

JOSH. T. JAMES, Ed. and Prop
WILMINGTON, N. C.
TUESDAY, JULY 1, 1892.
VIEWS AND REVIEWS.

The colossal statue of Bismarck was lately unveiled at Cologne, and artists are now invited to send in models of a monument to Moltke.

Lillie Duer, who shot and killed Ellen Hearn, at Snow Hill, Md., has written a love story for the Philadelphia Times, and contemplates a lecturing tour.

The word 'Stalwart' is a misnomer, as applied to the bloody-shirt crowd. Its root signification is 'stal-worthe, Anglo-Saxon for 'worth-stealing.' There is not a mother's son of the whole crowd who is 'worth stealing. The name 'Stalwart' is too good for the wretched impostors.—Louisville Courier-Journal.

Mr. Charles Foster of Fostoria, Ohio, is a man of business and a partner in six different firms. Besides being a banker, he is a dealer in general merchandise, in grain and hardware, and has an interest in a spoke factory. He is also engaged in the manufacture of barrels, and now wants to be Governor. Too many irons in the fire already.

Mr. Thurman is the only Senator who takes snuff regularly, but the custom of keeping snuff in the desk of the Secretary of the Senate is still continued. Captain Bassett, who was a page fifty years ago, says he has often seen Mr. Clay stop while speaking and advance and take a pinch of snuff, and that all the Senators of that day used it.

The son of a German farmer lately took from his father's pocket a bank note, the result of the sale of a cow, and tore it. The father, enraged, seized an axe and chopped of the boy's head. Then, horror-stricken, he rushed to tell his wife what he had done. She was at the moment giving her baby a bath, and fainted with horror. The baby was drowned.

The telephone is in use by an invalid lady of Richmond, Va., to connect her chamber with the church and enable her to hear the service. The beauty of this arrangement is that the auditor can stop the sermon wherever it has reached the proper length without creating the confusion incident to getting up and going out of church.

A strange occurrence is reported from Wetzikon, Canton Zurich, in Switzerland. On June 7 the Commune was invaded by an immense swarm of butterflies two-thirds of a mile wide, and so long that the procession took two hours to pass. They were principally of the kind known in Switzerland as Distelfalter, which feed on nettles. They flew from ten to thirty feet above the ground, and went off in a Northwesterly direction.

A Queen's messenger lately made the trip from London to Baltimore and back in 36 hours. It is supposed that the urgency of the visit was incidental to the sailing of Sir G. Wolsley. Those who fancy that Queen Victoria takes no part in the Government are vastly mistaken. Lord Palmerston had excellent cause to remember what came of sending an important despatch without submitting it to her.

A Memphis physician advocates the theory that free perspiration will cure nearly every disease by expelling it through the pores. He advertises a resort for invalids where 'the sun pours down with unrestricted fierceness, a cooling breeze is unknown, and the thermometer indicates over 90 day after day. He admits that life there would be unendurable, but for the consciousness that the suffering is incidental to cure.

On the day of the Emperor William's golden wedding the French ambassador M. St. Valher, not content with running up the national standard, caused the whole facade of his quaint old mansion to be decorated with graceful clusters of red, white, and blue. The Stars and Stripes fluttered over the American Legation, but, strange to say, the English embassy, a princely mansion, made no sign—the more remarkable as the ambassador and Lady Odo Russell are close allies of the imperial family and at the imperial reception the same day received exceptional marks of regard.

A drunken man was swaying unsteadily in a Virginia City street, according to the Chronicle, when a dog with a tin pan tied to its tail ran between his legs. The collision was so forcible that the man was upset, and the dog ran on minus a piece of its tail. The man got up bewildered, rubbed the bruised end of his spinal column, picked up the dog's tail, and thus soliloquized: 'This is (hic) unfortunate! Never before known I had such a thing as a tail till I go an' fall down an' break it off. Might made a (hic) fortune 'zibitin' myself as a man with a tail. There'd bin millions in it—millions (hic) in it! Jis my luck. Whenever I get a good thing it's always gone before I (hic) find it out.'

