THE DAILY REVIEW.

VOL. IV. WILMINGTON, N. C., FRIDAY, AUGUST 29, 1879. NO. 174

LOCAL NEWS.

New Advertisements. THOMAS E. BOND, Supt. - N. Y. & W. S. S. Co. - No ice.

P. HEINSBERGER'S - Nancy Cottam's Courtship. HALL & PEARSON - Complete Stock.

Picnics are on their last legs.

Enough rain - ditto mosquitoes.

A shirt front is something to be studied.

The best cure for imaginary trouble is a corn.

A duck of a love makes a goose of a husband.

To ask a man to pay a bill is as easily said as done.

An anonymous article - a baby before it's christened.

Window Glass of all sizes at JACOBI'S Hardware Depot.

The kind of canned goods which go off the quickest - gunpowder.

Few young men are afraid of a yellow jacket when it has a girl in it.

Cobblers cannot possibly be sick long at a time, since they are daily mending.

Never do anything to attract the attention of a man who is using a street hose.

Mrs. Oates is booked for Raleigh sometime soon. Hope she'll come to Wilmington.

It is terrible when a man who was born in affluence and coddled in champagne is suddenly reduced to poverty and root beer.

The thermometer began the business day at 9 o'clock this morning at 72 degrees but at 3 o'clock had risen to 78. This in our office.

The city cart force has been increased recently and the Health Officers have been bestirring themselves, "in consequence of which" the sanitary condition of our town is first-rate.

There was but three feet of water on the shoals at Fayetteville yesterday morning when the steamer Worth left there. Steamboatmen are beginning to look blue again.

The Rattle snake Lightship, which has been undergoing thorough repairs at Messrs. Cassidy and Ross's ship yard for some time, is almost ready to be towed out to her station.

The Fayetteville military companies will not go into camp this season, but have finally abandoned the idea having, most likely, postponed it too long. We are sorry as we should like to have seen them here en route to Smithville.

The Americans lead the world in every thing and especially in fast eating; this has made Dyspepsia our national disease, though now under perfect control by the use of Dr. Bull's Baltimore Pills. Sold everywhere. Price 25 cents.

When a man sneaks into the house at midnight and tries to get into bed without waking the family, very stair and floor board creaks, like a rusty swinging sign in a gate; but a burglar can go all over the same house as noiselessly as a floating zephyr.

A man's sign offers a mute invitation to those only who pass his place of business, his circular can only reach those to whom personal attention is given; but his card in a newspaper goes into the highways and byways, finding customers and compelling them to consider his argument.

More of the New Crop.

Messrs Lilly & Bro. received by the W. C. & A. R. R. this morning the first bale of new cotton that has reached this city from South Carolina this season. The shipment was made by Col. C. E. Stubbs, of Sumter, South Carolina. The bale weighs 554 pounds and is classed as middling cotton. Messrs Lilly & Bro. have advices also of two more bales of the new crop that will be down on the C. C. Railway to-morrow morning.

Cured of Drinking.

'A young friend of mine was cured of an insatiable thirst for liquor, which had so prostrated him that he was unable to do any business. He was entirely cured by the use of Hop Bitters. It allayed all that burning thirst; took away the appetite for liquor; made his nerves steady, and he has remained a sober and steady man for more than two years, and has no desire to return to his cups; I know of a number of others that have been cured of drinking by it.' - From a leading R R Official, Chicago, Ill.

Large Shipment of Lumber.

The schooner E. S. Powell, cleared from this port yesterday by Messrs William & Murchison, for New York, takes out 400,854 feet of lumber, which is the largest cargo ever shipped from the port of Wilmington. The lumber was sawed by Messrs Colville & Taylor at their steam saw mills in this city.

You can get the best White Lead, Paints and Oils, and lowest prices at JACOBI'S Hardware Depot.

Death of Mr. Latham.

The Augusta papers record the death at Aiken, S. C., on Monday last, of Mr. H. N. Latham, formerly a resident of this city and at one time agent here of the Southern Express Company and Leader of the Cornet Concert Club. He was only 33 years of age.

Mr. Latham married in this city a daughter of the late Eli W. Hall. He leaves a widow and several children.

City Court.

Alderman Bowden, Mayor pro tem. presiding.

