SENATE.

WASHINGTON, June 18.-In the Senate, after the reading of the journal, which contained an allusion to the Fitz John Porter bill, the Chair stated that Grand Concert. Messrs. Scoville & Co. have extend an invitation to the Cornet no further action on that bill was ne-cessary than to have the action of the House announced to the Senate. After further remarks as to the parliamentary status of the bill, the Chair laid before the Senate a message of the House of Representatives, announcing the concurrence of that body in the report of the Conference committee, which recommended that the House recede from its disagreement to the amondment of the Senate, and agree to the same. This action takes the bill back to the House as finally passed, so far as the action of Congress is concerned. The Senate passed a number of priv-

ate pension bills, and consideration of the Utah bill was then resumed.

Various amendments were proposed and debated and some of which were adopted and some rejected.

All the amendments being disposed. of the bill was read a third time and passed by a vote of 33 yeas to 15 pays. HOUSE OF REPRESENTATIVES

A further conference was ordered on the Post Office Appropriation bill .-Messrs Townshend, Holman and Horr were appointed on the part of the House. The House proceeded to the consideration of the Pacific Railroad bill, knowu as the Thurman amendment bill.

The bill extends the provisions of the Thurman act to the Kansas Pacific Co., the Sioux City & Pacific Co. and to the Central branch of the Union Pacific Co.

In the course of the debate, Mr. Cassiday, of Nevada, opposing the majority bill and advocating the minority bill, said that he had before him the statement of the government experts who had just been examining the books of the Union Pacific Co., at Boston, and that the statement showed there was a falling off in the net earnings of that company of \$1,983,000 for the five months ending May 31, 1884, as compared with 1883; that the revenue and expenses of the entire system during the same period showed a deficit of \$729,000; that the company, in order to pay its July dividend, would have to borrow or draw from other sources \$1,400,000; that the debt of the company on March 31, 1884. (including the capital stock,) was \$223,975,000, and that its floating debt (included in the grand total) was \$11,400,000. The Central Pacific Co, had complied strictly with the letter of the law; had paid every dollar required under the Thurman act, and to-day was not a dollar in arrears to the government. It had, besides, a sinking fund of its own, in Daily Mails. Telegraphic Communication. Finest Fishing on Atlantic Coast which it had some \$6,000,000, and with which it would discharge its first mortgage bonds, so that corporation came to this Congress with clean hands. There was no evidence that it sought to wreck its property and un oad it on the government. He argued that it would be wise to deal conservatively with these companies, and that the passage of the majority bill would have the effect of increasing the local freight and

HALL'S VEGETABLE Hair Renewer.

1 col cart

Seldom does a popular remedy win such a strong hold upon the public confidence as has HALL'S HAIR RENEWER. The cases in which it has accomplished a complete restoration of rolor to the hair, and vigorous health to the scalp, are innumerable.

Old people like it for its wonderful power to restore to their whitening locks their original color and beauty. Middle-aged people like it because it prevents them from getting bald, keeps dandruff away, and makes the hair grow thick and strong. Young ladies like it as a dressing because it gives the hair a beautiful glossy lustre, and enables them to dress it in whatever form they wish. Thus it is the favorite of all, and it has become so simply because it disappoints no one.
