VIEWES AND REVIEWS.

Every Russian subject is required to take out a passport each year. The prescribed cost of a passport is about \$3 but, in fact, it costs twice that.

Philadelphia has an ordinance against the sale of oysters in summer, and an Oysterman's Protective Association that employs detectives to get evidence against the offenders.

Sir Garnet Wolseley, before sailing for the Cape, made his estimate of the cost of the Zulu campaign, which he places at from £20,000,000 to £30,000,000. He has over 25,000 men under his command.

In several counties in Georgia the fish in the rivers and ponds are dying by the thousand. It is thought that the fish are killed by the guano which, during the severe storms early in the season, was washed into the streams.

Last year not a pound of cream of tartar was imported. A few years ago millions of pounds came annually from England and France. Manufacturers at home now supply all that the country needs, and prices are thirty per cent. lower than formerly.

It appears the frost does not surely kill the yellow fever, and now the doctors, at the last session of the American Medical Association, say that the typhoid fever is propagated not only by water and milk, which is often largely diluted with water, but also by ice!

It was easy enough to get a Prince for Bulgaria, but the trouble is to find a Princess. Beatrice doesn't seem anxious to go to house-keeping in that quarter, and Alexander. It will probably have to take up with a rich but second-class Princess nearer home.

Mr. Maurice Barrymore, the actor, gave another sample of his pluck at Manhattan Beach the other day by punishing two intoxicated loafers who insulted Mrs. Agnes Booth and Mrs. Barrymore. His conduct was highly commended by all who witnessed the unpleasant scene.

That balloon which was to go from Montreal to New York, on Saturdays made forty miles of the journey, and then ignominiously came to the ground. The navigator, a newspaper man, made a narrow escape from death. Aerial navigation is evidently one of the things that no fellow has yet found out.

Over 500 citizens of Winona, Miss., headed by a band of music, greeted Senator Lamar as he passed down to Brookhaven Monday night. The train made a short delay, during which Senator Lamar addressed the assemblage. A large transparency was erected on the platform, on which was inscribed, "Lamar, the South's Defender Against Northern Slander."

There is a growing impression, says the Albany Argus, that John Sherman regards Roscoe Conkling with the same feeling that Roscoe Conkling regard John Sherman. "If they were floating shipwrecked, on the same plank, in mid ocean, Mr. Conkling would possibly speak to Mr. Sherman, but only to charge him with trying to make the plank float South, for a bad purpose."

A lady discovered, after boarding a Hudson River steamer at Roundout, on Saturday, that she had left her wallet, containing money and diamonds, valued at \$15,000, in the stage which had brought her to the landing. Her male escort thereupon left the boat, hired a conveyance, overtook the stage, which was on its return trip, and recovered the pocketbook with its contents intact. The lady is worth \$2,000,000, but was as delighted at recovering her wallet as if it contained all her earthly possessions.

Last year's conscripts of the German army, taken from all ranks and classes of the community, furnish interesting evidence of the spread of education in the German empire. The conscripts numbered 140,197, and it was found that of this whole body 190,939 had received elementary education, and that 6,283 had gone beyond the elementary stage into the higher branches. No country but Germany, and no State of the American Union, could make such a showing in the educational line.

A merchant, sitting in his office in South street, New York, recently received an answer to his dispatch sent to Shanghai only six hours previously. Shanghai is thirty-six thousand miles distant from New York, and the message, (not making any allowance for delivery at the two cities) must have travelled at the rate of one hundred miles a minute, or a mile and two-thirds per second. The charge to Shanghai is \$2 80 per word; to Yokohama, \$3 05; but the cipher is so well systematized by mercantile houses that a single word serves for a dozen when transcribed.

REPUBLICAN RASCALITIES.

Senator Windom, of Minnesota, during the present session of Congress, has "bocmed" into magnificent proportions, not only as the champion of the colored negro to Kansas from the lower Mississippi, but he stands without a peer as the champion of all the frauds and rascalities perpetrated by his Republican peers, from the day the party came into power in the Senate, during debate on the 25th inst., he challenged the Democratic side of the Chamber to a comparison between Democratic and Republican honesty, and named ex-Secretary of the Navy Robeson as one against whom nothing could be shown, and styled him "an honored member of the other House." He defied the Senate to reveal the name of a single Republican who had been proven guilty of peculation under Democratic investigation, and when the name of ex-Secretary of War Belknap was mentioned, said it was not proven that he had either stolen from the government or any body else. These remarks were mainly directed to Senator Saulsbury, of Delaware, who replied by saying, among other things, that if the Senator from Minnesota "was so blind as not to see such corruption it would be impossible to enlighten him."

