Largest City Circulation.

Views and Reviews.

During his southern tour, Gen. Sherman will visit the University of Louisiana at Baton Rouge, of which institution he was the first President.

According to Dr. Hepworth, the Roman Catholic Church takes the best care of its clergy. If a man isn't good in one position, it puts him in another. The next best is the Dutch Reformed.

Mr. Dine of Indianapolis preserved for many years the pen with which his grandfather wrote a sermon on commercial honesty, and now Mr. Dine has used the same pen in forging a check.

The rivalry between the Gray and Bell telephones is likely to be fought out in Boston, where each company has begun a lawsuit to compel the other to cease the use of the disputed invention.

Gov. Zeb. Vance made his appearance in the Senate Thursday morning, and was cordially greeted by all his soon-to-be associates. Age does not seem to have staled his infinite variety, nor repressed in the least his infectious good humor and fellowship.—Washington Post.

The mint in New Orleans is in full operation, and the item says it is a great advantage to the trade of the city, as well as a good thing for those reduced in circumstances, as they have only to send their old plate to the mint to have it returned to them in bright dollars of the daddy.

The New York Herald publishes the startling statement that a large quantity of rags is yearly imported from Russia into this country. In view of the prevailing plague in that country, without feeling undue alarm, one might be excused for wishing that Russia would keep her rags. For the present we would rather buy by the bolt.

One-third of Chicago's population is German, and a nearly equal proportion of the public school teaching is done in the German language. The Board of

Education proposes to exclude all languages except English from the schools unless taught simply as accomplishments, and the Germans are holding public meetings in opposition to the measure.

Prince Bismarck is a great eater, but he cannot be called a delicate or scientific diner. Beer, champagne, turtle soup, boar's head, and a mess of mustard and raspberry jelly formed only a part of a repast in a day when he was recovering from a slight illness. He could, at one time, dispose of eleven hard-boiled eggs at a sitting.

The gas wells of East Liverpool, Ohio, furnishes a continual supply of light and heat to the town and as the gas costs nothing the street lamps are never extinguished. It is used almost exclusively for fuel, being conducted into the grates and stoves by pipes. For twenty years this has been going on, and there are no indications that the supply of gas is giving out.

A real telegraph has been invented by an English mechanical engineer. A writer in London moves his pen, and simultaneously at Brighton another pen is moved in precisely similar curves and motions. The writer writes in London, the ink marks in Brighton. The pen at the receiving end has all the appearance of being guided by a spirit hand. The apparatus is shortly to be made public before the Society of Telegraph Engineers.

The Railway Age puts the annual cost of working a Pullman car, including employees' pay, at \$4,000. To defray the cost of maintaining and running, let alone the profit, an average of seven berths a night must be kept up. The company keep up the discipline of their servants by means of a staff of inspectors, who report on the efficiency of the conductors, &c.

A certain resident of North Adams, Mass., recently buried his wife, a woman of unusual size, and a few days after the sad event a neighbor attempted a little in the consolatory line by remarking: 'Well, Mr. ———, you have met with a heavy loss.' 'Yes,' replied the mourner with a sigh, 'she weighed most 400 pounds.'

Only four more working days, and the Congress of the United States becomes Democratic.

The Republican journals, in view of the retirement of the party from the control of the government, are singing their death chant.

THE ALABAMA FINANCES.

The Alabama Legislature before adjourning authorized the substitution of six per cent. for the falling due eight per cent. State bonds. This will reduce the interest fund very considerably, as it is believed the sixes can be readily sold at par. An effort to reduce the tax rate of the State was beaten by one vote. A board of tax commissioners was appointed, with power to reduce the tax rate if after all the assessments are in, it shall be found possible to do so. The chances are that a reduction will be made.

A DISGRACEFUL FACT.

An all-night session of Congress has in almost every instance where it has been held, resulted more in the shape of a drunken orgie than it has for the good of legislation or the honor of the country. It is very seldom that either House of Congress has felt called upon by any of the demands of business before it to devote the late hours of the night to legislative affairs. On Monday night last, the 25th inst., the United States Senate, which is supposed to represent the dignity of the country, held an all-night session, which continued until nearly 5 o'clock on Tuesday morning, the 26th inst.

