

The Daily Review.

JOSH. T. JAMES, Editor & Prop.

WILMINGTON, N. C.

THURSDAY, JANUARY 24, 1884.

Entered at the Postoffice at Wilmington, N. C., as second-class matter.

Germany is rapidly increasing her beet root culture. Ninety new factories were started last year, and nearly as many more are in course of construction. Beet root sugar from France and Germany will soon be coming in competition with the Louisiana cane sugar, in spite of the tariff.

Sarah Bernhardt counts among her New Year presents a Japanese doll about six feet high, very thin, a hairpin studded with diamonds and at least one gold-mounted riding whip. Mile. Judic received no less than thirty-seven sacs of bonbons. One of the prettiest presents was that given to Rosita Mauri—a Japanese cage filled with little silk birds with jeweled eyes, who all cry "cocotico" when a spring is touched.

Anton Rubinstein's grand oratorio "Paradise Lost" is to be first brought out by the Berlin Cecilia Chorus, assisted by the Philharmonic Orchestra, on January 26. It is expected that the composer will be present on that occasion. In St. Petersburg musical circles it is openly asserted that Rubinstein is on the point of leaving Russia for good, owing to the constant neglect and the many annoyances experienced by him.

Earthquake shocks were felt during December 30 in various parts of France. At Arles (Haute Pyrenees) there was one in the early morning, a second at nine o'clock and a third about midday. At Dorigines, an industrial hamlet near Douai (Nord), the shock was sufficiently strong to cause real alarm. It occurred between six and seven in the evening. Houses shook, their timbers cracked, and glass and earthenware in cupboards were shattered. All the villagers poured out of their dwellings in apprehension of a catastrophe.

Mlle. Marsy, the most successful of the new Parisian actresses of the season, is thus rapturously done up in a French journal: "The debutante is nineteen years old, a blonde with dark eyes, beautiful features, and form, and, what is more, she has an elegant house in the Avenue Bugeaud, an elegant coupe, all the accessories necessary for her future two-fold career, and, above all, a wonderful mother, who has been training her for years past, creating fine social relations for her and preparing the way to the position of comedienne à mode, both as an actress and as a woman."

The front page cartoon of *Puck* last week is a picture by Gilliam, representing the Democracy as a blind musician. On his back is strapped a fiddle and in his pocket some choice selections of music, including "Standard Oil Company Melodies" and "Civil Service Pendleton Lies Moldering in His Grave." At his feet lies a scroll with a legend, "Turn the rascals out!" Leaving on a cane marked "Vandalism," he blindly marches to the yawning abyss of "Defeat." As he recklessly totters on he leads a faithful dog ("Carlisle") who sniffs the impending danger and vainly struggles to put his blind master on the "Road to Tariff Reform," which leads straight to the "White House."

The earnings of the Richmond & Danville railroad system seem to be better this year than last, notwithstanding the short crop. The report for December has been printed, and it shows that during that month the gross earnings of the Richmond & Danville, which includes the North Carolina railroad, amount to \$331,000, being \$22,000 more than for December, 1882. The net earnings on this line are \$36,000 more than in December, 1882. The gross earnings of the Western North Carolina railroad for the same month were \$33,784, being a gain of \$6,000, and the net earnings were \$12,170. The construction account is not embraced in this table.

"The News and Observer" having been asked if Jere Black did not say that with a tariff for revenue, blankets alone would yield a revenue of \$25,000,000 annually, replies: "We don't know, whether he did or not. We saw it figured in the papers that he did, but the figures were so wide of the mark that we would not print the statement as coming from that learned lawyer. The census returns for 1880 give the value of all the products of all the woolen mills in the United States at \$160,000,000. Blankets constitute but a trifling part of these products. For instance, there are 70,000,000 yards of casimere, the like amount of flannels, 30,000,000 yards of jeans, 16,000,000 yards of satinet, 13,000,000 yards of kerseys, etc., 30,000,000 yards of dress goods and innumerable other items. Of blankets only 1,083,371 pairs are reported. These are worth at manufacturers' prices say \$3 a pair, amounting to \$3,250,000. None are imported. Thirty per cent. duty would yield about \$1,000,000. Mr. Black may have had very little idea of the number of blankets annually produced by the people of the United States. If he made the statement attributed to him, he must have supposed that the value of the blankets used would be in the neighborhood of \$80,000,000. The value (at manufacturers' prices) we have seen, is in the neighborhood of \$3,250,000 or \$4,000,000. How long does a blanket last and how many does the average family buy a year? We hazard the suggestion that North Carolina spends less than \$50,000 a year for blankets. But still the tariff ought to be largely reduced on them, as well as on all other articles now on the 'prohibited list.'"