One case of drunkenness and disorderly conduct was disposed of this morning by the Mayor pro tem., requiring the guilty party to reinforce the treasury to the amount of \$5. This was the only case the City Court Clerk had on his docket in consequence of which the Court adjourned without further ceremony.

Death of a Wilmington Lady.

A letter received in this city this morning conveys the sad intelligence of the death at Orange, in Orange county, Texas, on the 21st inst., of Mrs. Hester A. Foyles, relict of the late Dan'l M. Foyles, formerly of this city. Mrs. Foyles removed to Texas in 1873. She leaves many friends and relatives in this city who will regret to hear of her death.

Excursion Party From Fayetteville.

Capt. Albert Worth will bring to this city next week an excursion party of some twenty-five or thirty persons, merchants of Fayetteville and others. They will leave Fayetteville on Monday morning and expect to be on hand here on Tuesday morning when the probabilities are that the greater number of them will go down on the Passport to the Forts below.

Opening the Season.

The amusement season is about to open. The irrepressible Wyman will appear in Petersburg next week, to be followed by the Fay Templeton Troupe, who will play Pinafore.

On Monday evening the Templetons will open in Norfolk for a short season, playing "Prince Napoleon, or the Fatal Field in Zuzaland" on Monday night and Pinafore on Tuesday night.

The best Windows, Doors and Blinds and Lowest Prices can be got at JACOBI'S Hardware Depot.

Tar River Improvements.

The Tarboro Southerner says: Capt. Chas. B. Phillips, Captain of Engineers U. S. Army, and Capt. W. H. James, were in town last week making arrangements to begin work on the improvement of navigation on Tar river. Capt. James will have this work in charge. Capt. Phillips, whose headquarters are in Norfolk, has all river and harbor improvements in this State under his supervision. Work will begin early in September. Capt. James is an old Confederate officer, and did some fine engineering below Wilmington during the late war. Congress, at its last session, appropriated only \$3,000 for Tar river, which is not enough by one third. Will have more to say on this subject hereafter.

Things Worth Knowing.

That boiling water will remove tea stains and many fruit stains; pour the water through the stain, and thus prevent it from spreading over the fabric. That ripe tomatoes will remove ink and other stains from white cloth, also from the hands. That a teaspoonful of turpentine boiled with white clothes will aid the whitening process. That boiled starch is greatly improved by the addition of a little spermaceti or a little salt, or both, or a little gum arabic dissolved. That beeswax and salt will make flat ribbons as clean and smooth as glass. Tie a lump of wax in a rag and keep it for that purpose; when the irons are hot, rub them with the wax rag, then scour with a paper or rag sprinkled with salt. That kerosene will soften boots and shoes which have been hardened by water, and render them as pliable as when new; saturate a woolen rag and rub with it; it will also remove stains from clean varnished furniture.

Mr. Brown is Better.

We are glad to learn by information received here yesterday afternoon, after our paper had gone to press, that Mr. A. D. Brown, who we spoke of as being quite ill at Saratoga, was reported as better. Nothing has been heard from him to day but this fact alone is taken by his friends as meaning that he is still improving.

Illness of Mr. Bear.

We regret to learn that Mr. Marcus Bear, who has been quite unwell for some days past, has at length taken to his bed. He is troubled with hemorrhages from the lungs and it is not known to-day whether he is really better or not, only that he is resting somewhat better. We trust that we will soon see him again at his post.

Very Destitute.

We understand there is a family living on Front, between Hanover and Brunswick streets, who are very destitute and are in want of food wherewith to sustain life. The mother, father and eight children are sick and suffering. Dr. A. D. McDonald was sent for who gave them medicine, sent them food and directed his cook to serve them until they are better. It is one of the many cases of suffering in the city and should be looked after.

Personal.

Mayor Fishplate arrived at home this morning looking well and hearty after a three weeks absence at the North. We presume His Honor will mount the bench at the City Court Room in the morning and look down upon the evil doers. Paddy's Hollow ought to furnish a good Court to-morrow to let the Mayor get in practice again. He might be rusty after being absent so long. Alderman Flanner returned home last night after several weeks sojourn at the White Sulphur Springs in Virginia.

Safe in Port.