Congress will probably adjourn to-day.

It seems that the killing of the Prince Napoleon was the direct result of a most egregious blunder.

Prince Jerome Napoleon is recognized as Chief of the Napoleonic dynasty, and consequently, chief of the Bonapartist party.

In the Congress which closes its labors to-day, the Democrats have secured everything for which they have contended, but yet it is a terrible "back-down."

AN APPROVAL AND A VETO.

Yesterday, June 30th, Mr. Hayes approved the Judicial Expenses bill, and that has now become the law of the land. He, at the same time, returned the bill making appropriations to pay the fees of United States Marshals and their deputies with his objections to the same.

This will probably end political legislation for the session, as Congress will adjourn to-day. Although the session has been prolonged to an unusual length, owing to the obstinate opposition which the Democrats have met in their every effort to secure wise and needed legislation, the desired result has been at last attained, and every prominent feature advocated by the Democrats has become law. The last bill of the session, which Mr. Hayes saw fit to veto yesterday, is entirely unimportant, and it has been referred to the appropriate committee, where it will doubtless lie until Congress again convenes.

It seems to us that the action of the Democracy, has placed the Republican party in a very unenviable position before the country, and that the former have now a clear field, a brilliant record, and every element of success to give encouragement to the approaching campaign.

THE OLD AND THE NEW.

Speaking of the great revolution that has taken place within the past few years in the methods of doing business, the Boston Post says: 'The ways of traffic are not the old ways; wooden ships are going out of date and sailing vessels are giving place to steam; currency is superseded by commercial credits; the cable and telegraph have brought markets close together; railroads derive their freight profits from the perfectness of their terminal facilities; men buy and sell by sample before products and manufactured stocks are moved; prices and rates change oftener in a day than they used to do in a week or a month; everything tends to economy of business friction, to bringing things down to the point by the shortest way, to the performance of the most work by the least machinery.'

THE NEW AMERICAN CABLE.

The Courier-Journal says the new American cable company have made all their arrangements for laying their cable, and, judging from the programme, a revolution in sub-marine telegraphy will be accomplished. There will be laid 7,000 miles of cables. One powerful cable will be laid from New York to mid-ocean; there it will be branched off to different European countries, saving the necessity of a number of cables and land lines, the whole cost being \$15,000,000 for what would cost \$50,000,000 by the old method. By the use of newly invented instruments, a working speed eight times greater than under the old system will be obtained.

The tariff for messages will never exceed twelve and a half cents a word and will probably be reduced to ten cents a word. With the new instruments, the working capacity of the cables between each of the five countries with which the company connects will be from 125 to 160 words per minute, and it is expected that the number of words annually dispatched will be 60,000,000 instead of 6,000,000, as at present, by existing lines. The new cable will be laid out of the range of icebergs and fishing vessels, and a new wrapper has been invented which protects the cable from oxidation from salt water. At present the capital invested in cable lines is \$42,000,000 and the traffic is worth \$4,000,000 a year. The American Cable Company will, by its new instruments cheapen ocean telegraphy down to the reach of people of moderate circumstances, and revolutionize the business.

The question of holding Sunday services has divided the wealthiest Jewish congregation in Chicago. Rabbi Kohler sought to effect a compromise by keeping up the regular observance on Saturday, and having a sermon on Sunday. The result was that the attendance was large on Sunday, but dwindled to almost nothing on Saturday, and his demand that all members should be present on the latter day was so generally disregarded that he has resigned.

Little Freddie was undergoing the disagreeable operation of having his hair combed by his mother, and he grumbled at the maneuver. 'Why, Freddie,' said mamma, 'you ought not to make such a fuss. I don't fust and cry when my hair is combed.' 'Yes,' replied the youthful party, 'but your hair ain't hitched to your head.'—Harper's Magazine.

MOONSHINE.

'That's what I call a finished sermon,' said a lady to her husband, as they wended their way from church. 'Yes,' was the reply, with a yawn, 'but do you know, I thought it never would be.'

