The Rev. Daniel Morelle will deliver a lecture before the Historical and Scientific Society of Wilmington, in the lecture room of the First Presbyterian Church, of this city, on Monday next, at 8 o'clock.

How true this, from an exchange: Wash a baby up clean and dress him up real pretty, and he will resist all advances with a most superlative degree of crossness; but let him eat molasses gingerbread and fob around the coal hod for a half hour, and he will nestle his dear little dirty head close up to your clean shirt bosom, and be just the loveliest, cunningest little rascal in all the world.

More Retrenchment.

On and after Monday next, Mr. L. M. Williams Clerk of the Market, will also be the weigher of beef cattle for the city, and can always be found at his office in the Market House when not out in the discharge of his duties.

The Huckster Question.

The attention of the Board of Aldermen, who meet next Monday evening, is respectfully called to the fact that not a shirt could be bought yesterday afternoon by consumers at first hands. There were nine carts in market, and every one of them, as well as all of the shad, were gobbled up by the festive hucksters—those who toil not, and spin-out 100 per cent of taxes. If the Board of Aldermen really have the welfare of the tax-payers at heart they will not longer avoid this question, but will deal with it at once on its merits. The proper way would be, we think, to re-nact the old law in regard to forestalling, but if this cannot be done, let the hucksters be put on a footing with other people and pay taxes.

Profitable Farming.

If there is any particular class of the toilers of North Carolina for whom we have a more profound respect than for any other, it is those who cultivate the soil. We respect and honor every honest and honorable industry, as it is only by honest, earnest and honorable labor, either by hand or brain, that true dignity is given to man. But the excessive and unceasing toil, the uncertainty of the harvest and the meagre prices obtained for products, make the farmer a peculiar object of interest. We are ever glad to chronicle a success to that class, and we are pleased to be able to say that some of our agricultural friends at Rocky Point are meeting with successful results in their gardening operations this season. Messrs Westbrook & Brother, of that place, inform us that in a recent shipment of five barrels of radishes to Baltimore, their receipts amounted to the pretty little sum of \$37.77, or something more than \$7 50 per barrel. They also inform us that quite a number of others in that vicinity have shipped the same class of vegetables to Baltimore with equally good and profitable results. They sow the radishes on ridges in which Irish potatoes are planted, and are gathered in season so as not to interfere with the crop of the latter. There are serious fears that the heavy frosts of the past two or three nights have killed all the other early vegetables such as peas, potatoes, beans, &c.

Spring Styles in Ladies' Bonnets.

It will of course, be interesting to the ladies to read something about the spring styles in bonnets. The Baltimore American thus remarks upon the newest fashions as exhibited at the openings of the large millinery establishments in that city: "A radical change in the styles of bonnets and hats had been predicted, and from the information gained, the predictions will be fully carried out. The newest hat is, of course, the 'Pinafore' which of white French chip high crown, sloping edge, and slightly turned up on one side. It is trimmed with the new color, sapphire satin, which combines the twenty one shades of blue—ostrich tips, and a dozen or more roses. The 'Mod-jeka' hat is also of white chip, and is quite large. The trimming is very elaborate, being composed of a shirring of pink satin and bandeaux of the same, frills of Breton lace and handsome feather and Alsatian lace. The 'Carmen' hat is another favorite, and is of light blue chips trimmed with wide satin ribbon and ostrich plumes of the same shade, the only other color used being a band of gold fleece, and a gold cord around the edge. Another is the 'Gerster' hat which, in comparison to the hats and bonnets of last season, is very large, and partakes of a shade and dress hat at the same time. The trimming, which almost entirely covers the frame, is of the widest white satin ribbon, Breton lace of the fashionable shell pattern in a soft fall towards the front, and wax daisies, tea buds and leaves. It is a most graceful hat, and is said to have become very popular in New York during the last few days. As will be observed, the plain, sensible, little felt bonnets of the winter, with the simple trimmings, are to pass out of style. The new bonnets will be much larger, much more elaborately trimmed. The change in the fashions, though not desired by the ladies, will of necessity be adopted. It is entirely a measure of the milliners, who have had a hard winter, as with the simple bonnets in vogue a lady could purchase the frame, and if possessed of any ordinary amount of taste and skill, could produce as well trimmed and fashionable an article of apparel as the most prominent tradesman.

There were three interments in Pine Forest Cemetery during the week, all adults.

The Condemned Man.

There was only one man sentenced to be hung yesterday at Smithville for the murder of Henry McDuffie, instead of two as our information led us to believe. John Davis and Hill James were both indicted out the latter was acquitted and was afterwards put upon the stand as a witness in the case and Davis' conviction followed. As stated by us yesterday he was sentenced by Judge McKay to be hung on the 11th day of July, between the hours of 10 and 3 o'clock.

Newspaper Courtesy and Compliments.

