THE DAILY REVIEW.

VOL. 3. WILMINGTON, N. C., THURSDAY, JANUARY 23, 1879. NO. 302

LOCAL NEWS.

New Advertisements. P. HEINBERGER—Pianos and Organs. OTTERBOURG—"That Husband of Mine" Side and Phantom Dance. A SHIRAZ—Bargains. S. JEWETT—Christmas is Over. J. C. MOSES, Druggist—Toilet and Fancy Articles.

Motto for the married—Never despair. Men who avoid female society have dull conversation and gross tastes.

Don't tell gossipy or silly stories even if you know them to be true.

There are four new houses now in course of construction at Burgaw.

If you must speak upon a difficult point, be the last speaker, if you can.

Those who are honest "do the best policy," are half way to being rogues.

Three drops of carbonic acid in a tablespoonful of water, applied to a corn a few times will cure it.

Many beat about the wall with a hammer, fancying at every blow that they hit the nail on the head.

"When I shall be a man!" is the poetry of childhood; "When I was young!" the poetry of old age.

The people of Burgaw are taking the initiatory steps towards having the town regularly incorporated.

The members of "Our Boarding House" Combination arrived this morning and are registered at the Purcell House.

The worst tyrant in the world is the woman who thinks she is superior to her husband and lets everybody know it.

One of the printed rules in a female seminary is, that none of the pupils shall eat slate pencils, chalks, soapstone, or coal.

Pride is never so effectually put to the blush as when it finds itself contrasted with an easy but dignified humility.

A young girl generally loses her freshness by mingling with fashionable society, as a bright stream does by mingling with these.

The severity of the winter increases the sufferings of the poor, and renders assistance doubly essential. Remember the poor.

Fred Hill, colored, received his commission this morning from Gov. Vance as Captain of the Cape Fear Light Infantry of this city.

To remove pin-worms in the face, place over the black spot the hollow end of a watch-key, and press firmly. This forces the foreign substance out, so that it may be brushed off, and is a cure.

A good book and a good woman are excellent things for those who know how to appreciate their value; there are men, however, who judge both with much misjudgment, from the beauty of their covering.

What Wilmington needs is manufactures. An enterprising and public spirited citizen who has more felices than money suggests that a factory for the manufacture of violin strings, mince meat and bologna sausages be erected immediately as there is plenty of the raw material in this city at present to run it for years.

The Phantom. The Phantom Dance to be given at McGinney's Hall, under the auspices of Prof. Agostini, to-morrow evening, will be the "event" of the season. Participants of the dance will be requested to dress in white dominoes, but no masks will be allowed. See advertisement in another column.

A Conjunction. This evening Jupiter, Venus and the moon will be in conjunction. As the new moon is only one day old the three planets will be quite low in the west, and must be looked for as soon as the sun sets. The spectacle will be one of great splendor, and to those possessing telescopes will be intensely interesting.

Go North, South, East or West, and you will find coughs and colds at this season of the year. A remedy which never fails to give satisfaction is Dr. Bill's Cough Syrup. Price 25 cents.

You always get DOOLEY'S YEAST POWDER from your grocer in cans, quarter pound, half pound, one pound and five pound, in weight. No test has ever shown a single can to be short by the veriest trifle. Another thing about this baking powder is, its absolute purity, strength and exactness of composition.

Personal. We were pleased to meet with Mr. Abram Greenwald, this morning, a son of Mr. N. Greenwald, who has returned to this city after an absence of three years. He returns to cast in his lot with the inhabitants of Rock Spring water.

Robbery of Eggs. A youth from Onslow county, who came to the city this morning with a load of eggs and chickens, was robbed of a box of eggs while delivering a portion of his load which he had sold. A colored man was arrested for the theft but evidence was not sufficient to convict.

The Reel. A telegram was received this morning from the Sidbury Manufacturing Company, the manufacturers of the hose reel ordered by the Wilmington Steam Fire Engine Company, to the effect that the railroads were snow bound and that the reel would be shipped as soon as the road would take it.

Commodore Cheeseborough. The owner of the steam yacht Passport arrived in the city this morning, accompanied by his wife, and is registered at the Purcell House. He left his yacht, the Tourist, at Newbern, blockaded by ice. Commodore Cheeseborough is anxious to sell the Passport and place the Tourist, which is a much finer craft, on the line. His stay among us will be but of short duration.

Canine Worshiper of Bacchus. A very fine pointer dog, the property of a gentleman in this city, stepped into Brock's Exchange, this morning and lapped up some beer which was in a waste bucket. The dog soon commenced to stagger and the owner swore "by Jimmy" that some miscreant had poisoned him. But, upon inquiry and investigation, it was found that the dog was drunk and after an hour or two of sleep he walked out looking as though he had sat, or was willing to sit, on a stool of repentance for two weeks. We have never heard of a case of the kind, and would like to have one similar "trotted out." No, hold on, we had lost sight for the time being of Joe Caldwell or Pete Wilson who can "trot out" a dog of any size, who did the same thing "before the war."

The Library Magazine. The first number of which has just reached us, is unique in its form and typographical appearance. Even though its contents were dull it is so attractive to the eye that one must delight in turning its pages, which present a varied array of choice selections from the latest foreign magazines and reviews. Sir Erskine Perry, many years a resident of that country, discusses "The Future of India;" Richard A. Proctor treats of "Supposed Changes in the Moon;" T. Adolphus Tollope writes of the Italian Poet, Guarini; there is a learned and entertaining article on "The Phoenicians in Greece;" and of lighter but not trivial articles there are: "Theatrical Makeups and Blunders;" "The Happy Valley—a picture of life in India;" "An Imperial Pardon," which gives a wonderful picture of peasant life in Russia; "Some Gossip about Leicester Square;" "A Woman's Love"—a Slavonian Story; "Christmas in Morocco," etc.

