The off-shore signal is flying again today.

Egg are retailing to-day for 10 cents per dozen.

The sun will rise to-morrow at 6:04 and set at 6:12.

In view of to-day's weather, we would advise our friends to keep the uister within reaching distance.

"I've seen that Pin-a-fore," said the fish to the small boy, as he nibbled the bait from his hook.

Sheriff Manning is in Washington City. He went thither to join in the festivities of the Randall men.

A happy mother of male twins enthusiastically refers to her treasures as her "sweet boy and boy."

Good nice black jack wood was being offered at \$2 per cord from the flats this morning. Cheap enough.

But few of our merchants have yet returned from the Northern cities while some of them have not yet gone.

The poor and humble, alike with the rich and powerful, find in Dr. Bull's Cough Syrup a true, tried and trusted friend. Price 25 cents a bottle.

The notes of the bagpipe are again heard in the land, and the small boy finds it inconvenient to keep in the house when the band begins to play.

The ice men are going around saying the ice is so thick they cannot cut it without being put to great expense, consequently ice will be dear next summer.

Mrs. Spertner advertises her removal in this issue of the REVIEW. In her new location she is better prepared to do work and has a large variety of patterns for our lady readers to select from.

We learn from good authority that the school bill which recently passed both houses of the Legislature failed to become a law because it was not signed by the presiding officers. This is to be regretted very much.

True Economy.
It has been found that the only true economy is that which stops the little leaks and saves in trifles. For instance, one saves in milk, butter, eggs and flour by the use of DOOLEY'S YEAST POWDER, which is made from the purest cream tartar, derived from grape juice. Good housewives have proved this by experience.

Receipts of Tar.
The receipts of tar to-day foot up 1,321 barrels. This is the largest receipts on any one day since the fifteenth day of April, 1878, and yet the market continues steady at the recent advance. We hope that it will not only continue steady but continue to advance.

Unmailable.
The following is a list of unmailable letters remaining in the Post Office in this city:
Messrs. Spear & Dahuboff, 219 Broadway, N. Y.; Messrs. Edward Broughton & Co, Raleigh, N. C.; L. B. Smith, Norwich, Conn.

City Court.
Alice Kelly, again drunk and disorderly, was the only case before the Mayor pro temp. for consideration this morning; \$5 fine or ten days in the City Prison was the sentence of the acting Mayor and the Queen of the Hollow went below to cogitate upon the evil influences and the evil results that come from a residence in Paddy's Hollow.

Anxious Person.
He is known by his friends as 'rel. Is in love, gazes beily at the 'ry heavens, quotes poetry, cannot sleep, and needs the sympathy of the community. He is afraid 2 ask for the ' of the girl he loves, refuses 2 list 2 his friends, has ed madly from his home, without replying 2 the ' of his family, and it feared that he has taken a of pistols 2 put a . 2 his existence. His case has ne in this \$. Information wanted 4: with, if found, deal 10:erly with him.

Sunday on Railroads.

Thursday is, we believe, the day on which the law in regard to running trains on Sunday is to date from. Singularly enough, if we are correctly informed, the law makes no reference to steamboats and steamships but is only operative as to railroads. Sunday, by legislative enactment, is to be known hereafter as only extending from sunrise to sunset.

The Pauper Community.

There was a brand new baby at the Poor House on yesterday, but to-day it was brought in town by a lady who was willing to adopt it. The mother applied for a room about an hour before its birth, but was refused because of her not having the proper certificate. Superintendent Garrell was compelled to accommodate her, however, and yesterday the County Commissioners granted her a permit to remain in the Poor House for one month.

Tuba Rosa.

We saw to-day at Mr. Newbury's, on North Water street, a lot of tube rose bulbs, raised by that gentleman in his gardens at Magoola and which are offered for sale. They are the finest bulbs we ever saw, were grown in this climate and are therefore fully acclimated and can be sold for one-half of the price asked by Northern dealers. Mr. Newbury has, we understand, three acres in tube roses every year.

Relief From a Corn.

