Philip Cheetam, who died recently at Stockport in England, is believed to have been the oldest living Freeman. He was in his 97th year and was initiated on October 3, 1811.

There will be a gathering of the Democracy of Pender county at Rocky Point to-morrow at which Messrs. Thomas W. Strange, of this city, and J. T. Baird of Burgaw, will make speeches.

A German stock company, with a capital of about \$400,000, will shortly locate on the Rio Grand River near Chamberino. They come from Uvalde County, and are engaged in the Angora goat business.

A cave has been discovered at Bustamante in Mexico which is likely to surpass the Mammoth Cave of Kentucky. It has been explored for a distance of nearly four miles, and bears traces of Aztec ruins.

The Prince of Battenburg was excluded from the table of his wife at St Petersburg a few days ago because he is not of royal birth, as the Marquis of Lorne was turned, a few years ago, out of the royal supper-room in Buckingham Palace.

Mr. Southey, a son of the late poet-laureate, gets a pension of £100 a year and Matthew Arnold is also a beneficiary of the fund at the disposal of the British Crown for impecunious literary men. Mr. Arnold already has a salary as an Inspector of Schools.

Senator Bayard is a conspicuous figure this summer at Rehoboth Beach, Delaware. He is seen daily in the surf, where his daring feats of swimming attract universal attention. A rather "natty" bathing suit, as a correspondent describes it, distinguishes the Senator from the rest of the bathers.

President Arthur, at the expiration of his term, will go back to New York and resume his place in his former law firm, but act as consulting counsel. Mr. Arthur is worth about \$250,000—a fortune that has come to him in a legitimate way, and he never speculates.

A French physician has discovered a new disease called "atremia." The most pronounced symptom of the disease, he says, is an unconquerable aversion to getting out of bed in the morning. The French physician must be joking. That disease, if disease it be, is as old as the hills in this country.

The earthquake which created such consternation along the Atlantic coast Sunday, though a very unusual visitation for the section, was not the first of the kind. In November, 1755, there was a shock in Massachusetts which overthrew walls and chimneys. The rocking of the earth was very marked, and was accompanied by a roaring noise. The waters were convulsed with such force as to kill fish. In 1870, in the Eastern and Middle States, a very distinct shock was felt.

Gymnasts and athletes, such as Mr. J. D. Kingsley, Holy Cross College Gymnasium, Worcester, Mass., and John Rolle, champion bicyclist of England and Australia, pronounce St Jacobs Oil superior to any other remedy, for sprains, pains and aches.

There was no City Court this morning.

The cool nights and mornings still continue.

Now is the time to begin to lookout for cyclones and other atmospheric disturbances.

Apples and pears are quite plentiful in our market, but good peaches are scarce and high.

Everybody in want of Paints, White Lead, Glass &c., should go to JACOBI'S.

It has been rather cool weather for excursions for the past week, in consequence of which they have not been remarkably well attended.

There was music, so-called, in the air last night. Guy Wright's band did escort duty for some Society in the vicinity of Chestnut and Seventh streets.

We invite the attention of our citizens to the fact that first quality shirts are being made to order at one dollar at the Wilmington Shirt Factory.

Fulllest assortment of Fishing Tackle can be found at JACOBI'S.

Steamboatmen report that the river is falling off rapidly, although there is yet enough for good boating water.

The Republican Congressional Convention was to have met at Rockingham yesterday but failed to do so, for reasons not yet ascertained.

The Point Caswell colored excursionists who arrived here last night on the John Dawson left to-day on the same boat, having had a pleasant time in the city.

Rev. G. S. Best has been conducting an interesting revival of religion during the week at the Baptist church at Masonboro, of which he is the pastor. On Wednesday morning he baptized and admitted to the church five persons and this morning he baptized and admitted six more. Services are held twice a day and the interest continues unabated.

New Postoffices.

A note from a subscriber tells us that a mail route has been established from Teachey's to Chinquepin, Lyman, Laurier's, Humphrey and Sloan. These are five new offices just established in the Eastern part of Duplin. Our correspondent adds that the political cauldron is boiling in Duplin just now and that "the old ticket appears to be in the lead, notwithstanding our Treasury is empty."

Personal.

We regret to learn that Mr. S. P. Cowan is quite sick at Wrightsville. Col. J. B. Starr and family, of Fayetteville, are at Seaside Park Hotel. Mr. Joe H. Hart has taken the management of the Seaside Park Hotel, at Wrightsville.

Our esteemed friend and fellow laborer in the field reportorial, Mr. Joel H. Muse, of the Star, is lonesome and consequently dejected. His amiable wife left here on Wednesday for a visit to her son at Hamlet, and Bro. Muse will not be a-mused nor comforted.

Wilmington and Newbern Firemen.

