No City Court to-day
 The warmest day of the season.
 For other locals see fourth page.

The mule is the bird that makes the shoe fly.
 Spring is here and the organ grinders are in bud.

The Cornet Concert Club were out serenading last night.
 The river is again getting quite low and rain is anxiously looked for.

The Fayetteville steamer *Gov. Worth* took a full cargo of freight up the river to-day.

If the beautiful Spring weather continues long, Sound parties will soon be the order of the day.

We are sorry to learn that Mr. J. M. Henderson's condition has not improved at all since yesterday.

Col. S. L. Fremont, who has been in the city for a few days past, left here last evening on his return Savannah.

The fine trotting horse which was advertised in the REVIEW was raffled last night at the Purcell House, and was won by Mr. J. W. Lamb.

An experienced boy says that he regards hunger and his mother's slipper as about the same, as they both make him holler.

Mr. P. W. Fanning the oldest white citizen of Wilmington, was 80 years old yesterday. Another old citizen, a native of New Hanover county, was 73 years old yesterday.

The steamer *Isis* now makes regular weekly trips between this city and Point Caswell. She leaves here on Tuesday and returns on Monday. This schedule will hold good until May when she will probably run twice a week.

The Hollman Opera Troupe are booked for the Opera House in this city on next Tuesday and Wednesday evenings, the 18th and 19th inst. They will produce here "H. M. S. Pinafore," and if the troupe is a good one they may rest assured of good houses.

Six seamen belonging to the Nor. Barque *Frogner* became unruly yesterday afternoon about 5 o'clock, when by and with the advice and consent of the Consul they were sent to the city prison and lodged there for safe keeping.

Since the above was written we learn that the Jack Tars have reconsidered the matter and agreed to go to work again when they were released from the lock up and taken aboard their ship.

Be on time; for prevention is better than cure. All Coughs and Colds and such affections of the throat and lungs as lead to consumption are cured by Dr. Bull's Cough Syrup. Price 25 cents.

Broken in Two.
 In raising the steamer *North East* she was broken in two and her engine and machinery are now lying at the bottom of the river. It is now thought that it will be the middle of next week before she will be raised.

If You Have Never
 Used DOOLEY'S YEAST POWDER get a package the next time you buy baking powder, and test it. After a few trials, we are confident you will give it the preference over all others. It is absolutely pure; every package is strictly full weight, and it never fails in making rolls, bread biscuits, cake, corn-bread, waffles, muffins and all similar articles, deliciously light good, and wholesome.

War and Gold—A hotel near based on gold prices. In order to accommodate both classes of travelers, the Grand Central Hotel, on Broadway, New York, is now kept on both plans, the American at \$2.50 to \$3.00, and the European at \$1.00, and upwards, per day. An elegant Restaurant, at moderate prices, is conducted by the Hotel.

The Wine for Consumptives.
 Consumptive persons are said to be greatly benefited by the use of Speer's Port Grape Wine. It seems to give nourishment when everything else fails, and physicians are prescribing it as a rich, nutritious wine. For sale by J. C. MUNDS, P. L. Bridgers & Co. and Green & Flannery.

To Open To-Night.

Compliments of the Carolina Club to the Editor of the REVIEW: We will be most happy to see you and your entire staff at our Rooms at 8:30 this evening. This is the way it reads. Of course we will be thereabout; at least a portion of us will and we'll help the "Carolinians" to inaugurate their handsome Club Rooms.

Said to be a Cure.
 One who has suffered with inflammatory rheumatism has handed in the following simple remedy, taken from a medical journal, in the hope that it may be the means of relieving some poor sufferer: Half an ounce of pulverized saltpetre put in a half a pint of sweet oil. Bathe the parts affected and a sound cure will, speedily follow.

A Commendable Munificence.
 Mr. Thomas Monk, gardener and dairyman, of this city, has donated four acres of land, situated a short distance from the National Cemetery, for the purpose of, and to be used exclusively as a Catholic Cemetery. The land donated is in every way an eligible one for the purpose, and is now being fenced in.

The Purim Ball.
 One of the grandest balls of the season was given last evening in Germania Hall by our Jewish friends in commemoration of the feast of Purim. Every one enjoyed himself or herself and is loud in praises of Messrs. M. Hanstein, I. Bear and B. Solomon, the projectors and managers of the ball. The grand march took place at 9 o'clock, and at 4 o'clock this morning the happy participants were whirling in the mazy waltz. It is said to have been the largest ball ever given by the Israelites in this city and will long be remembered by all who participated as one of the happiest occasions of their lives.

Election of Officers.
 At a regular meeting of the Wilmington Light Infantry, held at their armory last night, the following officers were elected for the ensuing year:
 President—F. H. Darby.
 Vice President—J. Wright Meares.
 Secretary—J. C. Munds.
 Treasurer—J. Theus Munds.
 Committee on Finance—Dr. G. G. Thomas, Lieut. Thomas C. James, Sergeant Harry Loeb.
 Committee on Applications—John L. Holmes, Jr., Corporal R. H. Grant and Lieut. J. W. Gordon.
 As will be seen this is a re-election in most of the cases.

