OSH. T. JAMES, Editor & Prop. WILMINGTON, N. C.

SATURDAY, JUNE 14, 1884.

Entered at the Postoffice at Wilmington, N. C., as second-class matter.

Following is the full text of Mr. Tilden's letter. It is the first time it has been published here complete. It is one of the clearest, soundest and most patriotic papers which has ever been submitted to the American people.

NEW YORK, June 10, 1884. In my letter of June 18, 1880, addressed to the delegates from the State of New York to the Democratic National Convention, I said:

Having now borne faithfully my full share of labor and care in the public service, and wearing the marks of its burdens, I desire nothing so much as an honorable discharge. I wish to lay down the honors and toils of even quasi party leadership, and to seek the repose of private life.

In renouncing renomination for the Presidency, I do so with no doubt in my mind as to the vote of the State of New York, or of the United States, but because I believe that it is a renunciation of re-election to the Presidency.

To those who think my renomination and re-election indispensable to an effectual vindication of the right of the people to elect their rulers—violated in my person—I have accorded as long a reserve of my decision as possible, but I cannot over overcome my repugnance to enter into a new engagement which involves four years of ceaseless toil.

The dignity of the Presidential office is above a merely personal ambition, but it creates in me no illusion. Its value is as a great power for good to the country. I said four years ago in accepting the nomination:

"Knowing as I do, therefore, from fresh experience, how great the difference is between gliding through an official routine and working out a reform of systems and policies, it is impossible for me to contemplate what needs to be done in the Federal Administration without an anxious sense of the difficulties of the undertaking. If summoned by the suffrages of my countrymen to attempt this work, I shall endeavor, with God's help, to be the efficient instrument of their will."

Such a work of renovation, after many years of misrule, such a reform of systems and policies, to which I would cheerfully have sacrificed all that remains to me of health and life, is now I fear beyond my strength.

My purpose to withdraw from further political service and the grounds of it were at that time well known to you and to others; and when, at Cincinnati, though respecting my wishes yourself, you communicated to me an appeal from many valued friends to relinquish that purpose, I reiterated my determination unconditionally.

In the four years which have since elapsed nothing has occurred to weaken, but everything to strengthen, the considerations which induced my withdrawal from public life. To all who have addressed me on the subject my intention has been frankly communicated. Several of my most confidential friends, under the sanction of their own names, have publicly stated my determination to be irrevocable. That I have occasion now to consider the question is an event for which I have no responsibility. The appeal made to me by the Democratic masses, with apparent unanimity, to serve them once more, is entitled to the most deferential consideration and would inspire a disposition to do anything desired of me if it were consistent with my judgment of duty.

I believe that there is no instrumentality in human society so potential in its influence upon mankind for good or evil as the governmental machinery for administering justice and for making and executing laws. Not all the eleemosynary institutions of private benevolence to which philanthropists may devote their lives are so fruitful in benefits as the rescue and preservation of this machinery from the perverts that make it the instrument of conspiracy, fraud and crime against the most sacred rights and interests of the people.

For fifty years, as a private citizen, never contemplating an official career, I have devoted at least as much thought and effort to the duty of influencing aright the action of the governmental institutions of my country as to all other objects. I have never accepted official service except for a brief period for a special purpose, and only when the occasion seemed to require from me that sacrifice of private preferences to the public welfare.

I undertook the State administration of New York because it was supposed that in that way only could the Executive power be arrayed on the side of the reforms to which, as a private citizen, I had given three years of my life.

I accepted the nomination for the Presidency in 1876 because of the general conviction that my candidacy would best present the issue of reform which the Democratic majority of the people desired to have worked on in the Federal Government as it had been in that of the State of New York. I believed that I had strength enough then to renovate the administration of the Government of the United States, and at the close of my term to hand over the great trust to a successor faithful to the same policy.

Though anxious to seek the repose of private life, I nevertheless acted upon the idea that every power is a trust, and involves a duty. In reply to the address of the committee communicating my nomination, I depicted the difficulties of the undertaking, and likened my feelings in engaging in it to those of a soldier entering battle, but I did not withhold the entire consecration of my powers to the public service.