The Wilmington Steam Fire Engine Co., No. 1, have sent to the firemen of Newbern an appreciative and graceful letter in acknowledgment of the courtesies received while on a visit to that city a couple of months ago. The letter was printed, and copies enough were stricken off to give one to each of the Newbern firemen and to the principal city officials. It is as follows:

WILMINGTON, N. C., July 1st, 1884.
To the Firemen and Citizens of Newbern:

Descended from the same line of ancestors, standing shoulder to shoulder through all the troublous times that beset the early colonists, bound closer by their common struggles in the great American Revolution, and thus inheriting a community of feeling, as well as possessing a community of interest, which has kept their ideas and desires well soldered during the unprececeded trials of later days, which this present generation is just bravely surmounting, no Wilmingtonian could feel in visiting Newbern that he was among strangers. And so the members of this Fire Company, just returned from an ever to be remembered trip to the "City of Elms," having experience of a hospitality, the fame of which is coeval with the existence of that beautiful town, feel that the kindnesses of which they have been the delighted recipients were simply the overflow of a great hearted and generous people.

To say that the trip was a continued series of pleasures, the memory of which will long be treasured among our happiest recollections, is to express but little of what we feel, and yet we believe that our fellow-firemen of Newbern, in the generosity of their hearts, will be fully repaid for their exertions by the knowledge that their labors, intended for our enjoyment, were not in vain.

That we returned victors from a friendly contest of emulation is of course a source of gratification, enhanced by the knowledge that the victory was hardly won, and only dampened by the fact that our success was the defeat of such brave and generous competitors.

Though the quick "Manning" of our engine helped us to a fortunate result on this occasion, we are not so sure that when the Newbern firemen visit us next year, the laurels plucked upon the Nense will not wither in our grasp on the Cape Fear.

To the ladies of Newbern, what can we say? Except for making trouble at home much could be said, but as it is, a world of tribute is contained in our prudent silence. The fair of Newbern inspired the great Gaston to write: "And her daughters the Queen of the forest resembling, So graceful and constant, yet to gentlest breath trembling; And true lightwood at heart, let the match be applied them, How they kindle in flame! Oh! none know but who've tried them." And the stock has not died out.

The Druggists.

We glean from the Charlotte Observer the following report of the meeting of the druggists of this State in that city on Wednesday:

The 5th annual meeting of the North Carolina Pharmaceutical Association convened in this city yesterday morning, there being quite a full representation. The meeting was called to order at 10 o'clock a. m., in the rooms of the Chamber of Commerce, with Mr. W. H. Green, the president, presiding, and Mr. J. C. Munds at the Secretary's table. Before proceeding to business, a prayer was offered by Rev. J. T. Bagwell, after which the president announced the meeting formally opened. Col. H. C. Jones then took the floor and in a speech of a few minutes in length, gave the visiting druggists a cordial welcome to the city. The address of welcome was happily responded to by E. N. Nadal, of Wilson. The roll was then called and the following members responded to their names: T. R. Abernathy, R. T. Beck, T. C. Crawford, J. D. Croom, J. S. M. Davidson, H. L. Pentress, J. C. Gidney, R. G. Glenn, J. C. Goodman, Wm. H. Green, A. L. Grimes, F. W. Hancock, John H. Hardin, E. R. Hart, F. H. Heart, Thos. B. Hill, W. R. Horne, F. P. Hunter, A. S. Lee, P. P. Lorbacher, Geo. A. Lowe, T. H. Mayo, Jas. C. Munds, E. M. Nadal, W. C. Porter, O. M. Royster, A. W. Rowland, B. E. Sedberry, W. L. Sherrill, B. T. Simmons, Wm. Simpson, J. B. Smith, S. O. Smith, T. C. Smith, Logan Stinson, V. O. Thompson, N. R. Tunstall, P. W. Vaughan, L. R. Wriston, E. V. Zoeller.

The following new members were then received and their names duly enrolled: R. H. Adams, of Gastonia; Owen Davis, Henderson, and G. W. Warren, Wilson; Theodore F. Klutz, Salisbury; W. H. King, Oxford; F. M. Matthews, Reidsville; Walter S. Turner, Monroe; W. R. Burwell, R. H. Jordan, J. H. McAden, Thos. Reese, Wm. Wilson, Wm. H. Wearn, Charlotte.

President Green then read his report which was referred to the proper committee.

On motion, an invitation was extended to the medical profession and the press of Charlotte to be present and attend the proceedings of the association, and Mr. J. R. Wriston, the local secretary, was instructed to serve the invitation.

The reports of the treasurer and secretary were read and referred to committee, after which the convention adjourned to 3 p. m.

AFTERNOON SESSION.

