 will be paid by the proprietors if Mercury, or any medicine, is not purely vegetable and harmless can be found in it.

Price by all Druggists \$1.00.

GLOBE FLOWER COUGH SYRUP and MRS. J. H. PAINKE'S GREAT LIVER PURGATIVE for sale by all Druggists in 25 cent and \$1.00 bottles.

L'Ariseo Club Hop to-night.

The off-shore signal is displayed to-day.

Senator Bryan was again reported as sick on Wednesday.

Jennie Hughes' Dramatic Combination is booked for this city, says the *Dramatic News*.

The Raleigh *Observer* has been awarded the State printing. The *Observer* got 74 votes and the *News* 29.

Truck gardeners are preparing for an early vegetable season; some of them report having green pea bushes two inches above the ground.

No further damage is reported from the freshet up the river. The water has fallen ten feet, but is yet very high, being forty-five feet above low tide.

Bananas were selling remarkably cheap to-day from on board the schooner *Julia Elizabeth*. The sale will be continued to-morrow when those in the fore hatch, the best in the entire cargo, will be offered.

The Tarboro *Southerner* says: Large numbers of colored men are leaving this county for the Rock Quarries near Rocky Point, in Pender county. About 200 left last week. We understand the work lasts until July next.

We welcome gladly the new issue of \$5,000 and \$10,000 Treasury notes. It is so inconspicuous nowadays to carry one's money around in small bills, and this thoughtfulness of the government fills a want long felt.

Women have a great respect for old age. Watch a young lady seated in a street car between a young gentleman and an elderly one; and see how determined she is not to accommodate the latter by crowding against him.

The Steamship *Raleigh* leaves Baltimore to-morrow morning at daylight, and the *Foley* follows the *Raleigh* to-morrow afternoon. At least so says a telegram received here by Captain A. D. Cazaux, the agent, this morning, from the agents of the line in Baltimore.

The only excitement on Market street to-day was the running away of a couple of oxen hitched to a cart loaded with fodder. The wind was blowing from across the tail of the cart and wafted the perfume of the fodder over the oxen and it is thought they were trying to catch it.

New Enterprise.

Capt. A. D. Lippincott will, we understand, open a mercantile agency in this city, in a few days, for the sale of a large variety of useful articles. He will represent some of the best houses in Baltimore and New York. We wish him an abundant success in his undertaking.

The Best and Most Economical.

Housekeepers are giving the cheap, adulterated baking powder a "wide berth" and why? Because experience has taught them that an absolutely pure, full strength, full weight article, such as DOOLEY'S YEAST POWDER, which never fails to produce light, wholesome, and nutritious biscuits, rolls, muffins, waffles, and griddle cakes of all kinds, is by far the cheapest and most economical.

Marine Items.

The schooner *Allegro*, Captain Keller, from Weymouth, Mass., reported in yesterday's Review as being off the bar, heading in, with bulwarks stove in and fore-sail gone, arrived in port to-day. She is loaded with guano for the C. C. Railway and consigned to Messrs. E. G. Barker & Co. The damage to the vessel was the result of the recent storm at sea.

The Sbr. *Ans*, Captain Shelley, from Village, Turk's Island, with bat guano, bound to New York, which put in below in distress a few days ago and afterwards grounded in coming up the river, succeeded in reaching the city this afternoon in a leaking condition. The whole cargo will have to be taken out and the vessel perhaps, be hauled upon the marine railway for repairs. The schooner is consigned to Messrs. Harris & Howell.

CITY COURT.

Before Mayor Fishblate this morning Scipio Hill, colored, was the first arraigned, charged with the same old complaint, drunk and disorderly. The Mayor said ten days in the city prison.

Sylvester Artis, colored, was arraigned on the charge of drunkenness; being the first offence His Honor imposed a fine of only \$2.50.

Obadiah Jenkins, whose appearance before the City Court is becoming quite frequent, was again brought up on the charge of being drunk and disorderly. His sentence was \$15 fine or twenty days in the city prison.

This concluded the exercises for the day the Court adjourned.

Flowers for the Table.

Set flowers on your table—a whole necessity if you can get it, or but two or three, or a single flower—a rose, a pink, a daisy, you have something on your table that reminds you of God's creation, and gives you a link with the poets that have done it most honor.

Flowers on the morning table are especially suited to them. They look like the happy waking of creation; they bring the perfume of the breath of nature into your room; they seem the very representative and embodiment of the very smile of your home, the beauties of good morning; proofs that some intellectual beauties are in ourselves or those about us, some Aurora (if we are so lucky as to have such a companion), helping to strew our life with sweetness, or in ourselves some masculine wilderness not unworthy to possess such a companion or unlikely to gain her.