Of course, to men advanced in years, as most of the Senators are, the fatigues of an all-night session must be a great physical as well as mental strain upon them, and that they should need some sort of refreshment to sustain them is very evident. But it would hardly seem necessary that a refreshment which would produce beastly intoxication would be the best for the Senators or for the legislation of the country. On the night in question several of the Senators made frequent visits to the "cleek room," and some of them managed to work up a most disgusting drunk. Some of them remained in the Senate Chamber, where their drunken, incoherent utterances impeded instead of assisted the consideration of the subject before them, while others, too far gone to be of any earthly use, but with sense enough to know their condition, staggered off to their rooms. At one time so many had left that there was no quorum, and the President of the Senate directed the Sergeant-at-Arms to go and search them out and summon them to an attendance. It was only after they had been sent for the second time that a quorum was received for the transaction.

At 3 o'clock, on Tuesday morning, the Sergeant-at-Arms made a report that "Senators Davis, Morrell, Dawes and Anthony had reported in person. Senator Blaine promised immediate attendance; Senator Conkling would give no

assurance of attendance; Senators McDonald and Patterson were sick, and Senators Bayard, Butler, Hamlin, Barnum and Chandler did not open their doors."

Thirteen Senators had to be called, to their duty, many of whom refused to respond, and probably it would have been equally as well if all had remained at home were it not for the fact that a quorum was an imperative necessity. Just enough were collected to allow the work to be concluded, but the scene in the Senate Chamber is represented as being of the most disgusting and disgraceful kind.

We are glad that night sessions are not often necessary, and we hope for the honor and dignity of the nation that such scenes may not be repeated.

There is one feature connected with the affair, disgraceful as it is, which we hope may not be passed lightly over by the Senate. While the drunken members as a class made no attempt to insult or treat with contempt the mandates of the Senate it remained for Roscoe Conkling to not only snub, but actually to insult that body, by his language when summoned to attend. It is very evident that Conkling has but little regard for the courtesies and amenities due to his associates, or if he has he was far too drunk to know how to use them.

The True Way to Invigorate.

The true way to invigorate a feeble system is to infuse activity into the operations of the stomach, that wondrous alembic in which the food is transmuted into the constituents of the blood, the chief element of our inability. Hostetter's Stomach Bitters, because it accomplishes this end, is greatly to be preferred to many so-called tonics, useful indeed as appetizers, but inoperative as aids to digestion and assimilation. This sterling cordial, while it invigorates the stomach, healthfully stimulates the liver, bowels, and kidneys, ensuring the escape through the regular channels of effete and useless matter thrown off by the system, which is thus purified as well as invigorated by it. Its tonic influence is soon made manifest by an increase of vital energy and a more active and regular discharge of every physical function, and it has the further effect of rendering the system unassailable by malarial epidemics.

Appleton's Journal for 1879.

THE PROPRIETORS OF APPLETON'S JOURNAL will henceforth devote it exclusively to literature of a high order of excellence, by writers of acknowledged standing.

It is the growing habit of the leading minds in all countries to contribute their best intellectual work to the magazines and reviews; and, in order that Appleton's Journal may adequately reflect the intellectual activity of the time thus expressed, it will admit to its pages a selection of the more noteworthy critical, speculative, and progressive papers that come from the pens of these writers.

Fiction will still occupy a place in the Journal, and descriptive papers will appear; but large place will be given to articles bearing upon literary and art topics, to discussions of social and political progress, to papers addressed distinctly to the intellectual tastes of the public, or devoted to subjects in which the public welfare or public culture is concerned.

Terms of Appleton's Journal.—Three dollars per annum, in advance, postage prepaid by the publishers, to all subscribers in the United States or Canada; or Twenty-five Cents per number. A Club of Four Yearly Subscriptions will entitle the sender to an extra subscription gratis; that is, five copies will be sent one year for twelve dollars. Appleton's Journal and the Popular Science Monthly, for one year, for seven dollars, postage prepaid (full price, eight dollars). The volumes begin January and July of each year. Subscriptions received for any length of time.

