

The Daily Review has the largest bona fide circulation, of any newspaper published in the city of Wilmington.

Four churches in Montreal now use the electric light.

More than one-half of the lawyers of Berlin are Hebrews.

Electric lights have just been introduced into the Berlin Opera House.

Mr. Cable, the novelist, will move to New York, as the Boston Advertiser learns.

Governor Robinson, of Massachusetts, takes deep interest in the temperance cause.

There is a rumor in the Pull Mall Gazette that an American morning newspaper is to be started in London.

In a roller skating contest at New York Mr. Hoffman, of Columbia College, skated three miles in 11.54 minutes.

Ten thousand Scotchmen have petitioned the British Parliament against the abolition of the feather bonnet in the Highland regiments.

Cremation is gaining favor in England. The city authorities of London have decided to establish a crematory at Ilford, a suburb of the East End.

Women are becoming very popular in Valparaiso, Chile, as street car conductors. Travel has increased fifty per cent. since their advent in their new role.

William Lavkenow died in Chicago last week from starvation and exposure. Years ago he was a merchant of Brooklyn. He was a son of one of the wealthiest shipowners of Bremen, Germany.

King Humbert, of Italy, seldom partakes of food at the family table. He suffers much from dyspepsia, and has the little that he eats—and he eats only to live—specially prepared and served in his private room.

Mrs. Langtry arrived at Dayton, Ohio, from Cincinnati on Sunday night, and on Monday she astonished many persons by walking to Little York, twenty miles away, and back to her car, a little jaunt of forty miles.

A London newspaper says it is probable that one thousand members and associates may cross the Atlantic to attend the Montreal meeting of the British Association for the Advancement of Science in August.

The duration of nearly all building material is said to be much shorter at the West than in the Eastern States. Not only wood, but brick and most kinds of stone endure the climate of the East much longer than that of the East.

The river at New Orleans has reached the high water mark of 1883. The backwater in Concordia parish (La) is rising, and the safety of Vidalia is threatened. Two thousand persons are rendered destitute at Rodney, Miss., by the overflow.

Walter L. Campbell, the Republican nominee for Mayor of Youngstown, O., who has been blind since he was five years of age, was graduated from Harvard law school, is a fine organist, successful chess-player and edited a daily newspaper for many years.

The report is gaining ground in Tennessee that her late defaulting treasurer, Marshall T. Polk, is not dead, but is living in Texas. It is said that the coffin in which his body was supposed to have been buried was in reality empty, and was used merely as a blind.

The inventors' convention at Cincinnati passed resolutions opposing the passage of any bill by Congress which would materially change the present patent laws. An organization was formed under the name of "The National Association of American Inventors."

In accordance with letters apostolic by Leo XIII. Archbishop Gibbons has convoked the Third Plenary Council of Baltimore to be held in the Cathedral of that city on November 9th, 1884. It is predicted that this will be the greatest council of the Catholic Church held in America.

Rear-Admiral Worden, United States Navy, who lay at death's door for weeks in the Massachusetts General Hospital, has so far recovered in the bracing air of Newport as to be able now to ride out occasionally. He and his friends look for his speedy return to full health.

THE DAILY REVIEW.

VOI. VIII.

WILMINGTON, N. C., TUESDAY, APRIL 1, 1884.

NO. 78

President Arthur will give a dinner party to Gen. Grant, dating it as early a day as the latter is able to go out in the evening.

The Iowa House, last week, passed the bill already passed by the Senate, known as the "bucket-shop" bill, to prevent gambling in grain on margins.

It is related that Representatives Geo. D. Wise, of Virginia, and Townshend, of Illinois, and Senator Gorman, of Maryland, were once pages in Congress, along with the actor Stuart Robson; and Gorman was afterward President of the National Baseball Club.

For Pure White Lead & Paints, and biggest stock of Window Glass and lowest prices for good articles be sure to go to Jacob's Hardware Depot.

Garden truck comes in slowly.

This is the last month for oysters.

Sound parties will soon be in order.

Have you had any April Fool in yours yet?

We gain this month 63 minutes of daylight.

Eggs continue to retail at six dozen for a dollar.

The first quarter of the new year has gone already.

This month has five Tuesdays and five Wednesdays.

Turner's almanac promises fair weather for to-morrow.

The receipts of cotton at this port to-day foot up 122 bales.

The prospects now are that there will be lots of flowers in bloom by Easter.

We regret to learn that Mr. Alex. Sprunt continues quite sick at his residence in this city.

For Flower Pots and Hanging Baskets call at the 5 and 10 Cents Store, No. 16 South Second street.

"I would not live away" was the text from which one of our city pastors preached to a large congregation on last Sunday morning.

We invite the attention of our citizens to the fact that first quality shirts are being made to order at one dollar at the Wilmington Shirt Factory.

The water in the Cape Fear is rapidly falling now. There was 35 feet at Fayetteville last week on this Spring freshet and of this amount 15 feet has already run off.