Planetary Phenomena.

A very interesting conjunction of the planets Jupiter and Venus takes place on the evening of the 28d instant. Venus will be below, or south, of Jupiter, and when at their nearest approach the two bodies will not be more than one degree apart. The new moon will also be found a little to the east, or left of the two planets. On account of their nearness to the sun, however, the spectacle of the conjunction of these brilliant planets, with the crescent moon in attendance, will not be so striking as if it had been visible under more favorable conditions. Jupiter sets that evening at 6 o'clock, and the phenomenon will be best seen about half an hour earlier. On the last day of the present month there will also be an occultation by the moon of the Pleiades or Seven Sisters. The moon will begin passing across this cluster directly after sunset that evening, and as she will be about nine days old, the disappearance of the stars behind her advancing dark edge will be very interesting when viewed through a small telescope, or even a good opera glass.

Lippincott's Magazine.

Nothing in Lippincott's Magazine for February will be read with more interest than the sketch of the great Hungarian artist, Munkacsy, by his intimate friend, Mr. John R. Tait, of Baltimore. Some of Munkacsy's finest works are owned in America, and his *chef d'oeuvre*—Milton Dictating to His Daughters—has attracted great notice at the Paris Exposition, and been purchased for the Lenox Library in New York. The text is embellished with a finely-engraved portrait.

Dr. Felix L. Oswald gives a graphic description of the great barranca of Jorullo; and Edward King sketches with his usual vigor "Hungarian Types and Austrian Pictures." Both these articles are well illustrated.

"Women's Husbands," a series of brilliant sketches of American society, is continued, as is also Miss Olney's delightful novel, "Through Winding Ways." "The Colonel's Venture" is a Virginian story, by Rebecca Harding Davis; and "Carrie Fane," a pleasant New England sketch, by Mary N. Prescott.

There could hardly be a more pathetic story of real life than that which is set before us with full details in "The Latter Days of the Blennerhassets." "In a Cabinet," by Frederic M. Bird, depicts the Roman emperors and their families in connection with numismatics. There is a lively sketch of Lord Beaconsfield's career, and a pleasant account of the school at which the "Daughters of the Legion of Honor" are educated; with other short and amusing papers that help to render the number highly readable and attractive.

Yesterday I had such a bad cold that I could not speak. I used Dr. Bull's Cough Syrup and to-day I am as well as ever. It cost me only 25 cents.

Found Dead.

Ned Parsley, a very aged colored man living on Masonboro Sound, was found dead in his house on yesterday by neighbors who went to administer to his wants. Old Uncle Ned has been sick for some time past and his death was not at all unexpected for. He lived by himself and when he was able made a living by fishing. His wife died very suddenly about eighteen months ago and was found lying on the floor upon his return from fishing.

Supreme Court.

In the Supreme Court on Wednesday appeals from the 3rd district were called as follows:

H Brunhill & Bros vs J H Freeman, et al, from New Hanover; arguments commenced on day previous concluded. A T and J London, for plaintiff, and D L Russell, for defendants.

City of Wilmington vs Henry Nutt, from New Hanover; argued. D L Russell, for the plaintiff, and George Davis for defendant.

W J Sutton and wife vs James T Schonwald, et al, from New Hanover; argued. W S and D J Devane, for plaintiff, and A T and J London, for defendants. Pending argument in this case, the court adjourned.

Lookout for the Hawk!

Such of our lady readers as may own canary birds are notified to be on the lookout, for a pair of sparrow-hawks have been seen hovering over the city during the past day or two, in several instances attacking birds in their cages and killing them. Two young ladies were passing down Market street, near Fourth, yesterday afternoon, when they observed a hawk alight on the cage of a bird, as it was suspended on the piazza of a residence. They made haste to frighten the hawk away, but before this could be done it had seized the poor little trembler. Owing to the prompt aid of the young ladies, however, the birds escaped with its life, but was almost completely denuded of its feathers in the struggle for life.

Early this morning, a valuable bird, belonging to a lady residing on North Third street, was attacked by one of these hawks and killed. The hawk, however, did not carry off the bird but after a flight returned, evidently seeking the prey it had slaughtered, whereupon the gentleman of the house brought out his gun, and succeeded in killing the hawk. Its companion was seen to fly off at about the same time.

Exports Foreign.