The Fat Boy in Pickwick
probably had good teeth, seeing that he so speedily demolished the most substantial provender on the shortest notice. Nothing excepting a good appetite so conduces to the pleasures of eating, as a good set of grinders. To possess them, use SOZODONT, the great dental invigorator and beautifying agent. Yellow, tartar covered teeth grow pearly white and the gums acquire ruddiness and form a pleasing contrast to the snowy hue of the teeth when it is used.

MOONSHINE.
The announcement is made that five new and swift steamships are to be added to the transatlantic lines. Everything seems to be working for the good of American bank cashiers.—*Courier-Journal*.

The deep bass of the organ ceased suddenly in a church in Lewiston, Me., when a lady's voice was heard by the whole congregation distinctly to declare, "I don't care one bit; I do want a piano."

A Western exchange inquires what Mrs. Tennyson will be now that the poet is a lord, which reminds us of a similar inquiry on the part of the spouse of a newly-appointed British squire. "You be a squire now," asked this lady of her husband, "what be I?" "Oh!" responded the brute, "you be the same old fule you always was."

A young lady's reflections the morning after New Year's—"It is, indeed, more blessed to give than receive."—*Boston Transcript*.

An Indiana family that uses black tea because they are in mourning are probably as sincere mourners as though they wore crape on their hats.

PERSONAL.
Col. Robert G. Ingersoll has gone to Denver to answer a call by Stephen W. Dorsey, of Star Road, a notoriety. The latter is in a peck of trouble over the Palo Blanco suit.

The ages of some of our American authors are said to be as follows: R. J. Bardeide is 40, Bert Harie is 45, Mark Twain is 48, W. D. Howells is 46, Thomas Bailey Aldrich is 45, Joaquin Miller is 42, James Russell Lowell is 64 and John G. Saxe is 68.

It is related that some years ago, at the house of an eminent English poet, in a company of a dozen men of letters as distinguished as their host, a vote was taken on the question, "Who is the best gentleman in fiction?" It is not hard to guess the result. Every ballot contained the beloved name of "Colonel Newcome."

Mr. Barnard, of the Vanderbilt University, is thought to have hit undeniably upon a method of detecting double stars. He was observing the occultation of Beta One and Beta Two Capricorn by the dark limb of the moon, when the suddenness of the eclipse revealed a star of the tenth magnitude as a companion star of Beta One. Astronomers find the matter one of importance.

A Case not Beyond Help.
Dr. M. H. Hunsdale, Kenawee, Ill., advises us of a remarkable cure of consumption. He says: "A neighbor's wife was attacked with lung disease, and pronounced beyond help from Quick Consumption. As a last resort the family was persuaded to try Dr. Wm. Hall's Balsam for the Lungs. To the astonishment of all, by the time she had used half dozen bottles she was about the house doing her own work. I saw her at her worst and had no idea she could recover."

A lawyer works at his profession from the very start. He begins by prosecuting his studies.

"Rough on Coughs."
Knocks a Cough or Cold upside. For children or adults. Troches, 15c. Liquid, 50c. At druggists.

Every day, an old year ends a new year begins. What folly is it, then, to talk of the 1st of January!

Almost Insane and Cured.
"Most of the eminent doctors in the East, as well as several of the medical faculty in New York City," writes Rev. P. P. Shirley, of Chicago, "failed to help our daughter's epilepsy, which began to show signs of turning into insanity. By the good providence of God we tried *Samaritan Nervine*, and it cured her." Your druggist keeps it. \$1.50.

The thief has his excuse; he would do good by stealth.

Did She Die?
"No; she lingered and suffered along, pining away all the time for years, the doctors doing her no good; and at last was cured by this *Hop Bitters* the papers say so much about. Indeed! in deed! how thankful we should be for that medicine."

Pneumonia Prevented.

OYSTER BAY, QUEEN COUNTY, N. Y., April 11, 1883.

I believe I have been saved from a terrible illness by ALCOCK'S POROUS PLASTER.

