VIEWS AND REVIEWS.

If music has charms to soothe a savage why in the mischief don't Her Majesty send her opera troupe to Zulu land?

The Dublin Nation thinks it worthy of note that during Gen. Grant's visit to Ireland he never said one word complimentary to the Irish in the United States.

The Emperor of Germany has sanctioned the publication of the political correspondence of Frederick the Great. 1 is expected to comprise about thirty volumes, of which one or two will appear every year.

Owing to the melting of mountain snows and unusually heavy rainfalls, the Lake of Geneva reached a higher level last month than it has been known to attain at this season in the forty-one years during which its fluctuations have been noticed.

The Beston Journal asserts that an industrious reporter present at the dinner of the Papyrus Club, in that city, inepired by the spirit of the occasion, was writing a portion of his report when he was astonished to find that in order to make his manuscript complete it would be necessary to carry off a portion of the table-cloth.

nate English officers are, if caught, promptly shot and then burned. The latter process prevents them from going to Heaven, which is their chief object in killing Englishmen. This treatment will. it is thought, moderate the patriotic enthusiasm of the children of the Ameer.

Marcellus Eniry, editor and senior proprietor of the Daily Commercial, Bangor, Me., died recently after a long and painful illness. He has been prominent for years in his State as a Democratic writer and leader. For his conservatism during the late war his office was gutted by a mob, and he narrowly escaped personal injury.

Connecticut's State Constitution prohibits the negro from voting. Why, Mr. Blaine, Mr. Hoar, Mr. Edmunds, what does this mean? According to Mr. Hoar, the "whole power of the American peoto cut this statute out of her book. Mr Edmunds should take a look at the awful manner in which Northern States obstruct the negro voter and defy the amendments.

The judges of the United States Supreme Court are rather sour over the enactment of the law allowing women to appear in their awful presences as attorneys, and one of them the other evening told some ladies who were quizzing him about it that they intended to turn thair consulting room into a nursery, where women who wanted to argue cases before them could leave their babies.

The Duke of Cumberland settled or the Princess Thyra at their marriage sum of about \$40,000 a year, so long & marriage lasts; if she survives him she wi have about \$36,000 a year, with ar establishment, a silver service for fifty persons, and carriages, six horses, &c She keeps her own property and jewels and is to have all she may acquire, bu the Royal Hanoverian jewels return to the house of Hanover at her death.

Gen. Rosser, chief engineer of the Northern Pacific Railroad, has taken advantage of the thick ice on the Missouri River to lay a railroad track across over which he is transporting the heavy materials which will be needed in the spring for the hundred of miles of new roadway which the company has made arrangements to build during the coming season. It was doubted whether the ice Flexible Hip Corset would bear the enormous loads, but the experience is perfectly successful.

> In a recent conversation Secretary Schu z gave a curious illustration of what might be the effect of the "two years" clause in the Bancroft naturalization treat as now construed by the German Government. Secretary Schurz said if he should conclude to return to Germany with the intention of remaining there more than two years, say to pursue literary occupations, and his son happening, after the expiration of the two years, to reach the age of twenty, the latter, notwithstanding that he was born in this country as the son of an American citizen, would be compelled to enter the German military service, as the American citizenship of his father would have vanished, under the interpretation of the German Government. This is a very strong point, as showing the necessity of concluding, as early as possible, a new naturalization treaty with Germany.

THE WIFE OF BRIGNOLI SE-CURES A DIVORCE.

In the Supreme Court of New York city, Saturday, the wife of Brignoli, the tenor, was granted a divorce from her husband, on the allegation that he had during the year 1878 broken his marriage vows on several occasions. Mrs. Brignoli was a South Carolinian by birth, a Miss Sallie Isabella McCullough by name, of excellent family, and a singer by occupa tion, and was married to Brignoli in Canada in 1870. As Brignoli's farewell concert and benefit took place in New York on Friday last, so that he might take Saturday's steamer for London, it was deemed desirable to have the decree signed and served on Saturday. Therefore it was done. It is Brignoli's intention to remain across the waters. Mrs. Brignol resumes henceforth the freedom as well as the name of her maidenhood.

NEW ORLEANS FILTHY.

A New Orleans resident correspondent of the Philadelphia Times reports the city unusually lively-plenty of businessstreets thronged with strangers and every body bent on getting ready for the Mardi-Gras mummeries, but says he:

The sanitary condition of this city, however, is exceedingly bad and not calculated to impress visitors very favorably toward us. In all my experience here of nearly a quarter of a century the streets, gutters and general drainage of the place have never been in such a bad and disgustngly filthy condition Everything that is calculated to cause miasmatic vapors, poisonous exhalations from cesspools, grabage, decaying matters and nastiness of the most dangerous character, is lying around loose in every quarter of the city As I am one of those persons who have, from experience, good reason to telieve that the germs of yellow fever and pestilence of all kinds remain in the localities where they once appear, and can be aroused into activity by impregnation from virulent importation, as well as such Afghan fanatics who attempt to assassi- a filthy condition as now prevails, I am ate English officers are, if caught, sure that we shall have another epidemic unless the city is put in a good sanitary condition at an early day. The streets are more disgustingly filthy, pestiferous, malarial and poisonous that at any time in my recollection. As the Board of