To all who have been longing for the era of the low priced, first-class literature, not the least attractive feature of The Library Magazine is its low price, \$1 per year, or 10 cents a copy. The American Book Exchange, 56 Beekman st, N. Y.

Poisons and Antidotes. The following list gives some of the more common poisons and the remedies most likely to be at hand in the case of need. The directions may be old, but in case you get a good, strong dose of poison down you will not object to a cure on account of its age:

Acids. These cause great heat and sensation of burning pain from the mouth down to the stomach. Remedies, magnesia, soda, pearlash or soap dissolved in water; then use the stomach pump or an emetic.

Alkalies. Best remedy in vinegar. Ammonia. Remedy, lemon juice or vinegar.

Alcohol. First cleanse out the stomach an emetic, then dash cold water on the head and give ammonia (spirits of hartshorn.)

Arsenic. In the first place evacuate the stomach, then give the white of eggs, lime water, or chalk and water, charcoal, and the preparation of iron, particularly hydrate.

Lead, white lead, and sugar of lead. Remedies, alum, cathartic, such as castor oil and epsom salts especially.

Charcoal. In poisons by carbonic acid gas, remove the patient to open air, dash cold water on the head and body, and stimulate nostrils and lungs by harts-horn, at the same time rubbing the chest briskly.

City Court. The case of the affray between two colored "gemen" continued from yesterday was disposed of this morning by the discharge of one of the parties upon payment of costs and the finding of guilty as to the other party with the sentence of \$5 fine or ten days in the City Prison; it appearing to the satisfaction of the Court that the parties were guilty of disorderly conduct rather than an affray.

W. B. Frost, mate of the Dr. Brig Zingue, who was arrested last night in Paddy's Hollow for disorderly conduct, was the next case on docket, and enhanced the proceedings of the court by his insolent bearing and manner towards the officers of the Court, remarking to the policeman who was giving in his testimony that he must not be about it. The circumstances of the arrest, according to the testimony of the policeman who made the arrest, were as follows: That while he, the policeman, was attempting to arrest a notorious character by the name of John Watson, a colored sailor, this man Frost came up and attempted the rescue of Watson, whereupon the Knight of the Club and Star immediately released Watson and grabbed Frost whom he succeeded in escorting safely to the Guard House. The Mayor pronounced sentence in the case of \$20 fine or thirty days in the City Prison. The defendant then in a very surly manner said he would take the thirty days.

Matthew Gillespie, a small colored boy, arrested yesterday for fighting on the street, was discharged.

John Watson, the colored sailor referred to above, sauntered up to the City Hall this morning with the most nonchalant sort of air possible and was immediately arrested and arraigned upon the charge of disorderly conduct last night. This is the same individual who has appeared before Mayor Fishblade on several occasions within the last month upon various charges, and who, only a few days ago was released from serving a thirty days sentence upon promise to take ship, and leave the port.

The Mayor, after hearing the evidence in this case, ordered a fine of \$25, or thirty days in the city prison to be entered against the defendant. And when the policeman attempted to remove the prisoner to a cell, he made violent resistance, which somewhat disturbed the serenity of the court for the space of a few minutes, but several policemen seizing the obstreperous prisoner, he was hustled out of the Court room and into a cell below in short order.

This finished the proceedings for the day, and the Court adjourned.

Unfortunate and in Distress. A young man not over twenty-three years of age, who lost his eyesight in a stone quarry in Georgia, applied for and was furnished lodgings at the Guard House last night, and this morning, through the kindness of the railroad officials, was furnished with transportation to Weldon. Money was also given him through the charity of some of our citizens. His home, he states, is near Lynchburg, Virginia.

Application of R. G. Rankin was not granted.

Application of Dixey & Griffith, and John Carroll, for licenses to retail liquor were granted.

The Chairman reported having received from the State Auditor warrants on the State Treasurer for \$1,208.24, which had been paid to the County Treasurer.

Resolved, That this Board will endeavor to procure, if necessary, the passage of an act by the General Assembly now in session, which will cover the privilege tax now required of merchants and others by the Revenue law now in force to bear with equal burden on all merchants and others mentioned in sec. 12, schedule "B," of said law.

It was ordered by the Board that the Attorney procure the re-enactment of chapter 227, Laws of 1866-77, to provide for the levying of special taxes for the years 1879 and 1880.

Balaam Wade was appointed Overseer of Roads for Federal Point Township, in place of Bruce Freeman.

Ordered, that J. F. Garrell be appointed Superintendent of the House of Correction of New Hanover county for one year from January 1st, 1879, under the stipulations and conditions contained in a contract entered into between him and this Board.

Mr. Garrell then came forward and qualified as such Superintendent.

Ordered, that the Board of Finance meet on the 1st Wednesday in February, at 7 o'clock.

The Board then adjourned to meet at half-past 2 o'clock on Monday, February 2d, 1879.

No Fire. So far as we are able to ascertain, the alarm of fire this afternoon was caused by the ringing of the "turnout bell." The cry of fire was started by school children near the corner of Fourth and Dock streets. A very diligent search failed to locate a fire and the members of the fire department were allowed to disperse.

In good society we are required to do obliging things to one another; in general society we are required only to say them.

Benjamin West said it was a kiss from his mother made him a painter. How our fashionable young ladies must have been kissed by their mamma!

The golden everlasting chain described by Homer as reaching from heaven to earth, and embracing the whole moral world, was no fable. That chain is love.

In nine cases out of ten the wisest course is, if a man cheat you, quit dealing with him; if he be abusive, quit his company; if he slander you take care to live so that no one will believe him.
