HEINSBERGEK—Get the Best

The information from the President to-day is more encouraging.

Study your interest. You can now buy Cook Stoves at factory prices at JACOBI'S.

His Honor Mayor Smith was compelled to give up business again to-day and go home on account of sickness.

Freshwater Perch, Trout and Black-fish Hooks and Lines. A full assortment and lowest prices at JACOBI'S.

Unmailable matter remains in the Postoffice in this city addressed to Mr. Dick Johnson, Whitehall, N. C.; Mrs. J. Gibbons, 22 Price street, Savannah, Ga.

On and after to-day a tariff of 25 cents will be charged on all messages of ten words transmitted over the Government wires between this city and Smithville.

Take a new flower pot, wash it clean, wrap it in a wet cloth, and set over butter, will keep it as hard as on ice. Milk, if put into an earthen can, or even a tin one, will keep sweet for a long time, if wrapped in a wet cloth. So it is said.

Beautify your homes by using the N. Y. Enamel Paint, ready mixed and warranted. Sold only at JACOBI'S.

Those who have regarded the postman as a happy being, cognizant of all his neighbors' secrets, will be somewhat astounded to learn that there is a department regulation forbidding him to read postal cards under a penalty of a thousand dollars.

**"Buchupalpa."**  
New, quick, complete cure 4 days, urinary affections, smarting, frequent or difficult urination, kidney diseases. \$1. Druggists. Depot, Jas. C. Munds.

To keep his neighbor's cattle out of his fields an ingenious farmer stuck a few nails through a clothes line. A man saw this device, and soon afterwards patented the "barb wire" fence. The farmer from whom he got the suggestion now pays him tribute, and the income to the manufacturer is said to be about \$100,000 per month.

Call at JACOBI'S for Garden Hoses and Rakes, Shovels, Spades, Axes, &c. There you have the lowest prices.

**City Court.**  
Walter Clinson, a son of Neptune and an employe of the government, being employed on the steam revenue cutter *Calfax*, was hauled into the Guard House on Saturday night between two police men while on an extensive land cruise. This morning, upon the evidence of the policemen, who testified that defendant was drunk and very disorderly, His Honor pronounced sentence of \$10 fine or thirty days imprisonment. Defendant went below.

Mr. J. P. Murphy, of Springfield, Tenn., states the following facts: My wife has been suffering with Neuralgia and Paralysis for fifteen or eighteen months. She finally lost the use of her limbs and had to be moved in her bed. Notwithstanding the best medical attention she could not find relief. I also tried many different kinds of liniments but none did her any good. Happening to be in Mr. W. W. Eckles Drug store, I was told by him of St. Jacobs Oil and he insisted upon my taking and trying a bottle. I did so, and by the time she had used about two-thirds of the Oil she could walk over the house by the aid of a stick. She has been using it since, and to-day is able to get around anywhere and do all the work about the house. I had a very bad attack of colic; took five drops internally and was cured at once. I heartily indorse the remedy to be just what it is recommended.

**Water Spout at the Sound.**  
Saturday afternoon, about 4 o'clock, a water spout, ranging from 30 to 50 feet high, traveled across Wrightsville Sound and was accompanied by a circular wind. The yacht *Bonnie Lassie* was picked up by the spout and carried about twenty feet on the shore. A part of Captain Manning's bathhouse was torn off by the water spout, and one or two trees at the landing were badly broken.

**The Death Rate.**  
The *Sanitarian*, published at New York, says that "the unhealthiest cities in the world are Dayton, St. Petersburg, Wilmington, Indianapolis and Cleveland." Of course it means Wilmington, Del., but it neglects to say so and people in the South, and many in the West, may be apt to think that Wilmington, N. C., is meant.

As for the facts in regard to our city let us see how they stand. From the report issued by the National Board of Health, for the week ending August 6th, we find that they were, in Wilmington, Del., at the rate of 55.2 per annum for every one thousand of the population; while in Wilmington, N. C., they were at the rate of 9 per annum for every one thousand of the population. There were but three deaths reported in our city for the week ending August 6th, one of which was from the white and two from the colored population. One of the latter was a child under five years of age.