LIVER

This important organ weighs but about three pounds, and all the blood in a living person about three gallons) passes through it at least once every half hour, to have the bile and other impurities strained or filtered from it. Bile is the natural purgative of the bowels. If the Liver becomes torpid it is not separated from the blood, but carried through the veins to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or dirty brown color. The stomach becomes diseased, and Dyspepsia, Indigestion, Constipation, Headache, Biliousness, Jaundice, Chills, Malarial Fevers, Piles, Sick and Sour Stomach, and general debility follow. Mercell's Globe Flower Syrup, a great discovery for torpidity, causes the Liver to throw off from one to two ounces of bile each time the blood passes through it, as long as there is an excess of bile, and the effect of even a few doses upon yellow complexion or a brown dirty look of the skin, will astonish all who try it—they being the first symptoms to disappear. The cure will bilious diseases and Liver complaint is more certain by taking HEPATINE in accordance with directions. Headache is generally cured in twenty minutes, and no disease arises from the Liver can exist if a fair trial is given. SOLD AS A SUBSTITUTE FOR PILLS BY ALL DRUGGISTS.

Price 25 Cts. and \$1.00

LUNGS

The faculty of Consumption or Throat and Lung Diseases, which sweep the grave at least 100,000 human victims, arise from the Opium or Morphine treatment, which simply stupifies as the work of death goes on. \$10,000 will be paid if Opium or Morphine, or any preparation of Opium, Morphine or Opium Acid, can be found in the GLOBE FLOWER COUGH SYRUP, which has cured people who were dying of the disease, but one remaining lung. No greater wrong can be done than to say that Consumption is incurable. GLOBE FLOWER COUGH SYRUP will cure it when all other means have failed. Also, Cough, Asthma, Bronchitis, and all diseases of the throat and lungs. Read the testimonials of the Hon. Alexander H. Stephens, Gov. Smith and Ex-Gov. Brown of Ga., Hon. Geo. Pendley, as well as those of other remarkable cures in our book, free to all at drug stores, and be convinced that if you wish to be cured you can be by taking the GLOBE FLOWER COUGH SYRUP. Take no Troches or Lozenges for Sore Throat, when you can get GLOBE FLOWER SYRUP at same price. For sale by all Druggists.

Price 25 Cts. and \$1.00

BLOOD

Great mistakes are made in the treatment of all diseases that arise from poison in the blood. Not one case of Scrofula, Syphilis, White Swelling, Ulcerous Sores and Skin Disease, in its progress, is treated without the use of Mercury in some form. Mercury rots the bones, and the diseases it produces are worse than any other kind of blood or skin disease can be. Dr. Pennington's STRENGTHENING and PURIFYING is the only medicine upon which a hope of recovery from Scrofula, Syphilis and Mercurial diseases in all stages, can be reasonably founded, and that will cure Cancer. \$10,000 will be paid by the proprietors if Mercury, or any ingredient not purely vegetable and harmless can be found in it. Price by all Druggists \$1.00. GLOBE FLOWER COUGH SYRUP and MERCCELL'S HEPATINE FOR THE LIVER for sale by all Druggists in 25 cent and \$1.00 bottles.

Wilcox, Gibbs & Co's

CELEBRATED FERTILIZER, THE MANIPULATED GUANO! The Best and Cheapest!

COTTON for GUANO!

In offering to you the WILCOX, GIBBS & CO'S MANIPULATED GUANO another year, we do so with the most perfect confidence that you will find it again the BEST AND CHEAPEST FERTILIZER in use.

It is no new article, requiring experiments to establish its value, but has been used for years with unbounded success, gaining in favor from year to year, until it is now accepted as the STANDARD FERTILIZER.

It has been our study, not to make it EQUAL to others but SUPERIOR, and for our success in these efforts we refer you to the many of your neighbors who have tested it, as well as to the thousands in the South Atlantic Cotton States.

This Guano is so well known that it is unnecessary to publish any certificates but we annex a few testimonials in our circulars only from Planters who have made special tests of it alongside the Peruvian Guano, as showing how it compares with Peruvian Guano, which has heretofore been generally esteemed above all other Fertilizers.

We will have only a moderate supply for sale and would request Planters to make their orders early.

Our Agents are authorized to sell the MANIPULATED on very favorable terms, payable in cotton next Fall. Jan 29-d&w JAS. T. PETTEWAY, Agent.
