The Rain.
Capt Garrison, of the *Murchison*,
reports several heavy rains in the Fayette-
ville section but has not heard from the
head waters of the river in the interior of
the State. When he left Fayetteville
yesterday morning the water was running
off slowly.

A Sudden Coolness.
More rain to-day and a plenty of it.
About 10 o'clock this forenoon a heavy
cloud came up from the West and the air
cooled so suddenly that we are confident
there was hail somewhere. It rained
copiously and the thermometer in this
office fell very suddenly, four degrees in
fifteen minutes.

Returned.
Mr. Daniel O'Connor, who has been on
a six weeks visit to the great West, re-
turned to the city last evening. He
says that one hears very little of dull times

A Fine Yield in Prospect.
The lowlands in Bladen county, along
the banks of the Cape Fear river, promise
this year a magnificent yield of corn.
There is a much larger acreage under cul-
tivation now and better crops than was
the case last year. It is estimated that
with good seasons a month longer there
will be a yield there of at least 75,000
bushels of corn, while the amount may
run up to 100,000. All that is feared is
too much water in the river.

An Interesting Paper.
The Rev. Dr. Mendelsohn is preparing
a paper to be read some time next month
before the Historical and Scientific Soci-
ety, on the Practice and Procedure in
Criminal Cases, under the Hebrew dis-
pensation three thousand years ago. The
paper will be very interesting and will
be illustrated by Dr. Mendelsohn. He is
a fine rhetorician and his paper, besides
being an intellectual treat will be instruc-
tive. We trust that the paper may be
read at the Opera House where those of
our citizens who would like to hear it
could do so.

A Pacific Paper.
We have before us a copy of a very
handsome paper, the *Commercial Advertiser*,
published at Honolulu, in the Hawaiian
Islands, on June 14th, for which we are
indebted to the courtesy of Col. Walter
Clark, of Raleigh. One would think that
coming from one of the ends of the civil-
ized world, it would present an appearance
in keeping with our not very distinct ideas
of that distant shore, but on the contrary,
it is a large, beautifully printed paper,
entirely in English, with a large array of
attractive advertisements, and presenting a
view of Honolulu, which one of the REVIEW
staff, who has been there, says is a very
good representation.

Returning Home.
The venerable Bishop Atkinson, of this
city, is so well known and so generally
beloved in this community, that the fol-
lowing from the Lynchburg *Virginian*
will be read with interest:
"Rev. Thomas Atkinson, bishop of the
Diocese of North Carolina, and wife,
arrived in the city yesterday and are the
guests of Benj. Blackford. They have
been spending the summer at the North
and at the White Sulphur Springs and
are now on their way to the mountains of
North Carolina.
Many years ago Bishop Atkinson
was rector of St. Paul's church in
this city, having been the im-
mediate predecessor of the late Rev.
Wm H. Kinckle. We presume there is
not a single member of his charge then
remaining in the church now. The
Bishop is one of the ablest and most
beloved prelates of his church."

How to Disinfect.
The following is a simple method of
disinfecting sinks and vaults, the means
of which are within the reach of all:
Take an old oyster can or other tin box
of convenient size, make two holes in the
upper edge opposite each other, and
through them fasten a piece of wire to
form a handle. Let the wire be so long
as to extend about a foot and a half above
the can. Put a small quantity of sul-
phur into the can and on the sulphur
pour a little alcohol. Set the alcohol on
fire and let the cup down into the sink
by means of a string attached to the wire.
Cover up the openings as much as pos-
sible, so as to keep the fumes of the burn-
ing sulphur within the sink and let it re-
main there till it burns out. This process
should be repeated two or three times a
week. The sulphuric acid gas generated
will effectually destroy every germ of ma-
laria with which it comes in contact. Of
course care should be taken to prevent
setting the building on fire, and no one
should breathe any of the fumes or gas
from the sulphur.

