## By the Light of Day. PAST IMPOSSIBILITIES THE FACTS OF THE PRESENT-HELP IN THE NEW ERA.

"I remember when they were putting up the poles for the first telegraph line in the State of New York, and now look there !" ex claimed a citizen of the metropolis to his friend, as the two stood on the summit of the tall Equitable Building in Broadway. "The city is strung with wires like a harp, and elec tric communication is the daily miracle of the world. People no longer wonder and laugh at It as they did at Morse when he first suggested its possibility."

The age marches on and prejudice must give way. Nobody has a monopoly of truth. Even the conservative guild of physicians admit that the that the secrets of medicice are shared by all men. 'I dressed his wound and God healed him," said old Galen. Once that terrible dis and now the muscles. To day it is demonstra ted to be a disease of the BLOOD.

Mrs. Henry Bogert, of No. 454 Atlantic Ave "ue, Brooklyn, N. Y., writes to Messrs. His COX & Co., of New York, proprietors of PAR-KER'S TONIC, that "she had been completely disabled from Rheumatism and pain in the back and limbs. She was advised to take the simple. Disessed Kidneys

cases.

Mr. Leo Ehrlich, former secretary of the Humane Society, says the St. Louis Republican, has invented a device which will cause all the deaf people in the land to rise up and call him blessed It consists of a contrivance which can be located in the handle of a cane, umbrella, parasol or fan, and which when placed to the ear of a deat person will cause him or her to hear any sound audible to the ear of any person who is not afflicted with deafness. Mr. Ehrlich yesterday exhibited to a Republican reporter a cane with a silver head representing the head of a bird. The bill was placed in the reportorial ear and a sound similar to the roaring of a sea shell was heard, while when the re-

porter spoke his voice appeared to be a deep bass. The device which produced these effects was a tube about six inches long placed in the hollow of a Malacca cane. In the tube was a coneshaped electric coil beginning at a small battery at the lower end of the tube and terminating in the bird's bill. The vibration of this coil caused a multipliease, Rheumatism, was supposed to be a shift-ing, local aliment, now attacking the joints the tube through several slits in the side of the cane. The cane and tube together weighed about six ounces, and the whole outfit looked like an ordinary Malacca walking stick with a silver

head.

right to burden its people with taxes beyond the amount required to pay its necessary expenses and gradually extinguish its public debt. And that whenever the revenues, however derived, exceed this amount, they should be reduced so as to avoid a surplus in the treasury. We therefore urge upon our Senators and Representatives in Congress to exert themselves in favor of such legislation as will secure this

Resolved, That with respect to the tariff we reaffirm the life-long and fundamental principles of the party declared in the National Democratic platforms and that the details of the method by which the constitutional revenue tariff shall be gradually reached, are subjects which the party's representatives at the Federal capitol must be trusted to adjust; but in our opinion the duties on foreign importation should be levied for the production of public revenue, and the discriminations in its adjustment should be such as would place the highest rates on luxuries and the lowest on the necessaries of life, distribute as equally as possible the burdens of taxation and confer the greatest good to the greatest number of the American people.

Resolved, That the course of the Democratie party in furtherance of popular education, by efficient public schools in all sections, and the establishment of graded and normal schools in the larger towns and accessible centers, is a sufficient guarantee that we favor the education of all classes of our people and we will promote and improve the present educational advantages so far as it can be done without burdening the people by excessive taxation.

AND WHEREAS, There is now more than a hundred millions of dollars in the treasury of the United States. wrung from the pockets of the people by unjust taxation on the part of the

Republican party, therefore, Resolved, That we will accept such distribution of said surplus revenues of the government for educational purposes as may be made by the Congress of the United States; provided always, has the same shall be disbursed by State agents and not accompanied by objectionable features and embarrassing conditions.

Resolved, That it is due to the white people of our eastern counties, who have so cheerfully borne their share of our common burdens, that the present, or some other equally effective system of county government, shall be maintained.

Resolved, That in view of the existing and increasing harmony and kindly feeling between the two races in this State and a similar condition of things which we believe to exist generally in other Southern States, we deprecate JACKSON & BELL!!! the attempt of the Republican party in its recent platform at Chicago to force THREE TICKETS for the PEOPLE