The young gentleman who spoke so eloquently at his commencement on classical reading will to-day pull out a yellow-back'd dime novel and abandon himself to the delights of a wild border life.—Louisville Courier-Journal.

Country doctor to the bereaved widow of a late member of the Georgia Legislature: 'I cannot tell how pained I was to hear that your husband had gone to heaven. We were bosom friends, but now we shall never meet again.'

They say Job was a pious man, but the question is, Did Job ever go to a Sunday-school picnic on a warm day and after amusing the children all day long, come home in the evening and attempt to take off a white shirt? We don't pause for a reply. We know he never did.—Oil City Derrick.

Analysis: Lady—Why did you leave your last place? Cook—Timper, m'm—Lrdy—Temper! But when I'm put out myself, I show that I'm annoyed! Cook—Oh, I don't mind a m'ose timper m'm—a revingeful timper I like; but a temperas goes a g-nag-uaggin' mornin' noon, and night won't do with me!—London Punch.

A Sure Cure for Piles.
A SURE CURE for the blind, bleeding,
itching and ulcerated piles has been dis-
covered by Dr. Williams (an Indian remedy),
called Dr. Williams' Indian Ointment. A
single box has cured the worst old chronic
cases of twenty-five and thirty years' standing.
No one need suffer five minutes after apply-
ing this wonderful soothing medicine. Lo-
tions, instruments and electrocutes do more
harm than good. Williams' Ointment ab-
sorbs the tumors, allays the intense itching
(particularly at night after getting warm in
bed), acts as a poultice, gives instant and
painless relief, and is prepared only for Piles,
itching of the private parts and nothing else.

LIFE IN A BOTTLE.
The Most Valuable Medical Discovery
Ever Known to the World—No
More Use for Quinine, Calomel
or Mineral Poisons—Life for the
Blood, Strength for the Nerves,
and Health for All.

AN OPEN LETTER TO THE PUBLIC
Believing that by cleansing the blood and
building up the constitution was the only true
way of banishing disease and being troubled
with weakness of the lungs, catarrh, very
much broken down in constitution, &c., and
after trying the best physicians and paying
out my money for many kinds of medicines
advised without finding a permanent cure,
I began doctoring myself, using medicines
made from roots and herbs. I fortunately
discovered a wonderful Bitters or Blood
Cleanser, the first bottle of which gave me new
life and vigor, and in time effected a perma-
nent cure. I was free from catarrh, my lungs
became strong and sound, being able to stand
the most severe cold and exposure, and I have
gained over thirty pounds in weight. Feel-
ing confident that I had made a wonderful
discovery in medicine, I prepared a quantity
of the Root Bitters, and was in the habit of
giving them away to sick friends and neigh-
bors. I found the medicine effected the most
wonderful cures of all diseases caused from
humors or scrofula in the blood, Impure
Blood, Bad Stomach, Weakness, Kidney Disease,
Tropical Liver, &c., &c. The news of my
discovery in this way spread from one person
to another until I found myself called upon
to supply patients with medicine far and
wide, and I was induced to establish a labor-
atory for compounding and bottling the Root
Bitters in large quantities, and I now do so
all my time to this business.

I was at first backward in presenting either
myself or discovery in this way to the public,
not being a patent medicine man and with
small capital, but I am getting bravely over
that. Since I first set out in this business
I have been crowded with orders from druggists
and country dealers, and the hundreds
of letters I have received from persons cured,
prove the fact that no remedy ever did so
much good in so short a time and had so much
necessity as the Root Bitters. In fact, I am
convinced that they will make the lead
of all other medicines in use. See how
hundred retail druggists, right here at home
in Cleveland, now sell Root Bitters, some of
whom have already sold over one thousand
bottles.

Root Bitters are strictly a medical prepara-
tion, such as was used in the good old days
of our forefathers, when people were cured
by some simple root or plant, and not by
calomel and other poisons of the mineral
kingdom were unknown.
They act strongly on the liver and kidneys,
keep the bowels regular and build up the
nervous system. They penetrate every part
of the body, reaching to every nerve,
bone and tissue from the head to the feet,
cleaning and strengthening the fountain
springs of life, hence they must reach all
diseases by purification and nourishment.