We received by this morning's mail the several back numbers of our lively contemporary, the Newbern Nut Shell, which had failed us before. We return thanks to our compatriot of the "Lost Cause" for this courtesy, and likewise for the kind mention of the REVIEW contained in his issue of the 27th ult. The writer of these lines desires also to make his bow the Editor of the Nut Shell for the complimentary allusion to himself contained in the same issue.

Prof. Catlett's Lecture.

The lecture delivered by Prof. Catlett, of the Cape Fear Military Academy, before the young gentlemen of the Clarendon Literary Society in the Academy Rooms last evening, was largely attended and was thoroughly enjoyed. The subject selected was "Astronomy," and it was handled in a masterly manner which evinced to all present Prof. Catlett's intimate acquaintance with that difficult branch of study. So well pleased were those present that the wish has been freely expressed for a repetition of the occasion and a continuance of the subject.

The Wilmington Presbytery.

Presbytery met promptly at 8 o'clock yesterday afternoon, and after the usual opening exercises, the regular business was taken up.

The Committee on Sessional Records made their report, which, after some discussion, was accepted and adopted, with certain exceptions in the cases of Pike, Keith, White Plain and Hopewell churches.

A communication, from the Rev. James Kelly was read before the body and was accepted as satisfactory. The communication was in regard to that gentleman's absence from Presbytery and giving reasons for same.

A communication from Rev. J. J. Hites was also read. This communication had reference to that pastor's field of labor and was read and referred to the Sustentation Committee.

The time of holding the next spring meeting of the Presbytery was fixed as being the Thursday before the fourth Saturday in March, 1880, at 12 o'clock m. As stated in our yesterday's report the place agreed upon is Brown Marsh.

By request, the committee appointed to write a history of Black River Chapel was continued.

Messrs. W. T. Bannerman and Chas. S. Garriss were appointed as a Committee on the Historical Sketch of Brown Marsh Church.

A resolution was passed, formally disapproving of the preaching of students for the ministry, before their licensure, after considerable discussion.

Rev. G. W. McMillan was appointed and authorized to supply the pulpits of Mt. Williams and Topsail churches, during the year to come.

The Presbytery adjourned at 6 o'clock, pending the discussion of a resolution to convene again at 9 o'clock this morning.

MORNING SESSION. Presbytery met this morning promptly at the hour named and after the usual preliminary proceedings proceeded to the business of the day.

The Committee on Narrative to the General Assembly presented their report which was accepted, approved and adopted and ordered to be forwarded.

The Judicial Committee and the Committee on Bills and Overtures made their reports, which were accepted and approved.

Committee on Devotional Exercises made their report.

After thirty minutes passed in devotional exercises the Presbytery adjourned to meet again at 3 o'clock this afternoon.

The report of the Committees on Sustentation and Sabbath Schools and a few minor matters are all that now remain to be attended to, and the Presbytery will probably adjourn this afternoon.

A scolding woman, like a train conductor, is pretty much always on the rail.

Magistrate's Court.

Susan Morris, colored, was arraigned before Justice Gardner this morning upon the charge of trespass; \$4.20 costs for the defendant to pay was the result of the trial. In default of payment she was given over to Sheriff Manning's keeping.

Death of Mr. White.

The venerable Mr. Benjamin White, the oldest white citizen of Wilmington, died at the residence of his son in this city last evening at the advanced age of 82 years. Mr. White had been suffering for weeks past and his death was not unexpected. He leaves behind him children and grand children, besides many friends, who will mourn their loss.

He has recently returned from the Northern markets and has in stock now of the newest and prettiest and most stylish goods. He guarantees to supply any style of hat or bonnet at prices every whit as low as it can be bought in any Northern city, a fact which the ladies would do well to note.

A Reminiscence.

Maj. Graham Daves, of this city, has a very interesting letter in the Raleigh Observer relative to matters and things in this section of the State, and in it refers to a saying which originated with a Wilmingtonian many years ago and which was at one time a common one. He says: "Years ago, before the days of railroads, but well within the recollection of persons much younger than that mythical individual, 'the oldest inhabitant,' when it was desired by Wilmingtonians to describe the utter impossibility of accomplishing any undertaking, the expression used was: 'You might as well try to establish a daily line to Burgaw.'"

The expression as here used is not quite complete. It originated fifty years ago with a Mr. Caleb Nicholls, then a merchant of our town. His favorite phrase in the way of expressing his disbelief in the success of any undertaking was "You might as well try to establish a daily line to Burgaw and start a bank there." Mr. Nicholls was quite a character in his way and was something of an Adonis, with a neat, well-knit form, of which he was very vain and which was generally set off with all of the advantages to be derived from his tailor. Among his other peculiarities was a positive contempt for botany. On one occasion he was invited by a friend to go with him to hear a lecture to be delivered upon this study and his contemptuous reply was "Botany, h—ll! All the botany I care for is enough to tell the difference between turnips and smartweed and I know that much now."

DOOLEY'S YEAST POWDER is endorsed by the highest authority in America, the eminent Professor Doremus, of New York city, who certifies that: "I have analyzed the bread made with Dooley's Yeast Powder, and find it free from Alum or any other deleterious substance."