Here are some other Southern cities; the calculation being made for the same period and for one thousand of the population: Norfolk, 38; Richmond, 36.8; Lynchburg, 42.5; Atlanta, 27.5; Savannah, 28.9; Brunswick, 18; Jacksonville, 28.1; Key West, 15.8; Mobile, 40.1; Columbus, 9.4; Natchez, 29.4; New Orleans, 22.4; Shreveport, 52.1; Baton Rouge, 36.3; San Antonio, 123.5; Galveston, 21.1; Little Rock, 43.5; Nashville, 22.8 and Memphis, 35.7.

Here are some Northern cities: Portland, 15.4; Bangor, 9.2; Concord, 22.7; Boston, 28.3; New Bedford, 21.4; Newburyport, 23.1; Nantucket, 41.5; Fall River, 34.1; Springfield, 29.1; Gloucester, 60.2; Clinton, (Mass.) 6.5; Salem, 50.9; Weymouth, 5; Providence, 22.7; New York, 36.2; Brooklyn, 36.9; Poughkeepsie, 18.1; Rochester, 32.1; Buffalo, 38; Philadelphia, 24.5; Pittsburg, 35.7; and District of Columbia 33.2.

Who will say now that our city is unhealthy? The statistics have revealed that it is one of the most healthy places in the country and there is no disputing the fact as demonstrated by the figures. The lowest death rate in the United States, as per the returns, is at Portsmouth, Ohio, where it is but 4.6 per thousand per annum; next comes Weymouth, Mass., with 5; then Clinton, Mass., with 6.5; then Melrose, Ill., with 6.7; then Taunton, Mass., with 7.03; and then Wilmington, N. C., with 9. We are the sixth on the list. The highest rate reported is at San Antonio, Texas, 123.5, and the next is Salt Lake City with 72.8.

**Death of Maj. Poisson.**  
It is with feelings of great regret that we record here the death of Major Frederick D. Poisson, which occurred at his residence in this city, this morning, of paralysis. He was first attacked two weeks ago to-day and had partially recovered the use of his faculties when on Friday last he was again attacked and has since that time been totally unconscious.

Maj. Poisson was a native of this city and was in his 46th year. He graduated from Trinity College, Hartford, Conn., in 1855 and in 1857 opened an office here for the practice of his profession, the law. He was an Old-line Whig and was at one time previous to the war a candidate for the Legislature from this county on the ad-valorem platform. He was accounted an excellent lawyer and although a fluent, graceful and well-informed speaker, he but seldom appeared at the bar as an advocate, although his private practice was a very fine one. He was the legal advisor of several of the most prominent houses in the city. He was an ardent lover of his native South and has never hesitated to take the field in behalf of her political advancement, having frequently rendered excellent service in this behalf. He was one of the most courteous, high-toned and polished gentlemen we have ever known and we do not believe that he had an enemy in the world. His death is universally regretted. Peace to his ashes.

Mr. E. H. King gives notice that he will continue his business at his old stand and is only selling out his household effects. See his advertisement elsewhere.

Mr. S. D. Wallace, Cashier of the Bank of New Hanover, has returned from Statesville where he has been spending a fortnight. We are pleased to see him looking improved and benefited.

The receipts of cotton at this port to-day were only four bales.

The vexed question of the weather seems to have been settled at last. It has been clear and sunny and warm to-day.

**How to Find the Comet.**  
The new comet, which is known as Schaeberle's comet, or Comet C, may be found in the northwest heavens about 9 P. M., by the aid of an imaginary line drawn through the pointers or lowest stars in the Dipper, and prolonged in a southern direction—that is, in a direction opposite to that in which the Polar Star would be reached. The comet will be found about 10 degrees above the horizon. It will be remembered that, roughly, a degree is about the apparent diameter of the full moon. It is about three degrees west of a line drawn through the pointers and ten degrees above the horizon. The tail can be seen from the unlighted parts of the city, fan like in shape, and pointing towards a spot not far distant from the North Star.

**The Storm at Savannah.**  
From a private letter received here this morning from Savannah, we learn that the storm of Saturday was probably more severe there than on any other part of the Atlantic coast. Houses were unroofed and carried a hundred yards or more, and then forced through the roofs of other houses. The correspondent at Savannah writes further that trees, houses and telegraph wires were prostrated in every direction. On the river, wharves were torn up and vessels and steamboats driven to destruction. Nothing escaped damage of some kind. People are missing from the steamboats and vessels and the neighboring islands on the river. Cotton presses and warehouses are destroyed, and nearly 5,000 cases of spirits have been set adrift from the different warehouses, and rosin in like proportion. The railroad companies' wharves and sheds and warehouses adjoining have been carried away. It is thought that there will be no delivery of naval stores there for the next week or two and very little business of any kind until the damages by the storm can be repaired. The same letter says salt water is away above the city and there is no fresh water to drink. The city of Savannah is supplied with water from the river. The damage is roughly estimated at \$1,000,000.

