The Daily Review has the largest
 bona fide circulation, of any newspaper
 published in the city of Wilmington.

Lord Tennyson's son is to be married
 this month to a Miss Boyle. The cere-
 mony will be celebrated in Westminster
 Abbey.

Mr. Willoughby, one of the leading
 merchants of Chicago, has discovered
 that there are one thousand clothing
 stores in that city.

Mme. Modjeska, on the eve of em-
 barking for Europe on Saturday, told
 a reporter that she had made \$70,000
 during the past unexampled season.

A standard rose, said to have been
 planted by Charlemagne, is one of the
 curiosities of Hildesheim, Hanover.
 Its trunk is gnarled and rugged, and
 in some places is as thick as a man's
 body.

Mr. John L. Sullivan has arranged a
 week's slugging tournament, to open in
 New York city on the 30th, at which
 he hospitably invites all the fighting
 champions of the world to come and be
 knocked out.

Mrs. Frank, of Chicago, who recently
 fell heir to \$30,000, a sum unexpectedly
 bequeathed to her by the late Michael
 Reese, of San Francisco, has given the
 money to establish in the former city a
 home for Jewish orphans.

Blaine's name is composed of six let-
 ters. He was nominated on Friday,
 which is spelled with six letters, the
 sixth day of the week, the sixth day of
 the month and the sixth month of the
 year. Seven is the lucky number, so he
 comes within one of it.

Capt. George A. Perkins, of the
 United States navy, is said to be its
 wealthiest officer. He possesses,
 through his wife, a fortune of \$7,000,-
 000. Mrs. Perkins was a daughter of
 the late Wm. F. Weld, of Boston, the
 wealthiest man at the time of his death
 in New England.

The anti-Sabbatarian movement in
 London appears to be slowly making
 headway under the lead of judicious
 and conservative reformers. These
 men do not wish the observance of
 Sunday relaxed, but they insist that
 the public shall have access to rational
 and healthy amusements on that day.

There is a man in New York who
 claims that his wife is smarter than
 Fred Ward. She persuaded him to in-
 vest \$500, and it increased until there
 was \$10,500 to his credit. She then
 made him draw out \$10,000 to buy her
 a brown stone house. She now has her
 house and the original \$500 is the ex-
 act of his loss.

The London Economist for April sums
 up the investigation in respect to Indian
 wheat as follows: The area under
 wheat culture in India is about 20,000,-
 000 acres, and the yield between 5,500,-
 000 and 6,000,000 tons. The area of
 territory might be increased 6,000,000
 acres, yielding 1,250,000 tons.

From a recent Parliamentary report,
 showing the number of illiterate voters
 recorded at the British general election
 of 1880, it appears that in constituen-
 cies where there were contests, in Eng-
 land and Wales, there were 29,626 illit-
 erate voters recorded out of a total num-
 ber on the register of 2,148,622; and in
 Ireland 5,312 out of a total of 192,869.

It is stated by friends of Gen. Han-
 cock that that gentleman would like
 another nomination, and that he feels
 with a new Vice-President he can do
 better than he did four years ago. He
 does not want to run with English
 again. If nominated he promises to
 resign from the army while making his
 campaign.

"I read things that I wouldn't allow
 my children to read?" said Brown.
 "Of course I do. How should I know
 what to keep out of their hands if I
 didn't?" "Very true," remarked Fogg:
 "Your reading teaches you what to
 keep from your children, but how the
 deuce do you know what to recommend
 to them?"—Boston Transcript.

A number of human bodies in a good
 state of preservation, dressed in orna-
 mental costumes, and evidently belong-
 ing to a prehistoric race, have been
 found in a mound in Desha county,
 Arkansas. The apartment in which
 they lay was paved with stone, sup-
 ported by stone pillars and overlapped
 with huge wooden beams in perfect
 condition.

Now is the time to give Smith's Worm
 Oil.

THE DAILY REVIEW.

VOL. VIII. WILMINGTON, N. C., FRIDAY, JUNE 13, 1884. NO. 141

Michael Hoffman, who had his skull
 crushed by an elevator accident in New
 York, is doing well at St. Vincent's
 Hospital, and it is now believed will
 recover. Four square inches of the
 brain were exposed by the fractured
 pieces removed, and the thin membrane
 had to be sewed up, the first time such
 an operation was ever attempted.

The wife of Mr. Spurgeon, the fam-
 ous London preacher, furnishes an
 apt illustration of the work a feeble
 woman may do. She has long been an
 invalid, but by making photograph
 frames and by other means, she has es-
 tablished a "book fund," from which
 she supplies poor ministers of various
 denominations. Last year she thus
 gave away over 7,000 books, and in the
 past six years nearly 42,000.

