THE DAILY REVIEW.

VOL. IV. WILMINGTON, N. C., SATURDAY, AUGUST 16, 1879. NO. 163

BROWN & RODDICK,
45 Market St.

We have just finished taking our annual account of a week, and are now daily receiving NEW GOODS from the Northern Markets, suitable for the
FALL AND WINTER TRADE!
Our patrons will study their best interests by making their purchases as early in the season as convenient, as the general indications of the market have an upward tendency. We have just received over
20,000 YARDS BEST CALICO!
PRICE 3 CENTS.

Wholesale buyers would do well to look over our stock before purchasing as we have a great many goods we are offering much below THE PRESENT MARKET VALUE

Fans & Parasols.
Costing out the balance at Greatly Reduced Prices.

Plain, Striped and Checked Nainsook Mullins. The best value ever offered. Call and examine.

Linen Lawns from 12 1/2 to 20 cents.

Dress Goods.
Our Variety is Large. Our prices ARE LOW. Scupwards.

Laces.
Brettonne, Torchon and Italian Laces. We have very much the Largest assortment that has been offered in this city and our prices, either by the yard or piece, can not be undersold.

Quilts.
Domestic and Imported Quilts. Our stock of the above is large. We have marked some up in price, preferring to give our patrons an opportunity to supply their wants at the old prices.

Table Linens-Towels and Napkins.
Our present assortment exceeds anything we have ever shown.
Call and give our stock a look over. Our Buyer is in the market at present and we are receiving many Novelties.

OUR
5 and 10 Cents Bazaar

Is situated on the S. W. corner of Market and Second streets, and every Steamer that comes into this port brings a Fresh Lot of the most strikingly Cheap and Useful Goods that ever were offered in any market under any circumstances. We offer great inducements to Wholesale Buyers.

BROWN & RODDICK,

Supper, State-room, Breakfast and Dinner aboard Steamer without extra charge.
J. B. Farrar—Light Running "New Home."
P. Heinsberger—Major Jones' Courtship

The school vacation will soon be over.
Day's length 13 hours and 25 minutes.

There were no interments in Bellevue Cemetery this week.

New moon to-morrow afternoon at 56 minutes past 2 o'clock

Only one interment—a child, in Oakdale Cemetery during the week.

To-morrow is known in the Church Calendar as the Tenth Sunday after Trinity.

There were six interments 3 adults and 3 children—in Pine Forest Cemetery during the week.

There are one white and two colored couples who obtained marriage licenses at the Register's office this week.

The steamer A. P. Hart left here this morning for Fayetteville, the repairs to her wheel having been completed.

It is said by those who have tried it, that a small quantity of saffras bark placed in dried fruit, will preserve the fruit from worms.

We beg for special attention to the very sensible suggestions made by Mr. Heinsberger in a commentary in this day's issue of the Review. We will refer to the matter at length on Monday.

Tincture of fish-bones is said to be a sure remedy for killing fleas on dogs and cats. A few drops are all that is necessary, but as the tincture is poisonous, it should be applied with great care, and only on the raps of the neck and at the end of the back, where the animals cannot reach it with their tongues.

He is a fool. We mean the man, who lets his baby cry all night in the arms of its mother, and does not slip a wink when Dr. Bull's Baby Syrup will quiet the baby by relieving its pain; a bottle costing only 25 cents.

Going to Charlotte.
Prof. F. M. Agostini gives on Wednesday next the last of his series of very enjoyable excursions. He then finds himself at leisure for a while and will spend a month or so in Charlotte. We commend him to the courtesy and attention of the Charlotte as one who is thoroughly trustworthy and reliable.

Personal.
Rev. Bennett Smith, Principal of St. Mary's School at Raleigh, will arrive in this city to-night, and will preach at St. John's Church to-morrow at the usual hour. While in the city he will be the guest of James A. Willard, Esq., where he will be pleased to meet his numerous Wilmington friends.

Home Again.
Messrs. Thos. H. Smith and Thos. Monk, of this city, returned here last night from their recent visit to England and Ireland. They were absent but a comparatively short time, having spent less than a month in their old homes. They are both looking well and we cordially welcome them back again among us.

Robeson County Crops.
A friend and subscriber in Robeson writes to tell us that so far as he can learn the crops in that county promise well. Corn, he thinks, in consequence of the drouth, will be cut off about one-fourth, although in some places a good average crop will be made, while cotton is doing very well indeed and with indications, at present, of a good average. Too much rain and too little sunshine is what the cotton planters fear now.

