VIEWS AND REVIEWS.

Mr. Thomas Lord, who a year ago achieved the proud distinction of becoming the husband of the famous Mrs. Hicks is 86 years of age.

Judge Hilton is still prosecuting his search for the missing remains of A. T. Stewart, while the public has almost for gotten the fact that millionaire's bones were stolen only a few weeks ago.

The Social Science Association of Boston publishes the startling, if true, statement that several mills in New England are used in adulterating sugar, soda and flour. land, The locations of these mills are not given.

The Princess of Wales "having with great regret heard of the severe distress prevailing at Sheffield, and gratefully remembering the kind reception which the Prince of Wales and herelf received from the inhabitants in 1875," has sent £50 for the relief of the poor of that city.

It is said that Mr. Wm. H. Vanderbilt has determined to build a magnifi. cent residence corner of Fifth avenue and Fifty-second street, New York. He paid \$200,000 for the ground and will spend teen and a half per cent. of all the deaths \$2,000,000 for the building, exclusive of were caused by these two diseases. interior decorations. The new structure is to be a miniature of the French Tuileries, and the railroad king will live in as much style as a king of France.

The Washington Post says the demonetization of silver is already beginning to work disastrously in England. London complains of scarcity of gold. The idea is beginning to penetrate the min is of European financiers that one metal can not fill the place of two; that there is not gold enough to meet the requirements of business. It will not be long before the single standard nations will be more anxious than we are for a commission to establish the ratio between gold and silver.

Little by little the lie about the United States ve sel of war, Richmond, gets revealed. 'She was not going to be sent abroad any way.' She is being prepared at the Boston yard at an expense of \$200,000, solely to take Grant and his suite around the world! The Grant party has been enlarged to Fred and family, John Russell Young and his servents, and to Adolph E. Borie and family, the whole trip to cost the Government over \$200,000, which is to te lavished on Grant & Co., contrary to the law.

Two little boys in Ceylon have found a sapphire weighing, says the report, two whole pounds; its value is estimated at \$50,000, and it is, if the report is true, the largest sapphire yet found. Ceylon was : amous place for sapphires in old times, so that those who know its history are not surprised that this stone should have been picked up there. A writer in the Telegraph (London) recalls that the island has for ages been a vast treasure store for gems, and that even the energetic rapacity of the

The ball was at its height; the Prince led one of his partners to the table, followed by some of the most distinguished guests. Two chairs, however, remained unoccupied. A heated parson, supporting a still more heated partner, descried the vacant places, and immediately swooped down upon them. In vain the courtiers nodded, winked and beckoned; his reverence meant supper, Charles Beresford, always fertile in resource, dropped on his knees and, crawling under the table, he pulled the parson by the leg. It was of no avail; the reverend gentleman merely kicked out, an l continued his attack upon the good things intended for royalty."

### PROSPECTIVE INCREASE IN. IMMI-GRATION.

A New York letter states that the agents of all the great European steamship lines are preparing for a large inand summer. Letters from their agents at English as well as the continental ports have assurances all looking confidently in that direction. The causes at work to justify them are the wideis somewhat better and may recover. ### SCARLET FEVER AND DIPHTHERIV

The prevalence of scarlet fever and diphtheria throughout the country, says the Times, has naturally caused an uneasy feeling which the mortuary reports from some of the cities are not calculated to allay. In New York the death rate rose last week to 26,4 from each thousand of the population, and of the 555 deaths reported 53 were from scarlet fever and or principles, and though differing from 33 from diphtheria. That is, about fif-

In Cincinnati the proportion was much | ences greater, no less than twenty-seven per cent, of the 234 deaths during the last two weeks of December being attributed to these sffections-51 to scarlet fever and 14 to diphtheria. Boston, Chicago and other cities show a similar prevalence of the winter scourge among children relief the ordinary remedies often prove utand it is therefore all the more gratifying to observe that the reports from the Health Officer in Philadelphia do not indi cate an excessive mortality from these causes. Last week, out of 258 deaths 9 were from scarlet fever and 15 from diphtheria, the two together making about nine and a half per cent. of the whole. In the corresponding week of last year there were 18 deaths from diphtheria and 9 from

proportion is somewhat larger the actual number shows very slight increase.

During the fourteen weeks ending Jannary 5 last, in 3,949 deaths from all causes 154 were from scarlet fever and 173 from diphtheria. In the same fourteen weeks a year ago there were 3,827 deaths from all causes, 134 from scarlet fever and 175 from diphtheria. The close correspondence of these figures is remarkable. In the foureen weeks ending with January 5, 1878, 1,688 minors died; in this year 1,710, an increase of 22, which is almost exactly covered by the increase of 20 in the deaths from scarlet fever.

### THE NORTHERN SETTLERS.

Thursday's Charlotte Observer contains a full and very gratifying report of the convention of Northren men in the South held in that city the day previous. There were some seventy-five or eighty delegates present. The most interesting feature was the presentation of the report of the Committee on resolutions, consisting of five delegates, three of whom were old Roman adventurers failed to exhaust originally from New York, one from Pennsylvania and one from Iowa.
