The North American Review

For April has been received. The first article, "Retribution in Politics," contributed by Vice-President Thomas A. Hendricks, is, we consider, the ablest article which has appeared relative to that much-mooted problem of negro suffrage. The other articles are "The Public Schools of England," contributed by Thomas Hughes; "German Socialism in America," "A Friend of Lord Byron," by Henry James, Jr; "The Census of 1880." by George Walker; "The Pronunciation of the Latin Language," Part II, by W. W. Storg; "An Indian's Views of Indian Affairs,"by Chief Joseph; "Ha:tmann's of a thoroughly reliable character, and we Religion of the Future," by M. A. Harddo not hesitate to do so in speaking of Doo- aker; and ' Recent Miscellaneous Literature," by A. R. McDonough. This last best and most reliable baking powder in article is a brief critical review of some to the most recent works which claim the attention of the American mind.

Spring Street Cleaning.

We commend the following sanitary suggestion, which we clip from an exchange, to our city authorities. In such matters it is always wise to take action in time and not delay it:

"This is peculiarly the season of the year when the sanitary condition of the city should receive active attention. Such warm sunshiny days as we have had lately are as favorable to the decompositien of the refuse of the streets as to the development of that illusive malady called "spring fever," and the wholesome aid of these searching March winds is lost unless the scavengers and sweepers lead the way with the shovel and broom. Householders ought to be careful to put their ewn premises in good order. The public health, which should always be a first consideration of local government wil best be promoted by a general recognition of the absolute necessity for clean-

The Fire Last Fight.

Just before 8 o'clock last night the alarm of fire was sounded, caused by the burns ing of a one-story frame building on Ninth, between Queen and Wooster streets. The tuilding was owned by Geo. W. Price, Sr., and occupied by Mary Williams. The origin of the fire is supposed to have been incendiary. Mest of the houshold effects were saved, but the bouse was too far gone when the fire department arrived to save it. The steamer Cape Fear arrived first, and took up her station at the cistern on the corner of Sixth and Castle streets, and forced water through two thousand feet of hose, on the burning building. Through the almost super-human efforts of the fire department no other buildings were destroyed.

City Court.

His Ho nor Mayor Fishblate presiding. One case of drunk and down was the first case on docket this morning; \$2 50 fine or five days in the City Prison was the judgment of the Court, and the defendant was escorted below where he has in frequently been before.

Speranza, brought charges against po iceman Wadkins for getting him drunk and then arresting him and taking him to the Guard House, which the plaintiff alleges occurred on the night of the 18th inst. Several witnesses were introduced by the prosecutor, all of whom were sworn and testified in Norwegian, Mr. Alex. S Heide acting as interpreter for the witnesses to the Court.

The mate himself first savet a that officer Wadkins took several drinks with him and then arrested him. The witness afterwards corrected himself and said that Wadkins did not make the arrest, but went along with the officer who did The other witnesses, shipmates of the plaintiff, swore that policeman Wadkins drank with them in a bar-room and then carried them to a dance house, where they drank again. Two of the three witnesses admitted that they had been drinking quite freely and cou'd not reco lect how many drinks they had taken.

Officer Woebse, was then called in for their fault. the defence and swore that he made the arrest of the plaintiff in this case on Wednesday night for being drunk and disorthe bar-room of a Mr. Wade, on Water street, when he, Woebse, came up, Mr Wade having called Wadkins in to preserve order as the seamen were carousing and drinking pretty extensively. Officer Woebse also testified that the plaintiff Jonanson was cursing and abusing Wadkins and that he, Woebse, ordered him to shut up, telling him that "if he insisted in talking to a police officer that way, he

would snatch him from out there." The arrest of the plaintiff was made by board their vessel. Wade, the proprietor of the bar room where the seamen were ated officer Weebse's testimony? He furstrangers to him and he was fearful there would be a difficulty as they were all officer Wadkins drank any liquor in his saloon said that he did not, but that after repeated invitations to do so by Jonanson he finally took a glass of soda water.

Capt. Brock, Chief of Police, was called to the stand and asked to state the charmade the arrest of Jonansen. The Chief swere that he was one of the most trustworthy, reliable and truthful policeman on the force. This closed the testimony and His Honor dismissed the case at the prosecuter's cost.

A New and Valuable Invention.

We have been shown, to-day, a sample of lubricating oil made from cotton seed by a new process, the invention of our townsman, Dr. D. M. Buie, whose right to manufacture it is secured by let' ters patent. He claims that it is superior to any other oil new in use for lubricating purposes, inasmuch as it answers every desired purpose for all kinds of machinery and will not become gummy by use. It is obtained by distillation, and one bushel of seed will make one gallon, or eight pounds, of the eil. The inventor claims that the seeds lose nothing of their fertilizing value by the extraction of the oil, as all the salts which are beneficial to vegetation remain uninjured by the process. The oil is very clear, of an amber color, and without disagreeable odor. This appears to be a valuable invention, and we hope that our friend, Dr. Buie, may reap a profitable reward from his patient research.

Barque proportion, as the troupe is a good one and deserves success.

Whose are They? As Mr. H. C. Prempert was coming through the Purcell House alley this morning, in the rear of the Empire House, he found a bundle of clothes which, upon examination, proved to be those of an infant. He also discovered other articles of clothing, evidently belonging to the same party, hanging upon the fence, but could not ascertain to whom they belonged.
