No City Court to-day.

It was very sultry last night.

Days length 14 hours and 22 minutes.

The days are getting perceptibly shorter.

Going the rounds of the press—the girl who waltzes.

The song of the fawn—"Call me early mother deer."

'Reel' happiness is described by some as getting drunk.

The russet apple is all that is left of last year's crop.

Any man would rather live with a cross-eyed woman than a cross-mouthed one.

The Register of Deeds has issued only two marriage licenses during the week, both of which were for colored couples.

It was desperately hot wook running around in the sun to-day after items which persistently eluded the grasp.

The unties are preserved when you see a girl with a pug nose and banged hair, carrying a pug dog.

People on the shady side of the walk and on the shady side of life usually manage to keep cool.

If your neighbors' hens trouble you lay them out, and they invite the neighbors to the funeral dinner.

The travel towards the springs is visibly increasing. Happy those who are able to leave the heat and dust of the city and the cares of business, for a jaunt elsewhere.

It is said to be a singular fact that people who have no children never leave loaded guns and pistols lying carelessly around the house.

Molasses, says the proverb, catches more flies than vinegar does, which is probably the reason why molasses is more expensive than vinegar.

A gentleman who had been struck by the young lady's beauty was determined to follow the injunction, and "kiss the rod that smote him."

The hot sun and the drought together have pretty well scorched all kinds of vegetation in the gardens in this vicinity. If rain does not soon fall the effects will be serious.

'How do you like my new hat?' said Augustus to his fiancée, 'Oh, that's nobby!' exclaimed she. And now Augustus waits to know where that apostrophe belongs and what she really meant.

We are requested to state that Rev. B. R. Hall, Pastor of Fifth Street M. E. Church, will preach at Dudley's Grove to-morrow afternoon, at half-past 4 o'clock.

The Greek fashion of wearing a bracelet on the upper part of the arm and bands on the head is in vogue. These bands are strikingly becoming to handsome heads and faces which approach the classical in outline. For evening wear strings of pearls or coins of veritable Grecian stamp, falling over the fringe on the forehead.

J. P. Sossaman, of Mount Mourne, and P. D. Hinson, of Litchington, will run an excursion train from Shelby to Wilmington on the 21st of July, leaving Shelby at 12 o'clock in the day and arriving in Wilmington the next day at 8 p. m. The train will return on the 25th, allowing two days and two nights for visiting interesting points on the seacoast.

Ex-Governor William Allen died at his home in Chillicothe, Ohio, yesterday at an advanced age. He has occupied many positions of honor, having been among others, we believe, a Representative in Congress during Andrew Jackson's administration, but has not engaged actively in politics for a number of years. He was uncle of Hon. Allen G. Thurman, one of the present Senators from Ohio.

Went Out.

The city gas lamps South of Market street, as well as the gas in several places of business on Front street, went plumb out about eight or nine o'clock last night, leaving not a flicker of light to relieve the darkness in that immediate vicinity. The cause, we understand, was some disarrangement of the gas meter at the Gas Works.

The City Hall in its New Dress.

The last nail has been drawn, the last piece of plank knocked off and the last upright post of the scaffolding on the outer walls of the City Hall building removed, leaving an unobstructed view to this magnificent edifice which is of the Corinthian style of architecture. The building now presents a very imposing appearance with its new dress of paint and fresco and is really a fine ornament to the city. The work was done under the supervision and direction of Architect James F. Post, whose taste and skill in matters of this kind are well known. Mr. Coleman Twining, who had immediate charge of the erection of the huge scaffolding around this large building certainly understands his business, and deserves a passing notice for the manner in which he engineered the erection of it and the removal of the same without any accident to any one or anything, or even so much as the accidental falling of a piece of scantling.

The Yellow Fever.

Already several cases of yellow fever have appeared at Memphis, Tenn. Five cases were reported on the 10th inst., but no new cases were reported yesterday (the 11th), and the sick were reported as doing well with altogether favorable symptoms. All the citizens who could, by any possibility, leave have left the city and sought a more healthful and congenial atmosphere.

It is the only city in the country in which the scourge has appeared this season, and it is to be hoped the pestilence may be kept within its present narrow limits, and may be speedily terminated even there. New Orleans and other places which have been subject to its ravages are in a remarkably healthy condition, and the most stringent quarantine regulations have been established to prevent the introduction of the disease, either by passengers or freight, from the infected city.

We hope that those having charge of the sanitary condition of Wilmington are fully awake to the peril of the hour, and that they have taken every precaution to secure us from the scourge. We know that the streets, alleys, lots and yards are generally in good condition, but we know that not a few people are careless or do not fully appreciate the importance of such matters and, hence, we hope the officials will be watchful and alert in the performance of their duties. In fact every citizen ought, and every good citizen will, unite with the Board of Health, in keeping the city free from epidemic disease.

