

THIS PAPER published every evening, Sundays excepted by JOSH T. JAMES, EDITOR AND PROPRIETOR. SUBSCRIPTIONS POSTAGE PAID. One year \$4.00. Six months, \$2.00. Three months, \$1.00; One month, 35 cents. The paper will be delivered by carriers free of charge, in any part of the city, at the above rates, or 10 cents per week. Advertising rates low and liberal. Subscribers will report any and all failures to receive their paper regularly.

The Daily Review has the largest bona fide circulation, of any newspaper published in the city of Wilmington.

The Savannah, Ga., Cotton Exchange does a business of \$35,000,000 annually. Marion Crawford, who is only twenty-nine years old, has distinguished himself by writing four novels in fourteen months.

Governor Cleveland has signed the bill passed by the New York Legislature reducing the fees of Sandy Hook pilots 25 per cent.

There were in England in 1883 paupers numbering 1,069,296 in a population of 36,700,000, or one pauper to every twenty-five of the population.

Mrs. Labouche, the former friend of Mrs. Langtry, claims to have found in London an infinitely handsomer woman, whom she will bring to America and put upon the stage.

English capitalists have been buying up black walnut in Ohio, Indiana and Iowa in large quantities for shipment to England. It is estimated they have purchased \$5,000,000 worth.

Alfred Chadwick, a market gardener in Western Canada, was lately divorced from his wife because he had followed the custom of the country and yoked the unfortunate woman with a steer to a plow.

Monroe D. Conway, after an absence of twenty years from this country, proposes to return and settle down, probably in Washington. He has had a varied career as minister, lecturer and newspaper correspondent.

It is estimated that over 100,000 misdirected letters annually find their way to the "Intelligence Department" of the Dead Letter Office, in Washington, where experts redirect them, with the seal unbroken, to their proper destination.

The overland telegraph wire put up in Alaska many years ago, after the first failure of the Atlantic cable, at an expense of \$3,000,000, has been utilized by the Indians in making salmon nets. The wire extended over a distance of 900 miles.

Oscar Wilde doesn't charge his audience the fancy prices which he extorted during his visit to this country. Twenty-five cents will now gain admission to his lectures, while fifty cents will secure the best reserved seats in the house.

A bill has been prepared by the post-office department allowing rents to postmasters of the third class for the buildings and for postoffices. The bill has passed the Senate and has been favorably reported by the House committee on postoffices.

London is to have an electric ballet at Easter-time. The stage will be darkened for a moment, only to be instantaneously illuminated with hundreds of electric lights. An ingenious Frenchman is the author of this device. When he arrived at the Charing-Cross station with his ballet dresses and machinery, he was promptly arrested as a Parisian Fenian and had to prove his connection with the theatrical trade before he was released.

The Educational bill passed the Senate on Monday by a decided vote of 33 to 11. We have as yet seen no analysis of the vote but believe that the two Senators from North Carolina voted in favor of the bill. There is much to be said both for and against this bill and it excited a warm debate in the Senate irrespective of party lines. It is to be presumed that those who are in favor of educating the negro swallowed the objectionable features of the bill for the sake of obtaining the aid so ardently desired and so sorely needed. Those who want to see the negro educated favor it and those who oppose any effort at elevating his condition and who would keep him and his descendants as the slaves of ignorance and its consequential vices, bitterly deplore the misguided zeal of the thirty-three Senators who would not yield their grave convictions to the eleven who sought to turn them from the errors of their ways.

Mr. J. W. Reed, editor of the Farragut, Ia., News, says: "I was afflicted with rheumatism so badly I could scarcely walk. St. Jacobs Oil, the great pain-cure, was applied but once and it cured me."

Now is the time to give Smith's Worm Oil.

THE DAILY REVIEW.

MISS E KARRER—Exchange Corner
JAMES WILSON—Economy is Wealth
HINSBERGER—New Plans
MUNDS BROS. & DE ROSSET—Pears' Soap

There were no tramps at police headquarters last night.

The receipts of cotton at this port to-day foot up 18 bales.

