

The Daily Review.

W. T. JAMES, Editor & Prop. WILMINGTON, N. C.

THURSDAY, JUNE 12, 1884.

Entered at the Postoffice at Wilmington, N. C., as second-class matter.

The New York Tribune hastens to announce that Jay Gould is satisfied with the nomination. Among all the prominent citizens who have been interviewed on the subject Mr. Jay Gould alone speaks out with deep content and joy.

Dr. Farr, an English scientist, says that if one could watch the march of 1,000,000 through life the following result would be observable: Nearly 150,000 will die the first year, 53,000 the second year, 28,000 the third year, and less than 4,000 in the thirteenth year.

The New York Herald says: "A prominent Republican politician, who is excellent authority upon the subject, said that neither Gen. Grant nor Mr. Conkling would do anything to support Blaine in the coming election."

The Pack cartoons on "The tattooed man" were assiduously circulated in Chicago, as indeed they have been throughout the country. A young man who was acting as colporteur in this line was roughly handled by a lot of Blaine men among whom he mistakenly attempted to distribute his tracts.

Here are some interesting facts in the life of "Blaine of Maine" which will be used extensively during the campaign: Mr. Blaine, in the latter part of April, 1876, arose in the House, of which he was then a member, and delivered a speech the point of which was a denial of the newspaper charge that he had received, in 1871, \$64,000 from the Union Pacific railroad for service never performed, and that he had also received sundry bonds of the Little Rock and Fort Smith railroad as a gratuity.

"After my examination here yesterday Mr. Blaine came to the Riggs house and there had a conference with Mr. Atkins, Mr. Fisher and myself; he wanted to see those letters I had; I declined to let him see them; he prayed almost, I would say; he went on his knees and implored me to think of his six children and his wife, and that if the committee should get hold of those communications it would sink him immediately and ruin him forever."

over. He asked me if I would not give them to him; there was one letter in particular that he wanted me to give him; I told him then I would not do it, and the only reason I would not do it was because I saw it stated that the Blaine party were going completely to break down the testimony that I had given yesterday; that they were satisfied about that; I said I should not publish those letters unless my testimony was impeached or impugned. I want this committee to get for me these papers; Mr. Blaine has them and would not give them up to me."

The Democratic members of the sub-committee demanded that the letters be placed before them, but this request Mr. Blaine refused to comply with. On the 5th of June, however, Mr. Blaine read in the House a "personal explanation" in the course of which he read the letters from his seat. Mr. Mulligan declared afterward that one of the letters which Mr. Blaine received from him was not included in the batch read before the House, and that those which were read were garbled in the reading. On his return to Boston, Mr. Mulligan was asked by Mr. Blaine had read all the letters in the House, to which he answered emphatically: "No sir; and he never will."

POPULAR SCIENCE. A prize of \$2,000 has been offered by the Italian government for the most practical process for the transmission of electrical energy. There are 124,000 miles of railroad in the United States, or seven times as many miles as there are in the United Kingdom of Great Britain.

When transplanting the strawberry, an expert forbids the removal of the runners and recommends leaving six inches of them attached to each side of the plant. The ends of these runners are then to be bent down and buried with the roots. Plants thus treated are provided with means for drawing nourishment at once, and will thrive in adverse conditions which prove fatal to plants stripped of their runners.

HOW TO KEEP HEALTHY. Never begin a dinner with pie. Never sleep in your overshoes. Never ride a thin horse bareback. Never walk fifteen miles before breakfast. Never carry a barrel of potatoes on your head. Never put your feet in the fire to warm them. Never swallow your food before you chew it. Never jump out of the window for a shortcut. Never drink more than you can carry comfortably. Never give a tramp your summer clothing in the winter. Never jump more than ten feet to catch a ferryboat. Never leave the gas turned on when you retire at night. Never sit by a red hot stove with a sealskin cap or ulster on. Never thrust your knife more than half way down your throat. Never kick an infuriated bulldog when you have slippers on. Never let your clothes dry on you when you are caught in the rain. Never walk into a parlor at a reception and put your feet on the mantelpiece. It will cause the blood to run to your head.

