WILMINGTON, N. C.

THURSDAY, MAY 1, 1884.

Entered at the Postoffice at Wilmington, N. C. as second-class matter.

Mr. Charles A. Dana, editor of the New York Sun, has returned home from a month's visit to Mexicc.

Leopold Morse, of Massachusetts, is the only professed Jew in Congress. He lows: is a native of Bavaria, but came to this country when quite young. He began business in Bostoff in a little clothing store. Now he is worth \$1,000,000 or

Not many years have passed since alligator skin was tanned as a novelty. Now, however, it is a necessity, and there are at least a dozen firms in this country engaged exclusively in tanning alligator hides. It is estimated that 40,000 alligators were killed during 1883 in order to supply the demand for leather. The negroes kill the creatures, and get from 20 to 50 cents each for the skins, according to the size and quality.

Massachusetts Protectionist have been badly scared by the numerous and influential support unexpectedly secured for a call for a mass meeting to be held in Boston Tuesday, April 19, to demand "a tariff for revenue only." The call is signed by Charles Francis Adams, Jr., Charles Theodore Russell, Leverett Saltonsta'l, John Quincy Adams and other eminent persons and firms, 700 in all, representing the solid men of Boston and vicinity, all of whom layor the removal of taxes on the necessaries of life. This reform movement is designed to startle the Conservatives of the old Bay State.

Politicians are at sea as to the meaning and effect of the New York Republican Convention. The more general opinion is, however, that the meeting resulted in a drawn battle. It would have pleased the Blaine men of course to have carried the day, but they may well feel encouraged over the strength their favorite developed. The Arthur men may congratulate themselves on the fact that the result of the fight keeps the President in the field if not in the lead; as Gibbon says, speaking of the ssue of a crisis in a Roman politician's life, if protracts if it does not prevent his ruin. The Independents are, naturally enough, gratified at the power they were able to show; and so all sides have cause for hope and a motive for

Governor Cleveland, of New York, has signed a bill prohibiting the manufacture and sale of oleomargarine.-This has created a breeze among the manufacturers of that article, who have large amounts of capital invested in the business, and who are loudly denouncing the measure as unconstitutional and method was there in his madness that NO unjust. They delare that they will defy the law and let the courts decide on its validity. Whatever may be the result of the war between the manufacturers and the authorities the former have only themselves to blame that any conflict exists. Had they been willing to sell their product for what it really was no one would have thought of interfering with them. But they wanted to sell it for gilt-edge butter, which it was not, and in their greediness bave overstepped themselves. Honesty'is the best policy in the long run, even in the bogus butter

the Exchequer, introduced the Budget in the House of Commons on Friday night. The revenue for 1883 amounted to £87,205,184, and the expendi ure to ceeded the estimate by £200,000, while there to suit me, and just now I'm trythe spirit duty fell off. The income tax produced £453,000 beyond the estimate. The national debt up to the present time has been reduced by £72,- stairs without waking his wife, and 680,000. It is now lower than since found that she was watching him from 1811, while the interest is lower than since 1805. The national debt was reduced during 1883 by eight and a half a helper who "must be as quick as millions. "The estimated expenditure lightning." The first man who applied for the current financial year is £85,-

Mr. Childers said it was difficult to forecast the revenue for 1884. Trade and agriculture were unsatisfactory, but the working classes were pretty life in a broken-down body.-15 cents comfortably off. Pauperism was declining. The revenue was estimated at £85,550,000, against £71,866,000, last year. In connection with the postoffice estimates be was sorry to say that after eight months experience the parcels post had produced only £155,000 against an estimate of £340,000. It was therefore proposed to deter the system of sixpenny telegrams until August, 1885. Owing to the smallness of the surplus, in the last stages of Consumption. Our £263,000. dition. It is also proposed to convert the three per cent. consols into two and three-quarter per cents.

Commenting on this, the New York Mail and Express says:

It is interesting to compare the British budget just presented in the House of Commons by Chancellor Childers with the Statement of the United States government for the last fiscal year. It should be borne in mind, however, that this country has nearly 20,000,000 more people that the United Kingdom, and the economy of republican government as compared with the most liberal of the monarchies will then be appreciated. The comparison is as tol-

\$42,000.000. It will be seen that John Bull received \$38,000,000 and expended \$169,592,000 more than Brother Johnathan during the last fiscal year, and reduced his debt \$92,000,000 less. Although Mr. Childers boasts that the debt of the United Kingdom is now lower than it has been since 1811, it is still \$3,780,-000.000, while that of the United States 18 only \$1,500,000,000, to use round figures for both amounts. Extravagance and corruption are said to be the chief enemies of a republic, and many tamous Englishmen have predicted that they will cause the downfall of our government, but we are happy to inform our anxious mother, England, that we govern 55,000,000 people for about two-thirds what it costs her to govern 36,000 000, in spitel of extrava- CUCUMBER PICKLES, gance and peculation.

Harper's Magazine begins its sixty-eighth volume with the December Number. It is the most popular illustrated periodical in America and England, always fully abreast of the times in its treatment of subjects of current social and industrial interest, and always ad vancing its standard of literary, artistic, and mechanical excellence. Among its attractions for 1884 are: a new serial novel by William Black, illustrated by Abbey; a new novel by E. P. Roe, illustrated papers by George H. Boughton, Frank D. Millett, C. H. Farnham, and others; important historical and biographical papers; short stories by W D Howells Charles Reade, &c.

cone out of our establishment during the past welve months. If you were to paste end to end all the colimns of all THE SUNS printed and sold last year you would get a continuous strip of interesting information, common sense wisdom, sound doctrire, and sane wit, long enough to reach from Printing House square to the top of Mount Copernicus in the moon, then back to Printing House square, and then three-quar ters of the way back to the moon again. But THE SUN is Written for the inhabitants

ty-eight times. If every buyer of a copy of THE SUN during the past year has spent only one hour over it, and if his wife or his grandfather has spent another hour, this newspaper in 1883 has af-forded the human race thirteen thousand years

of steady reading, night and day.

It is only by little calculations like these that you can form any idea of the circulation of the most popular of American newspapers, or of its influence on the opinions and actions American men and women.

THE SUN is, and will continue to be, a news paper which tells the truth without fear of consequences, which gets at the facts no mater how much the process costs, which pre sents the news of all the world without waste of words and in the most readable shape, which is working with all its heart for the cause of honest government, and which there fore believes that the Republican party, must go, and must go in this coming year of our Lord, 1884.