The Committee at Charleston.
 The committee of the Southern railway and steamship association now in session in Charleston have made a considerable number of changes, all of which, with two or three exceptions, involve reductions. Between the exclusive lowering of classifications, "as well as of rates, freights will be generally a good deal cheaper. Among the articles affected favorably (to the consumer) by the changes may be mentioned groceries, the coarser grades of dry goods, sashes, blinds, &c. The specialties, such as rice, cotton, guano and phosphates, were not acted upon, being left to the decision of a conference of the representatives of the lines especially engaged in their transportation.

The Cutter Crawford.
 This vessel has not yet left the waters of the Cape Fear, but is at anchor in the stream opposite the Southern portion of the city. She is detained here, we learn, since the arrival of the *Colfax*, waiting for a boat which has been sent for her use, but which is now aboard the *Benefactor*, which has been delayed in her arrival by the breaking of a crank pin on her passage out. The *Benefactor* will probably be here on Thursday and the *Crawford* will then take her departure for her regular station at Key West, Fla. During her stay in our waters, the officers and crew of the *Crawford* have made many friends by their gentlemanly and courteous bearing, and they will leave with the best wishes of our people.

The Thermometer.
 From the United States Signal Office at his place we obtain the following report of the thermometer, as taken this morning at 7:31 o'clock:

To Lecture Again.

Col. Duncan K. MacRae, during his attendance at Robeson Court next week will, at the urgent solicitation of the citizens of Lumberton deliver his lecture on "Genius and Talent" in the Court House at the latter named place on Monday evening. Col. MacRae informs us that he will then withdraw from the lecture field altogether and devote his entire attention to the practice of his profession—the law.

The Zodiacal Light.

The Zodiacal Light has been unusually brilliant during many evenings in February, its vivid coloring making the surrounding heavens dark in comparison. This interesting phenomenon may be seen on any clear, moonless evening in March. It becomes visible about an hour after sunset, as a column of soft white light, the base of the cone resting on the part of the horizon where the sun went down, and the apex reaching to the Pleiades. The soft glow of the mysterious light differs from every other appearance in the sky, and no words can describe the ethereal delicacy, the filmy texture and softened brilliancy of this celestial visitor, as strangely incomprehensible as it is exquisitely beautiful.

Influenza and Pneumonia.

Many of our eastern counties have been visited the recent winter with a severe form of these diseases and they continue to prevail. Pneumonia has been generally of a high type and quite fatal. Influenza or catarrhal fever has been unusually prevalent in this city and in the surrounding counties, and has often run into pneumonia. Even when not complicated with inflammation of the lungs, it has, as a general rule, been painful, obstinate and persistent, demanding very decided treatment, as physicians assure us. The severe winter has been prolific of these catarrhal troubles and inflammatory affections of the lungs to an unusual degree, and of rheumatism also. Seldom have we had in this mild climate such sudden and marked alternations of temperature. One day cold and the next mild or even warm—the effect has been injurious to health, and caused much sickness.

The Revenue Cutter Colfax—Her Officers and Improvements.

The overhauling of the Revenue Cutter *Colfax* has made her almost a new craft. She is now a very handsome and attractive-looking steamer in her new suit and her apartments are very fine. She is 175 feet over all, and 168 feet on her water line. Her Captain's quarters are superbly fitted up with all modern improvements. The wardroom of the officers is a perfect beauty; each officer is supplied with a separate state-room, fitted up with an eye to comfort, utility and beauty. In her engine room there has been a very great change, and the improvements there are in keeping with the generally improved condition of the vessel. Her cylinder is four inches larger than the old one and is supplied with a new condenser, (surface and jet combined). The boiler is an improved one of the Scotch type and is larger than the one formerly used. The engine, machinery, etc., were taken out of the vessel, raised two feet and replaced. The *Colfax's* wheels are two feet larger than the ones taken out of her, the present ones measuring twenty-two feet in diameter. The vessel is now supplied with a new chart room and the wheel-house, which has been enlarged, opens into it. In going to Delaware the "old" *Colfax* made eight knots an hour, but in coming back the "new" *Colfax* made ten and one-half knots, under exactly the same circumstances as regards the weather and wind, but she labored under the disadvantages of green hands and new machinery or else she would have made quicker time. The consumption of coal is the same as formerly. The officers of the ship at present are Captain, Frank Barr; First Lieutenant, Fred Munger; Third Lieutenant, Jno. U. Rhodes; Chief Engineer, M. T. Chevers; Second Assistant Engineer, E. E. Weber. The *Colfax* is short handed as to her officers, but Capt. Barr will be supplied with his complement in a short time. The citizens of Wilmington were delighted to welcome Capt. Barr and his officers back to the bosom of the Cape Fear and sand hills of the old town. The REVIEW hopes they will live long and prosper and sends these good wishes down in a jug of the Rock Spring water.

"Old Marly" the very large brindle dog which was known to nearly every person in the city, died on Sunday morning.

Hotel Arrivals.