JUNE JOKES. A tree that won't "keep shady"—Congressman Tom Ogilvie.—Norristown Herald. Grant is said to be a physical wreck. This savor of the Tilden tactics.—Oil City Buzzard. Some of the agricultural papers are printed on Hoe presses.—Louisville Courier-Journal. "Sit up at night to curse him," he said, "why I'd even get up in the morning to do it."—Boston Post. Kentucky's hemp crop will be a failure this year, but then there's the revolver.—Bismark Tribune. A lady, at an entertainment of private theatricals, cannot take affront if she is given a back seat.—N. O. Picayune. A Chicago Alderman is voting independently, the railroads having neglected to send him a pass.—Louisville Courier-Journal. Ruskin says, "Never buy a copy of a picture." The same advice holds good with regard to Ruskin's picture books.—Lowell Courier. Mrs. Carlisle has already returned 750 calls, and yet the croakers keep on howling that this Congress hasn't done anything.—Boston Post. The man who was hugged by a grizzly remarked, on being rescued, that he had never had such a tremendous pressure brought to bear upon him before.—Burlington Free Press. The sure effects of Ayer's Sarsaparilla are thorough and permanent. If there is a lurking taint of scrofula about you, Ayer's Sarsaparilla will dislodge it, and expel it from your system.

A Splendid Remedy for Lung Diseases. Dr. Robt. Nelson, late President of the Electric College of the City of New York, and formerly of Cincinnati, Ohio, used DR. W. M. HALL'S BAL-SAM very extensively in his practice, and many of his patients, now living, and who are well, testify to the value of this invaluable medicine, can amply testify. He always said that so good a remedy ought not to be considered merely as a patent medicine, but that it ought to be prescribed freely every physician as a sovereign remedy in all cases of Lung Diseases. It is a sure cure for Consumption, and has no equal for all pectoral complaints.

Kellinger's Liniment. We desire to call the attention of the public to Kellinger's Liniment, one of the best preparations ever put up for all general purposes for which a Liniment is used. Applied to the head it relieves headache, and prevents the hair from falling out. A woman in Connecticut has been made a notary.

By the Light of Day. PAST IMPOSSIBILITIES THE FACTS OF THE PRESENT—HELP IN THE NEW ERA. "I remember when they were putting up the poles for the first telegraph line in the State of New York, and now look there!" exclaimed a citizen of the metropolis to his friend, as the two stood on the summit of the tall Equitable Building in Broadway. "The city is strung with wires like a harp, and electric communication is the daily miracle of the world. People no longer wonder and laugh at what they did at Morse when he first suggested its possibility. The age marches on and prejudice must give way. Nobody has a monopoly of truth. Even the conservative guild of physicians admit that the secrets of medicine are shared by all men." "I dressed his wound and God healed him," said old Galen. Once that terrible disease, Rheumatism, was supposed to be a shifting, local ailment, now attacking the joints and now the muscles. To-day it is demonstrated to be a disease of the BLOOD. Mrs. Henry Bogert, of No. 454 Atlantic Avenue, Brooklyn, N. Y., writes to Messrs. PARKER & CO., of New York, proprietors of PARKER'S TONIC, that "she had been completely disabled from Rheumatism and pain in the back, and she was advised to take the TONIC for Kidney disease. She did so, and her Rheumatism disappeared. The reason is simple. Diseased Kidneys produce rheumatism symptoms. Cure them and you destroy Rheumatism. This is now admitted by all intelligent physicians. It is the new light thrown on their time-worn and mistaken theories. PARKER'S TONIC which is a combination of the best remedies for the blood known to science, is universally successful in combating this terribly common complaint. Those who, like Mrs. Bogert, suffer from Kidney or Liver disease, or any complaint arising from impure blood, will find the TONIC a prompt and certain remedy. Prices, 50c. and \$1 per bottle. The larger size the cheaper. June 11 m