Loss of the Schooner Marion Gage.
To our correspondent at Smithville we
are indebted for the particulars relative
to the loss of the schooner *Marion Gage*,
of Philadelphia. The Br. brig *Ataska*,
of St. John's N. B., arrived yesterday af-
ternoon off Main Bar and reports having
fallen in with the *Marion Gage*, Capt.
Cain, a three-masted schooner, of 301
tons, bound from Apalachicola for Phila-
delphia, with a cargo of lumber. The
schooner encountered the gale of the 18th
inst., and lost all of her sails, rudder &c.
The *Ataska* took off seven men, officers
and crew. There was a heavy S. W. sea
at the time and it was accomplished much
difficulty. When rescued they had been
in the rigging twelve hours. The men
are destitute, having nothing but the
clothes they wore.

Capt. Frank Barr, of the revenue cutter
Colfax, telegraphed to this city to Dr.
J. C. Walker, Superintendent of the
Board of Health, for permission to land
the crew and at 6:30 a reply was received
allowing them to go ashore.

Capt. Halcrow, of the *Ataska*, reports
having sighted a vessel on fire on the
18th inst., but as it was a dead calm at
the time he could learn nothing in regard
to her.

The *Ataska* is bound from St. Mary's,
Ga., to Montevideo, Uruguay, with
lumber. She lost sails and will remain
at anchor off the Bar until new ones can
be furnished when she will proceed on her
voyage.

There was a rumor at Smithville last
night that the pilot boat *Mystery* had
the abandoned schooner in tow and was
working up to the bar, and another that
the vessel on fire proved to be a brig.

Since the above came to hand we have
received, through the agent here of the
Ataska, Messrs. Alex. Sprunt & Sons,
Capt. Halcrow's report, which is as
follows:

Capt. L. A. Halcrow, of the Br.
brigantine *Ataska*, of Dorchester, N. B.,
reports as follows:
"Sailed from Fernandina, Fla., August,
8th, with the wind S. E. All went
well until Aug. 17th, when it commenced
blowing a fresh gale from E. S. E. to E
and veering to S. E. Hauled sails as
gale increased; and at 10 p m handed
foresail, and at 11 p m found it necessary
for safety of vessel and cargo to wear ship.
Wore on port tack, and handed lower
topsail—hove the ship to under
reefed storm trysail, vessel shipping
great quantities of water, but
fortunately without straining. At
1:30 a m on the 18th, the fore
sail, upper and lower topsails and top-
gallantsail blew drift from the yards,
and finding it impossible to save any
portion of the sails the fragments were
cut adrift in order to save the yards. At
3:30 a. m. of the 18th gale veered to
West, vessel still shipping great quanti-
ties of water, washing spars and every-
thing moveable on deck adrift, and staving
all the water casks and washing them
overboard. At 6 a. m. on the 18th, the
gale moderating, found two of the
plugs in the covering board
washed out. Sounded the
pumps and found four feet of water in
the hold; all hands pumping ship until
10:30 a m, when we found the vessel
making no water. Bore away and made
all possible sail; at 11:20 a m sighted a
three-masted schooner flying a signal of
distress, bearing S. E. by S. Bore away
for her and found on coming alongside
of her that she was water-logged. Crew
wished to be taken off. Lowered one
boat and sent under charge of the mate to
take the crew off which was accomplished
with safety. The schooner proved to
be the *Marion Gage*, Capt.
Cain, from Apalachicola, Fla., for Phil-
adelphia, with lumber. Bore away
steering E. N. E. Lat 33° 33', Lon. 76°
10'. Arrived off Smithville bar at 1 p m
on the 22d inst."

The Captain and crew of the wrecked
schooner will be taken North on the
steamer *Regulator*, which sailed from this
port to-day.

