

The Daily Review

JOSH. T. JAMES, Ed. and Prop. WILMINGTON, N. C. THURSDAY, SEPTEMBER 18, 1879.

[ENTERED AT THE POSTOFFICE AT WILMINGTON, N. C., AS SECOND-CLASS MATTER.]

WILMINGTON, N. C.

The Chinese keep grapes a long time fresh, by cutting a hole in a pumpkin, cleaning it out and after filling with ripe fruit replacing the cover.

Stuart Robson, the actor, has made a hit in San Francisco by making himself look like a miser when personating Graham, the wicked clergyman, in "Chain-pique and Oysters."

Remark by Judge McCredy, in a court at New London, Conn.: "The Sheriff will kindly request the gentlemen of the jury to desist from eating peanuts. This is not a circus."

Gambetta does not like to be a spectacle. The crowds that follow when he straggles abroad annoy him exceedingly. He has been upon the experiment of first going to his country place, near Paris, when about to start on a journey, and going back under a false name.

The improvement in the iron industry of the country is very decided. At New Albany, Ind., merchant iron has gone up \$14, railroad iron \$10 to \$22, pig-iron \$3 50 to \$9, and iron pipe 50c per ton, all with the present year. The rolling mills are now arranging to run night and day.

Sunday evening concerts of a devotional cast continue to flourish in New York. At the one given last Sunday evening at the Madison Square Garden, Mlle. Atmes sang the drinking song from "Girofle-Girofla." There is a stern Puritanism about New York that leaves the original Puritans, down in New England, all out in the cold.

Mr. Archibald Forbes is said to intend making another lecturing tour. If he be only as successful in this as in his last expedition of the same kind he will be a fortunate man. He was "run," as the saying goes, by an impresario, and his salary amounted to \$450 a week with expenses. On the 1st of February he starts off in America—New York probably—with "Royal People I Have Known."

The A. T. Stewart of Cincinnati died on Wednesday last. John Shillito, born at Greensburg, Pa., on the 24th day of November, 1808, started as a clerk in Cincinnati, fifty-five years ago, and gradually acquired immense wealth in the dry goods trade. Mr. Shillito left an estate worth several millions of dollars. He abstained from interference in politics, was close to his attention to business, and liberal in his donations to worthy charitable objects.

The St. Gothard tunnel through the Alps is being pushed rapidly to completion. Four thousand men are now engaged in the work, and Irish hands are taken on every day. The advance is at the rate of very nearly eight metres a day, and on Aug. 30 the length still to be bored was 1,185 metres, so that the tunnel will probably be finished by the end of this year or the beginning of next. The making of the Mont Cenero branch will be commenced on the 1st of October, and its completion is expected to coincide with that of the main line.

Matrimonial fairs are still kept up in the south of Ireland, where all the "kelly boys and girls" in the parish are on view, and all the "matches" in the year are made. For days before there is quite a stir in the neighborhood, and a twitter runs through the entire female population. There is a universal stitching and buying of ribbons; every girl you meet on the road holds out her hand for a sixpence, and you can't speak to a domestic servant without her hanging out signals of distress. "On the day of the 'Shrafting' the girls stand in a row on the village green, while the 'boys,' as they are called, cluster together at a little distance, dressed in their best, but looking as sheepish as possible. The real business of the occasion, however, is done by the parents on both sides."

The Probate Office in London is a wonderful treasure house of valuable autographs. It has lost that of Napoleon I., whose will, with its codicils, executed at St. Helena, was proved in Doctors' Commons, but was cooly set aside by the French courts. When his nephew ascended the throne of France the Imperial will was amicably surrendered to him, and by Napoleon III his uncle's testamentary dispositions were carried out in their integrity, including the legacy of 2,000 francs to the Sub-officer Cantillon, who had been tried for an attempt to assassinate the Duke of Wellington in Paris. For a long time Sub-officer Cantillon could not be discovered, but at length he was found, a very old man, keeping a petty grocer's shop in Paris.

WONDERFUL DISCOVERY IN FUEL.

Under this head, the London Athenaeum prints a letter from Miss Betham Edwards, a well-known authoress, who says that a Mr. Borboud, of Dijon, has just made and perfected a discovery which enables him to use two natural substances, inexhaustible in nature, for lighting and maintaining a fire without wood or coal. The fire can be instantaneously lighted and extinguished, is free from dust, smoke and trouble, and costs only a tenth of ordinary fuel. She concludes thus: "I have seen these fires and stoves. There is no mistake about the matter. It is as clear as possible that here we have a perpetual and economical course of fuel. Two hundred years ago the discoverer would have surely been burnt as a wizard."

FOUND GUILTY.

The Comptroller of the State of Georgia, having been impeached for the embezzlement of the public funds, has been found guilty, and he will probably receive his sentence to-day. Being found guilty he is forever debarred from holding again office of trust, honor or emolument in the State, together with such other punishment as the Court may see fit to inflict.

