

THE DAILY REVIEW.

VOL. VIII. WILMINGTON, N. C., SATURDAY, JUNE 7, 1884. NO. 136

THIS PAPER
is published every evening, Sundays ex-
cepted by
JOSH T. JAMES,
EDITOR AND PROPRIETOR.
SUBSCRIPTIONS POSTAGE PAID:
One year \$4.00. Six months, \$2.00. Three
months, \$1.00; One month, 35 cents.
The paper will be delivered by carriers free
of charge, in any part of the city, at the above
rates, or 10 cents per week.
Advertising rates low and liberal.
Subscribers will report any and all failures
to receive their paper regularly.

The Daily Review has the largest
circulation of any newspaper
published in the city of Wilmington.

Public feeling in England is growing
more and more excited over the dynamite
explosions. The police have not
even a theory to offer.

Five Mexican States have declared
war against President Gonzales on account
of the revenue stamp tax. Troops are being
concentrated in the interior.

From cork chippings, once thrown
away, thousands of yards of linoleum
are now made at Delmenhoist, Ger-
many, where the industry is becoming
quite important.

Captain George H. Perkins is the
richest man in the United States Navy.
He is worth seven million dollars. He
married the money and did not save it
out of his pay.

Senator Beck is reported as making
this frank confession: "I will vote for
any man the Democrats may nominate.
I have eaten crow before, and I can afford
to do it again. I voted for Horace
Greeley, which was about the most dis-
agreeable dish of crow that was ever
set up to the Democratic party."

The Boston Herald, praising the
manufacturing and agricultural indus-
tries of the South, adds: "Certain it is
that our Eastern manufacturers who
have dealings with both sections of
the country consider that the South is
just now a better field for trade than the
West."

In the revolution of 1830 a law student
in Paris was kicked by one of the
King's officers for tearing down a copy
of the ordinances placarded on the wall.
The officer was armed, the student was
not; so the latter ran away and lived to
fight another day. The officer was
Patrick McMahon and the law student
Jules Grexy.

The International Typographical
Union, at New Orleans, Tuesday,
elected the following officers: Presi-
dent, Martin R. H. Witter, of St. Louis;
first vice-president, Wm. Sullivan, of
Nebraska; second vice-president, P. T.
McDermott, of New Orleans; secretary
and treasurer, Wm. Briggs, of Wash-
ington, D. C.

A Herald writer declares that Butler,
failing to get the Democratic nomina-
tion for President, will issue a manifes-
to to the Greenbackers, Anti-Mo-
nopolists and Independents asking them
to vote the Democratic ticket, promis-
ing to look sharply for their interest.
The old man really expects to be the
next Governor of Massachusetts.

Edward Simms, organist of St.
Michael's Church, Coventry, in Eng-
land, who has held that position since
1828, was born in 1800 and performed
his first service when only ten years
old. Since that date, a period of
seventy-four years, he has continued in
the constant exercise of an organist's
duties and still conducts a full choral
service without assistance.

The New York World says that the
repentance of the New York Times is
not sincere, as the Times has failed to
confess its past sins. The World says
the Republican party of 1884, which
endorses Blaine and Arthur, is every
whit as good (or as bad) as the party
of '72, '76 and '80, which elected Grant,
stole the Presidency for Hayes and en-
dorsed the credit mobliler of Garfield.

The mercantile and political situation
at Havana continues desperate. The
most liberal estimates place the sugar
crop at 450,000 tons, which, at the av-
erage price of 5 1/2 rials per arroba,
amounts to \$24,750,000. The estimates
of expenditures for the next fiscal year
will amount to about \$30,000,000, con-
sequently the sum resulting from the
sale of the entire sugar crop would be
insufficient to cover the government
taxation upon the population.

A prominent railway official informs
the Savannah Times that it was his
firm conviction that there would be no
further investment in railroad property
in Georgia or in any new line construct-
ed until there was some modification of
the powers of the railroad commission.
Capitalists were unwilling to invest
money in enterprises, the management
of which was taken out of their hands.
This, says the Times, is the subject in
a nut shell, and it is an important mat-
ter for the consideration of the next
Legislature.

Everybody in want of Paints, White
Lead, Glass &c. should go to JACOBI'S
to get best qualities and lowest prices.

Lord Tennyson has been elected
President of a society of authors form-
ed chiefly for the purpose of effecting
international copyright laws between
England and America. Mathew Arn-
old is Vice President of the same soci-
ety.

Does any sane man really believe that
Carlisle or Morrison could be elected
President? If so, he is reckoning with
out his host. New York is essential to
success and neither Carlisle nor Mor-
rison can carry it. It must be either
Tilden, Cleveland or Bayard, and Tilden
is the surest of the three.

