

THIS PAPER published every evening, Sundays except by JOSH T. JAMES, EDITOR AND PROPRIETOR. SUBSCRIPTIONS POSTAGE PAID: One year \$4.00, Six months, \$2.00, Three months, \$1.00; One month, 35 cents. The paper will be delivered by carriers free of charge, in any part of the city, at the above rates, or 10 cents per week. Advertising rates low and liberal. Subscribers will report any and all failures to receive their paper regularly.

THE DAILY REVIEW.

VOI. VIII. WILMINGTON, N. C., THURSDAY, MAY 15, 1884. NO. 116

The Daily Review has the largest bona fide circulation of any newspaper published in the city of Wilmington.

Jim Keene owes his barber \$1,000.

The dogs on exhibition at New York are valued at \$150,000.

The large assignment of the Grants to their relations as preferred creditors is rather funny.

Mr. Roosevelt, the New York legislator known to fame, is only twenty-three years old.

Baltimore indulges hopes that it will supplant Richmond as the Northern terminus of the Danville Railways.

The Constitution is certain that the South will ultimately control the manufacture of fine as well as coarse cotton goods.

Mrs. Langtry, during her first season in America, earned \$229,663; Bernhard, \$390,000; and Henry Irving, \$408,604.

The Dakota newspapers say that Dakota will raise about 40,000,000 bushels of wheat this year, against 18,000,000 last year.

Mr. Bookwalter, the Ohio Democrat, politician, owns 40,000 acres of land in Nevada, where herds of sheep are reared and kept.

Senator Riddleberger hangs very loosely to the Republican party. He has just sold his paper at Woonstock to straight-out Democrats.

The King of Belgium has offered a prize of 25,000 francs to the author of the best work on the means of popularizing the study of geography. Writers of all countries may compete.

The Baltimore Manufacturers' Record in its issue of this week shows that during the first four months of the present year \$55,504,000 has been invested in manufacturing and mining enterprises in the South.

The Boston Globe, six years ago, had 18,000 circulation. Since it espoused the cause of Ben Butler it has a daily circulation of 74,000 copies. The Butler Democracy in Massachusetts appears to be rather lively and prosperous.

Ex-Empress Eugenie does not intend that Queen Victoria shall secure all the laurels of royal authorship. She is busy revising the late M. Rouben's "Memoirs of the French Empire," and promises to have the first volume ready for press by Autumn.

Henry Labouchere, who is not only editor of an influential London journal, but a member of Parliament as well, has been going into uncomfortable mathematics by showing that the cost of the royal family, about £1,000,000 annually, would give a meal to 600,000 children on 300 days in the year.

A novel is soon to appear from the pen of J. C. Goldsmith, editor of the New York Weekly Herald. It is founded on fact and is to bear the title "Himself Again." Many of the characters and scenes are taken from New York, and one pleasing diversion is to be a song composed by the famous pianist, S. B. Mills, especially for this work.

The Grant & Ward failure looks worse as fresh revelations appear. Millions of dollars were secured from credulous persons, many of them women, and upon the assurance that large rates of interest would be paid on the sums loaned. The "interest" consisted simply of a portion of the principal, which the poor dupes received under the impression that they were getting an unusually rich return for their investment.

In six years Henry M. Stanley has succeeded in establishing a chain of international stations across the African continent. In 1880 he founded Viva, the first of the series of stations in Western Africa. Before the end of the third year Leopoldville, a station on Stanley Pool, at the head of the lower Congo, and the key of Upper Congo, was founded, and four steamers were launched on the great river. In 1883 the station of Stanley Gal, 1,000 miles up the river, was founded. About 2,000 miles of river transit of the Congo and its tributaries are open to commerce by this chain of stations. The imports to the West coast of Africa last year were over \$22,000,000, while the exports were over \$27,000,000.

A leading paper says: St. Jacobs Oil, the great pain-destroyer, is highly recommended for frost bite.

There was a terrible panic on Wall street yesterday, the natural outcome of the gambling stock speculations which seems to be the prevailing feature of that locality. Eight firms of bankers and brokers suspended and the Metropolitan National Bank of New York, and Atlantic State Bank, of Brooklyn, went by the board. There was also a run on the Second National Bank of New York but it withstood the rush and is declared as strong as ever. The best informed seem to think that the worst has been known and that there will be no general panic.

LOCAL NEWS.

F M KING, Purser—Carrolla Yacht Club

The receipts of cotton at this port to-day foot up only 4 bales.

Steamboatmen report that the water in the Cape Fear is getting quite low.

The storm signal was flying again this morning with the wind from the Northeast.

There were no cases for the Mayor's consideration this morning and consequently no City Court.

Prof. Noble has had applications from four different sources to teach Normal Schools during the coming vacation.

