

The Daily Review.

JOSEPH T. JAMES, Editor & Prop.

WILMINGTON, N. C.

THURSDAY, MAY 8, 1884.

Entered at the Postoffice at Wilmington, N. C., as second-class matter.

The Wilmington Star is authority for calling the present Congress "the do-nothing Congress."—Statesville American.

Oh, no! sonny. The Star rather inclines to the opinion now that it is "the play-hell Congress."

Ex-Governor Hubbard, of Texas, invites the grain-tonnage of the entire West to be brought to that port for shipment, but forgets that no vessel of heavy tonnage can be floated over her bar. He says that Galveston is 809 miles nearer Kansas City than New York is. He claims that Texas now grows one-quarter of the cotton crop, and her production will be doubled in a few years. Manufacturers are springing up on every side, and Texas will naturally get the cream of the trade between this country and Mexico.

Of the 290 votes to be cast in the Chicago Republican Convention, Congressman Bayne, of Pennsylvania, figures out 425 for Blaine on the first ballot. Estimates made up by less fanciful friends of Blaine give him from 358 to 360, while the arithmeticians ranged on Arthur's side give Blaine but 298.—Arthur's strength, which is somewhat easier to estimate, is placed by general agreement at from 260 to 270 votes on the first ballot. Edmunds is accorded with like unanimity about 75. The returns from most States are in, and the above figures are based on supposed facts, but facts in matters of this kind are very untrustworthy.

In nineteen private galleries in New York are pictures worth \$6,000,000. Vanderbilt's form the most costly single collection. He has 170 paintings, forming the finest collection of modern European paintings in this country. His costliest works are "Information" (\$30,000) the "Ordinance" (\$30,000), all by Meissonier; Gerome's "Sword Dance" (\$15,000) and "Louis XIV and the Grand Cone" (\$12,000); Alma-Tadema's "Sculpture Gallery" (\$15,000); "Picture Gallery" (\$15,000) and "Down to the River" (\$12,000); Jean Francois Millet's "Water Carrier" (\$10,000) and "Sower" (\$9,000); Turner's "Fountain of Indolence" (\$18,000); Fortuny's "Arab Fantasia at Tangiers" (\$10,000); Vibert's "Committee on Moral Books" (\$9,000) and Millais's "Bride of Lammermoor" (\$25,000).

It is not improbable that the great American cocktail will be an important factor in the coming Presidential campaign. A number of leading newspapers are already discussing the well-known fondness of Mr. Edmunds for this appetizing product of modern civilization. The Rev. D. C. Babcock, of Philadelphia, is secretary of the National Temperance Committee and an inveterate foe to cocktails. "My views are very decided," said Mr. Babcock, "and I do not hesitate to assert that if Mr. Arthur were to be nominated the votes of the temperance men in the Republican party would be cast against him. Still, I do not think there is the slightest danger of his nomination. Mr. Arthur is socially the most corrupt man who has ever been in the White House. If he should be nominated facts would be brought out which would array the decent sentiment of the nation against him. I took pains when in Washington to get reliable information about Mr. Edmunds, and I am sure that his personal habits are such that the temperance people of the country will not support him. Mr. Blaine is not what might be called a strict temperance man, but the temperance people of the country would support him."

The latest phase of despotism in Russia is the effort to suppress the students. Not content with surrounding them with spies and informers, subjecting them to domiciliary visits, and the most odious inquisitions, the Czar has at last reached the conclusion that the proper way to deal with these budding nihilists is to suppress them altogether. It has been discovered that education of any kind is unfavorable to the maintenance of despotic power, and hence the fewer in the empire who are educated the better for the country. The number of schools has been cut down and the number of pupils reduced more than one-half. The police, which has for years had charge of the discipline in the schools, is now to supervise the studies and to determine what branches of learning are to be prohibited and what allowed. The number of students in the Medico-Chirurgical Academy of St. Petersburg has been reduced from 1,000 to 500. The Forest School has been treated in the same way. The Female School of Medicine has been abolished, and the Polytechnic Institution of Kharkoff, for which large sums of money have been contributed, has been refused a license. These are some of the tyrannical methods adopted to crush the dawning seeds of liberty among the people.

The Chicago Tribune, a staunch Republican organ, in a leading editorial denounces Senator Edmunds, of Vermont, as an "instrument" of the millionaires, the "monopolists," &c. "No one can challenge the statement," the Tribune says, "that the main intellectual activities and professional services of Mr. Edmunds in the last ten years have been in promoting the interests of various powerful corporations before the highest Court of the United States." Allusion is here made to the various services performed by the Senator for the Pacific railroads. The bill which he introduced in the Senate a few weeks ago, providing for an extension of the time for the payment of their bonds, and also reducing the rate of interest on their debt to the Government from 6 to 3 per cent., is characterized as "unjust," "atrocious" and as playing into the hands of "Gould, Dillon, Vanderbilt, Huntington, Stantord, Crocke, and the rest of the Pacific Railroad tribe." The article concludes thus: "There is no sense in weich Senator Edmunds stands for the average citizens of this country. We cannot look forward with any complacency to the selection by the Republicans of a standard-bearer who has given the best works of his life to the legal service of corporations, and who proposes in his Pacific Railroad bill to discriminate against the public and in favor of a coterie of millionaires who have had many millions too many out of the pockets of all of us."

PERSONAL.