The afternoon session was mainly devoted to the hearing of reports and the reading of essays in reply to queries formulated at the last annual meeting of the body. There was a full representation of members present to hear the reports and the essays. The auditing committee was the first to make a report, which was received and ordered to be spread on the minutes. The following reports were then read and received: Report of the delegates to the last meeting of the American Pharmaceutical Association; report of the executive committee; report of the committee on the president's address.

The presentation of replies to queries then being in order, Dr. Zoeller read a reply to query No. 2, being an examination of commercial pepsines. His reply was received and ordered spread on the minutes. Replies were then read as follows, all of which were accepted: Dr. W. H. Green, reply to query No. 6; E. M. Nadal, reply to query No. 7; W. Simpson, reply to query No. 13.

The efforts of the gentlemen were each highly complimented and their reading was listened to with much interest by the druggists. The questions under discussion were of peculiar interest to the pharmacists and the papers read served to throw considerable light upon the subjects. After the reading of the replies the association adjourned to 10 o'clock this morning.

After adjournment, the visiting druggists were taken in charge by the Charlotte pharmacists and escorted about the city. Carriages were pressed into service and the druggists spent a pleasant afternoon in visiting the various points of interest about the city.

After the labors of to-day's session, the members of the association will be regaled with a banquet to be spread in the Central Hotel dining room, given by the Charlotte druggists. The doors will be thrown open for the banquet at 9:30 p. m., and covers will be laid for a large number of invited guests, in addition to the visiting druggists.

Our visitors have captured our people by their general good looks, genial dispositions and polished manners. The association certainly embraces a fine body of men and our city is proud to welcome them as her guests.

Every Farmer ought to get a "Boys Clipper Plow," greatest invention of the age. JACOBI is the Agent.

Sidewalks.

A good and substantial sidewalk of plank is being laid on the East side of South Water street, between Dock and Ans. It has long been needed and much complaint has been made by those whose business calls them to that locality, and we are glad to see this necessary improvement in progress. The walk is nearly five feet wide and when completed will be of great convenience to pedestrians in that section of the city.

Another large consignment of Sash, Doors & Blinds at Factory prices, just received at JACOBI'S Hardware Depot.

False Alarm.

There was an alarm of fire at about half past two o'clock this afternoon. The alarm was sent from Seventh and Ann streets, but it proved happily to be false and the excitement soon subsided.

Criminal Court.

This tribunal adjourned at noon today. In the case of J. C. Hill, charged with embezzlement, in which the jury rendered a verdict of guilt, motion was made for mistrial, which was overruled. A motion in arrest of judgment was granted.

State vs. Emanuel Silva, charged with misdemeanor. Not guilty.

State vs. Moses Evans, charged with larceny. Guilty and sentenced to two years in the penitentiary.

During the session of the grand jury 22 true bills were found.

Joseph Jones, Isaac Davis, Moses Evans and John Smith, alias W. H. Wortham, were found guilty of larceny and sentenced to two years each in the penitentiary.

Augustus Reese was found guilty of assault and battery and sentenced to 30 days in the County House of Correction.

Thess constituta all who were ordered to be punished by imprisonment.

Lippincott's.

Lippincott's Magazine for September is readable and entertaining throughout. There are two sketches of travel suitable to the season—"A Summer Trip to Alaska," and "Gossip from the English Lakes." The second instalment of John Coleman's "Personal Reminiscences of Charles Reade" is longer than the first, and gives a large number of interesting details in regard to Reade's career as a dramatist, while conveying a lively notion of his peculiar character.

"The American of the Future," by Edward C. Bruce, is a thoughtful study. An article on "Delacroix and Shakespeare," shows how the greatest of French painters drew constant inspiration from the works of the English dramatist. "Bohemian Antipodes," is an amusing account of two contrasted social gatherings in Paris.

Three chapters of Miss Tucker's new serial, "Aurora," are given in this number, with a beautiful frontispiece by an Italian artist, Adriana Bonifazi. "A Weekly in Killarney," by the "Datchess," is also continued, and there are short stories by Celia P. Woolley and Charles Dunning, poems by Helen Gray Cone and James Lane Allen, and the usual variety of good things in the departments.

The receipts of cotton at this port today foot up 25 bales.

Mr. J. C. Munds, who has been absent in attendance upon the Pharmaceutical Convention, at Charlotte, for the last few days, has returned to the city.

The wind has been steady from one point, a little North of East, during the past twenty-four hours, and the warm wave has not dawned upon us yet.

Ger. brig. I. M. Buuck, Hardrat, cleared to-day for Hamburg with 850 cases spirits turpentine and 303 barrels rosin, valued at \$12,407.74, shipped by Messrs. E. G. Barker & Co.

It is now definitely determined upon that the excursion to be given by the Ladies of the Memorial Association, on the Passport, in behalf of the North Carolina Confederate Home, will take place on Thursday next.