The next President must get 201
 electoral votes. The "solid South"
 gives 153 and New York 36. The
 candidate who can carry the South
 and New York, therefore, has a route
 which, with the aid of Massachusetts or
 Indiana, gives him a majority. New
 Jersey and Connecticut with New
 York and the South would also make a
 majority. Hence, says the Washington
 Star, it requires some of that faith
 which can remove mountains and reset
 fractured arms to claim that Blaine
 can be elected without the help of New
 York. He can be, indeed, but he prob-
 ably won't be.

The steamer *Bladen*, after having
 been most thoroughly overhauled, re-
 fitted and in many respects improved,
 is now ready for work and will resume
 her trips to and from Fayetteville to-
 morrow.

Our thanks are due the commit-
 tee for an invitation to attend the
 celebration of the completion of the
 Cape Fear & Yadkin Valley Railroad
 to Greensboro, which is to take place
 in that city on the 19th inst.

Personal.

Mr. S. A. Haney, so long and favor-
 ably known as an officer of the signal
 service, has been assigned to duty here
 and returned to the city last night and
 at once entered upon his duties. He
 relieves Mr. J. M. McCann, who has
 been ordered to the signal office at
 Fort Macon, for which point he will
 leave to-morrow. All rejoice at Mr.
 Haney's return while all equally re-
 gret Mr. McCann's departure.

For the Cape Fear.

In the River and Harbor Bill which
 passed the House yesterday, the Cape
 Fear River and Bar are put down for
 but \$75,000. Col. Green made a noble
 but ineffectual effort to get this in-
 creased to \$150,000, as the following extracts
 from the proceedings on Wednesday
 will show:

The Clerk read as follows:
 Improving Cape Fear River below
 Wilmington, N. C.: Continuing im-
 provement, \$75,000.

Mr. Green—I move to strike out
 "seventy-five" in line 388, and insert
 "one hundred and fifty," so that it will
 read: "one hundred and fifty thousand
 dollars."

The estimate calls for an appropria-
 tion of \$300,000, which can be expended
 during the year ending June 30, 1885.
 We are cut down in this appropriation
 bill to one-fourth of the amount called
 for, which sum is totally inadequate
 for the work in hand.

This, Mr. Chairman, is not a work
 of State importance alone. It is one
 that partakes of the nature of a great
 national work. It is national in its
 importance. In 1851, according to the
 measurements of the Coast Survey, the
 depth of water on the bar at New Inlet
 was only from seven to eight feet. Un-
 der the judicious management of the
 engineers the work that has been done
 at that point has increased the depth to
 sixteen feet at ordinary tide and eighteen
 feet at high tide, and vessels drawing
 sixteen feet are now able to run up to
 Wilmington and load. We think it
 most important that Wilmington, which
 is one of the most prominent towns on
 the lower Atlantic coast, should be pro-
 tected in her rapidly increasing com-
 merce by securing the necessary per-
 manent depth of water for the free na-
 vigation of this stream.

The engineers estimate that with a
 small additional outlay this depth can
 be increased to twenty-two feet, and
 Wilmington will then afford the best
 harbor of refuge of any port of our
 Atlantic seaboard between Norfolk and
 New Orleans. It is most important that
 the work should be carried on in order
 to prevent damage resulting from de-
 lay to the work already in progress.

I have moved, therefore, to insert
 \$150,000 instead of the \$75,000 proposed
 by the committee.

I would say further in this connection
 that if this work is suspended it is cal-
 culated that considerable loss will arise
 from the delay on account of increased
 expenditures that must be made here-
 after by reason of injury that will re-
 sult to the present plan of work.

The engineers recommended that it
 shall be kept going all the time until
 completion in order to avoid wastage.
 Every argument tends to sustain my
 position in favor of this increase, and
 that liberal appropriations should be
 made. I hope, therefore, the committee
 will not reject the amendment I have
 proposed.

