JOSH. T. JAMES, Ed. and Prop. WILMINGTON, N. C. MONDAY, AUGUST 4, 1879.

GRANT IN JAPAN.

It seems that General Grant, in Japan, is being feasted and toasted and feted in the highest style of Japanese courtesy.

If the Emperor of Japan sees fit to do honor to Gen. Grant we have no objection, but we cannot see why he should expect that the British officials should do him distinguished honor.

THE RIGHT WAY TO TALK. Speaking of the Hon. Jere Haralson's fulminations on a prospective immense Kansas exodus from Alabama next fall, the Montgomery Advertiser says:

The colored people are gradually improving in estate and education. The disposition of the whites is to help and encourage them in every way possible.

The South will, in fact, be the better for it; for while it will necessitate a greater degree of industry on the part of the whites, it would be of great advantage to the South to reduce the volume of the cotton crop.

For his own sake, we would dissuade the negro from emigrating to the frigid Northwest; but if he will go, both whites and blacks there will get in a line of mutual instruction, which may be profitable to them and to the peace of the country.

SHERMAN IN MAINE.

Secretary Sherman went to Maine, ostensibly to aid the Republicans in carrying the State in the gubernatorial election but in reality to advance his own interests in the Presidential race of 1880.

He found to his dismay in the figures presented by those hand-bills, that somebody with a fondness for statistics had remembered what he had forgotten, and had made for him a record he had not expected.

WILMINGTON'S OPPORTUNITY.

We are glad to see that the Raleigh Observer has a good word to say for Wilmington occasionally. The facts contained in the article published below are interesting to our merchants and we copy the Observer's article entire:

merly New York, because of her canal facilities, had the entire control of the traffic in wheat. Philadelphia and Boston both entered into competition with New York, but neither of them could turn the course of trade from its accustomed channel.

The total shipments of these four cities for the eleven months ending June 24, 1879, were one hundred and fifty millions of bushels, of which New York shipped in round numbers seventy-six millions, or one-half, Baltimore thirty-eight millions, Philadelphia twenty-seven millions, and Boston ten millions.

This gain which Baltimore is making so rapidly upon her northern rival is due to the shorter line of her railway connections with the western distributing points.

In this view it may be well enough to see what these Southern communications are now doing in the way of trade with the United States.

Cuba does worse than that, for she bought from us but about eleven millions and sold us sixty millions worth.

Those countries all take large quantities of cotton goods, yarns, &c., which are chiefly supplied by Great Britain. We insist that North Carolina with her water power, her splendid climate for spinning cotton, her cheap labor, and her light taxes ought to be able to supply this South American demand cheaper than Great Britain.

WASHINGTON LETTER.

WASHINGTON, D. C., Aug. 1, 1879. A little more than one month lies between this date and the day of the Maine election. I have before called attention to the importance of the vote of that State, but wish again to say that there seems to be no subject of more importance to the conservatives of the country than the result in the Maine election.

He is right. It will have enormous influence. But what is democracy doing to assist the opposition to Republicanism in that State? Compared to what Blaine and the rest are doing, nothing, at all.

The story is afloat that General Grant is to be offered the English Mission, just vacated by Mr. Welsh. It is not likely that he would accept the place, as he is steadily working for higher honors, and to accept even the highest subordinate office would injure his chances.

The \$9,000,000 voted by Congress for "river and harbor improvements" will be spent. It was proposed that as on the occasion during Grant's term, the money, or most of it, be allowed to remain in the Treasury, and if such course were legally proper it would certainly be wise.

Capt. James B. Eades has a plan for building a railway, on which ships can be carried across the Isthmus of Darien. He says he can build in three or four years a railway of sufficient capacity, and at a cost which is a mere fraction of that of the Lesseppe canal.

He was a disgraced boy. He had exercised great caution, and had finally succeeded in crawling, unobserved, under the canvas into the tent. And he found it was not a circus but a revival meeting in progress.—Boston Post.

A contemporary asks: 'How shall women carry their purses to frustrate the thieves? Why, carry them empty. Nothing frustrates a thief more than to snatch a woman's purse, after following her a half mile, and then find that it contains nothing but a recipe for spiced peaches and a faded photograph of her grandmother.—Norristown Herald.

A New York lady writes: 'If I could have my way, every smoker should marry a smoker or live alone forever.' Now, do you know that would be rather a nice idea.—matrimonial single as it were—one pipe with but a single blast, two stems that smoke as one. Smoking girls desirous of getting married will please mention the particular brand of tobacco they affect.—New York Commercial Advertiser.

A wizen-faced man, with a hand-organ and sore-eyed monkey attachment, stood for five minutes on a street corner yesterday and warbled a few notes from the 'Dead March.' A sympathizing public contributed 77 cents to help pay his house rent, while five able-bodied men worked for sixteen hours not a dozen yards away and received 95 cents for their labors. It isn't quantity, it's quality the people care for.—New York Express.

The White Mountain hotels are full of Massachusetts schoolmarm, who sit as waiters. When one of them looks at a guest through her glasses and asks him if he will have another plate of hash, in six different languages he is nearly paralyzed, and doesn't recover his appetite for nearly two days. But her culture and education doesn't disturb the quantity of a country editor. He replies in Sanscrit, and she looks inquiringly around and fingers her bangs in a meditative manner. The editor enjoys her confusion, and explains his answer in Greek.—Norristown Herald.