The Marquis de Leuville wears cor-
sets, women's boots and women's
gloves, and his shoulders are padded
out by his tailor to a grotesque width.
His breast is also padded and his hair
and beard oiled and curled. The
American dude must realize his own
inferiority in the presence of his lord-
ship.

Blaine and Logan are the ticket nomi-
nated yesterday at Chicago. The news
has been received here with but little
enthusiasm as the Republicans here-
abouts were wedded to Arthur. It is
not by any means as strong a ticket as
which have been put forth, a fact on
which the Democrats may congratulate
themselves. Blaine will be easier to
beat than either Arthur or Edmunds.

Those Democratic newspapers who
who do not want to see Mr. Tilden
nominated are now busy engaged in
putting forth reports that he will not
accept it, if tendered him. We don't
believe any thing of the kind. Mr.
Tilden is not the kind of a man to make
a mouthpiece of another. He can do
his own talking and he will do it, too,
when the time comes for him to speak.
When he publishes his own declaration
we will accept it as a fixed fact, and
not before. In the meantime we will
go on believing that Samuel J. Tilden
will be the next President of the United
States.

Mr. Wm. Walker of Walker, Lemon
& Co Melbourne, Australia, states
that he suffered with an acute attack of
facial neuralgia, and for two days had
no rest but St. Jacobs Oil, the
great liniment, and by two applica-
tions as entirely cured.

NORTH WATER STREET.

A History of the Work—Col. Fremont's Report to the Mayor and Board of Aldermen.

We have obtained for publication the
following report of Col. S. L. Fremont,
the City Engineer under whose direc-
tion the improvements on North Water
Street have been made, as submitted
by him, substantially, to the Board
of Aldermen. It will be seen that the
total net cost of the work amounts to
\$10,877.21 and the entire cost, which
includes some surplus material, is \$11,
342.41. This is against the estimate
submitted by Col. Fremont for \$11-
390.52, which certainly shows very
close calculation, the difference being
less than \$50. Following is the report:

OFFICE OF CITY ENGINEER,
CITY HALL, WILMINGTON, N. C.,
May 30th, 1884

To the Mayor and Commission on Streets
and Wharves:

GENTLEMEN:—North Water street is
completed, and I take pleasure in sub-
mitting a statement of its cost and say-
ing I am ready to withdraw from your
service at any day you may designate.

The general surveys of the street, in-
cluding levels and the cross section
measurements, were made in Novem-
ber and December in connection with
most other city work. The paving,
curbing and flagging of this street was
ordered for contract by advertising for
bids, and in January contracts for the
same were concluded. On the second
day of January the work of subdrain-
ing the block between Mulberry and
Chestnut streets was commenced, and
on the 15th of the same month com-
pleted. A snow storm caused some delay,
and the numerous gas and water pipes
encountered also prolonged the time
and increased the cost of the work.

Mr. R. B. Wood, the contractor for
setting the curb stone, paving, &c.,
began his work early in February.
The removal of the old cobble pavement
and the grading of the street was com-
menced on the 25th of January. Soon
after the 20th of February, the work of
laying the paving blocks was commenced
and continued with slight intermissions,
caused by delay in receiving blocks,
until the work was completed, on the
second day of May. The work of lay-
ing the sidewalk has been com-
pleted.

SURFACE DRAINAGE.

The system of drainage recommended
by myself, and adopted by the commit-
tee, involved the plan of taking the
water from this and the cross-streets at
their intersection under the sidewalks
into reservoirs, known as "catch bas-
ins." They have an overflow near the
top into terra-cotta pipes, connecting
them with sewer pipes of larger dimen-
sions, in the middle of the street, by
which the surface water is conveyed to
the river. The sand and other wash-
ings that will not float are left in the
basins to be removed by the street re-
pair force or scavengers. All this work
of drainage was done under my person-
al supervision, and in the most thor-
ough manner; all masonry and drain
pipes were laid in the best Portland
cement, and the joints everywhere filled
with mortar that has set and is now
harder than the bricks. This method
of removing the surface water from the
streets has not heretofore been used
in this city, as it has been elsewhere,
and must be here if you would not have
the streets, on the lower levels, inun-
dated at every extraordinary rainfall.
By the use of these corner basins the
whole street is available for use, as
there are no obstructions at the
corners, and your harbor maintains
its original depth and capacity.—
By conveying the surface water, at the
termination of each block, from its
lowest level into sewer pipes to be con-
veyed to the river you have control of
the water, as it never accumulates so
as to become an unmanageable torrent,
as is frequently the case now, especially
on Market and Dock streets. It is not
expected that the corner basins at the
intersections of Princess and Chestnut
with North Water streets can do the
duty of corner reservoirs for half a
mile of street, but they are ample for
the blocks they are intended to serve.

