Eighth district-Cope Elias. R. M. Furman, B. F. Logan, A. M. Erwin.

#### THE NAVY.

The President has recently sent earnestly recommended the construct tion of several war vessels on the most improved modern plans and to other efficiency as our safety and dignity as a government demands. It is a wise suggestion and one which ceeds immediate and energetic action but the task, under all the circumstances, is berculean. Millions of treasure have been appropriated by Congress and spent, ostensi. bly, for this very purpose, but the effect has been only to render this arm of our flicted after the Northern Pacific troucountry's defense more inefficient and ble. worthless. Our navy is a reproach and a disgrace, and as a means of war, either offensive or defensive, might as well be on the dry land. And while Florida trip. He is still at Park Avethis is shamefully true as regards vessels composing our sonavy, it would seem that there is great need of more efficient officers. It was only a short time ago that the Ossipee, while making a trial trip, with the Naval Board of Inspectors on board, ran upon a sand spit off Cape Henry from which she sustained considerable dam\_ age. A Court of Inquiry will be called to fix the responsibility of the blunder. Since then in making an attempt to proceed to sea, and while in Chesapeake | blood, when the patient had been given Bay, she burst her condenser, and had to be towed back to a place of safety. This will undoubtedly call for another Court of Inquiry. With the present navy and the present naval officers there seems to be an abundance of employment for Naval Board of Inspectors and Naval Courts of Inquiry.

### THE FLOOD IN LOUISIANA.

The persistent rain and the addition to the already swo len r.ver of a new contingent from the head waters of some of its large affluents, says the New York Mail and Express, have increased the volume of the lower Mississippi to an extent seldom equalled in the his tory of that changeable stream. The than that, warnings and threats that it has given for the past two weeks have now been more than fulfilled. Instead of one or two crevasses, there are a dozen, and the crops in many of the fairest parishes in Louisiana are already out of sight. Dispatches from the submerged man who moves it is bigger than he is. districts show that this is a greater flood even than that of 1882.

In this emergency, there is call for aid from the national government, and Congress has been asked to appropriate \$300 000. The sufferers by the Onio floods were granted national aid; and if it is shown that there is any sime ilar need in Louisiana, there can be no saw, and, thinking he would strike it. doubt of the willingness of Congress to relieve the destitution. Perhaps \$300,000 is more than is necessary, but certainly the unexpected balance of \$125 000 left from the Ohio flood appropriation might be wisely applied here. What ever is done, should be done quickly.

The Standard Oil Company, which is so much talked about, has its hear. quarters in New York City, and its executive board is said to hold a meeting and act as powerful diuretics, thus caston every business day in the year. The capital of the company is not very large. perhaps three or four million dollars, but the capital of the trust company which manages the fiscal affairs of the Standard is said to be as high as seventy millions. Whatever be the capital it pays 6 per cent., and the stock sells in the neighborhood of par. The men considered in the oil regions to be the master spirits of this company, Mr. Rockefeller and Mr. Archibold, are both very young; the latter is hardly thirty years of age. He is the son of a Methodist preacher in the oil regions and de veloped a genius for commerce and executive work when a mere lad in a country bank, and his employer gave him the capital to start an oil refinery. He attends to the details of this hrge cured me of neuralgia. vertigo and sick company, which has hardly a parallel headache."

on the globe for breath of conception and infinitude of particulars. If this were an English company it would rank almost with the East India Company of the time of Warren Hastings. It is to be observed that the chief operators against it are themselves time-Courter Journal speculators, Mr. James Keene was one of the leading spirits in the river pipe line. The Standard's pipe line is National Transit Company, and pipes lie buried side by side and are six inches in diameter, and it is said that \$500 a mile. Their telegraph is an enormous concern also. The flow of oil is about 60,000 barrels a day, and this company keeps in its tanks or pipes or refineries from 30,000,000 to 36,000. 000 barrels all the time. Its proffts Third district-Appleton Oaksmith. are derived from storing and forwarding the oil, which pays 15 cents a barrel per annum for storage and 20 cents barrel for transportation to the seaboard. They are also the exporters in the United States, and often send out a ship full of lamps to teach some heath' en people how to burn American oil-It is said that they are content with a profit of half a cent a gallon on the oil

In the Opinion of Physicians, teeth that are becoming defective or are insufficiently cleansed, infect the food and unfit it for the digestive process attractiveness is promoted by the use of SOZODONT, pure in composition, message to Congress in which he agreeable in flavor, prompt and effec tive in its purifying action, and econo mic, since only a drop upon the brush are needed at a time. The popularity of this sterling preparation is based wise bring our navy to such a state of upon long tested and professionally recognized merit.

#### PERSONAL.

Rev. O. B. Frothingham has purchased a house in Boston and will make that city permanently his home.

Henry Villard lost forty pounds of flesh before the physicians could arrest the insomnia with which he was af-

Col. John A. Brigland, American Consul at Havre, has returned to his post from a visit to the United States.

The brightest reporter on the Kansas City press is a lady, Mrs. Rees. of the Journal. She is 28, speaks four lan guages, and for energy and enterprise discounts any reporter in the Missouri

#### Lost Faith in Physicians.

There are innumerable instance where cures have been effected by Scos VILL'S SARSAPARILLA, OF BLOOD & LIVER SYRUP, for all diseases of the up by physicians. It is one of the best remedies ever offered to the public, and as it is prepared with the greatest care. as a specific for certain diseases it is no wonder that it should be more effectual than hastily written and carefessly prepared prescriptions. Take Scovill's BLOOD AND LIVER SYURP for all disorders arising from impure blood. It is endorsed by all leading professional

### SHORTS.

During the present century 150,000, 000 copies of the Bible have been print-

ed in 626 different languages It is said that Queen Elizabeth of Roumania is a painter of some repute. and writes as well as a newspaper reporter. There could be no higher praise

Spain produces about 120,000 tons of lead in a year, one-sixth more than America, which comes next on the list, while Germany follows with 90,000.

An Alabama judge has decided that a man who puts his satchel on a seat in the cars reserves the seat-unless the The city of Lowell, Mass, was nam-

ed for France Cabot Lowell, one of its principal founders. He was a son of Judge John Lowell, of Newburyport, was born in 1775, became a successful merchant and cotton manufacturer, and

A singu ar accident happened lately at a mill in Nashville, 1enn. A work man was thrown toward a circular died from fright. When picked up he was dead, but there was no sign of a bruise on his body.

### A Healthful Diuretic.

BOUND BROOK N. J., April 2, 1883, You advise placing Allcock's Porons Plasters, in dyspepsia, on the pit of the stomach; in ague cake, on the soleen, in torpid liver, over that organ; but I really think you should also recommend that one or two Plasters be put over the kidneys. They stimulate, strengthen ing out many poisonous acids and salts. I have had tever and ague. All remedies I took produced little or no effect until I put an Allcock's Porous Plaster over each kidney; their action being more than doubled, the malaria was quickly washed away. I have also had several attacks of rheumatism and two of gout, and by applying the plasters over the local pain and also over the kidneys. I again found your plasters wonderfully efficacious.

Beware of imitations. "Allcock's" is the only genuine Porous Plaster.
