William L. Saunders. If there is a man in North Carolina of whom more than all others it may truthfully be said that his whole life has been spent in loyal service to her,

He was born in Raleigh on July 30, 1835, received his academic education there, and in 1850 entered the University of North Carolina. He graduated the administration as the head of the close of a long prayer. "Say amen," in 1854, and studied law under Judge W. H. Battle, received his County Wathington as a witness before the Court license in 1856 and the Superior Court in 1857. The same year he removed to Salisbury, where he remained until the outbreak of the civil war. involved any statement concerning the Volunteering as a private, among the wonderful and mysterious curative power is very first he joined the Rowan Guards, remotely, he declined to answer. Nor was it the University alone and the cause of higher education that excited his sympathy and aroused his zeal and devotion. As soon as a change was effected in the State Constitution, whereby mixed schools of whites and blacks became no longer possible, the Observer boldly and persistently advocated the cause of education in the public schools of the State and insisted that the Legislature should at once perfect the system, and to that end should provide adequate means to pay by all, with what zeal and devotion it lent itself to the establishment of the Normal School system, its columns day of school how she likes her teacher, day after day teeming with articles of replied: "I don't like her; she is just every sort, editorial and otherwise, as saucy to me as my mother." calculated to stir up the interest of the teachers of the State in the matter. Perhaps the character of Col. Saunders has never been more clearly shown than in his appearance before the Ku Klux Committee in September, 1871, It is hard for us now to realize the terrorism of those dark days. A hostile Congress and President, the machinery of the Executive and Judicial depart. ments in the hands of partisan Republicans, the conviction of good men by packed juries of frequent (courrence, the insecurity of life and property-all seem like a horrid dream. Colonel Saunders wrs reported by the spies of Ku-Klux, and was summoned to committee. After some delay he appeared before them, alone, but undaunted.