Some of those who went to the "Rocks" yesterday were quite successful and caught a nice lot of fish for their day's sport.

There were splendid showers during the early part of last night, and they must prove of incalculable benefit to the growing crops.

We invite the attention of our citizens to the fact that first quality shirts are being made to order at one dollar at the Wilmington Shirt Factory.

The Cornet Concert Club, at their meeting last night, decided to go to the anniversary celebration at Charlotte with the Howard Relief Fire Engine Company.

The members of Wilmington Steam Fire Engine Co. No. 1, have decided to visit Newbern on the 17th of June, in response to the invitation of the Atlantic, of that City. They will probably carry their steamer with them.

"Motley's the Wear" is the title of a very amusing paper, from the pen of Hon. A. M. Waddell, published in this week's issue of the Raleigh Visitor. It depicts a few of the various ways in which a man can make a fool of himself.

The Fayetteville Sun, commenting on our remark that it was thought by some that Judah P. Benjamin was born in Fayetteville, says that he was not a native of that town but that he came there from South Carolina. It seems to be pretty well settled now that he was born in St. Croix, W. I.

While the excursion party were at Smithville yesterday the alarm of fire was sounded, on account of flames appearing on the roof of Mr. T. McKeithan's house. Busy and determined work by the neighbors, who were quickly to the rescue, soon extinguished the flames and but little damage was done.

Personal.
Mr. Edward M. Cushing, who has been absent in Florida for the last four years, returned to the city last night and was upon our streets to-day. He is in excellent health and looks as if the climate of the "Land of Flowers" just suited him.

Rev. Armand DeR. Meares, of this city, will in a few weeks remove to Warsaw, Ind., where he will take charge of St. Andrew's Episcopal Church, in that city. He is now arranging his affairs here and expects to leave for his new field of labor about the first of June.

Died Fighting.
We learn from a telegram received here to-day from Cheraw S. C., that the notorious murderer and outlaw, Bigan Ca-h, was killed this morning by the posse who were attempting to make his arrest. The dispatch says that the desperado died fighting. It matters but little how he died, providing he is dead, unless he might in his last efforts have inflicted injury upon those who were trying to effect his capture.

The Lucky Numbers.

At the May drawing of the Louisiana Lottery Company, the following numbers drew the principal prizes:

No. 10,842 drew the capital prize of \$75,000. No. 25,755 drew the second prize of \$25,000. No. 64,612 drew the third prize of \$10,000. Other lucky numbers are 8,551; 39,604; 22,176; 24,253; 27,392; 94,492; 97,525.

Pugilism.

As will be seen by announcement in our advertising columns, the principal men who are to take part in the sparring exhibition at the Opera House to-night, failed to make train connection and, consequently, will not be here until to-night. This accident, however, will in no wise postpone the entertainment as there are four here already who will give exhibitions of their skill to entertain the audience until the principals arrive. Among those present is Mr. Gould, who will face any citizen for \$250, who may feel any inclination to test him with the gloves on.

Very Sudden Death.

We learn from Mr. Archie McNair, who came in on the W. C. & A. R. R. last night, of the very sudden death of a train hand at Fair Bluff, on Tuesday night. Mr. McNair was a passenger on Capt. Carman's freight train and when he stepped from the car the cook, Sharper Simmons, handed him his valise and the next moment fell to the ground, a dead man. It is supposed he died of heart disease.

Deceased was well known to the railroad men and is said to have been one of the most reliable and efficient hands on the line of road. He was for several years a waiter at Mrs. Brother's boarding house at Lake Waccamaw.

A Train in a Storm.

Capt. June Gardner, the very clever conductor on the Carolina Central, has had many thrilling experiences in his life, the latest of which is thus narrated by the Charlotte Observer:

The Charlotte bound train on the Carolina Central road was caught in a frightful storm after leaving Laurinburg last Monday evening. There was but little wind or hail, but a strong wind prevailed and the lightning was incessant. Capt. June Gardner, who was in charge of the train, says he has been in storms on land and on sea, but in all his life he never experienced such a storm as that of Monday night. For half an hour he says one could have read a newspaper continually by the glare of the lightning. The electric fluid would run along the track and circle the car wheels with hands of fire, but no damage was done to the train. A number of trees were shivered along the track, and the noise of the thunderbolts was awful. Capt. Gardner says he thought the last day had come, an opinion that was generally shared by his frightened passengers.

Wilmington, Wrightsville & Onslow Railroad.