Soak the foot in warm water for a quarter of an hour every night; after each soaking, rub on the corn patiently, with the finger, a half dozen drops of sweet oil; wear around the toe during the day two thicknesses of buckskin with a hole in it to receive the corn, and continue this treatment until the corn falls out. If you wear moderately loose shoes it will be months and even years before the corn returns, when the same treatment will be efficient in a few days. Paring corns is always dangerous, besides making them take deeper root, as does a weed cut off near the ground; but the plan advised is safe, painless, and costs nothing but a little attention.

The North Carolina Hand Book.

We have examined the "Hand Book of North Carolina," a copy of which we have received through the courtesy of Col. L. L. Polk, Commissioner of Agriculture and compiler of the work. It contains much information which is valuable not only to the citizens of the State, but also to any resident of any other State who may contemplate removing hither. As its name implies, it is emphatically a "Hand Book," and is full of interesting matter connected with the history, geography, physiography, fertility, and people of the State. It is a marvel of conciseness. We notice one error which is undoubtedly typographical. John H., and not John K. Steele, was the name of the North Carolinian who became Governor of New Hampshire in 1844.

Innocence Abroad.

A gentleman residing on Market street has been trying his hand at raising bantam chickens and succeeded at last in setting a hen in a barrel filled nearly to the top with straw. An old cat in the neighborhood liked the nest and deposited four squirming felines in it. The gentleman has a son about six years of age, who is always on the lookout for something miraculous and discovered the bantam hen, two eggs and four kittens in the nest. He carried the kittens in the house and tried to sell the eggs, which he was positive were cat eggs, but could not tell whether they were wild or tame cat's eggs. Pater familias discovered his loss when too late, as young America failing to find a purchaser had broken the eggs to see what color the kittens were in them. The old gen has given up trying to raise bantam chickens but he raised that boy, turned him down and trumped the trick with his right bower. That boy prefers to walk around or stand up and never sits down unless he can strike a feather pillow.

Steamer *Clinton*, Capt. Biaby, arrived here to-day with a cargo of 619 barrels of turpentine, tar and rosin from Banner-mann's Bridge in Pender county. A pretty good freight for the little *Clinton*.

Mr. Ellenhaus, formerly engineer of the steamship *P. J. Foley*, is now boss of the engine-room of the steam yacht *Passport*. He is an A. No. 1 engineer and comes highly recommended. Here's Rock Spring water ter yer.

County Commissioners.

The Board of County Commissioners met yesterday afternoon, present Col. Smith, Chairman, and Commissioners Grady, Worth, Montgomery and Bagg. The Chairman reported having received from the Auditor of the State balance due for keeping the insane of this county to 1st January, 1879, amounting to \$66.04, which has been paid to the County Treasurer.

Ordered that the claim be presented to the State Treasurer for keeping the insane from the 1st of January, 1879, to the date of the repeal of the law authorizing this payment.

Communication from Dr. W. W. Lane, concerning hospital, was ordered received, and subsequently, on motion of Commissioner Bagg, was ordered referred to a committee of three, which committee was made to consist of the Chairman and Commissioners Bagg and Grady.

Ordered that George Sullivan be discharged from the House of Correction on approval by His Honor, Judge Meares.

Ordered that Mary Murrell be admitted to the Poor House for one month.

Admittance to this institution was also granted to Joanna Homes, an unfortunate woman who has suffered the loss of a leg.

The claim of Mecklenburg county, which was referred to the County Attorney, was on the advice of the Attorney ordered rejected.

On motion the Board adjourned to the first Monday in April, at 2:30 o'clock P. M.

WILL ACCOMPLISH THAT END!

We are alive to the GREAT COM-PETITION now existing (we are in a condition to do so), and we propose TO MEET IT.

Strange as it may read to some, but we say it, and have our cash-book to prove it, that we have SOLD MORE GOODS FOR CASH during the last sixty days than we sold during the Holidays for the same length of time; and every close observer could not help but notice HOW BUSY WE WERE, and the AMOUNT OF GOODS THAT WENT OUT OF OUR STORE during those days.

We trust there is BUSINESS ENOUGH FOR US ALL, but we don't propose TO LOSE OUR TRADE, but rather DAY BY DAY TO INCREASE IT.

Every facility our brain can devise shall be bestowed on our customers, in the way of GOOD GOODS AT EXCEEDING SMALL PROFITS.

We trust we have merited the liberal patronage which we have received, and will promise TO TRY AND GIVE A QUID PRO QUO in the future as we hope we have done in the past.