Mr. Chairman, the importance of
 this work cannot well be over-stated.
 Commercially, and as a harbor of re-
 fuge for vessels engaged in the dan-
 gerous coastwise trade of North Carolina,
 Wilmington is the most important
 seaport between Norfolk and New Or-
 leans, and if the forecast of engineers
 be not a dream the day is not far dis-
 tant when under liberal and judicious
 appropriations and wise expenditure a
 depth of water will be attained sufficient
 to float any vessel in the world, save
 one, from her wharves to ocean, and
 laden, too, to its utmost capacity with
 her rich and redundant staples of naval
 stores, cotton and lumber. Within the
 recollection of almost the youngest man
 on this floor, a good-sized fishing-smack
 or a coasting steamer would have made
 the trip in fear and trembling. From
 seven to eight feet of water on the bars
 in 1851, to seventeen or eighteen in
 1883, is a consummation incredible, or
 at least it would have been so in any
 other than this engineering, miracle-
 working age in which we live. It is
 impossible to grasp results without
 stopping to catch your breath. A mag-
 nificent dam a mile in length has been
 constructed to shut out old ocean, which
 was gradually destroying one of the
 finest tide-water streams in the world,
 and with results such as I have indi-
 cated.

But, Mr. Chairman, the result has
 only been half told. What would now
 otherwise have degenerated into a su-
 perannuated, effete fishing village, has
 under this well-advised expenditure of
 the Government grown into a vitalized,
 life-thriving commercial mart of over
 20,000 in population; the largest de-
 pth of naval stores in the world, and also
 developing into one of the most im-
 portant lumber and cotton ex-
 porting ports on the globe. Her export
 shipments, foreign and coastwise,
 exceeded last year twelve
 and a half million of dollars, and her re-
 turn trade by water carriage more than
 half as much. And this is but the be-
 ginning of the end. The day is not far
 distant, sir, when these figures as
 compared with subsequent develop-
 ments will be as what her trade thirty
 years ago was to what is to-day. This
 grand achievement has been brought
 about by a governmental expenditure
 of less than \$9,000,000, spreading over
 a lapse of years so great as to make the
 outlay unfelt.

If, Mr. Chairman, we are ever just-
 ified in expending one dollar in the
 manner called for by this bill, surely
 never was appropriation better voted
 or more honestly and judiciously ex-
 pended.
 Look at material results. Two
 millions as against two hundred mil-
 lions would not express it. And yet
 when the magnificent work approaches
 completion the committee cuts us down
 to a paltry \$75,000, which, under the
 circumstances, is less than one-half of
 what is imperatively demanded. I

therefore trust, Mr. Chairman, that the
 oversight of omission of the committee
 will be promptly rectified by the adop-
 tion of the amendment proposed.

Mr. Willis. I desire to say in a
 moment that there is no disposition to
 neglect the Cape Fear River. The
 committee recognize its importance.
 But upon examining the reports of the
 engineers it appeared that on the 1st
 day of July, 1883, there was \$168,392.-
 52 on hand, and it was thought, there-
 fore, that this additional amount of
 \$75,000 with the amount the Depart-
 ment had on hand would cover the
 probable expense for the coming fiscal
 year. This was especially apparent to
 the committee in view of the fact that
 of the appropriation of \$225,000 two
 years ago they had succeeded in ex-
 pending only \$119,000.

Mr. Green. What is the amount that
 the gentleman now understands to be
 on hand?

Mr. Willis. On the 1st of July some-
 thing over \$168,000.

The Chairman. The question is on
 agreeing to the amendment of the gen-
 tleman from North Carolina.

The amendment was not agreed to.

Concert To-Night.

The Cornet Concert Club will give
 an open-air concert at the City Hall
 Park, this evening, commencing at 6 30
 o'clock, and the public are respectfully
 invited to attend.

The programme will consist of an
 overture, waltzes, serenade, polonaise
 and conclude with a march.

A Curiosity.

John McKoy, colored, brought into
 our office a vegetable curiosity in the
 shape of a cabbage raised in his garden
 at Hilton. It was of the Jersey Wake,
 field variety and contained seven dis-
 tinct and separate heads upon a single
 stalk, besides three others that were
 beginning to form.

Progressive.

The march of improvement and in-
 tellectual progress has extended into
 Brooklyn, as a sign in that portion of
 the city, bearing the following legend,
 will show:

"Barber Shop
 Razors stropt.
 Hair Cutting
 Shampooing
 and letters writ in hear cheap for
 cash."

Everybody in want of Paints, White
 Lead, Glass &c. should go to JACOBI'S
 to get best qualities and lowest prices.

Call Extended.

At a meeting of the members of the
 Second Presbyterian Church, held last
 Wednesday night, an invitation was
 extended to Rev. Wm. S. Lacy, of
 Jonesboro, Moore county, to become
 its pastor. Mr. Lacy, who is Clerk of
 the Synod, preached in the Second
 Presbyterian Church on the first Sun-
 day in this month, and gave univers-
 al satisfaction to his audience, who show-
 ed their appreciation of his worth as a
 Christian minister by making the invita-
 tion to become the pastor the unani-
 mous voice of the Church. His salary,
 if he accepts, will be fixed at \$1,200 a
 year with house rent free. It is not yet
 known that he will accept, but the
 probabilities are favorable that he will.