In regard to this enterprise we clip the following from a Philadelphia paper of a recent date:

The colored men mean business in the South by building railroads, and have commenced one with General T. Morris Chester as president, a colored man, who is a Pennsylvanian by birth. The road in question is the Wilmington, Wrightsville & Onslow Railroad, and as described by the president is a straight line from Wilmington to Jacksonville, a distance of sixty-four miles. From Wilmington to Wrightsville, on the sea coast, a distance of eight miles, will be built first; the latter point is a great summer resort. It is contemplated to extend the road to Washington, a distance of about eighty miles from Jacksonville, where it will connect with a road now being built by the Pennsylvania Company, thus giving a direct route from New York to Wilmington and Florida. The road will run through a very rich country, and the freights of turpentine, cotton, corn, fish, and the best oysters in the country, and other products it is expected will insure fine dividends. The president of the road, General Chester, is a native of Harrisburg, Pa., who was educated at Avery College, Allegheny City, thirty years ago. He is a member of the English bar, and has traveled all over Europe in the interests of the freedmen. While in Europe he was presented to the late Czar of Russia, at the court of Sweden and of England. He is very sanguine of the success of the road, and is receiving subscriptions for it. Governor Pattison and Treasurer Lacey's names are on the books as subscribers. The following resolution was presented at the colored convention yesterday and passed unanimously:

Resolved, That the construction of the Wilmington, Wrightsville & Onslow Railroad, in the State of North Carolina, under the management of colored men, is hailed by us as a new departure, fraught with incalculable results in developing business capacity and industrial pursuits worthy of favorable consideration, and identifying us with the material interests and important industries of the country in which we wish the Enterprise God speed.

Knights and Ladies of Honor.

Regular meeting this (Thursday) evening. Full attendance desired. It

Third North Carolina.
The Association of Officers and Honorary members of the Third North Carolina Regiment will take a trip to the "Rocks" to-morrow morning, where they will spend the day in fishing. They will leave here on the *Passport* at 9 o'clock a. m., and return at 6 o'clock p. m. We hope that they may have the finest of weather, the best of luck in fishing, and as good a time as it is possible for mortals to enjoy.

A Den of Thieves.

Mary Clariday, colored, who lives on Walnut, between Tenth and Eleventh streets, made an assault this morning on Mary Bradley, also colored, with an axe, and also assaulted with the same weapon an old colored woman whose name we did not learn. A warrant was issued for the arrest of Mag and placed in the hands of Officer Bryant, who in attempting to serve it was also attacked. She was arrested, however, and taken before Justice Hill, who required a bond of \$400 for her appearance at the next term of the Criminal Court, in default of which she was committed. She is the mother of Rebecca Clariday, the youthful pickpocket thief, and at about the time of her arrest officers Strode and Whitney, armed with a search warrant, searched her premises and found a large amount of goods and considerable money, which was undoubtedly stolen by herself and daughter. The latter is also in jail awaiting an examination upon the charge of pocket-picking.

Interesting Letter from Col. Green.

The following letter from Hon. Wharton J. Green, written in response to a letter from a gentleman in this city, relative to certain public matters and suggesting his meeting with his friends for consultation, relative to a renomination for Congress, was shown us and we obtained permission to publish it.

DEAR SIR:—Replying to your letter, I have the pleasure to state that it is pretty generally conceded that my "fruit bill" will constitute the nucleus upon which repeal or modification of the Internal Revenue law will hinge. The friends of the measure will only propose to repeal the tax on fruit brandy and tobacco. This done, and we materially diminish the number of yellow-legged grasshoppers in our State. The bill will be brought forward at an early date.

I agree with you that the fate of the Tariff bill gave us a black eye for the time; but I trust that this bill will prove a healing poultice.

I am grateful to hear from you that my efforts have an appreciation by my friends at home. While making no pretension to genius, parliamentary experience or legal lore, I nevertheless think that I can claim, without annoyance, the merit of zeal and close application to the duties of my position since my induction into Congress.

Up to the time, some four weeks since, of my necessitated absence on account of my mother's fatal illness and subsequent obsequies, not a letter was received that was not answered, nor a request preferred by any of my constituents that was not attended to, to the best of my ability.

I leave it to those who sent me here to say whether my labors in their behalf have had results. If they wish me to continue I am willing to serve; if they wish me to leave, I am ready to go. All that I demand is that fair play may preside when the decision is made. And of this I cannot doubt, both on account of the high character of those who would not be averse to taking my place, and of the good sense, and sense of justice of those upon whom the decision will involve.

The proper discharge of my duty to my people will preclude my taking an active part in the preliminary canvass prior to the convention. My record and their indulgence must plead for me.

From the cause above assigned I have fallen behind in my correspondence, but I hope to catch up during the coming week.

Yours, &c.,
W. J. GREEN.

Interesting to Fishermen: The celebrated "Fish" Brand Gillnet Thread is sold only at JACOBI'S. He is the Importer's Agent.