President Arthur never wears the same necktie two days in succession. Senator Dorsey has a son of the famous Kit Carson employed on his ranch. Ex-Congressman De La Martyr has become the pastor of a fashionable church in St. Paul. Herbert Spencer has started on his trip to Australia. He will return home by way of America. David Davis is said to have had roller skates on at Bloomington the other day, and there are cracked windows in several houses in the neighborhood of the rink. The earthquake over in England, which occurred about the same time, is explained. The poet Whittier, has attempted little literary work of late. At long intervals he stays for a day or two in Boston, but spends most of his time quietly in Danvers. He has long been far from strong, and unless he gains new strength during the Summer he will cease writing altogether.

MAY MOONSHINE.

Under a cloud—An umbrella. The man who "found his level" was a carpenter, of course.—Boston Bulletin. One good thing may be said of the pawnbroker—he sticks to his pledges.—Somerville Journal. It doesn't speak much of the size of a man's mind when it takes him only a minute to make it up.—New York Graphic. An English paper says that Americans are good listeners. Our invention of the telephone proves it.—New York Journal. It seems strange that a man should hurt himself when he drops on a sidewalk. Down is so soft, you know.—Siftings. Every affliction has its blessing. The man with a wooden leg never knows what it is to have rheumatism in that ankle.—Chicago Sun. A linen shirt was first worn in England about the year 1250. There was a man in our office yesterday who had on that identical shirt.—Rockland Courier. A fashion item declares that the long train is going out of fashion. Let 'em go. This is the kind of departing train that no one will care if they do miss.—Statesman. When a young man lays siege to a young lady, and insists upon her consenting to become his wife, she cannot but confess that he is "a man after her own heart," however heartless she may appear.—Chicago Sun.

Many ladies admire gray hair—on some other person. But few care to try its effect on their own charms. Nor need they, since Ayer's Hair Vigor prevents the hair from turning gray, and restores gray hair to its original color. It cleanses the scalp, prevents the formation of dandruff, and wonderfully stimulates the growth of the hair. Four churches in Montreal now use the electric light. Rosadalis. ROSADALIS is a great remedy for Scrofula, and all taints and diseases of the Blood. It is not a secret medicine, but is well known to physicians, very many of whom regularly prescribe it in their practice. It is a strengthening medicine, enriching the blood and building up the system. It should be taken at all times and seasons, but especially in the Spring and Fall, when the sudden changes in the weather disturb the functions of the system, and induce disease. Read the following letter: MOORE'S CURE, N. C., Jan. 17, 1881. I have suffered 37 years with Liver complaint, Rheumatism, Sick Head, ache and disordered Stomach. I was at one time raving distracted, rubbing my hands and half crazy with pain. My wife sent for a doctor, and he attended me 9 months. He said he could do me no good. I felt I was in the jaws of death. Another physician took me in charge and doctored me 18 months. I paid him \$3 and owe him \$40 more, but one bottle of ROSADALIS did me more good than all the medicine the doctors ever gave me. J. H. WALKER.

The Doctor's Endorsement. Dr. W. D. Wright, Cincinnati, O., sends the subjoined professional endorsement: "I have prescribed DR. WM. HALL'S BALSAM FOR THE LUNGS in a great number of cases and always with success. One case in particular was given up by several physicians who had been called in for consultation with myself. The patient had all the symptoms of confirmed Consumption—cold night sweats, hectic fever, harassing coughs, etc. He commenced immediately to get better and was soon restored to his usual health. I found DR. WM. HALL'S BALSAM FOR THE LUNGS the most valuable expectorant for breaking up distressing coughs and colds.

"Nothing but leaves," as Adams remarked when admiring his wife's polonaise.

Void of Offence. The breath becomes "void of offence" when contaminated with decaying or impure teeth, if SOZODONT, the national beautifier of badly furnished mouths, is used systematically. It institutes a speedy reform of those conditions favorable to dental decay, such as the corrosive action of acid impurities fermenting upon the coronal surface, the destruction of the enamel by tartar and the injurious influence of tobacco. Polish daily after meals, if possible.

THE SUN. NEW YORK, 1884.

About sixty million copies of THE SUN have gone out of our establishment during the past twelve months. If you were to paste end to end all the columns of all THE SUNS printed in solid type, you would get a continuous strip of interesting information, common sense wisdom, sound doctrine, and sane wit, long enough to reach from Printing House square to the top of Mount Copernicus in the moon, then back to Printing House square, and then three-quarters of the way back to the moon again. But THE SUN is written for the inhabitants of the earth; this same strip of intelligence would glide the globe twenty-seven or twenty-eight times. If every buyer of a copy of THE SUN during the past year has spent only one hour over it, and if his wife or his grandfathers has spent another hour, this newspaper in 1883 has afforded the human race thirteen thousand years of steady reading, night and day. It is only by little calculations like these that you can form any idea of the circulation of the most popular of American newspapers, or of its influence on the opinions and actions of American men and women. THE SUN is, and will continue to be, a newspaper which tells the truth without fear of consequences, which gets at the facts no matter how much the process costs, which presents the news of all the world without waste of words and in the most readable shape, which is working with all its heart for the cause of honest government, and which therefore believes that the Republican party must go, and must go in this coming year of our Lord, 1884. If you know THE SUN, you like it already, and you will read it with accustomed diligence and profit during what is sure to be the most interesting year in its history. If you do not yet know THE SUN, it is high time to get into the sunshine.