About a month ago I was attacked with a violent pain in my chest, accompanied by fever and great difficulty in breathing. I apprehended pneumonia, which is so prevalent at present; I went to bed and applied one Alcock's Plaster between my shoulder blades and two on my chest. In an hour my breathing was much easier, in two hours the pain had left me, and the next morning I awoke perfectly free from fever. I went about my business as usual, and at the end of a week took the plaster off.

For the last ten years Alcock's Plasters have been used by my family with the best effect in colds, coughs and pain in the side and back.

Be sure to obtain "Alcock's" Porous Plaster, as all others are worthless imitations.

A cremation society has been organized at New Orleans.

Ayer's Sarsaparilla, being concentrated requires a smaller dose, and is more effective, dose for dose, than any other blood medicine. It is the cheapest, because the best. Quality and not quantity should be considered.

The largest and best stock of Windows, Doors, Blinds &c., and at Factory prices is at N. Jacob's Hardware Depot.

THE MAI LS.

Thematics close and arrive at the City Post Office as follows:

CLOSE.

Carriers' delivery open on Sunday from 8:30 to 9:30 A. M.

Mother's Spinning Wheel.

Concerning One Article that was Not For Sale, and Another which is Cheap at Any Price.

"No, sir, I wouldn't sell you that for any money; that spinning wheel was my mother's! It was one day, when she was singing like a lark and making this old wheel hum, that my father, then a young medical student, after watching a farmer, fell in love with her—some fifty years ago."

So spoke the proprietor of a rough bit of farm land in Ulster County, N. Y., to a relic hunter, and "mother's" spinning wheel remained among her children and grandchildren.

"My mother," writes Rev. J. W. Phelps, pastor of St. Paul's M. E. Church, Chicago, has used PARKER'S TONIC, and wishes me to say that she has found it more effective than anything she ever used for invigorating and strengthening the system debilitated by malaria. She desires me also especially to mention the certainty with which it aids digestion and overcomes exhaustion."

Ever since the first household was established "mother's" opinion has been more potent in this world than that of judge, jurist or physician. Her hand has always cooled the fever and her voice has been filled with hope. With each day's decline, PARKER'S TONIC is becoming more and more popular with the women who guard alike husband and children. It eradicates malarial poison from the blood, from which there is now such widespread suffering.

Please observe: Dr. PARKER'S TONIC is not an intoxicant. It is a combination of several ingredients, of which none singly can produce such an effect. For kidney, stomach and liver troubles, it is the standard and unfailing remedy. In two sizes: 50 cents and \$1. The latter the cheaper. HOSCO & Co., Chemists, New York. Jan 11-1md&w

Engines adapted to Farm use a specialty. On hand and for sale very low, FIVE SECOND HAND PORTABLE ENGINES, from 5 to 15 horse power. aug 15-2m S. W. SKINNER.

MISCELLANEOUS

The Poor Little Book-keeper.

Though he was the father of a large family, he was a small and narrow-chested man, with weak lungs a disordered liver, and a dyspeptic stomach. For many years he had been a book-keeper in one of the principal banks. So conscientious was he that, although he had many opportunities to take holidays, he had not been absent from his desk for eleven years. He attended faithfully to duty, and thought that to spend a day in recreation would be a sinful waste of time. Despite constantly increasing weakness he stuck to his post, when he ought to have been at home, resting and gaining strength. He grew weaker and weaker, until at last he had to stay away from his work altogether, and give up his position. He is dead.

Had this poor little book-keeper used *Brown's Iron Bitters*, he might have kept his position longer, and possibly have saved his life. His case was one of dreadful debility; the debility which undermines the foundations of health and life; the debility which goes hand in hand with disease, and which leads down to death and the grave. He was poorly nourished; in fact hardly nourished at all. His digestive machinery was so disordered that the food he ate did not assimilate and form good blood. What blood he had was poor and thin. There was nothing vigorous about him. Now this was perhaps an extreme case; but there are many debilitated people going down, down, down, just as this poor little book-keeper went.

Weak and forlorn as these unhappy people are, they can be saved. Many of them can be restored to health and vigor. *Brown's Iron Bitters* will carry to their feeble organs the strength that is needed. Its peculiar preparation of iron will give color and nourishment to the blood, and so vitalize the system. Thus digestion has a chance. The liver is restored to proper action. The lungs take healthy inspirations of air. The kidneys begin to work right. That horrible old feeling of lassitude departs, and misery moves off. Every debilitated sufferer ought to know about *Brown's Iron Bitters*.
