JOE PERSON'S

REMEDY FOR

SCROFULA

NEVER FAILS.

It Will Cure if Fairly Tested.

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered trom Scrofuls for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Insti, tute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with.

After returning from the Institute, I was
persuaded to try Mrs. Person's remedy, and had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heat, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spiritedness fled before the remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a pur gative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects: It should be taken regularly by all means, for I have tometimes neglected it, from the pressure of are already made would commence to re-trograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from Scrotule to try it. It will surely cure you if you give it a fair tast. I speak from experieuce and not from hearsay. I am a grate-ful recipient of a cure from the use of it and city: am under many and lasting obligations to Mrs. Person for the great relief I have ob-tained from its use. Sufferers, try it and be eured, is my advice I am, respectfully, Kittreil, N. C. JAMES A. MORRIS.

Robinson's Circus will exhibit here on what is known as Dickinson's Hill, a large vacant space, as flat as your hand, just in the rear of, and above, the Carolina Central Depot. It is approached in two ways, one by the wharf and depot route and the other by Boney Bridge on Fourth street. But the walking is good, nearly all of the way, and the street lamps will light the pedestrians. Haverly's New Mastedons.

Haverly's New Mastedon Mintrels, forty strong, will appear at the Opera House to-morrow evening. One of the largest audiences ever as-Mr. Reuben Turner, No. 1230 Carle sembled in the Theatre was there last body seemed more than delighted with the whole evening's entertainment, which was as amusing and laughable as any performance of the kind ever given in the Richmond Theatre. Haverly's Minstrels are about the best on the road, and will draw another large audience to night as the performance justifies it.

The receipts last night amounted to nearly \$1,000, and had the manager, Mr. J. H. Muck, adopted the plan carried out by the manager of the Barlow, Wilson, Primrese & West combination (which was at the Theatre a few days ago) rela tive to the admission price, the receipts would doubtless have reached \$1.500. Robinson's Circus

The Charlotte Observer is good authority on circus shows and hence its opinion of the merits of old John Robin-

John Robinson's circus yesterday fully From the grand entry to the closing act there was a constant succession of first class feats of the arena. The riding, the acrobate and rumblers, and the wonderful exhibition of strength by the man who terday was distinguished for the number and character of these manly exhibitions. The bareback riding of Mr. Geo. Holland was especially fine, and the nerve of Signor America in leaping from his horse through the ring of knives was thrilling. The acrobatic performances were especially brilliant. Equally so were the horizontal bar exhibitions, and the double trapeze performance by a man and woman on one side and a boy and a girl, both quite young, on the other, was very fine. The lameness of the boy, however, was rather painfully suggestive of the hardships of his young life. The trained dogs make decidedly the best exhibition of the kind in the country. Johnny Lowlow, the clown, was, as usual,

inimitable. The menagerie this year is much fuller than last year. Among the most remark able curiosities are two giraffes which have been with the circus only about three weeks, the taminoir, or ant bear, the most peculiar looking animal ever exhibited here, the rhinoceros, a doublehumped camel, beside a drove of dromedaries, the big ox, weighing 2,500 lbs in his General delivery open from 5:30 a. m. present lean condition from the severity of the weather, and last, but not least, the to 9:30 a. m. man-killing elephant "Chief", who was brought into the ring heavily chained. The elephants are remarkably well trained. The large troop of small ponies was much admired. The street parade was ordinarily good.

The concert after the show retained most of the audience, the price being reduced to ten cents, and it was in this part of the performance that the man was fired from the cannon.