BLOCK PAVEMENT.

The blocks used on North Water
street are known in other cities as the
"Gaidit" blocks. The contractor for
supplying these blocks, Mr. S. A.
Pearce, has supplied a good lot of
blocks, quite as good as would have
been supplied from New York. There
was some delay in delivering them,
which has prolonged the time for com-
pleting the contracts, from twenty to
thirty days. The contractor, Mr. W.
A. Sweeney, for the curb-stone and
flagging supplied a fair material, al-
though the flagging in some cases was
not quite as good as we expected, while
the curb-stone was unexceptionable.
The contractor, Mr. R. B. Wood, for
laying all the stone work, blocks, curb
and flagging, has done his work well,
as a whole; when, from oversight or in
making "short cuts," which all con-
tractors understand, inferior work was
done and his attention called to it, he
has corrected it without hesitation.

GRADES AND DRAINAGE.

Some complaint has been made by a
few persons that the grades given to
this street do not cause the surface
water to flow off fast enough. While
there is truth in the statement, there
was no choice for the engineer. The
buildings had been erected, and in most
of the streets the city had given the
lot owners no grades to build upon;

hence the manifest injustice
to the owners to compel them,
at this time, to conform to a
grade now for the first time made
known by authority. The committee
did not feel justified in incurring heavy
damages by raising the grades in iron
of valuable buildings. Under these
circumstances, the best that could be
done, was done. The Engineer was
instructed to conform to the grades as
they then existed, to the extent of not
doing serious injury to valuable prop-
erty, and give the best drainage the
case would admit. This has in every
case been done, and though the
rainfall water does not flow off as
rapidly as it would if heavier grades
could have been given, yet it is believ-
ed no damages will result from the
grades that it was found necessary to
adopt. The work, as a whole, has
been well done. I know whereof I
speak. The public has approved it and
it will speak for itself and reflect credit
upon those who inaugurated the
improvement and have earnestly car-
ried it through to successful comple-
tion.

The original estimate for this im-
provement, submitted by the Engineer,
was \$11,390.52, which was calculated
for brick sidewalks, less expensive
than the blue stone flagging that was
used. The cash of the whole work,
including surplus material now on
hand for other streets, was \$11,342.41.
The net cost, after deducting the cost
of material on hand and a small
amount curbing stone and flagging
&c., taken from the street, leave a net
cost to the city of \$10,877.21. The cost
per square yard for grading, supplying
and laying the block pavement is \$2.37.
If there had been no old pavement to
move the cost would not have exceeded
\$2.20 per square yard.

Respectfully submitted,
S. L. FREMONT, City Engineer.

City Court.

Charles Richardson, colored, one of the
Paddy's Hollow orchestra, and George
Loyle, a fireman on the steamship
Benefactor, were before the Mayor this
morning, charged with engaging in a
fight on Nutt street last night. Richar-
dson was discharged and a fine of \$25
was imposed upon Doyle, in default of
which he was sent below for 30 days.

Personal.

Mr. Sol. Haas, of Richmond, Va.,
Traffic Manager of the Associated Rail-
ways, arrived in the city last night and
registered at the Parcell House.

We were pleased to receive a call last
evening from Mr. E. A. Keith, formerly
of this city, but now of Norfolk.—
Mr. Keith has been here for a few days
past and expects to return to Norfolk
to-night.

Exports Foreign.

Ger. barque *Ervin*, Langhimch,
cleared to-day for Rostock, Ger., with
3,190 barrels rosin, valued at \$5,050,
shipped by Messrs. E. Peschau &
Westermann, Schr. J. P. Wyman,
Torrey, cleared for Port-au-Prince,
Hayti, with 156,105 feet lumber and
26,850 shingles, valued at \$2,669.62,
shipped by Messrs. E. Kidder & Son;
making a total of exports foreign
amounting to \$7,719.62.

Base Ball.

The Old North State Base Ball Club
has been organized in this city. It is
composed of the following members,
viz:

Captain—Edward Daniel.
Members—Ed. Daniel, Right Field;
C. W. Worth, Left Field; W. R. Kings-
bury, Centre Field; Willie Pugh, Pitch;
Ralph Ross, Catch; T. S. Trask, 1st
Base; J. Fulton Hays, 2d Base; Ed.
Glavin, 3d Base; John Grant, Short
Stop.

We understand that this Club pro-
poses to play the Seaside Club at an
early date.

Twin Peaches.