humbug Conkling. It is inconceivable how men of spirit, such as sit on both sides of that exalted body, have so long consented to sit tamely and quietly under the insufferable airs and insulting taunts rle" must be used to force Connecticut of the so-called Lord Roscoe. General Gordon, it is true, on one memorable occasion undertook to cut the comb of this pretender; but Gen. Gordon labored under this disadvantage, that whatever he said in vindication of himself, that involved the use of justly severe personal language, was sure to be tortured by the infamous Radical press into a reappearance in Congress of the slavedriver's buil-whip. General Burnside, as a ruly loyal man and Radical, is able to say what he pleases without any political significance attaching to it, and it is pleasing to know that he put the few words commanded by him, Saturday, to such good use as to get in the eigithet "liar" as applied to Conkling before he could be gavelled into order and silence. Now, if he were to punch the head of the conceited Senator from New York, the act might be undignified and even reprehensible, but there are those who would be glad of it no less, and perhaps of which the nerves receive their due apporthe experience would do Mr. Conkling himself a world of good. There is, however, no probability whatever that the quarrel will proceed any further, and still less that it will assume the form of any

THE PEACH CROP IN GEORGIA.

personal collision.

The Macon Telegroph says: The late sharp snap of cold weather, we think, gives good hope that there will be no failure in the peach crop the present year. We cannot recall any season where the blooms are more backward. Not a solitary blossom was to be seen even as low down as Pulaski county. It requires freezing weather af er a rainfall which congeals the water in the buds to destroy the embryo peach. \$1.00, Round Trip. Another curious fact in this connection is oct 23 . GEO. MYERS, Agent. worthy of mention. The latest peaches Samples from Baltimore bloom out first. So any one who expects an early harvest of fruit from those trees which put forth soonest is doomed to be disappointed.

Great progress has been made of late years in the development of this delicious fruit, which almost vies in importance with the cereals. Several varieties ripen alm st with the first advent of summer, and bring richly remunerative prices in Northern markets. Southern Georgia especially is turning her attention to the rsaring of early peaches, and thousands of hill-sides will soon be covered with peach orchards, whose blushing fruit will form a valuable addendum to the revenues of the farm.

The recent occasion of Senator Withers being called to the chair of the presiding officer of the Senate by Vice-President Wheeler, is said to have been notable for the reason that no Democratic member of the Senate from the South has been similarly honored since the war .- Petersburg Index-Appeal.

Quite a mistake, brother quill-driver; so far at least, we mean as, Senator Withers being the first instance in which a Democratic Senator from the South has been similarly honored since the war. Senator Ransom, of North Carolina, was called to preside by the last Vice President on more than one occasion, and Sens ator Gordon was likewise honored. But we should not consider it as high a compliment now, after the fraudulent Vice-President had called the colored Senator Bruce, from Missis ippi, to preside over the Senate on a previous occasion.

Honors are evidently easy with such a man as William Almond Wheeler, for he knows how little honor is attached to his occupying the exalted position of President of the Senate, which he now fraudulently

Although Cincinnati is not the l'aris of America it may very properly be called the Ham-burg.

MOUNSHINE.

The reverend gentleman was visiting at the house of one of his lady parishioners, when the little girl said. 'Mr-can you see two ways at once. and is you got honey or sugar on one side of your face?' 'Why, what do yon mean?' asked he. 'Why, ma says you've always got the eye in the sweet side of your face on her in church, Later in the day the abomination of desolation seemed to have settled in that child's heart. - Yonkers Gazette.

There was a paragraphist on a moral Toronto paper who swore a solemp oath that he would make a joke on the name of Bob Ingersoll or perish in the attempt. He shut himself up on Saturday evening and crawled forth Make no Mistake. on Monday morning pale. emaciated. and with a selemn look in his eyes and with the following item in his hand: 'They ought to spell his name' 'Bob Injuresoul.'

My sister says no man wich shoots pidgin-matches shall marry ber, but Health is comparatively powerless and theroughly incompetent to the task of taking care of the public health, we need not expect anything will be done to prevent a recurrence of the terrible experience of last year.

General Burnside deserves the thanks of all well-disposed men in the country, says the Petersburg Index-Appeal, for the eastigation administered by him in the Senate, Saturday, to the bully and fraud from New York, the red-headed fraud fraud from New York, the red-headed fraud fra no man wade want to marry her, I ed over any counter in this city. A solemn

took it a long for to fetch back a letter to her, jest for a flier. Next day wenever that girl herd the dore be ring she was jest wild cos she that it was her letter come, for her idee was that the pidgin wade leave it at the postoffice, or to be deliver by the letter carryers. But wen my moth r tole i er the pidgin must come thru the wirder, she went and thru up every winder in the hous, and it was a cole day, and Franky, that's the baby, took cole and come mity near peterin out -Little Johnny in the Fort Jervis Journal.

Nerve Inquietude and its Remedy. Restless nerves, at least those that are constantly so, are weak ones as well. The true way to tranquilize them thoroughly is to strengthen them. It may be, nay it very often is necessary to have recourse to a sedative or even an opiate, in dangerous cases of nervous inquietude, but the continued use of such unnatural palliatives, is greatly to be deprecated, Though not, in a restricted sense, a specific for nervousness, Hostetter's Stomach Bitters is eminently calculated to allay and eventually overcome it, a fact which the recorded experience of many zoes to substantiate. This inestimable tonic, by premoting digestion, assimilation and secretion, touches the three key notes upon which the harmony of all the bodily organs depends, and the result is that fresh stores of vitality are diffused through the system tionment, and grow tranquil as they gather