We have been kindly furnished by Col. Jno. L. Cantwell, Secretary of the Produce Exchange, with the following facts and figures in regard to the exports of this port foreign during the year ending with the 31st of December 1878, as compared with 1877:

The number of vessels from foreign ports arrived and cleared amount to 308 with a tonnage of 95,921 tons, against 249 vessels with a tonnage of 80,072 tons for the year 1877.

The exports foreign were as follows:

Lumber—\$9,16,949 feet in 1878, against \$8,92,018 in 1877.

Shingles—2,394,383 in 1878, against 3,412,655 in 1877.

Spirits turpentine—107,152 casks in 1878 against 78,605 in 1877.

Rosin—516,270 barrels in 1877, against 451,281 in 1877.

Tar—31,176 barrels in 1878, against 35,048 in 1877.

Crude turpentine—1,420 barrels in 1878, against 1,087 in 1877.

Pitch—331 barrels in 1878, against 537 in 1877.

Cotton—76 282 in 1878, against 50,185 in 1877.

The above are on'y leading articles of exports. As will be seen, while the losses are light in comparison the gains are very flattering indeed. The increase in 1878 over 1877 is 24,431 feet lumber, 28,547 casks spirits turpentine, 64,997 barrels rosin, 362 barrels crude turpentine, and 26,097 bales cotton.

The losses are 1,018,272 shingles, 3,572 barrels tar, and 206 barrels pitch.

A very rough estimate will place the value of the decrease in shingles, tar, and pitch at \$9,000 and the increase in lumber, spirits turpentine, rosin, crude turpentine and cotton at \$1,299,975.

The total valuation of all articles of exports foreign during the year 1878 amounts to \$6,801,148.12.

An Income Without Care.

By the combination method of operating in stocks a handsome income can be secured without care. Capital in any amount, from \$10 to \$50,000, may be used with equal proportionate success. By this system Messrs. Lawrence & Co., Bankers, N. Y., pool the orders of thousands of customers, of various sums, into one vast amount, and co-operate them under the most skillful management, dividing profits monthly. Each shareholder thus obtains all the advantages of the largest capital and experienced skill, and the percentage of the profits is very great; \$20 will pay \$100 in 30 days; \$250 will return \$1,825, or 7 1/2 per cent, on the stock, and so on, as the market varies. P. D. Drake, Esq., publisher Rock Island (Ill), *Daily Argus*, made \$104.15 on an investment of \$20, in October. Hundreds of others are doing even better. Messrs. Lawrence & Co.'s new circular has "two unerring rules for success in stock operations" and full information, so that any one can deal in stocks. All kinds of bonds and stocks wanted. New Government bonds supplied. Deposits received. Apply to Lawrence & Co., Bankers, 57 Exchange Place, N. Y. City.

Good Cheer for Consumptives.

There is a form of Consumption which was better indicated by the old fashioned name of "decline." It is the dreaded scourge of some parts of the Southern States, claiming more victims every year than are swept away by the most terrible visitations of the yellow fever. The malady arises from the inability of the patient's system to take up and assimilate the nourishing ingredients of the food that is eaten. Some years ago the medical profession, with remarkable unanimity, agreed that Cod Liver Oil contained the most concentrated and easily absorbed elements of nutrition. If the nauseous taste and smell of the oil could be avoided it would unquestionably be the most sovereign remedy that ever shed a healing blessing on the human race. And these repulsive properties are successfully removed by the union of pure Cod Liver Oil with the Hypophosphites of Lime and Soda in Scott's Emulsion. The combination is a most elegant one, pleasant as sweet milk in flavor, congenial to the stomach, and acting directly as a powerful yet gentle tonic of the brain and nervous system.

Found Guilty--Suit for Damages, &c.

AT THE LAST Term of Quicken Market A Court, Judge Sharp, presiding, quite an interesting case was read from the civil docket. It seems that L. J. OTTERBOURG, of "Men's Wear Depot" in this city, was arraigned for selling Clothing, Hats, Furnishing Goods and Linen Collars below a proper margin, the same proving disastrous to others doing a similar business. After arguments by the Attorneys on both sides, Defendant was all wed to testify, To-wit: "In consideration of the general money depression throughout the country PRICES were reduced NOT BELOW A LIVING MARGIN, but in proportion to aforesaid hard times, &c. Jury retired, returned immediately with the verdict of guilty, not of the charge out of the "JUST LIBERALITY TO THE PATRONS OF MEN'S WEAR DEPOT." We congratulate friend OTTERBOURG on the above achievement that he may sell a hundred SUITS and SUIT every body, is all the damage we wish him.