He had Him but did not Keep Him

Henry Leggett, alias Thos. Harrison, stole a pair of breeches yesterday and away he ran, escaping the clutches of constable Whiting, who had him in tow at the time, upon a warrant issued by Justice H. E. Scott upon the affidavit of Exiom James, colored, who it is alleged is the loser of the nether garments. The escaped prisoner was fleet of foot and soon distanced all his pursuers, though Whitney says he didn't give up the race until after he had passed the Poor House. Good distance and good exercise for such a day; as yesterday it opens the pores of the skin and lets the system throw off what is unhealthy to it by exuding, through the skin, what medicine would have to effect in a different way. This is the consoling part to the baffled officials. They may save a doctor's bill.

Magistrate's Court.

Robert Collins, colored, was arraigned before Justice Hall this morning on the charge of assault and battery upon the person of his wife, Laura Collins, and was also arraigned upon a peace warrant sworn out by his bosom companion to the effect that she was afraid of bodily harm from him. The defendant was committed to jail for non payment of the costs in both cases and also in default of surety to the amount of \$25 to keep the peace. Laura can repose quietly now, it is thought.

New Postal Cars.

As soon as they can be completed on the different railroads, the postal office department will have all postal cars uniform in color, size and appointments. One of them was placed on the track to-day by the W. & W. Railroad Company, at whose shops in this city it was built. They are all to be of a light lead color with a shield, upon which are placed the stars and stripes. The entire car is to be used exclusively by the P. O. department; has two doors upon each side and a door at each end, with plenty of light, and every convenience inside necessary to facilitate the labor of the route agent, such as tables upon which to spread the mail matter, hooks upon which to suspend the pouches while they are being filled, &c., &c.

There are nine foreign barques and twelve foreign brigs and six American schooners and one steamer in port to-day. A short time hence and we may expect to see the quantity of foreign shipping doubled, then trebled, quadrupled and even quintupled.

In Pine Forest Cemetery there were four adults and five children interred during the week.

Red Hot!

It is generally conceded, we believe, that to-day has been warmer than yesterday and everybody knows that yesterday was decidedly the hottest of the season up to that date. The thermometer ranged variably to-day, in one place on the wharf in the shade, having been as high as 96° at 12 o'clock; at another place it stood at 99, and at still another, a residence on Chestnut street, near the Postoffice, at 102° At 3 o'clock, at the Signal office, it stood at 103 and at an office on Princess street, which fronts to the South, it was at 93° This is, we believe, the highest range it has had in this city on any day since the war.

We are glad to learn, however, as we do from the indications, that there are to be cooler northerly winds to-night, as poor sweltering humanity cannot stand many more such days in succession as this has been.

Sun-stroke.

Henry Hall, a colored laborer working on the wharf opposite the Custom House, was overcome by the heat this afternoon about 3 o'clock. The proper medical attendance was quickly given and he is now in a fair way of recovering.

One interment in Bellevue Cemetery this week—that of an adult.

Indications.

WAR DEPARTMENT, Office of the Chief Signal Officer, Washington, D. C., July 12, 1879.

For the South Atlantic States stationary or lower pressure, westerly winds and warmer, clear weather, followed on the Carolina coast by rising barometer and cooler northerly winds.

American Wines.

But few persons are aware of the great amount of grapes raised in New Jersey. Alfred Spear is known to be the largest wine grower east of the Rocky Mountains. His Port Grape Wine is the best, and is considered by physicians and chemists as the best wine to be procured. It is ordered to London and Paris, where it is becoming very popular among wealthy families. For sale by J. C. Munds, P. L. Bridgers & Co and Green & Planner Aul. 1-

Success in the Stock Market.

Few people understand how large fortunes are amassed so rapidly in stock operations. Messrs. Lawrence & Co., Bankers, N. Y., have just published "Two unerring rules for success," and full details, so that any one can operate—Mailed free. Their new combination system of dealing in stocks is wonderfully profitable. By this method thousands of orders, in various sums, are pooled into one immense capital, and co-operated as a mighty whole, thus securing to each shareholder all the advantages of vast capital and best skill. Profits divided every 30 days. \$15 would make \$75 profit, \$100 would return \$1,000, or 10 per cent on the stock in the month, and so on, according to the market. A New York Fashion Editor and prominent newspaper correspondent, made over 375 per cent profit on an investment, Oct. 6th, 1878. Many others are doing as well or better. Large or small amounts can be used with equal proportionate success by this system. All kinds of stocks and bonds wanted. Government bonds supplied. Apply to Lawrence & Co., Bankers, 57 Exchange Place, N. Y. City.