We saw yesterday at the store of
Capt. James B. Huggins, on Market
street, quite a natural curiosity in the
shape of twin peaches. They were
fully developed, finely formed and
were joined firmly together on the
sides of their bases or stem ends, so
that in fact they were one peach. The
fruit was grown by Mr. L. W. How-
ard, who lives on the Sound, in Pen-
der county, on the line of the proposed
Wilmington & Onslow Railroad, 22
miles from this city. Mr. Howard
began the cultivation of peaches about
five years ago and has been remark-
ably successful in the enterprise. He
planted his orchard close to the
Sound, in consequence of which he
has not been troubled with frost nor
wormy fruit. His labor and care have
been remunerative and his business
is increasing with each succeeding sea-
son. He has brought a careful obser-
vation and an intelligent study to aid
in the development of the industry and
is reaping a rich reward for his pains.

We invite the attention of our citizens
to the fact that first quality shirts are
being made to order at one dollar at the
Wilmington Shirt Factory. tf.

Another New Hotel Plan.

We learn that negotiations have been
pending for some days past for the pur-
chase of the property now used as a
part of the Parcell House and that a
Northern capitalist has signified his in-
tention to invest \$75,000 for a new hotel
upon the old site. This amount, it is
said, will be sufficient for the purchase
of the property as it now stands, and
leave a good balance to tear down, refit-
rebuild and refurnish, so as to trans-
form it into a first class hotel in every
respect. We may be able to give fuller
and more definite particulars in a few
days.

Organized.

The Seaside Park Base Ball Club, of
this city, held a meeting last night and
perfected its organization by the elec-
tion of the following officers:

President—A. M. Waddell, Jr. Sec-
retary and Treasurer—W. B. Davis,
Captain—J. D. Smith.

Members—B. G. Empie, George
Harris, Jr., H. Bacon, J. D. Smith,
R. H. Grant, A. M. Waddell, Jr., U.
M. Robinson, H. Rosenthal, J. D.
Beery, E. Moore, W. B. Davis.

The grounds of the Club are at
Wrightsville Sound and are now being
put in the most perfect order for Sum-
mer service. The Club intend to chal-
lenge any club in the State for a friend-
ly contest, which will undoubtedly be
the means of showing some fine ball
playing during the season. The Seas-
ides have new uniforms in which they
will play.

Messrs. Scoville & Co. will serve
pigfish supper to all who desire to stop
at the Seaside Park Hotel after to-
morrow. Mr. Scoville informs us that
he has over one thousand live pigfish,
and that they are the finest ever caught
on the coast; most of them are about
ten inches in length.

DIED.

ROBINSON—In this city, June 7, 1884, at 11
o'clock, a. m., EVAN LARKINS, the beloved
son of E. L. and E. F. Robinson, aged 2
years and 9 months.

The funeral will take place to-morrow (Sun-
day) evening, at 4 o'clock, from the residence
of his parents, No. 112 South Eighth street,
thence to Oakdale Cemetery. The friends
and acquaintances are invited to attend.

LIPPITT—At Ocala, Fla., on the afternoon
of the 6th inst., MARY D., only child of Frank
B. and Mary Davis Lippitt, aged 9 months
and 10 days.

NEW ADVERTISEMENTS.

Vinegar for Sale.

I HAVE 200 GALLONS OF PURE APPLE
VINEGAR, warranted, which I offer at a low-
er price than the common acid vinegar can
be bought. This is the pure article, no chemi-
cal mixture. Try it.

THE ONSLOW R. R.—MEETING CALLED.

IN ACCORDANCE WITH A MEETING
held by a large number of merchants and busi-
ness men, and a subsequent meeting at the
City Hall, to consider the project of building
a Railroad to New River, in Onslow county, I
hereby call a meeting of all parties interested
in the building of said road, to be held at the
Produce Exchange, at 12 o'clock, on June
12th, to hear report of committee on a survey,
and to take immediate steps for building said
road and to hear report of said committee as to
cost of survey of Cape Fear & Yadkin Valley
railroad from Fayetteville to this city. Every
good citizen is urged to be present, and it is
especially hoped that our friends living along
the line of said contemplated road in Onslow
and Pender will be present in force, and let
us make a strong pull together.

Don't Pay Rent!

WHY PAY RENT WHEN THE
same money will buy you a home?
In this city I have sold over
one hundred and fifty Lots and Houses
and Lots to parties who have paid in full for
them, by instalments—monthly payments.
Also, I have a large number now on my books,
who are making regular monthly payments
and will soon own homes and get clear of land-
lord rule.
Apply to
JAMES WILSON.

A SUGGESTION.

AS THE SUMMER APPROACHES AND
Chills and Fever, Malaria, and kindred dis-
eases make Quinine a necessity, we suggest to
heads of families to buy our Capsules of Qui-
nine, sold in any quantity, but much cheaper
when purchased in boxes of 100. Packed into
the Capsule in a dry state, additional efficacy
is insured, and we guarantee each Capsule to
contain amount represented. Information re-
garding prices, number of grains in Capsule,
&c., gladly given.