A cool westerly breeze this morning gave but little indications of rain, but it raised clouds of dust to annoy people.

Robert Pittito, colored, was brought before the Mayor this morning charged with disorderly conduct but was released upon the payment of a fine of \$2.

Our friend W. is most emphatically informed that his article will never make acquaintance with the waste basket. It will appear in a more pleasant position in a day or two.

We published yesterday the proceedings of the annual meeting of the Produce Exchange but we reprint the entire matter to-day so as to include Col. Moore's admirable report, which was not ready for publication in time for us yesterday.

Left Us.
The side-wheel steamer *Governor Worth*, which has been so long known as a familiar boat upon the Cape Fear, having been recently sold to parties in Jacksonville, Fla., cleared at the Custom House to-day for that port.

The Passover.
To-day is known in the Hebrew Calendar as the Feast of the Passover in commemoration of which appropriate services will be held at the Temple of Israel to-night. To give those who may desire an opportunity to attend these services, the rehearsal by the Young Men's Hebrew Association at Germania Hall will not begin until 9 o'clock to-night, or after the conclusion of the Passover services.

Personal.
Mr. W. H. G. Beatty, of Gravel Hill, Bladen county, was in the city to-day and paid us a visit. He reports that his section has escaped the devastation by the forest fires which have been so destructive in many other sections.

Mr. Henry Elliott, formerly of Lisbon, Sampson county, but now of Gravel Hill, Bladen county, was in the city to-day and gave us the pleasure of a call.

Death of Mr. Reuben Everitt.
Mr. Reuben Everitt, an old and highly esteemed citizen of this section, died at the residence of his son, Capt. David Everitt, at Laurinburg, last night, aged 68 years. He was also the father of Mr. Joseph Everitt, of this city. For some years past Mr. Everitt had been in feeble health, and it was only a few months ago that he was removed to Laurinburg, in hopes that it would benefit him. He was born on Middle Sound, and will be interred there, in the family burying ground. The funeral services will be held at Prospect Church to-morrow morning, Rev. Mr. Hull officiating.

Slight Fire.
The alarm of fire was at 3 o'clock this afternoon occasioned by a spark from the chimney igniting the shingles on the roof of a one-story framed dwelling on Fifth, between Nup and Church streets. The fire department turned out in quick time, but before they could reach the scene the flames had been extinguished by the energetic action of the neighbors. The only damage was a small hole burned in the roof. The building was occupied by a family of colored people whose names we failed to ascertain.

The Baltimore & Wilmington Line.
We understand from Capt. A. D. Cazaux, the Agent here of the Baltimore & Wilmington Steamship Line, that the *Vidette* is to be laid up in Baltimore for repairs and improvements to her machinery, and that she will be ready again for her usual trips in about three weeks. We are glad to learn from Capt. Cazaux that this line has proved a success and that it will be made a permanent thing. Two boats will be put on this Spring to run regularly between the two ports, it having been satisfactorily demonstrated that the time can be made to pay handsomely. We congratulate Capt. Cazaux on this fact for it is to his individual exertions, we are convinced, that this happy result is mainly attributable.

PRODUCE EXCHANGE.

Annual Meeting—Report of the President—Election of Officers, &c.

The annual meeting of the Produce Exchange was held at the rooms of that body yesterday at 12 o'clock, there being a large attendance.

The President, Col. Roger Moore, called the meeting to order, whereupon the regular business was proceeded with.

The President and Secretary and Treasurer submitted their reports and the former was ordered to be published and we present it as follows:

REPORT OF THE PRESIDENT.
ROOMS WILMINGTON PRODUCE EXCHANGE, WILMINGTON, N. C., April 8, '84.
Gentlemen:—It has been customary at your annual meeting for the President of your Exchange to submit a report of what has been done by the Board of Managers during their term of office, and for him to make such suggestions for your consideration as may prove beneficial.

