There is a general alarm regarding the water supply of New York City, and strict economy in the use of the indispensable fluid is urged in all directions.

P. T. Barnum, it is now learned, is the hitherto unknown founder of the Museum of Natural History at Tufts College, Medford, Mass.

The chief attraction of Winchester, Va., is the double cemetery in its suburbs. On one side of a stone wall are buried over 7,000 Union dead, while over 3,000 Confederate soldiers lie on the other.

Victoria Woodhull is living in grand style in London as the wife of Mr. Martin, the banker. She and her sister, Tennie Cladio, turn up their noses at New Yorkers as they roll by them in their gorgeous carriage.

Fifty thousand dollars, with \$3,000 accumulated interest, the legacy of the late Charles A. Reed, of Newton, Mass., to the United States, towards the payment of the public debt, has just been paid in at the Boston sub-treasury.

The German Government has just paid 100,000 florins for the secret of a new torpedo boat, which an Austrian naval officer had invented.

Some of the English women who have received a university education have formed themselves into an association in London for providing higher instruction in schools and families.

Two tramps—one white and one colored—were lodged at the guard house last night.

Thirteen carloads of watermelons passed through the city this morning en route for the Northern markets.

This has been the last day for listing taxes and there has been quite a rush to keep from being placed on the delinquent list.

The rains with which we have been visited within the last few days have been quite general throughout this section of the State.

The Fayetteville Observer of Thers Jay's date arrived here yesterday morning, safe and sound, having been only three days in transit.

Take good care of yourself now. This is dangerous weather and during its continuance the system is peculiarly susceptible to miasmatic influences.

There has been certainly a sufficiency of rain, thus far, but not enough perhaps to do any serious damage, other than dragging the grass out to the top of the ground and causing lots of hard work to get rid of it.

A Big Potato! We were shown to-day a bunch of potatoes, 10 in number, which were all attached to each other, well formed and of good size; the whole making quite a mammoth "tater."

The benefit on the life of the late R. W. Chadwick, who was a member of Cornelius Harnett Council No. 231, Royal Arcanum, was paid to-day, the amount being \$3,000.

There was a gathering at about 9 o'clock last night at the corner of Chestnut and Seventh streets, of quite a number of young men who were guilty of using rude, boisterous and profane language, much to the annoyance of ladies and gentlemen who were walking in that locality.

A little eight-year-old son of Smith Green, colored, was drowned near the Wilmington and Weldon freight depot at 4 o'clock yesterday afternoon.

The bag of corn which was purchased by Mr. W. M. Cumming from the lot set here from Baltimore by Mr. James A. Willard, and sold for the benefit of the Confederate Home at Richmond, and which was by Mr. C. sent to Fayetteville to be resold there on the same account, was put up at auction in that town on Wednesday and sold seven times, the aggregate amount reaching \$50.

We noticed in the window of Mr. C. W. Yates' book store to-day some beautiful specimens of grapes and apples which were raised this year by Capt. S. W. Nobles, on his place in the suburbs of the city.

Mr. E. G. Polley, of this city, left here this morning for a visit to New York and other Northern points. He will be absent several weeks.

Mr. J. E. Morris, of this city, has gone on a month's visit to Meridian, Miss where his wife now is.
