Washed Away.

We neglected to mention yesterday a fact of which we were aware thenthat severe injuries were inflicted by the storm to the beach below the breakwater at New Ialet, and between that point and the mouth of the river, by the overflow and washing away of a part of the low sandy beach. The injury is not thought to be a very serious one, however, and can probably be readily repaired. 'I he government works remained

Probably the Last.

The excursion announced for Thursday under the auspices of Prof. Agostini will probably be the last of the season. In this connection it would not be out of place to mention the fact that Prof. Agostini is soon to leave this city for new fields of labor. His reputation as a teacher of the art terpsichorean is wil known throughout the South. He is a young gentleman of pleasant address, exceedingly courteous to every one and is exceedingly particular in his training of pupils committed to his care. Our best wishes follow him wherever he goes.

The Storm at Savannah.

The disastrous storm in Savannah, o which mention was made in our loca columns yesterday, was more severe even than was outlined by us. Yesterday's Savanuah News devotes over six columns of solid minion type to a report of its ed and complete herbarium of the medi- ravages. It raged both Friday and Satcinal plants of the State, the following day, and was, according to the News works, or their equivalent, in volumes the the fiercest gale ever known there. We cannot begin to give a list of the disastis' "Woody Plants,' and "Catalogue of ters. The list, in its entirety, would take two pages of the REVIEW. The following heading, from the News, will indicate something of the extent of the disaster: "The city and suburbs in the clutches of a hurricahe-all the favorite resorts visited with wreck and ruin-a night of fear and peril-the streets littered with debris and blocked with prestrate trunks stores and dweilings sluiced-Tybes cut off-death and destruction on the island-loss of life elsewhere—the wires down in all directions -disasters feared along the coast-ne news from the outside world."

This news has not yet gotten into general publication. In fact, although the storm occurred four days ago, we have not as yet found a line anywhere relative to it, except in the Savannah News and Wilmington Review.

The news from Washington City today is cheerful. The improvement in the condition of the President is maintained and the hopes of the nation are hereby growing stronger. He rested well last night and continues to take his neurishment with a relish. A few days more and we trust to hear of him on the road to recovery.

The following clearances for foreign ports are reported to-day: Br. brig Emma, for St. George's, Grenada, W. I., with 108,951 feet lumber and 120 000 shingles, shipped by Messrs. The Last Sad Rites. All that was mortal of the late Major Poisson was this morning consigned to the embrace of its mother earth in Oakdale Cemetery. The funeral services were held at the residence by Rev. Mr. Ambler, Rector of St. Paul's Episcopal Church, reciting the beautiful and impressive ritual for the dead, beginning: "Now is Christ risen from the dead and become the first fruits of them that slept." The attendance was very large, evidencing the high regard in which the deceased was held throughout the entire community. Messrs. F. W. Kerchner, Wm, Calder, Jno. L. Boatwright, Jno. T. Rankin, R. S. Radcliffe and H. A. Burr were the pall-bearers.