I would, therefore, beg to call your attention to the report of your Treasurer, just read, and congratulate you upon our financial condition. You will observe that the balance turned over by the former Board of Managers, \$332 05, has been added to our permanent or surplus fund, thereby increasing it to \$1,016.57; that the amount received from dues for the year was \$1,192.57; and the amount expended, \$1,167.19, being an increase of expenditures over the previous year of \$112—this excess of expenditures being used in providing our exchange with entire new furniture and in fitting up files, racks, &c., (and additional rent) in our present rooms; and after paying every debt up to April 1st we have a balance of \$25.57 showing that our income has proven amply sufficient for current expenses; which should be a matter of congratulation.

The rooms of our Exchange are now fitted up in a very neat and substantial manner; are large and roomy, and are much better adapted to our purposes than those formerly used, and will prove attractive and comfortable.

In the matter of fire insurance, we have been unable to secure a reduction in the rates of premium on naval stores and cotton, which we feel are excessive, and with our improved facilities for extinguishing fires should be lessened, and we would urge upon our successors to use every effort to have them reduced.

I take pleasure in reporting that the W & W. and W. C. & A. R. R. Cos. have completed their very large and commodious freight warehouses; have erected platforms around them, and have fixed the crossings over their track on Nutt street so that the roadway leading to the C. C. Railroad for drays, trucks and other vehicles is very much improved, and every facility is afforded for doing business with the W. & W., W. C. & A. and C. C. Railroads.

To our City Fathers we should feel grateful for the very great improvement to North Water street, now under way and approaching completion; paying the same its entire length with the most approved blocks, and laying the sidewalks with stone flagging, which, when completed, will add greatly to our business facilities, expediting the moving of goods, and lessening the wear and tear on horses and vehicles.

During the year a line of steamers has been established between this port and Baltimore—Capt. A. D. Cazaux, agent here, and Messrs. Andrews & Co., agents at Baltimore—which must add largely to our trade if properly fostered, and prove of great benefit to our port.

I have every reason for believing that an appropriation will be made at this session of Congress for the erection of a postoffice, court-room and other public buildings, so much needed here. Through the exertions of our able and most worthy Representative, Col. Wharton J. Green, the committee has reported favorably upon the matter, and it will without doubt pass both Houses. To this and every matter that affects our interests Col. Green devotes his entire time, and is entitled to our lasting gratitude. A committee of our best merchants, appointed at a joint meeting of the Chamber of Commerce and Board of Trade and Produce Exchange, have the matter of public buildings in charge, and will do all in their power to push the matter to a successful issue.

I would beg to call your attention to the fact that the books of our Exchange show a falling off in both our receipts and exports for the present year as compared with last year, which in my opinion should have your immediate attention and most earnest consideration, and every exertion should be made to open up new avenues of trade and to the encouragement of new industries.

A portion of this falling off can be directly traced to a loss of a large portion of our trade with Onslow county, which Newberne is making every effort to secure, and with some degree of success; this trade being done in small vessels, 40 tons and under. Since the closing of New Inlet masters think it too hazardous to go to the western bar around Frying Pan shoals, and therefore the trade is gradually leaving us.

River as a feeder, and the development of the lumber, oyster, vegetable, fruit, canning and other industries would prove not only very profitable to its stockholders, but would restore this lost trade to our city and prove of infinite advantage in many ways.

Then the Clinton & Point Caswell Railroad, Col. F. W. Kerchner, President, which is now being graded, should receive every assistance at our hands, and when completed will add greatly to our trade.

Every inducement should also be offered the management of the Cape Fear & Yadkin Valley Railroad to make Wilmington its terminus, so as to give us a through connection with the West, which when secured, and our bar and river improvements completed, giving water sufficient for vessels of largest size, will insure our prosperity and give us that position that our magnificent water ways and harbor will entitle us to; and if it is found that sufficient amount cannot be raised by individual subscription we should at once take steps to secure proper legislation, so as to submit the matter to a vote of our people. So if it is their will, the city can in its corporate capacity aid in building these important enterprises, either by taking their bonds or subscribing to their stock, as in their wisdom may be hereafter determined.