The schooner John A. Griffin, which had been given up by so many as lost, but whose safe arrival at the Bar was reported by us yesterday, was towed up to the city to-day by the steam tug Alpha, and was moored to Mr. O. G. Parsley's wharf at half past 12 o'clock. She brought her two passengers, Messrs. Dyer and Davis, the two young men from this city who boarded her at Philadelphia en route for their homes here. A large number of persons were at the dock to meet them, among them the fathers of the two young men. There was also a delegation from the Comus Club, of which Messrs. Dyer and Davis are members, who came down in a carriage to receive and escort them to their homes. After a hearty hand-shaking all around the young gentlemen entered the carriage and were driven to their homes where the happy greeting which awaited them may be more easily imagined than described.

Capt. Slover says he has been out in a bigger storm than that which he experienced this time, but that he was never before in so great danger. He was well out to sea when the storm struck him. His glass gave no indication of the danger, but all of a sudden, and in a heap as it were, a hurricane of wind was upon him. He could do nothing for it but let his vessel go before the wind. Suddenly, when in about five miles of the shore the wind died out and soon after sprang up again from the Northwest and drove the schooner off to sea again. It was certainly a narrow escape for if the wind had held fifteen minutes longer they would have been driven ashore.

Capt. Slover reports having left the Cape of the Delaware on the 15th inst.; had moderate weather until the 18th, when about 30 miles S. E. of Hog Island, on the coast of Virginia, experienced a hurricane from S. E. which lasted six hours; vessel was put under close reefed sails. About 10 a. m. mainsail, foresail and forestaysail were split and torn - main boom topping-lift parted and main boom came down, breaking both davits and damaging boats; vessel being unmanageable, he let her go before the wind - heavy sea running. Bent storm trysail, but sea so heavy thought it unsafe to haul up. At 1 o'clock vessel in 10 fathom water, sea running very high. At 1:30 in 8 1/2 fathoms water and wind settled to a dead calm. At 2 wind struck from N. W. A heavy sea struck the vessel and broke the tiller off close to the rudder, vessel springing a leak.

For bar steel, iron and carriage goods go to JACOBI'S Hardware Depot.

Disturbances in Jupiter.

According to a writer in the Rochester Democrat and Chronicle, there is trouble in the giant planet Jupiter, which is shining so brilliantly these cool August nights. A great spot, estimated to be 18,000 miles in diameter, is conspicuous on the planet's disc. It has been visible for two years, says M. Trouvelot, of Cambridge, Mass., although its appearance has not been generally known until recently. It is probable that on the first discovery of the spot the color was not strongly pronounced, or it would have been more generally observed. Dr. Swift of Rochester, saw the spot for the first time only a few weeks ago. The only explanation, thus far given, is that there is a rent in the cloud-covering of Jupiter, revealing the red hot body of the planet. This explanation hardly explains, although it is now generally conceded that Jupiter is a glowing mass and shines partly by his own light. Many remarkable changes have recently taken place in the appearance of Jupiter. Those who search for the red spot cannot fail to notice the white, cloud-like spots between the great copper-colored equatorial belts. The great central belt seems to be broken up into white cloud masses lying at intervals along the Jovian equator. The copper color of the outer belts extends in some places across the equatorial regions, usually occupied by a bright belt of creamy white. North and south of the great equatorial belts and about half way to the poles are narrow, irregular salmon-colored belts, that present a very beautiful appearance. The blue coloring about the poles seems less pronounced than usual. It is more than probable that in the mighty changes going on in Jupiter, adds the Chronicle, we are witnessing the phenomena of world growth, and that the giant planet is slowly undergoing, under our very eyes, the modifications necessary to fit it for habitation.

Grape Wine for Communion.

The superior quality and entire purity of Speer's Port Grape Wine, of New Jersey, and the success that physicians have had by its use have induced them to write about it, and caused hundreds of others to prescribe it in their practice as the best and most reliable wine to be had. It is held in great favor for evening parties, and for communion purposes. For sale by P. L. Bridgers & Co., J. C. Munds and Green & Flanner. Aug. 17.

Wine and Cake for Evenings.

Alfred Speer of New Jersey, it should be known, is one of the most extensive producers and dealers in Pure Wines and Brandy in the United States. He makes a Superior Port Wine, which took the highest premium at the Centennial, known as Speer's Port Grape Wine. It is sold by J. C. Munds, P. L. Bridgers & Co. and Green & Flanner. Aug. 17.