This is as it should be. If a public official betrays the trust which a people has reposed in him, having every confidence in his honesty and integrity, he makes himself unworthy of any future confidence whatever. The temptation may have been ever so strong, yet there is no shadow of excuse. Not a penny of the money belonged to him, nor did he have even a usufructuary interest therein. His position clothed him with a sacred fiduciary interest in the funds of the State and that he betrayed in the desire to attain wealth, jeopardizing the integrity, prosperity and honor of the State in the hope that his personal prospects might be improved thereby. It is a wise policy and patriotic statesmanship which forever debars those who violate an important public trust, from holding any office of honor, trust or emolument.

LAW AND ORDER IN THE BAY STATE.

While the Northern newspapers are fuming over what they are pleased to term the "shot-gun policy" of the South, and we are subjected to every conceivable abuse from those immaculate "freedom shriekers," we would respectfully suggest that all is not mild and serene and lovely in the land of the puritans. If they would consent to "give us a rest" for a short season, we would suggest that the interim might be profitably filled by reading the following:

FALL RIVER, Mass., Sept. 17.—By far the most shameful outrage of the strike was committed by strikers this afternoon. Eight French families, comprising between seventy and eighty men, women and children, were brought here to-day on the noon train from Boston to Sorel, Canada. They have never worked in a cotton mill, and are to work at the Stafford and Crescent mills. The company was divided into two parties; one was taken to the Stafford mills and the other to a block on Davis street. It was subsequently decided to remove the latter party to a house in the rear of the Crescent mill, some few hundred yards away. The party consisted of two men, besides the agent who brought them here—four women and three remainder were boys and girls from eighteen years of age downward. As the party came out on the street they were looked at by a crowd of women, children and a few men, and a few stones were thrown. To make the shortest cut they took what is known as the stone crusher lot, where they were assaulted by a crowd numbering 150 persons, mostly men. The stones were thrown at them in perfect showers, and one of the men named Bucha was so roughly assaulted that a man who witnessed the whole affair said he did not expect to see him come out of it alive. He was severely kicked, and was bruised by a stone under one eye, but is not seriously injured. One woman with a babe in her arms was knocked down and kicked, a little boy about seven years old was struck in the face, and all the little children were stoned, as well as the older persons in the party. The party separated and ran in different directions, which broke the crowd. The police were summoned, and with Officer H. and the whole of the district police, who happened to be near by, were on hand in a few moments, but the alarm was given at their approach and the crowd had dispersed. Three of the assaulted party had got separated from their friends, but are reported to have been found with some old acquaintances in another part of the city. More indignation is expressed by the citizens at this outrage than at all the others that have occurred. The cowardly assault on the women and children is stirring the feelings of every good citizen. No arrests have yet been made.

Northern Republicans refuse to allow a man to vote in Rhode Island, and they will not allow even women and children to labor for an honest living in Massachusetts. Commander Clendon of the British navy says that the Morse system of telegraphy, as far as it depends on the length of sounds, has long been in use in Africa. He has found tribes that, by stationing drummers at intervals, carry intelligence for miles with great rapidity, the beats of the drum being made in accordance with a previous arrangement of signals.

The Paris Globe gives the following statistics of Masonry in France, declaring that they are the best that can be ascertained, and are reliable as far as they go. There are 76 grand lodges and 110 provincial grand lodges, having under them 7,996 lodges. Twelve "high councils" direct 350 lodges. There are eight lodges which are signified as "independent," "autonomous," or "excluded." There are thus nearly 8,000 lodges altogether. These include very nearly 500,000 active members. It is said that the number of members who have withdrawn from further participation in the brotherhood, or may be characterized as "indifferent," or inactive, amounts to between two and three millions.

MOONSHINE.

"Mamma, can't we have anything we want?" "Yes, my dears, but be careful and don't want anything you can't have."

Joe Cook is at Ticonderoga eiphering out the reason why the unknown preponderance of the luminous eggs causes the heterogeneous injury of the deplorable biopast to give way before the laughter of the soul at itself. —St Albans Advertiser.

The bell-punch is generally supposed to be a modern invention, but it was evidently in use in Maebeth's time, from the fact that he says: "Go bid thy mistress, when my drink is ready, she strike upon the bell." —Boston Commercial Bulletin.

It was in Belton, Bell county, Tex. He got out in front of a Embree & K's store, and offered a reward of \$25.00 for a Texan lieutenant. It was all in vain. Every man present ranked as a major, colonel, or general, except the judges. —New Orleans Times.

The agricultural interest. Landlord (to tenant who has given up farming at the end of his lease to await better times)—"Well, Jackson, how do you like living on your capital?" Farmer—"not too well, my lord; but I find it cheaper than letting you live on it." —London Punch.

I am past 60 years old, and every now and then I meet a relic who knew me 45 years ago, and remembers some divinity I was guilty of then. And I strange how tenacious the memory is of those things, and how weak it is of anything that a feller may have accidentally done? —Josh Billings.