Mr. Jos. B. Worth, one of the proprietors of the Mott paint, returns to Petersburg to-night, Mr. Wright, the State Agent, will remain here to prosecute the work.

We are sorry to hear that there is considerable sickness in the country contiguous to this city. Pneumonia and typhoid and mumps and measles are the prevailing diseases.

Yesterday was a very cold day in the interior of the State. There was a black frost in the ground and early vegetation was cut down. The fruit crop, however, is said to be uninjured.

We are glad to learn that Messrs. Mott, Levy, & Co. are meeting with much success here in introducing the celebrated Mott fire-proof paint. They tell us that they have orders ahead already.

There was but one case before the Mayor to-day and that was James Epps charged with house breaking and larceny. He went to jail in default of a bond of \$100 for his appearance at the next term of the Criminal Court.

The wife of a gentleman in this city, resident North of the Wilmington & Weldon, R. R., but whose name we purposely withhold, gave birth last night to three children, two girls and a boy. The girls are alive and doing well but the boy died. Commiserations are in order.

A reader of the REVIEW has called our attention to the fact that most all of the reported burglaries in this city occurred about the time the night police is relieved by a smaller or what may be termed the day squad, and he thinks this change is made at too early an hour and calls the attention of our city fathers to the matter.

A Specimen Brick.

We met a gentleman in this city, a friend of ours, a few days since, walking very painfully, with the aid of a cane. In reply to an enquiry from us, he stated that he had a little pain in his foot and got some liniment from the "woman doctor" and applied it and his foot had since then become so much worse that it was only with the greatest difficulty that he could walk at all.

Board of Aldermen.

A special meeting of the Board of Aldermen was held at the City Hall last night, to open bids for city supplies, &c., for the current year.

The contract for furnishing the city with lumber was awarded to Messrs. Northrop & Cumming, and for the city printing to W. L. DeRosset, Jr. Bids for lighting the city and feeding mules and prisoners were referred to committees.

A resolution was adopted prohibiting the storage of lime in warehouses between Mulberry and Orange streets and west of Second street.

Pug dogs as pets have had their day among the extremely fashionable, but bad colds never go out of fashion, so that it is always necessary to know that Dr. Bull's Cough Syrup is a sure cure for all coughs and colds.

Among the Farmers.

We were pleased to receive a call today from our good friend and subscriber, Mr. J. T. Collins, of Burgaw, and from him we have gleaned some facts of interest to our readers. He tells us that there was a pretty heavy frost in his section yesterday morning, but that no great damage was apparently sustained. His potato vines were bitten but they will come out again and he thinks he will have potatoes ready to ship in two weeks. The green peas are looking well and Dr. Porter, of Rocky Point, will probably be ready to ship some in a day or two.

We are glad to learn from Mr. Collins that a large crop of corn is to be planted in tender this year, a much larger acreage, in fact, than last year, and probably the largest ever planted there. Cotton, with many, is to be made subservient to corn this year. Something to eat, and enough of it, is the slogan of the season. At this time every available man is at work in the fields and the ground is to be worked for all it is worth.

An Unsafe Custodian.

A rather good, but true one, is told upon a city friend. His good lady was the possessor of some of the filthy lucre, silver and currency. He persuaded her that the currency was unsafe in her possession, but if she would intrust it to his keeping it would be perfectly secure. He accordingly, upon retiring, pinned it to his undershirt, intending the next morning to change the garment. In the morning he forgot to make the change, and after being at his place of business for some time remembered his wife's money, but to his dismay, upon searching himself, found the pin still sticking in his shirt but the money gone. He rapidly hurried home, called his wife out of the room where she was entertaining company, and informed her of the loss. A boy was employed in vain to search the premises and out-houses, but finally, to the Professor's delight, in disrobing himself, he found the missing money in one of his socks.

The New Building.

There has been a great deal of comment favorable to our worthy Representative in Congress, Hon. Wharton J. Green, during the past few days relative to the bill for a public building in this city which, as our readers may be aware, has been agreed upon in committee. It is due to Col. Green's individual and untiring efforts that this result has been accomplished. There is much speculation as to the site which will be selected but of course it is all speculation as yet. Some think that the present site of the Postoffice may be purchased and the building which stands there now utilized, others that the vacant lot on the Southeast corner of Second and Dock will be the place; others still that the vacant lot on the Southeast corner of Princess and Third streets, just South of the City Hall, would be selected and there are yet others who speak of the old Betten-court property, corner of Market and Second streets, as also the Lord lot, on the South side of Market, between Second and Third, as likely to be the spot. It is all surmise, of course, as the bill is not yet a law although it will in all probability soon become one.

Now is the time to give Smith's Worm Oil.

Cotton.

The receipts of cotton for the month of March foot up 2 089 bales, against 6,255 bales for the corresponding month of last year, a decrease this March of 4,166 bales. The receipts for the crop year to date foot up 90,284 bales, as against 122,796 bales to same date last year, a decrease this year of 32,512 bales.