Senator Windom glories in the thought that he has been instrumental in seducing thousands of the colored race to leave the comfortable homes and easy means of obtaining a livelihood on the plantations of the South to suffer and starve and die in inhospitable Kansas. He glories in their frauds and peculations by which his party friends have robbed the government of millions of dollars, and he would glory with joy unspeakable if his party could again come into power so that the South might be again overrun by the horde of thieves who in the days of reconstruction held high carnival at the expense of our down-trodden land.

GOING BACK ON HIM.

The Okolona States is not alone in its glory. Any sort of notoriety is better than none at all in the estimation of the genus of which the man who writes for the States is one type, and the murderer and ravisher who dares on nothing before a gaping crowd is another. There is a prototype of the States man up in the Northwest, but as he hails from a Republican State and is evidently himself a stalwart Republican, the people of the North and West are not denounced because of his utterances, as are those of the South, on the strength of what the Okolona man says. He hails from Lamars vegetates in Plymouth county, Iowa, publishes a paper called the *Scout*, and here is the way he goes for the man and brother:

THE NIGGER.

While the amiable idioecy that prevailed in Congress during the reconstruction days was at its height, the nigger was enfranchised.

He was invested with the ballot on the pretty theory that he was a man and a brother, with an infusion of sand in his make-up.

It was given him on the school-girl notion that affection for the party that gave him his freedom would make him its perpetual instrument.

But the nigger is less servicable to the Republican party as a voter, than he was as a slave.

He needs too much coddling—too much protection.

He can only vote the Republican ticket when surrounded by a cordon of Republican bayonets.

There is no grit in him.

There is more voting energy and party strength in a dozen raw Irishmen than in a thousand well-fed niggers.

There is not an ounce of Stalwartism in a ton of nigger.

The more nigger the less strength. As a slave, the picturesque misery of the nigger was an unfulfilling armory of party weapons—as a freeman there is no romance in him—coddling is not romantic.

All over the South he is throwing his ballot for rebels and traitors, when he votes at all.

He is too cowardly to vote his convictions, or too stupid to have convictions.

When the Stalwarts get into power in 1880, he must either be disfranchised or compelled to vote right.

The free nigger is a fraud.

WHEELER'S LIBERALITY.

Mr. William A. Wheeler has been heard from. He has recently donated \$200 to be expended for prizes to be presented at the closing exercises of the schools in Malone, New York. Considering the fact that Mr. Wheeler is drawing \$10,000 a year from the Treasury of the United States, which properly belongs to another man, one Thomas A. Hendricks, and that somebody else, one A. G. Thurman, is actually performing the duties for which Wheeler is paid, his liberality is in fact not so very liberal after all.

It is understood to be the Hon. Charles Foster's intention to speak in every county in Ohio before his election as Governor.—*National Republican.*

As he will have an indefinite number of years in which to complete the job, we do not see any necessity for haste in the matter.

'Yes,' said a Texas lawyer who was defending a murderer, 'the prisoner at the bar will prove an alibi. Gentlemen, we shall prove that the murdered man wasn't there.'

MUSHROOMS.

Does a stolen hen lay poached eggs? —*Brooklyn Chronicle.*

A man having fallen into a slough his friend called loudly for assistance. The latter, who was busily engaged in cutting a hog, and wishing to procrastinate inquired, "How deep is the gentleman in?" "Up to his ankles," was the answer. "Then there is plenty of time," said the other. "No there's not," rejoined the first, "for he's in head first."

Welsh Genealogies.—Sir Watkins William Wynne, talking to a friend about the antiquity of his family, which he carried up to Noah, was told that he was a mere mushroom. "Ay!" said he. "How so, pray?" "Why," replied the other "when I was in Wales a pedigree of a particular family was shown to me. It filled above five large skins of parchment, and about the middle of it was a note in the margin: 'About this time the world was created.'

A Glasgow minister was recently called in to see a man who was very ill. After finishing his visit as he was leaving the house he said to the man's wife: "My good woman, do you not go to any church at all?" "Oh, yes, sir, we go to the Barony Kirk." "Then why in the world did you send for me? Why didn't you send for Dr Macleod?" "Na, na, deed no; we wadna risk him. Do ye ken it's a dangerous case of typhus?"

Fresh Supplies of Vitality

To renew a waning stock may be gathered from a source accessible to all, and never sought in vain by any whose constitution and vigor a not so much dilapidated as to be wholly past repairing. Evidence direct and convincing and ample indicates Hostetter's Stomach Bitters as a tonic of unexampled efficacy and perfect purity, and possessed of properties that constitute it an invaluable remedy for dyspepsia, constipation, liver complaint, urinary and uterine weakness, rheumatic complaints and malarial fever. Delicate females and infirm old persons are invigorated and soothed by it, and the physical prostration which usually follow a severe illness in a great degree remedied and convalescence accelerated through its use. It occupies a leading position among medicinal staples.