Waddell at Laurinburg.

Hon. A. M. Waddell delivered the
 address yesterday at the Commence-
 ment Exercises of Laurinburg High
 School. He spoke without notes or
 manuscript and yet a gentleman who
 heard him tells us that it was one of
 the finest of his many fine efforts. The
 occasion, we understand, was a very
 pleasant one. There was a large at-
 tendance and Col. Waddell was introduced
 by Mr. Jno. D. Shaw, of Rockingham.
 One of the most interesting features
 of the occasion—one that was peculiarly
 interesting to those from this city who
 were in attendance, was the fact that one
 of the students, Mr. McCann, spoke
 Col. Waddell's address on Robert
 Emmett, and was awarded the prize
 medal.

A Nice Orchard.

Capt. William A. Cumming, of this
 city, has a tract of land containing 60
 acres, at Maultsby's Point, on the
 Black river, in Pender county, which
 is devoted exclusively to the cultivation
 of fruit. The orchard consists of apple,
 pear, plum and peach trees, and this
 year the apple and peach trees are
 bountifully laden with excellent fruit-
 age. The plum trees are young and
 just beginning to bear. Yesterday the
 steamer *John Dawson* brought down
 30 bushels of peaches, and she took up
 to-day a large number of empty crates,
 which will be filled and brought here
 to-morrow. The orchard is conveni-
 ently situated for shipping purposes as
 it is right at a landing on Black river,
 while a landing on the Cape Fear is
 only two miles distant. It is but 13
 miles from the city.

Harnett Township.

Pursuant to the call of the County
 Ex. Committee, the Democrats of Har-
 nett township met on the 13th inst.,
 at Macumber's store and appointed the
 following delegates to the County Con-
 vention, to be held on the 16th: R. H.
 McKoy, A. A. Moseley, W. F. Alex-
 ander, Geo. W. Harper and E. L.
 Pearce.

The following were elected Executive
 Committee: W. B. McKoy, A. A.
 Moseley, L. R. Mason, Jas. Macum-
 ber, and E. W. Manning.

A Happy Event.

On Wednesday evening, at St.
 James' Church, in this city, Mr. Her-
 bert R. Latimer was united in marriage
 to Miss Fanny, daughter of the late
 Adam Empie, both of this city. The
 church was filled to its utmost capacity
 by those who were present to witness
 the ceremony. On the arrival of the
 bridal party the bride and her maids-
 five in number, entered the front of the
 church and, advancing up the main
 aisle to the altar, were met there by the
 groom and his attendants. The cere-
 mony was performed in a very impres-
 sive manner by Rev. Daniel Morrelle.
 The ladies in the bridal party
 were all exquisitely dressed in white,
 the bride in white satin, with a long
 train, and the bridesmaids in white
 walking-dresses, and small white bon-
 nets.

At the close of the ceremony, the
 bridal party drove to the residence,
 where a reception was held, after which
 the happy couple left on the North-
 bound train for New York, from whence
 they will sail in a few days for a tour
 in Europe.

Eggs were retailing at 18 cents a
 dozen at some of the grocery stores to-
 day.

Another large consignment of Sash,
 Doors & Blinds at Factory prices, just
 received at JACOBI'S Hardware Depot.

DIED.

SCARBOROUGH—In Goldsboro, on the 12th
 inst., of consumption, ROBERT L. SCAR-
 BOROUGH, eldest son of John A. and Ann
 M. Scarborough, aged 22 years, 4 months and
 23 days.
 Dearest Robbie, thou has left us,
 We thy loss doth deeply feel;
 But 'tis God who hath be'lt us,
 He can all our sorrows heal.
 The funeral will take place from St. Thom-
 as' Catholic Church, Saturday morning, at 10
 o'clock. Friends and acquaintances of the
 family are invited to attend.

The Druggist.

Man's next best friend is the druggist,
 He mitigates life's ills,
 He sells no plaster for our backs,
 And our prescriptions fills.
 When we go moping 'round about
 With any kind of pain,
 He's quick to find a panacea
 That makes us well again.
 If there's no money in our purse,
 Thee's kindness in his heart,
 He'll wish compassion ease our pain.
 In peace let us depart.
 Such is the druggist you will meet,
 At least such I have met.
 You ask their name? Well, these are they,