One of the Victims.

We understand that Mr. John Herring, an aged citizen of Long Creek, who was operated on here by the "woman doctor," is in a precarious condition. He had a wen taken from his head and a wart from his cheek, just under the right eye. A gentleman who saw him a day or two ago tells us that his eyes are in a bad condition, and that he is very despondent. In answer to some inquiry which was propounded to him, he mournfully stated that it was a mere matter of time with him now. Possibly his condition may have had something to do with the woman's hurried departure from this city.

Sleeping Together.

Somebody has said that more quarrels occur between brothers, between sisters, between hired girls, between clerks in stores, between apprentices in mechanics' shops, between hired men, between husbands and wives, owing to electrical changes which their nervous systems undergo by lodging together night after night under the same bed clothes than by any other disturbing cause. There is nothing, says the Scientific American, that will so derange the nervous system of a person who is illimitative in nervous force than to lie all night in bed with another person who is absorbent in nervous force. The absorber will go to sleep and rest all night, while the eliminator will be tumbling and tossing, restless and nervous, and wake up in the morning fretful, peevish, fault finding and discouraged. No persons, no matter who they are, should habitually sleep together. One will thrive and the other will lose.

Hotel Brunswick.

We learn from Dr. W. G. Curtis, of Smithville, who is in the city to-day, that the new building which is being erected as an addition to the Hotel Brunswick is nearly completed and that the arrangements for opening the house are being rapidly perfected. The ball room is probably the largest and handsomest to be found at any seaside resort in the State and an excellent band of music will perform there throughout the season. Dr. Curtis says that Mr. Sublett, the Manager, is much pleased with the prospects ahead for the Summer and it is thought that the house will be full throughout the season. The Louise and the Passport will both run daily and there will be every facility of communication between Smithville and Wilmington. In the Fall it is calculated to made still further additions to the hotel which it is proposed to keep open during the Winter, as well as in the Summer, for the benefit of invalids and pleasure seekers from the North and West.

The Raleigh & Gaston R. R.

On Friday last, for the first time in many years, we rode over the Raleigh & Gaston R. R., from Weldon to Raleigh, and we must confess to much surprise and gratification at the many improvements to be discovered all along the line of that road. It is, for North Carolina, a thickly settled country. New towns are springing up and new industries are being rapidly developed. Littleton, where some years ago we found but two or three houses, is now a large and thriving town and Henderson, since the construction of the Oxford R. R., is rapidly developing into a city.

And there is another thing which struck us as a specially great improvement and that is the present condition of the railroad itself, as manifested in the appearance of its depot buildings, the steel rails which are laid on a large portion of the track and the improved condition of the road bed. There are fortunately a number of valuable beds of granite on this road and these have been utilized by Capt. Smith, the Superintendent of the road, in forming a new and indestructible road bed. He has two quarries in use and a large stone crusher which prepares the stone as fast as it can be taken from the quarries. We doubt if there is now a better road bed in the country. Capt. Smith is a Wilmingtonian and we feel proud of the success which he has obtained and the name he is making for himself.

The Express Line.

The boats of the Express Steamboat Company now leave Wilmington regularly four times a week for Fayetteville, and landings between. They leave at 2 p. m., sharp, on Mondays, Wednesdays, Thursdays and Saturdays. The passenger accommodations, as all travelers on the river know, are first class and through rates will be made on freights to all points on the Cape Fear & Yadkin Valley R. R.

The New Band Master.

Prof. W. D. Munson arrived here late last night and was cordially welcomed by the members of the Cornet Concert Club, who are in high spirits over their new band master.

Prof. Munson makes his headquarters at Heinsberger's Live Book & Music Store, and will begin his duties in the band room very soon. He will no doubt revive the brass band interests of the city and infuse a new musical enthusiasm into the band members and the music loving youths of our town.

Business Changes.

Messrs. Cronly and Morris, one of the oldest firms in the city, have made a change in their business. They have removed to commodious offices over their old salesroom and have given up the general auction business which they have disposed of to Messrs. S. P. Collier & Co., who will continue it as their successors. Messrs. C. & M., become the general agents for the Acme Manufacturing Company and at the same time will continue to sell real estate, stocks and bonds, either privately or at public sale. Messrs. S. P. Collier & Co. will locate in the offices and salesroom vacated by the other firm and will sell any description of merchandise at auction and private sale as well as stocks, bonds &c.

Dr. W. G. Curtis, of Smithville, was in the city to-day for the purpose of attending a meeting of the Board of Quarantine, which was held at 12 o'clock. This board is composed of Dr. Curtis, Dr. Wood and Dr. George Thomas.

Dr. William A. Soula, D. V. S., the distinguished Veterinary Surgeon, New York, certifies to the curative qualities of St. Jacobs Oil, the great pain-cure for sprains, galls, rheumatism, and all other afflictions to which horses are subject.

NEW ADVERTISEMENTS.