The Grand Excursion.
The tickets via Baltimore for the grand
excursion will not be ready for delivery
until Monday. Many ladies are taking
advantage of the inducements offered to
visit New York and from present indica-
tions there will be as many ladies as gen-
tlemen on the excursion. The trip from
Portsmouth by the Old Dominion Line
is the general favorite. There could be no
more ease and comfort anywhere than
on the palace steamers of this line.

The Revival.
The revival being conducted in the
Second Baptist Church by the Rev. Jos.
P. King is still progressing. The atten-
dant manifest much interest in the re-
vival and on to-morrow afternoon a num-
ber, who have professed will be received
into the Church by immersion at the foot
of Queen street, about 4 o'clock. The
meetings will continue through the coming
week and the pastor will be assisted by
the Rev. J. E. King, of Monroe, N. C.

Doctor Bell and the Board of Health.

The Board of Health for this county
according to previous notice met in the
Court House last night at 8 o'clock for
the purpose of conferring with Dr. A.
N. Bell, Sanitary and Quarantine Inspec-
tor of the National Board of Health, who
is here on an official visit. Members of
the medical profession and also members
of the Board of Aldermen and Chamber
of Commerce and Produce Exchange,
together with other citizens were present.
Col. Wm. L. Smith, President of the
Board of Health, presided and Dr. J. C.
Walker, Superintendent of Health, acted
as Secretary.

Dr. Bell addressed the meeting for the
space of an hour upon the sanitary condi-
tion of the city and the quarantine
regulations of the port, dwelling more
particularly upon the first named subject.
His remarks were well received and con-
sidered well timed and his recom-
mendations in the main were very
good. But Dr. Bell made no new revela-
tions in regard to the condition of our city
and stated nothing but what was known
to our medical men before, some of
whom we have conversed with upon this
subject on frequent occasions. The dif-
ficulty which our Board of Health labors
under in reaching the acme of Dr. Bell's
idea of the proper sanitary condition of
a city is simply a lack of funds to exe-
cute the ideas which the Board conceives,
and which it is their earnest desire to see
carried out. We are persuaded in our
own mind, both from information that
we have received from the proper sources
as well as from our own observation, that
our city is in a much better condi-
tion than it has been on many preceding
years in the sickly seasons. Doctors
Walker and Wood have been assiduous
in their attentions to Doctor Bell, in
giving him every opportunity to make a
thorough inspection of the city, without
any premonition of their coming to the
various localities and places they were
about to visit. Our Superintendent
of Health, Dr. J. C. Walker, we believe
to be as prompt and thorough in carrying
out the orders of the Board of Health,
and in his official duties generally, as it
is possible for man to be. One correction
we think it our duty to make here. Dr.
Bell expressed surprise at the number of
deaths from consumption, but upon a
closer examination it was found that the
Doctor himself had made a mistake in
the addition of the figures by a little over
one-half of the total number.

We like to see the question of the prop-
er sanitary condition of our city investi-
gated, officially, whenever it is proper to
do so and we think it is a matter that all
citizens ought to interest themselves in.
Still, we cannot but believe that our
present Board of Health, during its short
time of existence—some three months—
with only the means at their disposal that
they have had, have accomplished as
much as possible under the circum-
stances.

Dr. Bell, we believe, remains in Wil-
mington until the last of next week when
he leaves for Charleston and other points
South on his tour of inspection.

The Board of County Commissioners
and the County Assessors will meet to-
gether on Monday next, at 2:30 o'clock,
to receive and compute the tax lists and
to hear complaints.

Two interments, both children, in Oak-
dale Cemetery during the week.

Cured of Drinking.

"A young friend of mine was cured of
an insatiable thirst for liquor, which had
so prostrated him that he was unable to
do any business. He was entirely cured
by the use of Hop Bitters. It allayed all
that burning thirst; took away the appe-
tite for liquor; made his nerves steady,
and he has remained a sober and steady
man for more than two years, and has no
desire to return to his cups; I know of a
number of others that have been cured of
drinking by it."—From a leading B. R.
Official, Chicago, Ill.