The Revival.
We learn that the revival in progress at the Second Baptist Church continues with unflagging interest, and that accessions to the ranks of the church are being continually made. There are now quite a number of candidates awaiting baptism, which ordinance will be administered on Sunday, the 24th inst. Since the commencement of the meetings about 60 have been converted and added to the fold of the church. The services will continue through next week.

The Storm Signal.

We notice that the storm flag is flying from the masthead at the signal office this afternoon; it is the off-shore signal—red with a black centre, and it is the first time in several months that we have noticed it flying here at all.

Greenbackers Gathering.
The Greenbackers had a grand gathering of the masses last night on Church street, between Fourth and Fifth, a gathering which was principally remarkable for the conspicuous absence of white people, and the no less conspicuous presence of the tried and true Republicans. The blacks are said to have been largely in the ascendant. Speeches were made by Messrs. Waller, Kelle, and Barnitz, and by Duncan Holmes. Exactly what was the object of the manifestation we have not as yet ascertained. We understand that the performance is to be repeated at an early date.

A Scientific American.
Some of our readers may find amusement and entertainment in the following experiment, described by the *Scientific American*: Lighting gas with the finger is a feat anybody may perform. Let a person, in his slippers, walk briskly over a woolen carpet, shuffling his feet thereon, or stand upon a chair with his legs upon four tumbler tins insulate it, and be rubbed there up and down a few times with a muff, by a second individual, and he will light his gas by simply placing his finger to the tube. It is only necessary to take the precaution not to touch anything, or be touched by anybody, during the trial of the experiment. The shock of electricity acquired by the process we have described, is discharged by contact with another object. One person must turn on the gas while the other fires it.

Excursion to Smithville.
Says the Fayetteville Gazette: Capt. A. H. Worth offers to give the people of Fayetteville and those living on the Cape Fear, an excursion to Smithville at low rates. The price from Fayetteville, for round trip, will be \$2—meals not furnished. The boat will be prepared, if the excursion is gotten up, to furnish meals to all who prefer to take fare on the boat. Excursion tickets will be issued and will be good for either three or ten days—but the Worth will go to Smithville for the excursionists only once. In other words, those who take advantage of the excursion rates must decide whether they will remain at Smithville for one trip of the boat or two.

It is proposed, if possible, to make the excursion to Smithville on the last of this month or the first of next. It is probable that the second regiment will go into camp at Smithville, on or about the 25th of August.

The military will be provided with tents, and we learn that ample accommodations can be found in Smithville for the excursionists.

A better opportunity for a pleasant trip is rarely offered. Fishing, sailing, sunbathing, &c., are all offered, and we have little doubt that not less than two or three hundred from this end of the line will take advantage of the low rates offered.

Cured of Drinking.
'A young friend of mine was cured of an insatiable thirst for liquor, which had so prostrated him that he was unable to do any business. He was entirely cured by the use of Hop Bitters. It allayed all that burning thirst; took away the appetite for liquor; made his nerves steady, and he has remained a sober and steady man for more than two years, and has no desire to return to his cups; I know of a number of others that have been cured of drinking by it.'—From a leading R. R. Official Chicago, Ill.

Thermometrical.
From the United States Signal Office in this place we obtain the following report of the thermometer, as taken this morning at 7:31 o'clock:

Adams, Ga.....72	Mobile, Ala.....73
Augusta, Ga.....75	Montgomery Ala.....76
Cairo, Ill.....64	Nashville, Tenn.....77
Charleston, S. C.....79	New Orleans.....78
Cincinnati.....63	New York.....83
Corsicana, Tex.....69	Punta Gorda, Fla.....82
Fort Gibson, C. N.....69	Savannah, Ga.....79
Galveston.....76	Shreveport.....09
Indianola.....75	St. Louis Mo.....80
Jacksonville, Fla.....80	St. Marks, Fla.....77
Enoxville.....71	Wicksburg, Miss.....68
Lynchburg.....74	Washington.....74
Memphis, Tenn.....64	Wilmington.....78

We call special attention to the advertisement of the Boston Five and Ten Cent Store, on North Front street, to be found in another column. The managers have a fine assortment of goods in store, from which it would seem that any one might make a good and profitable selection for the money.

Another Improvement.