No matter what your feelings or symptoms
are, what the disease or ailment is, use Root
Bitters. Don't wait until you are sick, but
if you only feel weak or unwell, use the
Bitters at once. It may save your life.
Thousands of persons in all parts of the
country are already using Root Bitters.
They have saved many lives of consumptives
who had been given up by friends and physi-
cians to die, and have permanently cured
many old chronic cases of Catarrh, Scrofula,
Rheumatism, Dyspepsia, and Skin Diseases,
where all other treatments had failed. When
you are troubled with sick headache, constipation,
dizziness, weakness, bad taste in the mouth,
nervousness, and broken down in constitution?
You will be cured if you take Root Bitters.
Have your humors and pimples on your face
or skin? Nothing will give you such good
health, strength, and beauty as Root Bitters.

For Rent.
DURING THE SUMMER and
Fall months, the Board Residence
of Dr. A. K. Wright, eight miles
from town, on Turnpike road, ad-
joining the residences of W. A.
Wright. There are on the premises one large
Dwelling House and two small Offices, all in
perfect order. Apply

For Health and Pleasure
GO TO
Patterson's Celebrated Springs.

THE SPRINGS are situated four miles
South of Shelby and six miles North of
Whitaker's, on the Air Line R. R. The
thermal waters are sulphur and chalybeate.
The mineral waters are of the sulphur
and magnesia. Properties combined in
official to all diseases, and never fail to cure
the most obstinate cases, as many will
testify. The chalybeate waters cannot be surpassed
having won many a high award at
international fairs.
These celebrated Springs will be open from
April, and the prices are in each of all,
having been greatly reduced this season.
Bathing houses, en-quet grounds, tennis
alleys, and other amusements and attractions
free for visitors. Hackts running from this
place will meet visitors at Shelby or at Whit-
aker's on the Air Line R. R., upon short
notice to the Proprietor.

Deviled Ham.

OF GROCERIES
ever offered in the State, at the LOWEST
PRICES.
june 20 GEORGE MYERS.

Schedule B Tax Notice.
THE ATTENTION of merchants and tra-
ders in Fender county is invited to the
following extract from the Revenue Laws for
1879:
Sec 12. Every merchant, jeweler, grocer,
druggist, and every other dealer, who shall
buy and sell goods, wares or merchandise, of
whatever name or description, except such as
are specially taxed elsewhere in this act,
shall, in addition to his ad valorem tax on his
stock at, pay as a license tax one tenth of one
per centum on the total amount of purchases
IN OR OUT OF THE STATE, for cash or on credit,
whether such persons herein mentioned shall
purchase as principal or through an agent
or commission merchant, every person men-
tioned in this section shall, within ten days
after the first day of January and July in
each year, deliver to the Register of Deeds
a sworn statement of the total amount of his
purchases for the preceding six months, end-
ing on the 31st day of December or the 30th
of June. Any agent or commission merchant
making such purchases shall, for his particu-
lar, make and deliver the statement as herein
required. Provided, that the person men-
tioned in this section may make out in writ-
ing a list of their purchases, and swear to
the same before any Justice of the Peace in
his county, and return said list to the reg-
ister of Deeds; the Register of Deeds shall
keep a book in which shall be recorded the
list given into him, as herein required, and
shall furnish the Sheriff with a copy of said
list within ten days after the same are given
in. It shall be the duty of the Sheriff to col-
lect from every person on the list the tax en-
braced therein. The Register of Deeds shall
have power to require the merchant making
his list to submit his books for examina-
tion to him; and every merchant refusing
to render such list, or refusing on demand
to submit his books for such examination,
shall be guilty of a misdemeanor, and on con-
viction shall be fined not more than fifty dol-
lars or imprisoned for not more than thirty days.
It shall further be the duty of the Register
of Deeds to prosecute every merchant refusing
as aforesaid to the end of obtaining such in-
formation and compelling payment of the
proper tax.