An old colored man made his appearance at the ferry dock just after dinner the other day, and after he had taken several close looks at the river, a hand on a ferry boat called out to him: 'Looking for a boat to come down, uncle?' 'No, sah; I was lookin' fur de ice to come down,' was the reply. 'What! Ice come down the river with the thermometer ninety-five degrees in the shade?' 'Den it huzn't come, sah?' 'Not much.' 'And it wont come, sah?' 'I guess not—before December. You must be crazy.' 'O, no, sah! It's all owin' to dat nephew of mine. He tole me dis nater dat de ice war all winder outer de river, an' I fonght I'd come 'long down an' see.' 'Well, the boy lied.' 'Yes, sah, I speck he did, sah. Leastwise, I doan't see any ice 'round heah anywhar. I sort o' specked all de time dat de boy was mistaken, but I didn't want to dispute him widout owin' down heah first. Dat nephew will have to be more keaful in de fucher, sah, or I'll take de floatin' ice outer his system wid de bootjack, sah.'—Detroit Free Press.

LIFE IN A BOTTLE. The Most Valuable Medical Discovery Known to the World—No More Use for Quinine, Calomel or Mineral Poisons—Life for the Blood, Strength for the Nerves, and Health for All. AN OPEN LETTER TO THE PUBLIC. Believing that by cleansing the blood and building up the constitution was the only true way of banishing disease and being troubled with weakness of the lungs, catarrh, very much broken down in constitution, &c., and after trying the best physicians and paying out my money for many kinds of medicines advertised without finding a permanent cure, I began doctoring myself with medicines made from roots and herbs. I fortunately discovered a wonderful Bitters or Blood Cleaner, the first bottle of which gave me new life and vigor, and in time effected a permanent cure. I was free from catarrh, my lungs became strong and sound, being able to stand the most severe cold and exposure, and I have gained over thirty pounds in weight. Feeling confident that I had made a wonderful discovery in medicine, I prepared a quantity of the Root Bitters, and was in the habit of giving them away to sick friends and neighbors. I found the medicine effected the most wonderful cures of all diseases caused by impure or all other medicines, such as Impudence, Bad Stomach, Weakness, Kidney Disease, Torpid Liver, &c., &c. The news of my discovery in this way spread from one person to another until I found myself called upon to supply patients with medicine far and wide, and I was induced to establish a shop at my home for compounding and bottling the Root Bitters in large quantities, and I now do so at all my time to this business.

I was at first backward in presenting either myself or discovery in this way to the public, not being a patent medicine man and with small capital, but I am getting bravely over that. Since I first advertised this medicine, I have been crowded with orders from druggists and country dealers, and the hundreds of letters I have received from persons cured, prove the fact that no remedy ever did so much good in so short a time and had so much success as the Root Bitters. In fact, I am convinced that they will soon make me richer than all other medicines, and I have already one hundred retail druggists, right here at home in Cleveland, now sell Root Bitters, some of whom have already sold over one thousand bottles. Root Bitters are strictly a medical preparation, such as was used in the good old days of our forefathers, when disease was cured by some simple root or plant, and when calomel and other poisons of the mineral kingdom were unknown. They act strongly on the liver and kidneys, keep the bowels regular and build up the nervous system. They penetrate every part of the body, searching for every nerve, bone and fibre from the head to the feet, cleansing and strengthening the fountain spring of life, hence they must reach all diseases by purification and nourishment. No matter what your feelings or symptoms are, what the disease or ailment is, take Root Bitters. Don't wait until you are sick, but if you only feel bad or miserable, use the Bitters at once. It may save your life. Thousands of persons in all parts of the country are already using Root Bitters. They have saved many lives of consumptives who had been given up by friends and physicians, and have permanent cures of many old chronic cases of Catarrh, Croup, Rheumatism, Dyspepsia, and Skin Diseases, where all other treatments had failed. Are you troubled with sick headache, costiveness, dizziness, weakness, bad taste in the mouth, nervousness, and broken down in constitution? You will be cured if you take Root Bitters. Have you humors and pimples on your face or skin? Nothing will give you such good health, strength, and beauty as Root Bitters. I know that jealous physicians will cry humbug because my discovery cures so many of their patients, but I care not. It is my desire to cure every man, woman, and child by Root Bitters as fast as possible within the reach of all those suffering throughout the world. Sold by wholesale and retail druggists and country merchants, or sent by express on receipt of price, \$1.00 per bottle, or six bottles \$5.00. For certificates of wonderful cures, see my large pocket card, which I send each bottle of medicine. Read and judge for yourself. Ask your druggist or merchant for FRAZIER'S MOOT BITTERS, the great Blood-Cleaner, and take no substitute. He recommends because he makes a large profit. G. W. FRAZIER, Discoverer, 338 Superior St., Cleveland O. For sale by J. C. Munds and T. S. Burbank, Druggists, march 26th row-14w

A Sure Cure for Piles. A SURE CURE for the blind, bleeding, itching and ulcerated piles has been discovered by Dr. Williams (an Indian remedy) called Dr. Williams' Indian Ointment. A single box has cured the worst old chronic cases of twenty-five and thirty years' standing. No one need suffer five minutes after applying this wonderful soothing medicine. Lotions, instruments and electrocures do more harm than good. Williams' Ointment soothes the tumors, allays the intense itching (particularly at night after getting warm in bed), acts as a poultice, gives instant and painless relief, and is prepared only for Piles, itching of the private parts and nothing else. I consulted physicians in Philadelphia, Louisville, Cincinnati, Indianapolis, and other cities, and spent hundreds of dollars, and found no relief until I obtained a box of Dr. Williams' Indian Ointment some four months ago, and it has cured me completely. JOSEPH M. HYDER, Cleveland, O. 'Has done me more good than all the medicine I ever tried, and I have spent more than \$100 with doctors, doctors, medicines. I am cured cost me more than \$40.'

DAVID SPARKLING, Ingraham, Ill. 'Have suffered twenty years with itching and ulcerated piles, having used every remedy that came to my notice without benefit until I used Indian Ointment and received immediate relief. JAMES CARROLL, (an old m'er) Teodora, Nev.
