special at the Postoffice at Wilmington, N. C. 25 second-class matter

Lord Wolseley takes command of the expeditionary force which starts for Khartoum in the first week of August. His old lieutenants, Sir Redyers Buller and Sir Herbert Steward, accompany him, the former as second in command. Col. Steward will not be associated with the Soudan, as the cavalry will be under the command of Sir Drury Lowe. He will be adjutant and quarter-master general. At the Service Clubs in London they are anxiously looking out for the official "tip," as in the Tel el Kebir affair, of the number of days and hours which will suffice to crush the Mahdi and restore Gordon to his countrymen.

Anything that tends to promote in ternational fraternal relations is to be encouraged, and hence the movement that is now aloot for a grand re-union in St. Louis of the Mexican and American veterans of the war of 1846-7 is one that will, no doubt, commend itself to public approbation. There are many of those veterans in this part of the country who will gladly respond to the invitation; and the feeling in Mexico in favor of it is said to be not less cordial, The last number of the Mexican Financier, relating to the proposition, says: "We can imagine no better way of destroying the unpleasant reminiscences of the armed contests of the past than by the fraternization of the active participants therein. If the patriots who risked their lives in upholding the dignity and honor of their respective countries consign to oblivion those antagonistic feelings which a war necessarily engenders, then designing politicians, whose personal interests would be advanced by the disbursements and disorders which necessarily would have but little opportunity in the future to ply their trade."

Gen. Hancock is locming up grandly into view as a presidential probability and it may be that the same man who headed the ticket in 1880 will head it in 1884. The Herald, under the caption, "The Great Fraud of 1880" has this to

The "great fraud" of 1876 having been condoned by those most interested there remains to be atoned for the possibly greater fraud of 1880, in which John Kelly and the entire Tammany camp-sachems, braves, squaws and pappooses-were involved. It is at the present juncture, when the air is full of rumors of a similar design in 1884 on the part of the actors in the great fraud of 1880. And as the name of General Hancock has now been brought forward by his friends as that of an available candidate for the democratic A Delicate and Wholesome nomination at Chicago it is proper to revert to the conditions which defeated him four years ago. No other democratic candidate for the Presidency ever passed through the fiery furnace of a campaign and came out of it so completely unscathed as General Hancock. Not an aspersion was ever cast upon his character, not an inquiry into his private or public life was ever suggested. No one was found willpolitical contest, to cast the least reflection upon any of the acts of the brave and successful soldier, the dignified gentleman, the law abiding military governor, who, in his general order, (No. 40) assuming command of the Fifth Military district, subordinated the military to the civil power in time of peace. General Hancock, therefore, was most favorably situated at the time of the Presidential election in November. It is relating ancient history now to state that in his detent was perpetrated by cannot say "the shad has risen." Al-It is relating ancient history now to state and sale the State of New York was has roes." turned over to the Republicans and General Garfield elected. While the Democratic party is "going a-gunning" for candidates it is just as well to remember that its hands are now freed by the declination of Mr. Tilden and that the fraudulent defeat of 1880 has yet to be atoned for.

In taking Representative McAdoo, of cordeon plaits." New Jersey, to task, says the New York Herald, the friends of Senator Logan in the House, in the vernacular with which the Republican candidate for the Vice Presidency is not unfamiliar, evidently "bit off more than they can chaw."

In the Record appeared a speech by the Jersey Representative which was not delivered in Congress, but was "printed by leave." In the speech was a list, reproduced from a newspaper, of "land grabbers," among whom the name of Mr. John A. Logan appears as the holder of eighty thousand acres of the public lands. Certain champions of that candidate hastened to deny the truth of this statement, and in doing so charged McAdoo with an abuse of the "leave to print," and even intimated that he had taken advantage of the privilege to get into the Record statements which he "had not the courage to make on the floor."

Mr. McAdoo thereupon declared that he had "nothing to retract," in effect reiterated the charge about the eighty thousand acres, and made the point

by the now "surersensitive Senator" or his friends. But the gentleman from New Jersey, did not rest on the defensive. He assumed the aggressive with vigor. He indignantly repelled the insinuation of cowardice and proceeded to give a practical test of his courage in the following manner:-

I might have asked the deluded sollers what they thought of a great Senator who, in his greed to absorb the territory which belonged to the actual settlers in a land which was made for ed its pos-ibility." independent freeholders and small farmers, went, under the cover of his son-in-law, to New Mexico and tried to pre-empt most valuable land, and who was only estopped by the public surveyor, who found that it belonged to another class he professed the greatest friendship for-a rumor even had it that he had Indian blood in his veins. I might have said that he was trying to steal from his own kith and kin hun-Ireds and thousands of acres, and was taking them from the unfortunate savages, who were unable to protect themselves, until an honest Secretary of the Interior had directed the surveyor to take back the lands for the Zunis.

It will be noticed that the speaker did not actually say these ugly things, but simply declared that he might have said them. Nevertheless, his remarks relate to a matter of current notoriety and in effect amount to a significant attack which cannot now go unnoticed by those who were so ready to rush to the defence of their candidate against a less serious charge. A good deal of light will doubtless be thrown on the matter if the Secretary of the Interior complies with the resolution adopted by the House the other day, calling for 'copies of all reports, correspondence and papers relating to the alleged claims of any person to lands of the Zuni Indian reservation in New Mexico and Arizona."

"I remember when they were putting up the poles for the first telegraph line in the State of New-York, and now look there!" exclaimed a citizen of the metropolis to his friend, as the two stood on the summit of the tall Equitable Building in Broadway. "The city is strung with wires like a harp, and elec tric communication is the daily miracle of the world. People no longer wonder and laugh at it as they did at Morse when he first suggest-

Mrs. Henry Bogert, of No 454 Atlan'is Ave nue, Brooklyn, N. Y, writes to Messrs. His COX & Co., of New York, proprietors of PAR-KER'S TONIC, that "she had been completely disabled from Rheumatism and pain in the back and limbs. She was advised to take the TONIC for Kidney disease. She did so, and her Rheumatism disappeared. The reason is simple. Diseased Kidneys produce rheumatic symptoms. Cure them and you destroy Rheumatism. This is now admitted by all intelligent physicians. It is the new light thrown on their time-worn and mistaken theories.

PARKER'S TONIC which is a combination of the best remedles for the blood known to science, is universally successful in combating this terribly common complaint.