**TRIBUTE OF RESPECT.**  
HOWARD RELIEF FIRE ENGINE CO. NO. 1.  
WHEREAS, The infinitely wise and merciful Creator to Whose Divine ruling we humbly submit, has seen fit to remove by death, from all earthly scenes and associations, our beloved friend and brother fireman, George Steenken, who has profited by his example, are desirous of testifying our respect and affectionate sympathy with the household, deprived by this dispensation of their earthly head. Therefore be it  
Resolved, That we deeply feel the loss of our brother fireman, George Steenken, that in him we lost one who was always prompt at his post in time of danger, one who always had a cheerful word and a kind look for his brother firemen, one who devoted his time to the welfare of this Company.  
Resolved, That in our natural sorrow for the loss of a faithful and beloved brother, we find consolation in the belief, that it is well with him for whom we mourn.  
Resolved, That as a mark of respect for our deceased brother, that the Engine Hall be draped in mourning, and that a blank page be left in our records with the name, date and death of our brother inscribed thereon, and that the members of this Company wear the usual badge of mourning for the space of thirty days.  
Resolved, That while we deeply sympathize with those who were bound to our brother by the nearest and dearest ties, we share with them the hope of a reunion in that better world, where there is no parting and bliss ineffable forbids a tear.  
Resolved, That these resolutions be transmitted to the family of the deceased as a token of our respect and veneration for the excellent character of a good man, gone to his rest, and of the interest felt by his brother firemen in those he loved and cherished, and that a copy be sent to the daily newspapers for publication.

**STRICTLY FOR CASH!**  
Several good patterns of BRUSSELS—low value.  
Respectfully,  
R. M. McIntire,  
aug 29

## Truths Worthy of Remembrance.

**FIRST—OTTERBOURG'S** ability to carry a larger and more varied stock of Ready Made Clothing and Furnishing Goods than any House in the city.  
See 2d—The rapid and perpetual growth of Otterbourg's trade—a fact which is exciting public comment, and a honor worthy of emulation.  
Third—That Otterbourg, being young in years, is better calculated to make choice selections as regards style, color, and finish, than an older person who naturally adheres to Revolutionary time principles. Otterbourg's Clothing experience of fifteen years has made him an adept as far as quality and durability are concerned.  
Fourth—That Otterbourg being qualified to pay cash down for every dollar's worth of goods bought, (see July report from Northern manufacturers) is also better qualified to sell clothing at less figures and offer greater advantages than those who are not thus qualified.  
Fifth—Otterbourg claims to have (and the community coincide) the largest and best adapted building for his business in North Carolina. Plenty of light, and any quantity of room to display stock. Nobody need be deceived by the useless shams commonly thrown on goods by needless show windows. Otterbourg's stock stands the test of a forty foot open front.  
Sixth—Otterbourg is now in New York; will remain one month—a fact of no consequence in itself—but of great importance to a scrupulous trade, as he will devote that unusual length of time to the personal supervision of the manufacture into Clothing of his imported Fine Cloths and Cassimeres.

## MRS. JOE PERSON'S

## REMEDY FOR

## SCROFULA

NEVER FAILS.

It Will Cure if Fairly Tested.

It gives me much pleasure to be able to state that I have derived an effective cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After returning from the Institute, I was directed to try Mrs. Person's remedy, and had not used it more than a week before I discovered its curative and healing properties. My sores began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spirits were fed before this remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a pure oil, and a strong tonic; it will heal the most stubborn sores in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to prevent the chance of its return. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would commence to retrace, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy, and it should be taken at the proper time. I would recommend it to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fair trial. I speak from experience and not from hearsay. I am a grateful recipient of a cure from the use of it and am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured. I am, respectfully,  
JAMES A. MORRIS,  
Send stamp for testimonial of remarkable cures.

Prepared by Mrs. Joe Person, Franklin, N. C. Sold by W. H. GREEN, WILMINGTON, N. C.

## Use Chess, Carley & Co's

## Red Safety Oil

IS THE PUREST AND SAFEST

BURNING OIL IN USE.