I would beg to call your attention to the proposed State Exposition to be held in Raleigh in October next, and to impress upon you the great benefit that must accrue to our entire State and to our section if properly represented, and the Exposition prove a success; and to urge upon you to take such steps to make it easy for the able committee appointed by the city and our County Commissioners, and to do all in your power to assist them in making our exhibition one we will all be proud of.

I must congratulate you, that during our term of office no death has occurred from our membership, no business failure, and at the end of our term the business standing of our membership is unimpaired and prosperous.

Owing to the very plain rules of trade adopted by your body, I take pleasure in stating all business has been conducted harmoniously, and not one case for arbitration has been brought before the Arbitration committee during our term of office.

We take pleasure in stating that we have made arrangements with the Statistical and Historical Publishing Company, who are getting up a Book of Industries, giving a complete history of our city, our different commercial enterprises, a description of factories, information as to city and county governments, bar and river improvements, and setting forth our great commercial advantages—for one thousand copies of the work, to be circulated by the Exchange where we deem it will be most desirable; and we have already secured the funds for the payment of the same.

To the very able and efficient manner in which our Secretary and Treasurer, Col. John L. Cantwell, has performed his laborious duties, we take great pleasure in testifying, and most gratefully you in having one so competent—for in a great measure to him the success of our institution is due.

Your committee on Quotations have performed their duties in a very acceptable manner, and to them we feel grateful.

Thanking you, gentlemen, for the Board of Managers and myself, for your very courteous treatment, and apologizing for having detained you so long, and again thanking you for your patient hearing,

I am, respectfully,
ROGER MOORE.

At the usual annual election the following gentlemen were chosen as officers of the Exchange for the ensuing year:

President—Roger Moore.
Vice President—J. H. Currie.
Board of Managers—H. C. McQueen, A. H. Greene, B. F. Hall, J. D. Woody, R. W. Hicks.
Inspectors of Elections—J. M. Forshoe, J. W. Bolles, W. W. Harris.

The Queen's Lace Handkerchief.
The New York Opera troupe will arrive in this city to-morrow morning and will appear in the above named comic opera to-morrow night. The seats are now on sale at Dyer's. In speaking of this troupe, the Reading, Pa., *Eagle* says:

The rendition of Johann Strauss' beautiful opera by the New York Opera Company at the Academy of Music on Monday evening, was by far the freshest, most pleasing, and satisfactory operatic event that has taken place at the Academy during the present season. The orchestra, led by Herr Hans Kreisig, did duty from beginning to end and not a single break or blunder was noticeable.

DIED.

EVERITT—At Laurinburg, on the 8th inst., at 11 o'clock, MR. REUBEN EVERITT, aged 68 years.

The funeral services will take place to-morrow (Thursday) morning, at 11:30 o'clock, at Prospect Church and the remains will be interred in the family burying ground on Middle Sound. Friends and acquaintances are invited to attend.

NEW ADVERTISEMENTS

EASTER GOODS!

Easter Hats and Bonnets!
Easter Flowers and Feathers

Easter Millinery!

ALL CHOICE AND NEW!
ALL OF THE BEST QUALITY!
ALL AT THE LOWEST possible prices.

OUR DISPLAY OF
Millinery
IS SIMPLY SUPERB.

Not only equalling but absolutely surpassing the exhibition of previous years, which have made our reputation as dealers in those goods.

In our Untrimmed Hat Department will be found every style and shape which will be worn this season, at prices lower than the lowest to be found at any other establishment.

Our Flower Department is a perfect Easter garden filled with the most exquisite designs of branched goods, at prices certainly less than those charged for second-class goods elsewhere.

Our Feathers too, are worth looking at. We have Ostrich Tips in every style, plain and shaded. Ostrich Plumes in every shade and quality. Pompons in special styles of our own, called the Princess of Wales Pompon made of humming birds, algerette and tips, which will surely please the ladies. As for our Trimmed Hat Department it is the most beautiful and complete. Hats can be trimmed to suit one and all by expert milliners on our own premises. A call will surely convince you, at