Twenty years of continuous maladministration, under the demoralizing influence of intestine war and of bad finance, have infected the whole governmental system of the United States with the cancerous growths of false construction and corrupt practices. Powerful classes have acquired pecuni-

ary interests in official abuses, and the moral standards of the people have been impaired. To redress these evils is a work of great difficulty and labor, and cannot be accomplished without the most energetic and efficient personal action on the part of the Chief Executive of the Republic.

The canvass and administration which it is desired that I should undertake would embrace a period of nearly five years. Nor can I admit any illusion as to their burdens. Three years of experience in the endeavor to reform the municipal government of the city of New York and two years of experience in renovating the administration of the State of New York have made me familiar with the requirements of such a work.

At the present time, the considerations which induced my action in 1880 have become imperative. I ought not to assume a task which I have not the physical strength to carry through. To reform the administration of the Federal Government; to realize my own ideal and to fulfill the just expectations of the people would, indeed, warrant, as they could alone compensate, the sacrifices which the undertaking would involve. But, in my condition of advancing years and declining strength, I feel no assurance of my ability to accomplish those objects. I am, therefore, constrained to say, definitively, that I cannot now assume the labors of an administration or of a canvass.

Undervaluing no wise that best gift of Heaven—the occasion and the power sometimes bestowed upon a mere individual to communicate an impulse for good; grateful beyond all words to my fellow-countrymen who would assign such a beneficent function to me, I am consoled by the reflection that neither the Democratic party, nor the Republic for whose future that party is the best guarantee, is now, or ever can be, dependent upon any one man for their successful progress in the path of a noble destiny.

Having given to their welfare whatever of health and strength I possess, or could borrow from the future, and having reached the term of my capacity for such labors as their welfare now demands, I but submit to the will of God in deeming my public career forever closed.

A Splendid Remedy for Lung Diseases.

Dr. Robt. Newton, late President of the Electric College of the City of New York, and formerly of Cincinnati, Ohio, used DR. WM. HALL'S BAL-SAM very extensively in his practice, as many of his patients, now living, and who are now in the enjoyment of this invaluable medicine, can amply testify. He always said that so good a remedy ought not to be considered merely as a patent medicine, but that it ought to be prescribed freely every physician as a sovereign remedy in all cases of Lung Diseases. It is a sure cure for Consumption, and has no equal for all pectoral complaints.

PAST IMPOSSIBILITIES THE FACTS OF THE PRESENT—HELP IN THE NEW ERA.

"I remember when they were putting up the poles for the first telegraph line in the State of New York, and now look there!" exclaimed a citizen of the metropolis to his friend, as the two stood on the summit of the tall Equitable Building in Broadway. "The city is strung with wires like a harp, and electric communication is the daily miracle of the world. People no longer wonder and laugh at it as they did at Morse when he first suggested its possibility."

The age marches on and prejudice must give way. Nobody has a monopoly of truth. Even the conservative guild of physicians admit that the secrets of medicine are shared by all men. "I dressed his wound and God healed him," said old Galen. Once that terrible disease, Rheumatism, was supposed to be a shifting, local ailment, now attacking the joints and now the muscles. To-day it is demonstrated to be a disease of the BLOOD.

Mrs. Henry Bogert, of No. 454 Atlantic Avenue, Brooklyn, N. Y., writes to Messrs. PARKER & Co. of New York, proprietors of PARKER'S TONIC, "she had been completely disabled from Rheumatism and pain in the back and limbs. She was advised to take the Tonic for Kidney disease. She did so, and her Rheumatism disappeared. The reason is simple. Diseased Kidneys produce rheumatic symptoms. Cure them and you destroy Rheumatism. This is now admitted by all intelligent physicians. It is the new light thrown on their time-worn and mistaken theories."

PARKER'S TONIC which is a combination of the best remedies for the blood known to science, is universally successful in combating this terribly common complaint. Those who, like Mrs. Bogert, suffer from Kidney or Liver diseases or any complaint arising from impure blood, will find the Tonic a prompt and certain remedy. Prices, 50c and \$1 per bottle. The larger size the cheaper. June 11 lm nrm&d&w