By Business Men

It is well known that such articles as the DUFF GORDON SHERRIES, MUM'S CHAMPAGNE, etc., have no Local Agents throughout the country, as they can always

be bought much cheaper, in small quantities, from second hands, than the Agents can sell at, they being compelled to protect the trade of those who buy hundreds of packages at a time.

WE ARE SURPRISED

That our friends, with their long Business Experience, should have brought forward such a weak point as this, but can now understand, paying package rates to the Agents, why they supposed, on account of the low price at which we were selling the goods, that ours was not the genuine article. LIFE IN A BOTTLE.

The Most Valuable Medical Discovery Known to the World—No More Use for Quinine, Calomel or Mineral Poisons—Life for the Blood, Strength for the Nerves, and Health for All.

AN OPEN LETTER TO THE PUBLIC.

Believing that by cleansing the blood and building up the constitution was the only true way of banishing disease and being troubled with weakness of the lungs, catarrh, very much broken down in constitution, &c., and after trying the best physicians and a living out my money for medicine and surgery advertised without finding a permanent cure, I began doctoring myself. Using medicine made from roots and herbs. I fortunately discovered a wonderful medicine or Blood Cleanser, the first bottle of which gave me new life and vigor, and in time effected a permanent cure. I was free to do as I pleased and became strong and sound, being able to stand the most severe cold and exposure, and I have gained over thirty pounds in weight. Feeling confident that I had made a wonderful discovery in medicine, I prepared a quantity of the Root Bitters, and was in the habit of giving them away to sick friends and neighbors. I found that the medicine effected the most wonderful cures of all diseases caused from humors or scrofula in the blood, Impudence, Bad Stomach, Weakness, Kidney Disease, Torpid Liver, &c., &c. The news of my discovery in this way spread from one person to another until I found myself called upon to supply patients in such numbers that I was induced to establish a laboratory for compounding and bottling the Root Bitters in large quantities, and I now devote all my time to this business.

I was at first backward in presenting either myself or discovery in this way to the public, not being a patent attorney and anxious with small capital, but I am getting bravely over that. Since I first advertised this medicine I have been crowded with orders from druggists and country dealers, and the hundreds of letters I have received from persons cured, prove the fact that no remedy ever did so much good in so short a time and with such success as the Root Bitters. In fact, I am convinced that they will soon take the lead of all other medicines in use. I have one hundred retail druggists, right here at home in Cleveland, now sell Root Bitters, some of whom have already sold over one thousand bottles.

Root Bitters are strictly a medical preparation, such as was used in the good old days of our forefathers, when people were cured by some simple root or plant, and when calomel and other poisons of the mineral kingdom were unknown.

They act strongly on the liver and kidneys, keep the bowels regular and build up the nervous system. They penetrate every part of the body, searching out every nerve, bone and tissue from the head to the feet, cleansing and strengthening the fountain springs of life, hence they must reach all diseases by purification and removal of impurities. No matter what your feelings or symptoms are, what the disease or ailment is, use Root Bitters. Don't wait until you are sick, but if you only feel bad or miserable, use the Bitters at once. It may save your life.

Thousands of persons in all parts of the country are already using Root Bitters. They have saved many lives of constitutives who had been given up by friends and physicians to die, and have permanently cured many old chronic cases of Catarrh, Scrofula, Rheumatism, Dyspepsia, and Skin Diseases, where all other treatments had failed. Are you troubled with sick headache, constipation, dizziness, weakness, bad taste in the mouth, nervousness, and broken down in constitution? You will be cured if you take Root Bitters. Have you humors and pimples on your face or skin? Nothing will give you such good health, strength, and beauty as Root Bitters.

I know that jealous physicians will cry humbug because my discovery cures so many of their patients, but I care not. It is now my desire and determination to place my Root Bitters as fast as possible within the reach of all those suffering throughout the world. Sold by wholesale and retail druggists and country merchants, or sent by express on receipt of price, \$1.00 per bottle, or six bottles \$5.00. For certificates of wonderful cures, see my large circular around each bottle of medicine. Read and judge for yourself.

Ask your druggist or merchant for FRIZZIE'S ROOT BITTERS, the great Blood Cleanser, and take no substitute. I can recommend because he makes a large profit. G. W. FRIZZIE, Discoverer.