Beautifiers

Ladies, you cannot make fair skin, rosy cheeks and sparkling eyes with all the cosmetics of France, or beautifiers of the world, while in poor health, and nothing will give you such good health, strength, buoyant spirits and beauty as Hop Bitters. A trial is certain proof. See another column.

A Sure Cure for Piles.

A SURE CURE for the blind, bleeding, itching and ulcerated piles has been discovered by Dr. William (an Indian remedy), called Dr. Williams' Indian Ointment. A single box has cured the worst old chronic cases of twenty-five and thirty years standing. No one need suffer five minutes after applying this wonderful soothing medicine. Lotions, instruments and electrocutes do more harm than good. Williams' Ointment absorbs the tumors, allays the intense itching (particularly at night after getting warm in bed), acts as a poultice, gives instant and painless relief, and is prepared only for Piles, itching of the private parts and nothing else.

I consulted physicians in Philadelphia, Louisville, Cincinnati, Indianapolis and this city, and spent hundreds of dollars, and found no relief until I obtained a box of Dr. Williams' Indian Ointment some four months ago, and it has cured me completely. JOSEPH M. KYDER, Cleveland, O. "Has done me more good than all the medicine I ever tried, and I have spent more than \$100 with doctors, besides medicines I can cure cost me more than \$40." DAVID SPARLING, Ingraham, Ill. "Have suffered twenty years with itching and ulcerated piles, having used every remedy that came to my notice without benefit until I used Indian Ointment and received immediate relief. WEST POINT, Ga., Sept. 16, 1870. Gents:—My daughter was taken on the 25th day of June, 1863, with what was supposed to be Acute Rheumatism, and was treated for the same with no success. In March, following, pieces of bone began to work out of the right arm, and continued to appear till all the bone from the elbow to the shoulder joint came out. Many pieces of bone came out of the right foot and leg. The case was then pronounced one of White Swelling. After having been confined about six years to her bed, and the case considered hopeless, I was induced to try Dr. H. C. Branson's Compound Extract of Stillingia, and was so well satisfied with its effects that I have continued the use of it until the present.

My daughter was confined to her bed about six years before she sat up or even turned over without help. She now sits up all day, and sews most of her time. Her health is now good, and I believe she will, as her limbs gain strength, walk well. I attribute her recovery, with the blessing of God, to the use of your invaluable medicine. YELLOW FEVER—BLACK VOMIT.

It is too soon to forget the ravages of this terrible disease, which will no doubt return in a more malignant and virulent form in the fall months of 1879. MERRILL'S HEPATIN, a Remedy discovered in Southern India and used with such wonderful results in South America, where the most aggravated cases of fever are found, cause from one to two ounces of bile to be filtered or strained from the blood each time it passes through the Liver, as long as an excess of bile exists. By its wonderful action on the Liver and Stomach the HEPATIN not only prevents to a certain extent any kind of Fever and Black Vomit, but also cures Headache, Constipation of the Bowels, Dyspepsia and all Malarial diseases. No one need fear Yellow Fever who will expel the Malarial Poison and excess of bile from the blood by using MERRILL'S HEPATIN, which is sold by all Druggists in 25 cent and \$1.00 bottles, or will be sent by express by the Proprietors. A. F. MERRILL & CO., Philadelphia, Pa.

Dr. Pemberton's Stillingia or Queen's Delight.

The reports of wonderful cures of Rheumatism, Sciatica, Salt Rheum, Syphilis, Cancer, Ulcers and Sores, that come from all parts of the country, are not only remarkable but so miraculously cured, that it is not to be doubted for the abundance of proof.

Remarkable Cure of Sciatica, &c. CASE OF COL. J. C. BRANSON.

KINGSTON, Ga., Sept. 15, 1871. Gents:—For sixteen years I have been a great sufferer from sciatica in its most distressing form. I have been confined to my room and bed for fifteen years with excruciating ulcerations. The most approved remedies for such cases had been used, and the most eminent physicians consulted, without any decided benefit. I was advised by Dr. J. C. Branson, of Floyd county, Ga., to commence the use of your Compound extract Stillingia. Language is insufficient to describe the relief obtained from the use of the Stillingia as it conveyed an adequate idea of the intensity of my suffering before using your medicine; sufficient to say, I abandoned all other remedies and continued the use of your Extract of Stillingia, until I can say truly, "I am cured of all pain" of all disease, with nothing to obstruct the active pursuit of my profession. More than eight months have elapsed since this remarkable cure, without any return of the disease. For the truth of the above statement, I refer to any gentleman in Bartow county, Ga., and to the members of the bar of Cherokee Circuit, who are acquainted with me. I shall ever remain, with the deepest gratitude, Your obedient servant, J. C. BRANSON, Atty-at-Law.

A MIRACLE.