That portion of the city known as Brooklyn comprising, in the main, all that is North of the line of the Wilmington & Weldon R. R., a no inconsiderable part of it, by the way, is improving so rapidly as to be almost entitled to the dignities of a city in itself. Capt. F. W. Foster is now having erected on Fourth street, just North of Roney Bridge, a handsome new store building, which is to be occupied when completed by Capt. J. C. Stevenson as a branch of his family grocery store. The business at that point will be in charge of Mr. Simon Sanders, a gentleman who is by long experience thoroughly versed in the requirements of the trade and the new stock will probably be in and the store opened by the 15th of October. Success to it.

The Excursion to New York.
The excursion of the Whiting R flies to New York, which is advertised in this issue, promises to afford rich opportunities for the excursionists to see the sights in and around that famous city. Upon arrival in New York they will be notified of the place or places which they may have an opportunity to visit on the following day, and this plan will be repeated each day during their stay, so that all of the principal places and objects of interest may be visited. In the same way places of amusement in the evening will be designated, and we understand that arrangements have been perfected by which sight-seeing and pleasure-seeking will be reduced to a science where all may enjoy the maximum of pleasure for a minimum outlay under the management which has the excursion in charge.

Wholesale and Retail.
The improvements which have recently been inaugurated in Messrs. Sol. Bear & Bros., wholesale and retail stores on the South side of Market street are about completed. The staircase has been removed from the front and a much greater width is thus given to that which has been heretofore known as the retail store. They occupy three floors of two buildings, Nos. 18 and 20, and they have adopted an entirely new arrangement for the display and sale of their goods. The first floor, No. 18, will be devoted entirely to the sale of dry goods and carpets, while No. 20, of the same floor, will be used as a clothing and gents furnishing goods establishment, all first class. On the second floor, No. 18 will be filled with clothing, to be sold strictly at wholesale, while in No. 20 will be stored, also for the wholesale trade, notions, dry goods and staple goods. The third floor, which also appertains to the wholesale department, will be filled with cases of boots and shoes in No. 18, and hats, caps, trunks, valises, &c., in No. 20.

Mr. Sol Bear, the senior member of the firm, will leave here next week for the Northern markets where he will lay in the different varieties of stock required for the Fall and Winter trade.

Return of Captain Brock.
Capt. Harry C. Brock, Chief of Police of this city, returned here last night with his family after an absence of two weeks spent in Pennsylvania, the Key Stone State, which the Chief asserts is the place where he first saw the light of the world. Capt. Brock reports things quite lively in that section as compared with our own impoverished land; money seems plentiful, and it is estimated that there are at least thirty thousand more pleasure seekers at the different resorts, or roaming from the sea side to the mountains in search of fun, frolic and pleasure, than there was last season. In regard to politics Capt. B. reports that from the best information he could obtain he was forced to the conclusion that Uncle Sammy Tilden with his "bar" would carry the day and be the Democratic nominee in the next presidential campaign.

Everything looks beautiful and the valleys in that fertile country and the valleys are laughing with their overloaded crops of grain: says our informant. Business too is reviving and it seems to be the general impression among all classes of people that after the long night of financial darkness the country has suffered since the panic of 1873, the dawn of a new era of prosperity is about to break upon us. Captain Brock is looking very well and seems to have enjoyed his trip hugely and to have had a good time generally. Captain Brock enters upon duty to-day and relieves Captain John Cowan, who in addition to his other many duties has been acting Chief of Police also for the past fortnight.

The Temperature.

The temperature in this office has ranged to-day as follows: At 9 o'clock it was at 84; at 10 o'clock at 85; at 11 o'clock at 87; at 1 o'clock at 87; at 2 o'clock at 86; at 3 o'clock at 85; and at 4 o'clock at 85.

Protracted Meeting.
We learn that the colored people are holding a protracted meeting about seven miles below the city at a place called the Italian A. M. E. Chapel. It has been in session for some days and will continue during the coming week.

Indications.
WAR DEPARTMENT,
Office of the Chief Signal Officer,
Washington, D. C., Aug. 16, 1879.
For the South Atlantic and Gulf States Southwesterly to Northwest winds, at sea of rain and partly cloudy weather, with slight changes in temperature and rising barometer, preceded in the South Atlantic States during the day by falling barometer.

The New Market House.
The walls of the new Market House are going up rapidly. It promises to be an imposing, as well as an extensive structure. It will front on South Front street, and will run back to South Water, with Muter's alley on the North and a passageway specially left for carts on the South. There will be two large doors in the front and rear, and on the North and South, respectively, and two windows and eleven doors. Mr. Lippitt hopes that it will be ready for occupation by the middle of October.

New Advertisements.
